LIFE IN THE COUNTRY.

A very interesting and useful volume has been published in New York, by Thatcher & Hutchinson, entitled Symbols of the Capital; or Civilization in New York, by A. D. Mayo.

The book contains one chapter on The Hudson, or *Life* in the County, from which we make the following valuable extract:

This idea of a life of Christian independence, amid the circumstances of the country, would, doubtless, introduce extensive reforms in every department of rural existence. Beginning in the unobtrusive freedom of good families, it would gradually make its way through neighborhoods and districts, till the whole aspect of country life would be elevated and refined.

First, it would remodel the physical arrangements of many of our country friends, and inaugurate a style of living which would secure a larger degree of health and comfort. It is melancholy that a people with such abundant means for health and comfort as the rural population of New York, should so often pervert the benevolent gifts of God into curses. Besides the intemperance in the use of alcoholic drinks and that poisonous weed whose vile mark is seen over the whole face of America, there is a great neglect of the simplest laws of dress, diet, housing and labor by our country folks, which is laying the seeds of permanent physical degeneracy. Our capricious climate demands perpetual watchfulness, and the habit of reckless exposure, which in men is the result of carelessness, and in women of imitation of city fashions, lies at the foundation of our declining health. One would suppose that the daughters of the most intelligent nation of farmers in the world, would perceive the folly of arraying themselves in apparel which can hardly be excused in the drawing-rooms in the cities, and braving the terrors of a New York winter and the caprices of its spring and summer with the gossamer contrivances denominated fashionable shoes and hats and drapery;—but the country women dress, on the whole, more unsuitable for their exposure than those of the city. As a result, female health, the source of national health, is at a fearfully low ebb in our villages and rural districts. The wholesome preparation of food, and the method of eating and drinking, are yet an unknown science to millions of our countrymen. We know the depth and breadth of this stolid American prejudice against the religion of the kitchen. Many a family that worships God sincerely in morning and evening devotion is poisoning itself by a transgression of His laws around its daily table. The greed for more land often keeps the home of the farmer destitute of many essentials to the healthy education of the family.—The habits of toil unchecked by amusements, or by the higher culture of the soul, cut short the days of hosts of our earnest countrymen. We cannot suggest the details of this physical reformation. It will come when the more sensible inhabitants of every district begin to think of the best way to prolong life and increase comfort in their particular locality.

CATHOLICISM IN THE UNITED STATES.—The Metropolitan Catholic Almanac for 1859, states that in 1808 there were in the United States 2 bishops, 64 priests, and 80 churches, i. e., church edifices. Ten years later there were ten bishops, 232 priests, and 230 churches. At the close of the next decade there were 17 bishops, 435 priests, and 907 churches. At the present time there are 45 bishops, 2108 priests, and 2324 churches. The compilers of the Almanac refrain from estimating the Catholic population of the United States, on account of the "intrinsic difficulties" which the subject presents; but an estimate of 800 members to each church would give 1,876,200 as the Catholic population of the United States.

MR. DOUGLAS.—A correspondent of the Commercial Advertiser states that "Mr. Douglas has within a few days solemnly declared that he will not consent to be a candidate of the Democratic party for the Presidency at the coming election. He is confident, as his friends say, that the opposition must triumph at the next election."

ANOTHER FALL.—According to the Richmond papers, a celebrated physician of Virginia died last week at the poor house in that city. His name was Dr. Thomas Johnson, and at one time he was a professor in the University of Virginia. He stood at the head of the medical fraternity in Richmond. What a lesson of warning to the drinkers of ardent spirits!

PAY OF CITY OFFICERS IN SALEM.—The city council of Salem have fixed the pay of city officers as follows: Mayor $800; City Clerk $700; Treasurer and Collector $800; Assessors $500 each; Assistant Assessors $2,50 per day; Clerk to Overseers of Poor $700, Commissioner streets $600; City Messenger $450; City Marshal $800; Assistant Marshals $600 each; Clerk of Common Council $125.

☞ In the U. S. *Senate*, Thursday, March 3, the Miscellaneous Appropriation Bill was taken up.

Mr. Hunter's committee amendment, adopted yesterday, provided that the power of issue and re-issue of Treasury Notes, conferred upon the President by act of Congress of Dec. 1857, shall be revived and continued in force from the passage of this act until July 1860, interest not to exceed 6 per cent.

Several amendments were adopted *increasing* the amount.

Mr. Hunter, who was very evidently in an uncomfortable state of mind, kept beseeching Senators to remember that there was no hope of passing crude amendments, which only obstructed the indispensable legislation of the country, and perilled the calling of an extra session.

It was now 5 o'clock, but no recess was taken.

8 o'clock.—A deluge of rain without, temperature of 80 within. A few hundred ladies and several hundred gentlemen in the galleries. Most of the Senators are in their seats. The subject before the Senate is the Omnibus bill, but it is so overlaid with amendments that it has given scope to debate on all topics from a protective tariff to Kansas and the Indians. The main amendments above voted in the the Committee of Whole, have been confirmed, except Mr. Simmons' proposal for a home valuation which was lost—24 to 20.

The section authorizing a re-issue of Treasury Notes was confirmed by a vote of 30 to 22.

The amendments added are to abolish the franking privilege, and raise the rates of postage, identical with those already added to two other bills.

In the *House*, the report of the Committee of Conference on the Army bill was concurred in.

The Senate's amendments to the Post Office Appropriation bill were then taken up, when Mr. Grow offered a resolution that the bill with amendments be returned to the Senate, as the 13th section thereof proposed an increase of postage, which is in the nature of a revenue bill, and, according to the Constitution, can only originate in the House. Adopted 117 to 76.

[The 13th section alluded to above proposes 5 and 10 cents letter rates, and abolishes the franking privileges.]

Mr. English proposed to introduce a new Post Route bill, and asked that the rule which required reading might be dispensed with.

The Speaker decided that the rule could be dispensed with, when the bill was taken up, amended and passed.

Mr. Chaffee asked a suspension of the rules in order to have the Senate private bills passed. Agreed to.

The House concurred in the report of the Committee of Conference on the Navy Bill, by which $289,000 is appropriated to enable the purchase of the vessels chartered for the Paraguay expedition.

In the evening session, a resolution of thanks to Speaker Orr, was passed 120 to 32.

The Speaker laid before the House a message from the President similar to that sent to the Senate, urging Congress to make provisions for the preservation of the public credit. Laid on the table and ordered to be printed.

The Traveller's Washington correspondent says, date March 3, the President has his Proclamation written for an extra session, to be promulgated to-morrow if no financial legislation succeeds.

If necessary the steamer will be detained to send it the Pacific Coast. July is fixed as the time for the session.

☞ Congress closed its session at noon, March 4. We think its legal existence closed 12 hours before. It is not easy to say, exactly, what was or was not done at the last moment—but the several appropriation bills are supposed to be passed.

In the House, at 11 o'clock, Mr. Letcher made a report from the Committee of Conference on the Post Office appropriation bill, to the effect that while neither House is understood to waive any constitutional right, it is recommended that the House pass the bill precisely as it came from the Senate on the 26th of February. The report was accepted and the bill passed. If we remember rightly, this bill raises the letter postage from three to five cents—*pretends* to abate the franking privilege, &c. But we are not quite certain.

Every great measure recommended by the President has been set aside by Congress.

☞ New Hampshire Journal of Education, for March, is out in good style, from the office of T. B. Coggswell, Concord. It is now a valuable work, under the new arrangement. A. M. Payson of this city is one of the editors—and will forward subscriptions. Only $1 per year.

HAWKESVILLE, KY., March 3.—The mob last night broke into the jail, and seizing Thos. S. Low, shot him dead. Low was the individual who yesterday made the attack in the Court House upon prosecuting attorney Maxwell.

☞ A *few* days ago a lawyer gave an insult to the judge of the Court of Common Pleas, at Logansport, Ohio, while on the bench, whereupon the judge got at once from his seat, and, going into the bar, gave the chap a sound drubbing.

FAST DAY IN MAINE.—Gov. Morrill of Maine has designated Thursday, April 21, as Fast Day in that State.

SHUTE AND CO.

The Newburyport Herald, of Friday says:

The lottery swindlers—Shute & Co.—were bailed out of jail on Wednesday, by parties in Haverhill, and that vicinity.—The bail for the three amounting to the nice little sum of $24,000—and they finding persons who are willing to be responsible to that amount for for their appearance—shows how profitable has been their business. We understand they have retained for counsel Hon. John S. Wells of Exeter, and J. H. Bradley of Boston.

A letter from Haverhill, Mass., to the Traveller, gives the following statements:

The arrest of the Plaistow gang of swindlers creates much interest here, the parties all being well known in this community, where they have formerly resided. The Shutes, while here, were mostly famous for keeping a low groggery, and it was undoubtedly at that time that young Palmer was unfortunate enough to make their acquaintance, and at which time the string of excitement was wound around him which has finally drawn him into a situation from which he will find it difficult to extricate himself It is generally understood that Palmer was only a clerk for the Shutes, who are the proprietors of this scheme for gulling the public on a scale more extensive than has hitherto been known in this part of the country.—William P. Shute, who stands at the head of the whole concern, is said to have made himself quite wealthy by the opperation, while he has lived in the free and easy way which those only who are in possession of a plenty of *tin* are enabled to.—The evidences of his wealth are said to exist in the shape of numerous mortgages on real estate in this vicinity and in deposits in the banks. We are told that at the time of the late panic, and just before the specie suspension, he drew $1,500 in gold from one of the banks in this town.

LADY MORGAN.—Among the new works, is "Lady Morgan's Diary," in one volume. She is now seventy-six years old, and recently addressed the following lines to the Athæneum, in reply to a reference to her age in the review of her recent "Diary:"

TO MY REVIEWER.

My life is not dated by years,
For time has drawn lightly his plough,
And they say scarce a furrow appears
To reveal what I ne'er will avow.

Till the spirit is quenched, still a glow
Will fall o'er the dream of my days,
And brighten the hours as they flow
In the sunset of memory's rays.

For as long as we feel we enjoy,
The heart sets all dates at defiance,
And, forgetful of life's last alloy,
With Time makes a holy alliance.

Then talk not to me of "my age,"
I appeal from the phrase to the fact
That I'm told in your own brilliant page
I'm still young in fun, fancy and fact.

☞ Mr. R. W. Emerson has been engaged to lecture six Sundays to Theodore Parker's Boston Society, which will probably pay him $50 a Sunday. The Society finds no difficulty in raising money, and the interest in their Sabbath services has by no means died out since their pastor's regretted retirement.

☞ A few years since it was stated that the treasury box in the Jewish synagogue in London was low. On the following Sabboth Mr. R——d put in one thousand guineas, his lady five hundred, and in one hour and twenty minutes the sum deposited in it was twenty-eight thousand pounds—equal to $135,000.

LARGE SLAVE EXODUS FROM MISSOURI.—Seventy fugitive slaves from Missouri passed through Grinnell, Iowa, on the 21st inst., on their way to Queen Victoria's dominions; they had heard that Missouri would shortly become a free State, and concluding that their services would not be needed much longer, made up their minds not to put any impediments in the way of making her free by remaining.—*Chicago Press and Tribune, Saturday.*

☞ The father of Mr. Sickles has offered to Mr. Bagiola, the father of the repudiated wife, any house of his that the latter may select, in order that Mrs. Sickles may have a home.

Judge not a man by his words, but by his deeds; not by the size of his purse, but by the length and breadth of his heart. Many men, whose souls are infinitesimal, are lauded and worshipped, because they have more money than their next neighbor, and wear finer clothes, which, perchance may cover a polluted heart.

A provincial Mayor in one of the departments in France has come out with an epigram in the shape of a notification:—"All beggars found in this district will be fined fifteen francs for the use of the poor."

☞ The chances of drawing a prize in the Delaware State lotteries are estimated at seventeen to one against success. This is when lotteries are fairly drawn—there is no calculating the chances otherwise.

Worcester's Quarto Dictionary.

This work which is the result of a life's labors is now nearly completed, and the publishers expect to issue it in the course of next May.

In ORTHOGRAPHY, it will represent the usage of the best writers in this country and England.

The PRONUNCIATION of all words will be exhibited by a system of notation easily understood; and in doubtful or disputed words the best authorities for the different modes will be given.

In ETYMOLOGY it will be found more complete and satisfactory than other work of the kind.

The DEFINITIONS will be fully and accurately distinguished, and exemplified by quotations from the best authors, of sentences valuable in themselves.

SYNONYMS will be so treated as to be a very valuable feature of the work.

Another very novel and most useful feature of this Dictionary will be the WOOD CUTS, of which about 1200 will exemplify words whose meaning can be more accurately conveyed in this than by any verbal definition.

AN EDITION ON LARGER AND FINER PAPER FOR SUBSCRIBERS will be first issued at the same price as will afterwards be charged for the common edition; viz: $7,50.

A Specimen can be seen, and subscriptions entered at the bookstore of

JOSEPH H. FOSTER.

SPECIAL NOTICES.

NECROSIS.—If there be any disease calculated to drain away the life of a man, and weed on the mind and body by its painful slowness, it is the death of any part of the bones. The PERUVIAN SYRUP gives support under its profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY, in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontittorum.

AN ENEMY CONQUERED.—JOHN B. JONES, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

R. R. R.

A NEW BODY.—On the 21st of July, J. D. H. aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 21st., RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. R. liniment; one small bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the R. R. R. remedies act that insures their success. The moment they are taken or applied, pain is stopped and disease checked

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand eruptory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN FIM PLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, delicious for invalids, and so mild and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the great medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of climate and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, confiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., Cornhill; S. E. Pocker, 20 Elm st; J. Moran, 116 Blackstone st; M. Davis & Co., 57 Blackstone st; R. DR. DUPONCO'S French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalleled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the contents of a bottle, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Fhaster, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and, in Newmarket by J. A. Prendergast. They will supply dealers at the proprietor's prices, and also send the Pills to the ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J Duponco is upon each box. You will then obtain a Pill you can rely upon.

AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MAGIN,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application on a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on four rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.

The Wheeler & Wilson
Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.
This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mf'g Co.
Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Shirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. On looking out for the best, see the machines of Wheeler & Wilson."—[Examiner.

"Wheeler & Wilson is the machine par excellence for family use, and we recommend it most emphatically."—[Advocate and Guardian.

"Wheeler & Wilson's Sewing Machines combine everything that can be required in the manufacture of garments. Our friends abroad may be assured that to purchase one of them is a safe investment."—[Observer.

"Wheeler & Wilson is beyond all question THE machine for family use."—[Life Illustrated.

"There is but ONE Sewing Machine, and that is Wheeler & Wilson's."—[Judge Meigs, of the American Institute.

THE GROVER & BAKER
SEWING MACHINE CO.,
18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYLE MACHINE;
PRICE $50.
HEMMERS, $5 EXTRA.
It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.
Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Farm for Sale.
THE SUBSCRIBER, being about to change his business, offers for sale, until the twelfth of March, one of the most desirable farms in the County of Rockingham, situated in Stratham, two miles from Exeter, and on the main road from Exeter to Portsmouth, formerly part of the well known Ladd farm, consisting of 88 acres, 40 of which is in tillage, including one of the best orchards in the State, the remainder being an excellent pasture, twelve acres of which is covered with a fine growth of white and yellow oak.
The buildings consist of a small house in thorough repair. There is also on the premises a frame for a barn 60 x 40, with 19 feet posts, and stone split for the underpinning and cellar.
The above property is situated in one of the best farming towns in the State, being under a high state of cultivation, and has upon it two desirable locations for building, and offers great inducements to any one wishing a farm, either for pleasure or income. It is in the immediate vicinity of schools and churches.
The society in town is excellent, having been so much improved within the last year and a half by the change of property, that the subscriber regrets exceedingly that change of business renders it necessary for him to leave the pleasant town of Stratham. **J. B. WADLEIGH.**

Adam's Patent Coal Sifter,
with which any lady can sift ashes without soiling her dress.
The following is one instance of the saving that this Sifter can effect:—
Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, **10 Barrels good Coal,** 1 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2250 lbs, worth about $6.
The construction of this Sifter is very simple, and it excels any other for usefulness and durability.
Thousands have been sold and give perfect satisfaction. Try one.

MUNICIPAL.

The City Council on Thursday evening passed an ordinance authorizing a loan of $10,700 to pay that portion of the City debt which becomes due the present year.

The School appropriation of $12,618.20 was apportioned as follows:

High Schools	3,300 00
District No. 1,	3,260 70
" 2,	3,430 93
" 3,	2,626 57

The committee of conference appointed last week on the enlargement of the recitation room of the Boy's High School did not agree upon a plan.—The Aldermen and Common Council each propose and adhere to a separate plan of alteration.

It will be seen that Mr. Long's third lecture will be given next Friday evening. His lectures are very valuable, such as could not be obtained at any price from any other artist in New England. His illustrations are numerous, not designed, however, as an exhibition of pictures, but as direct illustrations of his subject. Mr. Long has sent us the following note:

Mr. Editor,—Will you have the kindness to state that the subject of my second lecture, on Wednesday evening, was *not* as reported by the Chronicle, "*Hogarth and his paintings contrasted with his French cotemporary painter, and connected with notices of West and others,*" but Hogarth, Wilkie, Reynolds, West, and *West's* (not Hogarth's) cotemporary and founder of the French school, *David;* together with an analysis of the merits of the so-called Pre-Raphaelite school, founded in Germany, and which has found such unmerited support in the writings of the so-called "Oxford student," Ruskin.

I make this correction, not because it is of the slightest interest or importance to others, but because the error would have the effect to render me ridiculous to every one at all acquainted with the history of art. S. P. LONG.

THE LAST DAY OF CONGRESS.

WASHINGTON, Thursday, March 3.

A message was here received from the President, appealing to Congress to preserve the credit of the country. This, he says, is the last day of Congress, and there is no appropriation yet to pay the outstanding Treasury Notes. From the information submitted by the Secretary of the Treasury, it is manifest that the present receipts will scarcely meet the ordinary expenses of the government.

By the end of the fiscal year nearly $18,000,000 will be due, with a considerable amount paid for duties at the various ports, and no means to meet them. Thus the American people will be dishonored before the world. It is impossible to avoid this catastrophe unless provision be made against it within the few remaining hours of the present Congress. If this was the first instead of the last session of Congress, it might be called together again; but, if it be re-assembled, to-morrow, thirteen States will be unrepresented, and it will be impossible to assemble all before the Treasury must stop payment. The urgency of the case not only requires, but demands a separate bill, to save the credit of the country. JAMES BUCHANAN.

SNOW.—Friday morning, March 4, gives us a foot of solid snow, in addition to eight inches on Sunday last. We have more snow on the ground now than at any time in the winter.

Sledding commenced on the 28th of Nov. and has been good for ninety-six successive days—with a prospect of adding another month.

That advertisement "caps all"—we mean KNIGHT & Co's.

"AS GOES NEWCASTLE, SO GOES THE STATE."—The election of town officers in Newcastle on Tuesday was contested on political grounds, and resulted in a complete Republican victory. Last year democratic town officers and representatives were elected.

There is a "HEAD *Covering*" for everybody—see advertisement.

THE PORTSMOUTH VOTE.

Our friends, in other parts of the State, are looking to see Rockingham County give a highly complimentary vote to the ticket which is headed by the first candidate upon it, by a gentleman who has ever been a favorite with his party, and whose residence has so long been in our midst.—And while Rockingham shall do well, may we not expect that *Portsmouth* will not fail properly to appreciate the honor of having one of her citizens again in the chair of State, an honor not extended to her since 1823.

It will be recollected that in that year, Hon. LEVI WOODBURY, the Republican candidate for Governor, received 900 votes, while Samuel Dinsmore, the regular Democratic candidate, received but 34 votes—and scattering 2. We would make no invidious comparisons—but are safe in saying that ICHABOD GOODWIN has done more, ten times over, for the interest of Portsmouth, than any other man who has been candidate for Governor since the days of John Langdon. Nor is there any man whose influence for the benefit of this section of the State can be better exerted. Will not the vote of Portsmouth on Tuesday next show a proper estimate of one of her most devoted and justly popular citizens? We think it will.

E. P. RUSSELL'S

Patent Mastic Roofing.

Impervious to Water, and a Sure Protection against Destruction by Fire.

THE Inventor of this Roofing labored many years to combine articles which would answer the above purposes, and overcome the difficulties of Rust and Decay attendant upon Tin and Shingles, and the destruction by Sun and Frost of the Pitch and other Gums now in use; this he succeeded in doing, and now *after Five Years of the severest trial*, we would invite the careful attention of all interested in such matters, believing that they will be *fully convinced* of its practical value, both for durability and cheapness, in which respects we do most strongly assert that ITS EQUAL IS NOT KNOWN!

This Roofing can be readily applied to roofs of every description, either Steep or Flat, and can be put on over Shingles or Tin, at much less expense than the first, and at about half the cost of the latter.

We are aware that the public have had many kinds of roofing offered to their notice within the last few years, and that most of them have proved complete failures; but we do most candidly and unhesitatingly assert that the article which we would bring to your notice is *far superior to anything of the kind yet discovered*, and after a severe test of many years, it stands as reliable and as good as when first put on, without change or decay.

THE GREAT WONDER

Of The Nineteenth Century:

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished: I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a native of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Md., Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 19, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching, with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease, effecting a radical cure.

One dose taken at bed time before retiring, prevents nightmare.

One dose taken at night, loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two tea spoonfuls taken in water, relieves Sick Headache.

Only one dose immediately relieves Colic.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD Proprietor. 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

One dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.

One bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes the sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures Chronic Diarrhea in its worst form, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a malarious type, it operates with certainty, and thousands are willing to testify to its distinctly relieving Colic.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from curious inquiring friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be induced to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is speedy and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country by directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 6ly

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. Analy says it is cheaper to use it than to buy caps to cover her gray hair.

Look at that gentleman's whiskers—Hutchins' Hair Dye makes them look so handsome.

The new lot is just received for the accommodation of the public, by

Morning Chronicle.

MONDAY, MARCH 7, 1859.

EXETER CORRESPONDENCE.

EXETER, March 4.

Messrs. Editors:—Since my last, the Methodist Levee came off, and was a decided success; the receipts amounting to nearly $200, and the good people of the other societies have given their minister a nice, warm overcoat. The one at the Elm st. Baptist was very pleasant, but not so profitable, the receipts being only $75 I am told. Being the last of a number, people did not patronise it so well. Then the Democrats had some speeches and a free lunch with music, and on Tuesday of this week Gov. Banks addressed a crowded audience on the great Republican watchword, Union. Other gentlemen addressed the meeting, which was quite lively and enthusiastic. They are sanguine of carrying their entire ticket, which they can do easily if all are at the polls.

I see the Democratic party make great account of their candidate for Congress being a very *benevolent man*. I don't doubt but all they say of him is true. There are such generous spirits, thank God, left in the world; but no one whose vote would be cast for Mr. Marcy on that account, need be afraid to vote for Mr. Marston on the same issue. If he has not given as much money, he has given that which was worth as much.

All who know anything of the cases which have done before the courts of late years, know on which side Mr. Marston has been found. The fatherless, the widow and the orphan have found him a friend, pleading their cases without fee or hope of reward. And in many instances that have never come before the public, he has advised them so they could settle their estates themselves, and collect debts which would not have been paid without the expenses of a law suit. Such is his reputation in Exeter, that a lady interested in the welfare of the poor, though personally unacquainted with him, wrote to him, in preference to any one else, in behalf of some individuals she wished to benefit.

Somebody has started a good thing here. I suppose you saw in the News Letter the account of the "Surprise visit" to a poor widow. Those are the right kind of surprise visits, such as angels would rejoice in and the Saviour bless. Christianity does not destroy humanity; and the man or woman professing it, who cannot visit and sympathize with his poor neighbor, and help him, knows nothing about it, whatever his creed or profession.

The poor have lost a good friend, lately, in the death of a very wealthy lady who lived to a good old age, and was beloved by every class in society. God grant that her mantle may rest on her household and friends.

Both prominent societies in town have manifested a commendable zeal in the spiritual welfare of the new Factory Agent. I hope they will begin to look after the English and other operatives. Christianity has not made such "Dred Scott" advances as to exclude operatives from its pale, I believe.

It is reported that the colored trader on Water Street made Edwin Burnham a present of a gold watch and chain, and offered the use of half the house he lately purchased on Front Street, rent free. If it is so, his society will not be troubled with his "leaving the legitimate subjects of the pulpit, to go out of his way to preach on the subject of Temperance," probably.

It was rumored that one of the Royal Family, who has been a long time ill, was dead. I have not heard it confirmed, however, and think it must have been premature. Have you a Royal Family in Portsmouth? Do you expect the Rum party to carry the day, next Tuesday? I shall look out anxiously for the result. What items to put into a Democratic ticket! "Repeal of the Liquor Law, Selling of the Reform School, and the purchase of a Million of Slaves." How much of the "three thousand and eight hundred" does your town get? Yours, SCRIBBLER.

A NEW SORT OF GEAR FOR THE FEET.—We have seen a new article, which cannot fail to come into general use as soon as its merits are known—boots with soles of wood. They are as elastic as any thick soles, easy to the feet, and comfortable. They are cheaper, and will turn water better than rubbers, which they will take the place of soon.—*Essex Banner.*

A large number of street beggars were arrested in New York this week, and among them a young girl, who acknowledged that she constantly supplied a family of six persons, two of whom were boarders.

HOMEWARD FROM TEXAS.

NEW ORLEANS, LA., Feb. 28.

Dear Chronicle:—It's no use to advise me to "keep cool," under this hot Southern sun; I can't do it. The intensity of said sun's rays has generated steam, and I write you as being a sort of safety valve to my feelings, to prevent an explosion.

The principal topic of interest to the commercial portion of this city, just at present, is the condition of the bar at South West Pass, great difficulty being experienced in towing a ship that draws 17 feet over that bar. Meetings have been held, committees appointed, memorials presented to general government, and other measures taken for remedying this difficulty. There are now about 70 vessels inside and out, waiting for "something to turn up," some of which have been detained several weeks.

Yesterday there was a military turn out in honor of the natal day of Washington, and a large number observed the anniversary as a holiday. The shipping presented a gay appearance, dressed in a wavy net work of many-colored flags; cannons belched forth their ponderous notes at morn, at noon, and at even; and a grand balloon ascension took place.

The last fragment of the Seminoles that will probably remove from their home in Florida are now in this city, and take the opportunity to make sundry purchases, and have a good time generally. Their costumes are of a varied order—barbarous, half-civilized, or civilized and enlightened. I noticed one young brave, with a fine dress coat, rather short in the skirts, and a pair of patent leather shoes, but nothing more than nature filled the intervening space.

The opera, theatres and shows of all kinds are in full blast and well patronized. The Ravel Troupe has just closed a very successful engagement here, and Piccolomini is expected by the 10th of March.

The streets are in better condition than when I last wrote, and the beautiful spring weather brings out the ladies in swarms, almost persuading me to alter my previous formed opinion of the beauty of Southern feminines.

Last evening the ship Adelaide and Mary, of Bath, took fire at her pier, and although the flames were confined to her inner parts, two firemen lost their lives by drowning. She had about 2000 bales of cotton on board, which will be lost or greatly damaged by fire and water.

In political circles Douglas has a very good standing, unless with those ultra partizans who vote for old Square-foot himself, if he receives the "regular nomination." I think the "little giant" would poll a good vote in the South-west.

I am sorry to inform you that Enoch Train, formerly of Boston, but who has now an office in New Orleans, had his arm broken by the upsetting of his carriage, near Victoria, Texas, a couple of weeks since; but my informant stated that, at the time of his departure, the old gentleman was rapidly recovering. Mr. T. has been looking at the advantages offered by the "Lone Star" State, and has concluded, so says Madame Rumor, to purchase a residence in San Antonio and eventually become a wool-grower. IOS.

IS OREGON A SLAVE STATE?—One reason why the Republicans voted against the admission of Oregon, was, that its Constitution by its provisions echoed the Dred Scott decision. Southern Democrats and Administration members who voted for its admission, as soon as the bill had passed, claimed that slavery could go into Oregon under the decision of the Supreme Court. Now how does the matter stand. The last steamer from Oregon brings news that petitions had been addressed to the Legislature, praying for the passage of an act to protect *slave property* in the Territory, the United States Supreme Court having decided that slave-holders have a right to hold their slaves in the Territories. These petitions were referred in the House to prominent members of the Democratic party in that body, and the committee reported in favor of the petition, accompanying their report with a bill which provides that *the master may hold the slave and command his services*, and prescribes heavy penalties for hiring or harboring of any runaway slave. The bill was read the first time without opposition, and referred.—*American.*

SLEEP.—The time taken from seven or eight hours' sleep out of each twenty-four, is time not gained, but time more than lost; we can cheat ourselves, we cannot cheat nature. A certain amount of food is necessary to a healthful body, and if less than that amount be furnished, decay commences the very hour. It is the same with sleep, and any one who persists in allowing himself less than nature requires, will only hasten his arrival at the madhouse or the grave.—*Hall's Journal of Health.*

MAINE STATE SCRIP.—The Portland Advertiser learns that scrip for the new State loan has recently been sold in Boston at a premium of *six and one eighth* per cent.

CLOSE OF CONGRESS.

Washington Items of March 4 inform us that the Thirty-Fifth Congress has adjourned without passing the Post Office Appropriation Bill, which contains something like twenty millions of dollars.

The President declares that he shall be compelled to call an extra session.

Toombs, Bayard and other Senators talked against time to defeat the bill, because the House struck off all the Senate amendments.

The House struck off a large number of heavy Senate amendments from the Omnibus bill, and the Senate had to submit, without conference, for want of time.

The twenty million Treasury Note Bill passed the House on account of the backing down of all the Pennsylvania Democrats except Owen Jones, Stewart and Reilly.

All the General Appropriation Bills which passed both Houses, have received the signature of the President. The Post Office Appropriation and the Post Route Bills have failed to become laws.

Amid the confusion in the Clerk's office it cannot yet be definitely settled whether any private bills which passed both Houses failed to receive the President's signature.

The Miscellaneous Appropriation Bill contains a section for extending the Treasury Note law two years; and provides four hundred fifty-two thousand dollars for the Coast Survey, besides appropriations for the Light House establishment—for surveys of public lands—for taking the next census, &c. The Ocean Mail Steamer Bill was killed by the bill to carry into effect the treaty with the Dacotah and Tonawanda Indians, which has appended to it appropriations for the contracts for the mails to California via Panama and Tehuantepec.

The House failed, as it has done heretofore to send the President a message asking him whether he had any further communication to make, and that Congress was ready to adjourn.

The House has removed every trace of legislation tending to the abolition of the franking privilege and the increase of postage.

John Morrow, Third Assistant Postmaster General, died suddenly last evening. He was at his office yesterday attending to business.

The Senate this morning confirmed Robert Olds as U. S. District Attorney for the District of Columbia, vice Key, deceased.

The Post Office Appropriation bill contained an item of $3,000,000 for the deficiencies of the present year, and which was absolutely required to meet accumulated obligations. With this the department could have got along comfortably till the 1st of July. No means can be available till the 1st of April, when the proceeds of the quarter will be paid in.—After the 30th of June none of the incoming revenue can be expended, as the present law will have ceased to operate. The land as well as the ocean service, and consequently the whole machinery of the department are thus disastrously affected.

Sweeny, Rittenhouse, Faut & Co., of Washington, to whom was awarded three million dollars of the late government loan have negotiated for the whole amount in New York.

THIRTY SIXTH CONGRESS.

FRIDAY, March 4.

SENATE—*Extraordinary Session.*—The new Senators were sworn in.

Mr. Doolittle of Wis. offered a resolution, requesting the President to open negotiations with the Central and South American States, with a view to the settlement of free persons of color, where they can enjoy the rights of citizenship. Its consideration was postponed until tomorrow.

☞ The Boston papers record the death of Charles Sampson, of the well known publishing firm of Phillips, Sampson & Co. He died at his residence in Brookline, in the forty-second year of his age.—Mr. S. was very favorably known to the trade, and to all who came in contact with him, either socially or in the way of business.

☞ Before adjourning, Congress forbade the removal of Boston Post Office to Summer street, but saddled the order with a rider that makes it worthless, and the removal has actually been made.

CLAIM ALLOWED.—The claim of Massachusetts against the government for arming and equipping the militia in the war of 1812, has been allowed. The whole amount without interest is about $217,000. By the terms of separation, Maine was to receive one-third.

TORONTO, March 4.—The execution of Fleming and O'Leary, who were both found guilty of murder at the last Assizes, took place to-day in presence of a vast number of spectators. Fleming gave the clergyman a short account of the crime, attributing his ruin to bad company and drink.

That man is a Christian who improves every opportunity to perform an act of charity or kindness, either by word or deed; but the man who daily performs his Pharasaical rites with solemn bigotry, and regards not his fellow man, is unworthy of the name.

☞ The Mount Vernon Ball, in Boston, on the evening of March 4, was a brilliant assemblage, and a pecuniary success.

SPECIAL NOTICES.

NECROSIS.—If there be any disease calculated to drain away the life of a man, and weaken the mind and body by its painful slowness, it is the death of any part of the bones. The **PERUVIAN SYRUP** gives support under the profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Potsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want the picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

A NEW BODY.—On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 21st., RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with warm water and R. R. Relief; one small bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used with thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a bouquet of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from all other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and climate.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st; J. Moran, 116 Blackstone st; M. Davis & Co., 57 Blackstone st; R. French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for 'Dr. Duponco's Golden Pills." Observe the signature of Duponco is upon each box. You will then obtain a Pill you can rely upon.

THAT STEAMBOAT—IRON WORKS.

DOVER, N. H., March 4.

Messrs. Editors:—Having learned that in consequence of the announcement made in the Chronicle of Monday last, that a steamer was expected in Portsmouth on Wednesday, I would say that if you refer to my letter of Feb. 26th, you will find that I stated that a steamer would *be in readiness* to come on the route on that day—not that she would *commence her trips*. That a steamer was ready, I am prepared to satisfy all concerned, and with your permission I will inform your readers why a steamer has not appeared in Portsmouth the past week.—Some twelve months since a party who had a good steamer lying idle, wrote to me enquiring if I knew of any route in this section where she would be likely to do a living business if placed upon it. I immediately furnished him with an estimate of the business between Portsmouth and Boston, which was satisfactory, and I was authorized to make the necessary arrangements, in which I expended nearly $100 in money, besides time, with the understanding that I should have the agency of the boat and an interest in her if I wished, in exchange for some stock which I held.

Everything was arranged for the boat to come on the route, when two or three days before she was to leave for Boston to commence her trips, a letter was received by the managing owner, dated in Portsmouth, post-marked Boston, (and bearing, as has since been ascertained, a fictitious signature,) stating that I was a d——d fool, that my statements in regard to the business on the route were utterly false, that a boat could not earn her coal-bill, and that if they did not wish to lose money they had better keep their boat at home. On the very day this letter was received, a charter was offered for the boat, which was accepted—but would *not* have been, but for the receipt of that letter; and the consequence was, I lost the time and money I had expended in the matter. I then said, and I still adhere to that resolution, that no boat should be placed on the route between Boston and Portsmouth, through my influence, until I had received some satisfaction for the loss I had sustained by the letter referred to.

In regard to the establishment of such a line: the freighting business of the great manufacturing Companies in the vicinity of Portsmouth can be had, if a daily line is established; for which purpose two able sea-going steamers are now at my disposal; and it has been ascertained that with a suitable steamer on the River, a permanent freight business can be concentrated at Portsmouth, for such a Line, that at Packet rates, will amount to $40,000 per annum—not including transient matter, and the passenger business, which, as direct Railroad communication is now open between Portsmouth and Lake Winnepisseogee, (thus making a new and it is thought it will prove a favorite route between Boston and the White Mountains) must prove very considerable. With proper arrangements, the Excursion business between Boston and the Isle of Shoals and other numerous attractive points in the vicinity of Portsmouth, will be very large.

If the Line is started, one of the Boats will be placed in the charge of Capt. Jas. W. Goodwin, who is entitled to that position, for the reason that he is a thorough and experienced pilot, a careful and accommodating man, and has spent considerable time and money in his efforts to get a boat on the route.

At the request of parties who have an excellent steamer which they either wish to sell or find business for, I have during the past week made some efforts to ascertain more correctly the amount of business that can be obtained for a Steam Propeller running between Portsmouth and New York; and find that it is sufficient, including what may be obtained by calling at Gloucester and Provincetown, to warrant the placing of a steamer of from 400 to 600 tons on the route; and it is more than probable that such an arrangement will be carried out sometime during the present month.

THE IRON WORKS.—In regard to the location of Iron Works in Portsmouth, the plan and estimates of which have just been completed in full. I am prepared to show that responsible parties are ready to locate in your city, at a cost of $150,000, Works capable of Rolling and Manufacturing 1000 tons of iron per month,—providing the capitalists of Portsmouth will subscribe for not exceeding one-third of the stock, to be available when the works are completed and in readiness to go into practical operation—the amount taken in Portsmouth to be made preferred stock, on which 10 per cent per annum shall be guaranteed for a term of years.

As these works would consume some 500 tons of English Billet Iron monthly, it would be desirable if not necessary that a ship leave Liverpool monthly for Portsmouth direct.

To provide for this necessity, I have the assurance of one of the wealthiest firms in one of our Southern cities (Charleston, S. C.) that they can within three days after my arrival there, make up a subscription for half the cost of three steam propellers, of 1500 tons burthen each, to be built in Portsmouth, and when completed to be run between that city and Liverpool, calling at Portsmouth, N. H., on the passage this way. One-fourth of the cost of these ships can be had in Liverpool, and the balance can be made up without calling for one dollar in Portsmouth.

With steamers running between Portsmouth and New York,—Goods could be taken by this Trans Atlantic Propeller Line in Liverpool, to be forwarded from Portsmouth to Boston and New York, at as low rate of freight as by ships running direct between Liverpool and those cities. And it has been ascertained that the business of several large importing houses in both cities could be obtained for this line, if established.

From the facts which are herewith laid before them, and which I am prepared to substantiate by evidence of the most reliable character,—having spent the last two months in perfecting the necessary arrangements—the merchants and business men of Portsmouth cannot fail to see that a way is now open, which if promptly made use of, will concentrate in Portsmouth—where it belongs—the business of the great manufacturing concerns in its vicinity; and otherwise make available the superior advantages in regards to harbor and other business facilities, which Portsmouth possesses over most of the cities on our coast.

As soon as the present excitement in regard to politics is over, I shall be pleased to visit Portsmouth for the purpose of putting through the various matters herein referred to. G. G. DENNIS.

☞We learn from W. L. Hanscom, Esq. Naval Constructor, that orders have been received at this Naval Station, to make preparations for the arrival of the U. S. Ship Dale,—which is ordered here, and will probably arrive sometime in April.—The Dale is now on a two years cruise on the Coast of Africa—and will discharge and pay off her crew here, and undergo extensive repairs.

We are also informed that the U. S. Ship St. Lawrence, is ordered here, and will probably arrive in July.

Mr. Chronicle:—The Journal with good reason calls for a heavy home vote for Capt. Goodwin, as a liberal and public-spirited citizen. We certainly hope he will get it, as he so richly merits. But is not Capt. Marcy equally entitled to the complimentary notice of his fellow citizens? Has he ever been found wanting, when called upon to encourage public or private enterprise, or aid needy worth?—We hope the best success for both the Captains. FAIR PLAY.

A Card.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mfg Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their use. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which, hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Worcester's Quarto Dictionary.

This work which is the result of a life's labors is now nearly completed, and the publishers expect to issue it in the course of next May.

In ORTHOGRAPHY, it will represent the usage of the best writers in this country and England.

The PRONUNCIATION of all words will be exhibited by a system of notation easily understood; and in doubtful or disputed words the best authorities for the different modes will be given.

In ETYMOLOGY it will be found more complete and satisfactory than other work of the kind.

The DEFINITIONS will be fully and accurately distinguished, and exemplified by quotations from the best authors, of sentences valuable in themselves.

SYNONYMS will be so treated as to be a very valuable feature of the work.

Another very novel and most useful feature of this Dictionary will be the WOOD CUTS, of which about 1200 will exemplify words whose meaning can be more accurately conveyed in this than by any verbal definition.

AN EDITION ON LARGER AND FINER PAPER FOR SUBSCRIBERS will be first issued at the same price as will afterwards be charged for the common edition; viz: $7,50.

A Specimen can be seen, and subscriptions entered at the bookstore of

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, 10 Barrels good Coal, 1 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2250 lbs, worth about $6.

The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

E. A. STEVENS,

No. 46 Market Street.

From N. H. Gazette.

☞ The following communication was written for the Gazette, and handed to us by a prominent Republican of this city, who has heretofore supported all the nominees of that party, but who will give Capt. Marcy his cordial support, and desires to express his condemnation of the vile falsehoods and unjust imputations made against Capt. Marcy by the leaders of the Republican party.

[For the Gazette.]

Hon. Daniel Marcy.

We are well assured that the Democratic nominee for Representative to Congress from this Congressional District never solicited the nomination, nor is it true, as has been stated, that he ever offered a large sum of money or any sum to promote his election. It is a strange state of things, that a gentleman of the fairest character cannot be put in nomination for a responsible station without being assailed with falsehoods and party-virulence. But the false statements against the Hon. Daniel Marcy seem to be somewhat in proportion to the increasing prospect of his being elected. Were his opponents certain of electing their candidate, they would perhaps let the Democratic candidate pass without abuse. But wherever Mr. Marcy is known, the aspersions of his political opponents can do him no injury. To those who have no personal acquaintance with Mr. M. we would say, that he is a gentleman of unsullied and unimpeachable character, courteous and affable to all in his manners, and possessed of extensive information, especially in respect to commercial affairs. He is a man of business, and has given employment to hundreds, perhaps thousands of his fellow citizens. He is acquainted with many parts of his own country and has visited, in mercantile pursuits, many foreign countries. It may be said, much to his credit, that he is a self-made man, and that by his untiring industry, from his youth to this time, he has been successful in accumulating some considerable property, although it would not be called wealth in our large cities. To denounce such a man as "ignorant," as some party leaders in their newspapers have done, only betrays the ignorance, or else the perversity of those who make the charge.

Now the people want more men of *business* in Congress, and a larger proportion acquainted with commercial affairs. We are now one of the greatest commercial nations in the world. Surely, therefore, commercial men in Congress would be a public benefit. It is true that Mr. Marcy had only a common school education in his native town. He never went to *college*. Well, we review the history of our country and find some of our best patriots and eminent statesmen who never went to college. Every intelligent person knows that the nation needs more *practical* men, and less speech makers in Congress. After all the long speeches (generally made, it is said for "Bunkum,") it is the votes that tell.

It is understood that the Republican party expects or hopes to defeat Mr. Marcy's election in consequence of the slavery question. But we ask, where is the mighty difference upon that question between him and his rival candidate? Did Mr Marcy ever advocate slavery? Will any person charge him with that? The recent great contest has been in respect to the admission of Kansas—*free*, or *slave*. Now Mr. Marcy openly and unequivocally declares, that should he be elected, he would vote to admit Kansas into the Union, *as a free State*, whenever she shall apply for admission. He also unhesitatingly declares, in public and in private, that he holds to that interpretation of popular sovereignty, which gives to the people of the territories, like those of the States, the right to control their own institutions in their own way. This seems to settle the question in respect to his opinion upon the subject of slavery.

There are a number of reasons, which we need not point out, leading to the conclusion that Mr. Marcy will be elected. He is a very popular man, and deservedly so. It is said to be otherwise with his rival, and that there is also a schism in his camp. Notwithstanding all the party discipline, many of the Republican party, especially in Portsmouth will give their votes for Mr. Marcy, and they have good reasons for so doing. Are mere party ties forever to separate the true friends to their country? Are mere shades of difference of opinion to convert friends into opponents?

Should Mr. Marcy be elected, he would represent the sentiments of his district, and support the interests of his constituents. He is a true friend to his country, and the free principles upon which our State and Federal governments were established.

A Republican Lover of Fair Play.

From the N. H. Gazette.

Let Republicans Remember.

Daniel Marcy, in his speech at the Temple in Portsmouth on Saturday evening, Feb. 21st, said distinctly that he did not ask nor expect Republican votes. He said he was a democrat, and never was anything else, and had no idea of election by any but democratic votes. Let Republican workingmen, who may be appealed to for support of Capt. Marcy, throw this fact in the teeth of the person making the request: Capt. Marcy has publicly declared he wants and expects no aid from Republicans.—*Ballot.*

There are 500 citizens of Portsmouth who know that the only material statement in this article from the Ballot, is an unqualified falsehood, or as Fogg would express it, "an unmitigated lie." We have called the attention of several persons, Republicans as well as Democrats, who heard Capt. Marcy's remarks at the Temple, to this statement made upon the authority of Gen. Whittem's recollection or invention, and every one says it is a misrepresentation. We, ourself, heard no such remark from Capt. Marcy, and we have his authority for denying that he "distinctly (or indistinctly) said that he did not ask nor expect Republican votes." He does expect, and all the lying of the Ballot will not hinder his receiving, many hundreds of votes from Republicans who think "our case in court," as the Ballot tells it, can be managed quite as well by our honest and experienced business man, as by a wily, cunning, and cold-blooded lawyer, against whose election 14 good, substantial, unrefuted Republican reasons exist, as set forth in the Sanborn letter.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

Hate, Me., Jan. 20, 1856.

Professor O. J. Wood & Co.:

Gentlemen:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. Soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used none. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy, as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any one may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. Raymond.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

Finley Johnson.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodist Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

Wm. Dyer.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. Bragg.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public

These Gums remove all morbid or bad matter from the system, supplying their place, with a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

One only one dose taken before retiring, prevents nightmare.

One dose taken at night, loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve sick Headache.

Only one dose immediately relieves Colic.

One dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the stomach and makes the food digest well.

One dose, often repeated, cures Chronic Diarrhœa in its worst form, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

ONE PINT, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. This medicine is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some specious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to beautiful Brown or Husk. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

THE TWO VILLAGES.

Over the river on the hill,
Lieth a village white and still;
All around it the forest trees
Shiver and whisper in the breeze;
Over it sailing shadows go
Of soaring hawk and screaming crow,
And mountain grasses, low and sweet,
Grow in the middle of every street.

Over the river under the hill,
Another village lieth still;
There I see in the cloudy night,
Twinkling stars of household light,
Fires that gleam from the smithy's door,
Mists that curl on the river's shore;
And in the roads no grasses grow,
For the wheels that hasten to and fro.

In that village on the hill,
Never is sound of smithy or mill;
The houses are thatched with grass and flowers,
Never a clock to tell the hours;
The marble doors are always shut,
You cannot enter in hall or hut;
All the village lies asleep;
Never a grain to sow or reap;
Never in dreams to moan or sigh,
Silent, and idle, and low they lie.

In that village under the hill,
When the night is starry and still,
Many a weary soul in prayer,
Looks to the other village there,
And weeping and sighing, longs to go
Up to that home from this below;
Longs to sleep by the forest wild,
Whither have vanished wife and child,
And heareth, praying, this answer fall—
"Patience! that village shall hold ye all!"

"A HUNDRED YEARS TO COME."

O, where will be the birds that sing,
A hundred years to come?
The flowers that now in beauty spring,
A hundred years to come?
The rosy lip, the lofty brow,
The heart that beats so gayly now,
O, where will be love's beaming eye,
Joy's pleasant smile, and sorrow's sigh,
A hundred years to come?

Who'll press for gold this crowded street,
A hundred years to come?
Who'll tread you church with willing feet,
A hundred years to come?
Pale, trembling age and fiery youth,
And childhood with its brow of truth,
The rich and poor, on land and sea,
Where will the mighty millions be,
A hundred years to come?

We all within our graves shall sleep,
A hundred years to come!
No living soul for us will weep,
A hundred years to come!
But other men our lands will till,
And others then our streets will fill;
While other birds will sing as gay,
As bright the sun shine as to-day,
A hundred years to come!

Morning Chronicle.

TUESDAY, MARCH 8, 1859.

THE ELECTION.

We publish in another column a list of the State, County and Congressional nominations of both parties—of which the sovereign people (so called) of New Hampshire are to choose this day whom they will serve, or who shall, serve *them* as the case may be. We have no plea to make for either party, or for any men—further than to call upon every man who has the sovereign right of franchise, to exercise it to-day, and always; or else to forever hold his peace as to the wisdom or folly, purity or corruption, of a government which he neither opposed nor assisted to power.

In place of special electioneering matter of our own,—of which we have none to offer,—we have copied on our fourth page a column of such from the Gazette and Journal—both of which our readers will take for what they are worth. We also insert a communication from a "Liberal" correspondent, who favors Mr. Marcy's election—simply remarking that we have never refused any well-written political communication from any party or anybody, a place in our columns.

We shall probably be enabled to receive sufficient returns to-night, by mail, express and telegraph, to enable us, in Wednesday morning's Chronicle, to publish the result of the vote on most of the County officers, unless the run should be very close—and on most of the State ticket.

We are not among those who believe that the destinies of the nation and the world hang on the issues of to-day—important though those issues may be; but shall expect the sun to rise to-morrow morning, as usual, and the world to jog on much as ever, whoever is called Governor or Representative next year—the whole being subject to the "destiny which shapes our ends"—about which we need not to be troublously concerned, so that we do our duty, according to the best light we have.

It is gratifying to us to know that to all the causes of excitement now before the public, will not be added to-day, the choice of city officers. The most important part of our election has thus already been disposed of. F.

A HUMBUG POSTPONED.—The Traveller expresses the opinion that Mr. Slidell's withdrawal of his thirty million humbug scheme, from a Senate where there was considerably more than a dozen democratic majority, shows how utterly he misconceived the state of public opinion. He was defeated without coming to a vote. He dared not submit his ridiculous proposition to the test of a vote, but, under the cowardly pretence that the opposition would waste time in opposing it, withdrew it from the Senate, with some threats of what he will do in the next Congress.—Things that are deferred until to-morrow are seldom done at all; and before the time selected for the revival of his humbug, there may be a score of new things on the political carpet to monopolize public attention. The sugar island is up now, but it may be the turn of the guano islands then. It may be necessary, for our safety, to attempt to buy the Lobos Islands next year, to prevent the Chinese from taking California, and secure our Pacific commerce against the assaults of the Fejees.

☞ The term "putting your foot in it," is of legitimate origin. According to the "Asiatic Researches," a very curious mode of trying the title to land, is practised in Hindostan. Two holes are dug in the disputed spot, in each of which the lawyers on either side put one of their legs, and remain there until one of them is tired, or complains of being stung by the insects, in which case his client is defeated. In this country it is too generally the client, and not the lawyer, who "puts his foot in it."

CAUTION.—Perhaps it is not so generally known as it should be, that tin Cages, painted or Japanel, are pronounced very injurious to birds confined in them—often destroying their health and even life.—The wood-framed cages, although not quite so fine when new as the tin ones, yet are said to be much more durable and decidedly the best cages for Canary birds.

☞ The true reason for the decrease of emigration to this country, it is suggested, is that Ireland and Germany have already sent to us the disposable surplus of their population, and that hereafter emigration to this country will continue to diminish.

Cuba contains a population of about 1,000,000, which is nearly equally divided between whites, slaves and free blacks.

LETTER FROM "VERITAS."

KENSINGTON, March 2, 1859.

Messrs. Editors:—I have been enjoying a sort of Van Winkle sleep, and don't know as I should have waked this twelve month if it had not been for March meeting.

How delightful such naps, when one forgets that there is any sin or suffering in the world, and dreams bribery and corruption have ceased, rum-shops are closed, ministers preach the true evangel, and the poor are cared for. But such dreams, whether waking or sleeping, must come to an end, in our world, at least; and if we would see vice conquered and virtue prevail, in any degree, we must buckle on the harness and *work* while it is called to-day. There is a long night for rest, and a glorious resurrection morn, thanks to the Great Forerunner, as the Apostle encouragingly calls the Saviour of the world.

According to this week's News Letter, somebody in Exeter has set a good example. I should rather get up such a surprise party, than to have been the presenter of the two thousand to Mr. Stone, at the Park Street Festival. All that was said there was uttered in one paragraph by Edward Beecher. The rest was to make a pleasant entertainment. "They were not half up to the thoughts of the great word." Yes, that is it. Not *half* up.—Most think they are a little beyond, and of course need go no further.

Who supplies the pulpit made vacant by the resignation of Mr. Whiting? Have you a candidate for the office yet? When you get a man who has outgrown the love of jewelry, white linen and black broadcloth, and the sound of his own voice, ask him to preach from the text, "The Lord God omnipotent reigneth: Let the earth rejoice,"—and please give me an invitation to hear him.

It seems that out of twelve indictments found by the Grand Jury in Exeter, last last week, six were for violations of the Liquor Law. I suppose, however, they were only "poor white trash." People must not be complained of if they have money.

The Court sentenced a man for stealing a horse, to three years in the States Prison. Which does the most harm in society, the horse-stealer or the dram-seller? Which is the greatest polluter of society? Against which can we most easily defend ourselves? It would be well for those who think it such a nice thing to repeal *the Law*, and to stand in the way of its impartial operation, to ponder these questions.

Where did the immaculate Sickles get all his funds from? "Three thousand for rent, a carriage with out-riders, and five thousand worth of jewelry," out of the pay of a Congressman, is quite as much of a problem as the spending of a thousand a year, and buying farms, by railroad officials, whose salaries are put down at five hundred.

I suppose brother Sickles thought he was perfectly safe in the lady, after paying so much for her. Perhaps he would have been, in any other city than Washington. I hope they will change its name, or reform its manners and its morals.

Is the Thorndike will settled? In the last account I saw of the "hearing before Judge Ames," his agent spoke of the good man as "damning Boston," and saying that "he had become so habituated to the customs and manners of the old world, that he thought he could not *endure* a residence in this country." And yet if he died abroad, "he wished that his body might be buried there." Perhaps he thought Satan might issue a *habeas corpus* for it if it was buried in France. The old reprobates thought if they were buried in an Abbey, and clad in the garments of a monk, their bodies were safe from the claims of his Satanic Majesty. Perhaps he had a similar belief. What a pity that all who hate our institutions, were not obliged to leave Boston, and every other good city, and go to Austria, or a more despotic place, if it can be found.

Please recommend to all rich fathers, who have daughters, that they procure some portable Chinese Pagodas, in which they can place them, while at the watering places, for safe keeping. Would it not be nice? Papa could keep the key, and feel perfectly safe that no plebians were making love to them.

I heard a good story once of a dapper lawyer, who prided himself on his little feet, and little hands, and never having done any work, calling upon a lady who had married a large, stout, manly farmer. He said over all the little things he knew by heart, in the way of compliment and flattery, tapping his boot with his small cane, and pulling on his small gloves, as if he meant to make her think how fine he was in comparison with her husband. At last he made some allusion to his father as furnishing him with funds, when she replied, "that the man of her choice had a strong arm, and a large hand, and could support her without going to his father." He felt the rebuke, and was silenced. If every lady was to show as much sense and spirit, such Monboddo gentry would grow scarce, and a true type of men would make their appearance, that would not faint at the first blast of adversity, or embezzle the funds of their employers for support.

Winter still holds rule. The country, always beautiful, appears more so by contrast with the dim city. It is more grand in winter than summer, and this winter it has been like dwelling in an amphitheatre of Sheen, much of the time.

Changes have occurred even in this "pent-up Utica." Some "sleep in Jesus, and are blest," some are going to fill other stations and make other homes. Little ones have been laid in "God's Acre," till the glorious morning breaks. The good man who ministered here, has gone to labor in Turkey.

Was there ever *more* need to "pray the Lord of the harvest to send forth laborers into his harvest." Not those who leave their flocks every other or third Sabbath, but men who have a plan with reference to their people, and who are willing to spend and be spent for the advancement of the right. Such men are needed for the times. The ease with which an education for the ministry could be obtained, and the vanity apparent, has brought a great many men of mediocre talent into the pulpit, with more of conceit than sound sense, more of book knowledge than of human nature; men who think more of the individual than the mass, more of their own ideas than the teachings of Jesus. As water will not rise above its level, so a people will not long keep in advance of their teachers. True, some of the best are put aside, for those who will amuse rather than instruct, but the taste is perverted first by those who will stoop to it. Let ministers take a higher stand, and bring the people up to it. At the South they bow before the Juggernaut of Slavery: here, before the Rumseller, Caste, Fashion, Commercial fraud and dishonesty. From all such sins may we free ourselves, in the strength of Omnipotence.

VERITAS.

MRS. CUNNINGHAM BURDELL AND THE NEW YORK REPORTERS.—The Boston Evening Post has published of late a series of articles on "Matrimonial Brokerage," in which Mrs. Cunningham was made to play a conspicuous part. The writer was Mr. Alfred C. Hills, the city reporter of the Post, who was assisted by Mr. A. J. Marsh, also of the Post, but formerly of Boston. Mr. Hills went to the house of a broker in matrimony, and had interviews with Mrs. Cunningham.—He found that she was a most unprincipled woman—ready to do anything—to go south to spend the winter, or to engage in any nefarious plot. During one of his interviews he was in danger of being robbed. He found himself locked into the house with her, while she forbade him to leave, and when he attempted to rise, forced him back into his chair with a nerve and strength quite superior to his own powers. He got off finally by paying her $5 and promising to come and finish his business another day.

Mr. Hills says that those houses of matrimonial brokerage are nothing but assignation houses or worse than that. Mrs. Cunningham has published a note denying these statements, but Messrs. Hills and March have responded by publishing affidavits vouching that their assertions are true. These investigations are soon to be published in book form.

☞ In the Canadian Parliament on Thursday, the Inspector General announced that the exclusive right of trade enjoyed by the Hudson's Bay Company in their extensive territories, would probably be abrogated by the Home Government on the 1st of July.

☞ The Prince of Wales has recently been presented to the Pope, by whom he was graciously received. A visit of the blood royal of England, with a single exception, has not before been made for several centuries.

☞ A writer says that, while sitting in the gallery of the Senate Chamber, and looking down upon the assembled wisdom therein collected, he counted sixty-four candidates for the Presidency.

☞ The navy bill, as passed, legalizes the order of the Secretary of the Navy in giving ranks to engineers and their assistants, after the manner of surgeons and pursers, commanding and executive officers to have precedence.

Farm for Sale.

The undersigned offers for sale his farm of 20 acres, formerly owned by Hon. Abner Greenleaf, and more recently by Wm. Tarlton, Esq., pleasantly situated on the Sagamore river in Portsmouth, 1½ miles from Market Square. Said farm contains one of the best orchards in this city, and a large quantity of wood.

A small house and a fine large barn are situated on the premises.

Having no use for the same, I will sell it at a reasonable price.

SPECIAL NOTICES.

NECROSIS.—If there be any disease calculated to drain away the life of a man, and weaken the mind and body by its painful slowness, it is the death of any part of the bones. The **PERUVIAN SYRUP** gives support under the profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumnos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Potsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which have never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

R. R. R.

A NEW BODY.—On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-cursed body, that perfumed waters were kept constantly burning in his chamber. On the 21st., RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Resolvent; one small bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August a blemish or sore was not upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked.

R. R. R. Resolvent, 162 Bolton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

W. R. PRESTON agent for Portsmouth.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Law, delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the very able kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GAVEL, RHEUMATISM, COLIC, DROPSY, GRAVEL, DISEASES OF THE LIVER AND AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever tasted."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE GENUINE IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., Cornhill; S. E. Pecker, 20 Elm st; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. DR. DUPONCO'S
French Periodical Golden Pills,
FOR FEMALES;
Infallible in Removing Stoppages or Irregularity of the Menses.

THESE PILLS are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N. B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J. Duponco is upon each box. You will then obtain a Pill you can rely upon.

J. DUPONCO, Proprietor.

LOCAL.

REPRESENTATIVES TO GENERAL COURT.—The following, we believe, are the nominations of both parties, in the three Wards in this city, for the eight Representatives.

REPUBLICAN. — *Ward* 1.—W. H. Y. Hackett, John S. Harvey, Charles Annable.

Ward 2.—L. D. Spalding, A. T. Joy, Clement March.

Ward 3.—John Nutter, Samuel Gookin.

DEMOCRATIC.— *Ward* 1.—Peter Jenness, Wm. Rand, N. K. Raynes.

Ward 2.—John Harrat, Wm. Pettigrew, Aug. W. Odiorne.

Ward 3. — Albert R. Hatch, Sampson L. Russell.

For the Chronicle.

Messrs. Editors:—Please grant us a few lines in your independent, no-party paper, to say a last word in favor of a well-deserving towns-man.

It is not our wish to lessen the vote which the citizens of this section of the State will give Hon. Ichabod Goodwin.

But we need not say much to remind our fellow citizens that Capt. Daniel Marcy is fully as deserving of their suffrages.

It is a subject of general remark, in all parts of the Union, that before the people can expect from Congress better order to characterize the proceedings, they must take care to elect to that responsible body more business men and merchants, in lieu of mere political adventurers.

We are not of an opinion that the people of New Hampshire, are, in point of intelligence, behind the people of any other part of the Union, and it is expected that they will act with deliberation to-day.

LIBERALITY.

☞ At a meeting of the Old Folks Choir, Sunday evening, the Commitee of Arrangements for the late Charity Concert, made report—which was accepted, and the net proceeds ($21.46) voted to be paid over to the treasurer of the Howard Benevolent Society. The Choir also voted to meet for rehersal, on the first Sunday evening of every month, and adjourned till the first Sunday in April.

DEATHS IN PORTSMOUTH.—The bill of mortality for the month of February comprises only nine deaths.

Males five—aged 49 years, 55, 56, 59, 66.

Females four—aged 19 years, 33, 44, 74.

Messrs. Editors:—I hope the ship Dale may come here and be repaired at the Navy Yard,—and I cannot say that orders may not be issued to make preparations for her here,—but I am informed on what I deem the best authority, that no such orders have been received at the yard.

A MECHANIC.

WASHINGTON, March 6.—The nomination of Wiggin, as Maine Boundary Commissioner, was rejected in the Senate by a vote of 28 to 27. A reconsideration will be moved on Monday. Senator Hamlin preferred charges against him, principally incompetency.

The condition of the Postmaster General is such that he is not expected to live throughout the night. The President, members of the Cabinet, and other distinguished personages, are in attendance at his residence. Gov. Brown is about 63 years of age.

☞ Four Irishmen assaulted with intent to kill a railroad conductor between Boston and Cambridge, on Saturday night. He had put out two of them because they refused to pay. These beautiful citizens fractured the man's skull, and made their escape.

☞ Franklin D. Foss was assaulted and robbed at Barrington, on Wednesday night, by three men, who struck him over the head with a club, and then stabbed him over the heart. Their knife cut thro' pocket and memorandum books, but only a little in the breast. The books saved his life. Two of the robbers are arrested.

WASHINGTON, March, 7.—The Criminal Court of Washington will meet to-day, but will immediatly adjourn on the announcement of the death of Mr. Key.—The Grand Jury will not be empanelled until to-morrow, when it is expected Mr. Sickles's case will be immediately acted upon.

ST. LOUIS, March 7.—The California overland mail, with San Francisco dates of 11th ult., has arrived. Business generally was brisk at San Francisco, and there has been an advance in candles, coffee, liquors and provisions.

☞ Dr. Daniel R. Brown, late on trial in Boston for an abortion death, must have a new trial—as the jury disagreed, 11 for conviction, *one* for acquittal.

☞ A dispatch to the Traveler states that a portion of the spinners on the Manchester Corporation, at Manchester, N. H., struck Monday morning for higher wages.

MARRIED.

In Rochester, Mr. George W. Thompson to Hannah M. Furber, both of Farmington.

DIED.

In Newcastle, 5th inst., Mrs. Eliza J. Neal, aged 36 years, wife of Mr. Robert Neal.—4th inst., Mary Jane Neal, their infant child, aged 2 months.

In Rye, March 6th, Mrs. Louis Thomas, aged 83 years, wife of Mr. James Thomas.

Ship Judah Touro, Hanscom, fm Liverpool, for Charleston, spoken Feb. 19, lat 27, lon 68 52.

☞ By the steamship Jura, at New York, we have Liverpool dates to Feb. 18. The Liverpool Post thus summarizes the news:

The war in Oude is over. The forts have been destroyed, and 40,000 stands of arms have been surrendered.

The Begum and Nena Sahib are supposed to have fled, with their followers, into Nepaul.

Tantia Topee has suffered three successive defeats, and in all directions the remnant of the rebels have been decimated.

The Sultan is angry with the people of the Danubian principalities, and has a tolerably large body of soldiers on his own side of the river, but he knows better than to commence hostilities, and, therefore, appeals to a conference of the great powers. The conference is shortly to take place at Paris.

There is a dark spot in the East. There is, we are told, a possibility of a Turkish and Austrian army being marched into the Danubian Principalities, in order to prevent the Roumains from becoming a united people under Prince Couza, their universally elected Hospodar. France, Russia and Piedmont will object to this, and England will probably sustain Austria and Turkey.

The continental news again grows warlike. If the Emperor of the French is pacific, his cousin Prince Napoleon is decidedly warlike. The consequence is a marked division in the policy of the Empire.—The Presse had an article which alarmed the Council, and it was only after a warm discussion that a warning was given. The Prince protested against the proceedings. The Emperor, it is said, is desirous of emulating his uncle, and of tempting danger in the field of fight, and possibly Sardinia thinks he will, for in Piedmont the Court is anxious for a passage of arms with Austria. There lies the danger, for Piedmont, by a sudden movement, can inaugurate a European war. Austria, however, is courteous towards France.

CAPTURE OF A SLAVER—850 NEGROES ON BOARD.—Capt. Kirch, of the brig Frances Jane, Maganez, and Capt. Staples of the schooner Mohawk, from Ponce, P. R., report that a Spanish bark from the coast of Africa, with 850 negros on board, while attempting to effect a landing, had gone ashore about the 6th ult., on a reef on the east end of the island, and went to pieces, and is reported that the captain of the slaver had committed suicide. The authorities immediately despatched a government steamer to her, but she had not returned at the time of the departure of the above vessels.—*Baltimore Exchange.*

THE NEW SENATE contains three new Republican members in the place of three democrats, namely, Gov. Anthony, of Rhode Island, who takes the place of Gov. Allen; Gov. Bringham, who takes the place of Mr. Stuart of Michigan; and Mr. Grimes of Iowa, who succeeds Mr. Jones. All the Democratics are victims of the Nebraska bill. The Republicans may elect a Senator in Minnesota, and another in New Jersey. The Democrats gain three members at the expense of the Americans in Texas, Kentucky, and Tennessee. There are now, we think, but two Americans left in the Senate, Mr. Kennedy, of Maryland, and Mr. Crittenden; and the prospect of the election of any more Senators of that faith is not involved in any doubt—not one can be chosen.

The Republican Legislature of Michigan has refused to take the initiatory step towards allowing negroes the exercise of their right to vote. Republican votes defeated the measure. The prejudices of the people of the West against the colored race, appear to be as ineradicable as they are contemptible.—*Newburyport Herald.*

The Southern Democracy declare, that with Douglas's platform of squatter-sovereignty, the Democratic party cannot possibly carry a single Southern State in 1860; and the Nothern Democracy vehemently protest, that, without that platform the Democratic party cannot possibly carry a single Northern State. The Southern Democracy and the Northern Democracy seem to have come to a dead lock.—*Louisville Journal.*

☞ The Massachusetts war claim has at last been allowed, which is owing to the zeal, intelligence, and industry with which it has been urged by Senator Wilson.

☞ The Taunton Telegram says that there are four sisters in that town whose united weight is 935 pounds, the youngest weighing 256 pounds.

Rees' Cyclopedia says, a drop or two of the oil of tobacco placed on the tongue of a cat, produces convulsion and death in the space of a minute.

The Wheeler & Wilson Mf'g Co.
Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrelias, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2200 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repair;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which, hems of any width are turned and stitched without any previous basting, evinced the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn, fairs have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St. Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase, looking out for the money, see the machines of Wheeler & Wilson."—[Examiner.

"Wheeler & Wilson is the machine par excellence for family use, and we recommend it most emphatically."—[Advocate and Journal.

"Wheeler & Wilson's Sewing Machines combine everything that can be required in the manufacture of garments. Our friends abroad may be assured that to purchase one of them is a safe investment."—[Observer.

"Wheeler & Wilson is beyond all question THE machine for family use."—[Life Illustrated.

"There is but ONE Sewing Machine, and that is Wheeler & Wilson's."—[Judge Meigs, of the American Institute.

THE GROVER & BAKER
SEWING MACHINE CO.,
18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;
PRICE $50.
HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made.—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Worcester's Quarto Dictionary.
This work which is the result of a life's labors is now nearly completed, and the publishers expect to issue it in the course of next May.
IN ORTHOGRAPHY, it will represent the usage of the best writers in this country and England.
The PRONUNCIATION of all words will be exhibited by a system of notation easily understood; and in doubtful or disputed words the best authorities for the different modes will be given.
In ETYMOLOGY it will be found more complete and satisfactory than other work of the kind.
The DEFINITIONS will be fully and accurately distinguished, and exemplified by quotations from the best authors, of sentences valuable in themselves.
SYNONYMS will be so treated as to be a very valuable feature of the work.
Another very novel and most useful feature of this Dictionary will be the WOOD CUTS, of which about 1200 will exemplify words whose meaning can be more accurately conveyed in this than by any verbal definition.
AN EDITION ON LARGER AND FINER PAPER FOR SUBSCRIBERS will be first issued at the same price as will afterwards be charged for the common edition; viz: $7,50.
A Specimen can be seen, and subscriptions entered at the bookstore of

From the N. H. Gazette.

Several Reasons why Captain Marcy should be Elected to Congress.

1—Because the mechanics, merchants and other business men of this District need a practical man in Congress—one who knows what their interests are and has a disposition to serve them.

2—Because he is a man of character—honest, capable and reliable, and would be able to aid the commercial, mechanical, fishing and other interests of the District.

3—Because he is not a politician by trade, and is not a demagogue in practice.

4—Because it is time that the Democratic party have a Northern Representative in Congress, to correct the present tendency to sectional legislation.

5—Because Capt. Marcy holds to the doctrine of POPULAR SOVEREIGNTY in its true and honest meaning, the only policy that can give peace to the country.

6—Because he is in favor of the acquisition of Cuba, whenever it can be peaceably and honestly obtained for a reasonable consideration.

7—Because he is opposed to the Repeal of the Fishing Bounties, in which many of our citizens are interested,—and opposition to that measure, coming from a Democrat, would be much more effective than from a Republican, who would oppose everything as a matter of course.

8—Because we know him to be a worthy and upright man, a generous friend to the poor, an esteemed citizen, and a man of liberal conservative views upon political subjects, neither a fanatic nor a fire-eater.

9—Because our opponents, having the whole delegation from this State the past four years, have done nothing and said nothing for the interests of our own State, but have spoken and voted only with reference to the negro question, which ought no longer to be an issue.

We commend these reasons to the consideration of the voters in this District. We ask them all to dismiss their partizan prejudices, and go in once for Marcy, the bluff old Sea Captain.—They will never repent the vote they give for him.

Our Candidate for Congress.

Every indication points to the election of our noble candidate for Congress in this District. There is scarcely a town or ward in the District where the Democratic party will not make a good gain, and Capt. Marcy is sure to run many hundreds of votes ahead, while Marston is sure to run many hundreds of votes behind, their respective party tickets. Some of the blackguard opposition editors call Marcy "a lubberly old sea-captain," but our word for it, he is bound to make a good run this time. Capt. Marcy's the man! His election is sure, if the people of this District know what is for their honor and interest, and act upon that knowledge.

Only one Plank!

The opposition have but one plank to stand upon. That is—non extension of slavery. This is a frail one, for all of them know that slavery CANNOT be extended; and besides, multitudes of them agree that the Democratic doctrine of POPULAR SOVEREIGNTY is right after all.

Voters,

See that your names are placed correctly on the check-list. Look to your Christian and middle names and see that they are right, otherwise you may be deprived of your right to vote.

From the Portsmouth Journal.

☞ A vote for Marcy is a vote for a Representative of Southern interests—not of those of the Free State of New-Hampshire.

☞ No man can cast a vote for Capt. Marcy, and claim any alliance to the Republican party. Bear this in mind!

☞ If you vote for Capt. Marcy, you vote against the fundamental principles of Republicanism.

BE SURE AND VOTE.

Let no apathy keep any voter away from the polls. One vote may elect a Senator or Councillor. Let the friends of freedom make a grand rally for the cause of liberty. The vote of every one is needed to show the advocates of slavery, that as for New-Hampshire, she means to strike for free men, free soil, and free territories.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantee of truth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1858.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to present to the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

EMLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching to which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

PORTSMOUTH, N. H.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, **purifying the blood**, giving tone and health to the whole machinery, removing the cause of the disease, effecting a radical cure.

Bilious Attacks are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **Nightmare.**

Only one dose taken at night, loosens the bowels gently, and **cures costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose often repeated, gives **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, who are fearful that they live to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 19 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—19 Howard street, Boston.

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

Look at that gentleman's whiskers—Hutchins' Hair Dye makes them look so handsome.

DR. CHEESEMAN'S PILLS,

PREPARED BY CORNELIUS L. CHEESEMAN, M. D., NEW-YORK CITY.

The combination of ingredients in these Pills are the result of a long and extensive practice—They are called to a speedy and safe relief in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or other causes, headache, pain in the side, palpitation of the heart, disturbed sleep, which arise from interruption of nature.

TO MARRIED LADIES,

Dr. Cheeseman's Pills are invaluable, as they will bring on the monthly period with regularity. Ladies who have been disappointed in the use of other Pills, can place the utmost confidence in Dr. Cheeseman's Pills doing all they represent to do.

NOTICE.

They should not be used during Pregnancy, as a miscarriage would certainly result therefrom.

Warranted purely vegetable, and free from anything injurious to life or health. Explicit directions, which should be read, accompany each box. Price $1. Sent by mail on enclosing $1 to DR. YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in Rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M. Beck.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston,
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered on all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that no one is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has every reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved to inventors.
TESTIMONIALS.
I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

WEDNESDAY, MARCH 9, 1859.

THE STATE ELECTION.

New Hampshire has probably kept up her reputation for throwing a heavy vote; and has also elected the Governor and State Ticket, generally, of the Republican party.

Mr. Marcy, Democrat, in this city, has a large majority over Mr. Marston for Representative to Congress; and has gains in several other towns, enough to make the election appear close or doubtful.

We give below, all the returns we could procure from out the city, up to 12 o'clock last night.

3 Republican Congressmen are elected—Marston, in this district, by about 400 majority.

Footings of 67 towns give Goodwin 16,850, Cate 13,893.

In the Legislature, 105 Republicans to 36 Democrats are elected to the House which will be about the same as last year; the Republicans have also secured 8 of the 12 Senators.

The Hon. Edward A. Hannegan died on the 25th inst. at St. Louis. He was a United State Senator from Indiana from 1843 to 1849, and was then sent by President Polk as Minister to Prussia, where his unfortunate habits inflicted great discredit on the country. Mr. H. was of Irish origin, an eloquent, impulsive, warm-hearted man, whose single failing, though a sad one, was counterbalanced by many generous qualities. A brother-in-law fell a victim to his fury in a drunken quarrel some four or five years ago, and his life as a whole, might serve better to "point a moral" than to "adorn a tale," His age must have been from 55 to 60.—*Tribune.*

☞ A young lady of Lockport, N. Y., recently went to St. Paul, Minnesota, to meet her betrothed and fulfil her engagement to be married. On her way she met the downward stage, which contained the corpse of her intended husband. This she did not learn until she arrived at St. Paul, whence she was obliged to return to take charge of the remains of her lover.

A personal liberty bill has been reported from the Judiciary Committee of the Pennsylvania House, and a time appointed for its consideration. Its purpose is to nullify the fugitive slave law, and to grant fugitives the right of trial by jury. It also prohibits the use of the jails for the detention of fugitives, and permits Judges to release them upon bail, without a minimum limit.

☞ Rev. William Silbee, of Northampton, Mass., while riding in a sleigh, on Sunday of last week, to the hospital, where he was to preach, met with an accident which came near destroying his eye-sight. The damp snow caused the horse to "ball" badly, and a very hard ball was thrown from the horse's foot, which struck Mr. S. in his eyes, and has temporarily deprived him of sight.

THE POST OFFICE APPROPRIATION BILL. This bill failed to become a law, and in consequence the funds for that Department will be exhausted in June next. The President intimates that he should call an extra session of Congress on this account. The responsibility for the failure of this appropriation rests entirely on Senators Toombs of Ga., and Mason of Va., who talked against time till the adjournment of the Senate and so prevented the passage of the bill.

A SOCKDOLOGER.—An "unfortunate" clergyman undertook to give out a hymn, in which the word doxology occurred, but as he could not get hold of the word, he requested the congregation to sing four verses and a sockdologer.

COLONIZATION.

Not many years ago, a thinking and reasoning friend suggested that there was little or no voluntary emancipation of slaves now going on in the southern states, which suggestion was founded on some statement to that effect, which he had seen.

But we have now before us, an article from the Baltimore Sun of a late date, stating that the Colonization Society had received application for the settlement, in Liberia, of one hundred and seventeen slaves, generously destined by their proprietors for freedom in Africa. Mr. D. B. Burgess manumits and destines for Liberia thirty-nine. That is, he voluntarily divests himself of property—property acknowledged and secured to him by the laws of Virginia—to the amount of nearly twenty thousand dollars: Mr. John Sale manumits, for the same purpose, thirty-one slaves worth about fifteen thousand dollars; Mr. Robert Hutchinson, nineteen worth about ten thousand dollars; Mr. W. S. Owens, the same number, and worth the same; and Miss Sarah B. Jones of Charleston, South Carolina, nine more, worth about five thousand dollars.

This, says the Baltimore Republican, "is genuine philantrophy; a philantrophy which, following the impulses of duty and benevolence, makes a great and present sacrifice, for the future good and happiness of others."

The Sun must take care how it shines on emancipation in this manner; for there is a dreadful *fear* in many quarters of one word uttered against slavery.

It is manifest, from the above, that there are people and papers, at the South, who do not believe the doctrine of the following extract from Judge Taney's opinion in the Dred Scott's case.

"The African Race was 'so far inferior that they had *no rights which white men are bound to respect*; and that the negro might *justly* and *lawfully* be reduced to Slavery for his benefit.'"

These wholesale emancipations give it the lie—posterity will stamp it with infamy.

THE DOCTORS AGAINST SWILL MILK.—The New York Academy of Medicine, after months of investigation have adopted a report against swill milk. Analysis shows that this milk has a surplus of acid, is deficient in akali, and entirely wants the phosphoric ingredient found in pure milk. The diseases produced by its use are marasmus, cholera-morbus, dropsy on the brain, and others akin. In the flesh of swill fed cows a fluid takes the place of fat in the tissues, and the beef shrinks in cooking. The physicians are unanimous in their opinion that the swill milk is detrimental to health, and they propose a remedy, that milk-dealers shall procure licenses to sell pure milk, and shall be subject to severe penalties for selling swill milk.

THE GREAT REFORMER.—An eminent American divine in addressing some students, said, "I am glad that Luther had a good digestion as well as a great soul, for the reformation would have been delayed had he been a dyspeptic."

THE POOR OLD MAN.

BY JOHN F. COLES.

I'm a poor old man with palsied limbs,
My eyes are dimmed with tears,
For sorely has my heart been bruised
In a life of forescore years.
I'm all alone in this wide, wide world.
No kith or kin have I,
My wife and children all are dead;
And yet I fear to die!

My wants are few—for youth's desires
By age have all been tamed;
I am too weak to labor now,
To beg I am ashamed.
I have no home to call my own;
Beneath some lodge I lie;
And count the stars as I fall asleep;
And yet I fear to die!

I'm very faint, for I have walked
Ten weary miles to-day;
Beneath the summer's burning sun—
My strength is giving way.
Within yon oak's alluring shade
I'll lay me down to rest—I hope
I am not going to die!

Ah me! how very dark it grows;
My eyes no longer see;
And yet it seems a thousand eyes
Are gazing all at me.
Can this be death? and is it thus
He enters earth's last tie?—
My shortened breath still shorter grows—
I fear I'm going to die!

But look! what beauteous form is that
All radiant with life?
I've seen that lovely face before—
Great God! it is my wife!
And by her side my children stand,
Their children hovering nigh,
Their little arms outstretched to'ard me—
I hope I'm going to die!

And hark! what angel strains I hear
From Heaven's seraphic band!
Sweet angels have been to welcome me
To their bright Spirit-land.
Sing on, sing on, dear Spirit-friends,
I'm gently drawing nigh
Farewell to earth, a long farewell;
Thank God I'm going to die!

Religious conversation is as unpleasant to the ears of a profligate, as is profane and bawdy language to the senses of the christian; the two are dissimilar in their whole natures; one breathing a holy and Christ-like influence, the other, a miasmatic and polluted atmosphere.

DIED RETURNING FROM A BALL.—Miss Laura Stratton, a young girl, while on her way home Tuesday night from a military ball given in Baltimore, became so ill that she was forced to seat herself on a doorstep. Her brother ran for a physician, but on returning with one found her dead in her ball attire. She died of congestion of the heart.

OUR BOSTON CORRESPONDENCE.

BOSTON, March 7, 1859.

Dear Chronicle:—The closing agitation of Boston, last week, was the removal of the Post Office about five o'clock Saturday P. M., despite the countermanding telegraphic despatch published as from Washington. A Post Office clerk informed me at five o'clock that those dispatches were bogus. Postmaster Capen was ill, but the work of removal went on—perhaps the better; for there are some who think tar and feathers might have been agitated had he been there in person. A crowd was gathered at both the old and new sites, as the matter went forward, and there was some excitement and some hard words.

For some days past his movements and contracts have been pretty freely considered to be a swindle. But probably he has merely feathered his own nest a little—just for warmth. An account is current that he receives, or is to receive, seven thousand and five hundred dollars per year for *twenty* years to come, as his share of gain from this change. Some think there is a purse of ready money for him besides. Of course the thousands who will have to daily and oftener travel a mile or so further for mail matter in consequence of the removal, don't like it; while those others, who have just that much less distance to travel, *do* like it. Real estate holders are in a similar mood. Many persons who have been shaved in State street are glad that it is to lose so much of its importance.

It is amusing to see the varied opinions of newspapers concerning matters actual. The Boston Journal, located in State st., thinks the accommodations at the new building are hardly better than at the old; the Transcript, located yet nearer the old Office, says some pretty hard things both of the manner and fact of his action, condemning the accommodations and sneering in a small way at its appearance and the movement generally; while the Saturday Evening Gazette, located much nearer Summer st., but which generally accords with both Journal and Transcript, speaks highly in favor of not only the removal and the man who makes it, but also speaks mainly in praise of the very superior accommodations the new establishment affords.

Their interest seems to sadly sway either their opinions or their expression of them. Perhaps this is a fair index of the real uprightness of the prominent portion of the Boston Press.

Even the discussion of the merits of the Sickles murder has yielded somewhat to the Post Office broil. Sickles, it is now said, however, is not so pure in his own morals as he might have been, and so some think he had no right to kill his wife's seducer. The omission of those he had injured, to kill him, seems to be considered a cogent reason why he should have omitted to kill Key.

The next preceding sensation of the week was the Mount Vernon Ball, Friday night and Saturday morning. One very aristocratic lady remarked next eve that she was not present during the pressure of the crowd—she did not go till *five o'clock!* And, indeed, without a high sense of exclusiveness, one might well hesitate to mingle in such a jam. Ladies' dresses crushed, torn and draggling—hair pulled by epaulettes or awkward officers' shoulders—hungry belles, and anxious, important beaux, striving for refreshments when off the floor, and for room to move in when on it, made up too large a portion of the scenes of that occasion, and took much from the pleasure of participation in them. The simple fact was, there were too many tickets sold—a fact for which there seems but little excuse.

The decorations inside the building were in better taste than at the Tiger Ball three nights previously; and a pleasant bewilderment of sense was induced by several immense mirrors around the area to partly duplicate the lively scene. In the decorations, outside especially, the star and crescent seemed to have an unpleasant and uncalled for prominece. Two enormous banners of scarlet were displayed on Washington street, at Theatre entrance, with a huge white crescent and corresponding star, in the most conspicuous positions of all, largely concealing the American colors. One would have supposed that Turkey had done some fine things for Washington some time, and for America always.

Pecuniarily, the Ball was a great success—netting some thousands of dollars to the Mt. Vernon fund. Probably $75,000 were expended in preparations and all by the five thousand people present, so that it is plainly not for want of money that our people do not at once complete the purchase of the sacred estate.

There were several very elegant and even beautiful costumes worn, and the collection of living beauty was decided to be quite equal to expectation. So much for the first Mt. Vernon Ball. There will probably be another next winter, and the unpleasant jam of excessive numbers present will probably be prevented. Many would shrink from attendance if there were to be no limit to the crowd and consequent discomfort.

The Masquerade Ball has not been announced yet, and so much time has now elapsed, it will very likely be postponed till next season, as the dancing floor is to be removed from the Theatre by the middle of this month if not before.

The death of Mr. Sampson, publisher, has been much lamented, the past week, and is and will be seriously felt by the house of which he was a most important member.

The Atlantic Monthly is called a *sure* success now. It has been commended in Europe—London, at least, it is said. It is termed an American triumph, but there is little of the distinct American in its nature. A great object has been to find foreign praise, or at least favorable notice;—and it is so with too many beside the managers of the Atlantic Magazine. No matter how much ignorance of us or of our institutions or nature a prominent foreign authority or personage exhibits, praise from that source is thought and sought as the one sweet morsel. And to those integrate specimens who visit us we *toady*, and offer our best hospitality. They go home and falsify us to suit the prejudices of those they return among. We grin and bear it, and sometimes groan, but there are those who never omit to toady again the next opportunity. From the Dickens visit years ago, to the more recent case of a miserable writer named Grattan, these visits and reports of foreign scribblers have usually been mutually disgraceful to them and to us—to us for toadyism—to them for willful falsehood.

BERNARDE.

☞ In Lowell, Mass., as we learn from the Citizen, the shanty of Mary Ann Kennedy was entered on Friday, by the Marshal and his force, and all her liquor destroyed; she was arrested and committed to jail for another crime.

The officers also paid Mary Ann Macklin, an old offender, in a low groggery, a "surprise visit," and succeeded in capturing a quantity of "certain death," which was destroyed; the parties escaped by the back door, and left for parts unknown.

☞ A nephew of the Emperor Theodore, of Abyssinia, arrived at Alexandria, in Egypt, toward the end of January, on his way to visit the Emperor of France.—He was accompanied by his father confessor, four armor-bearers and twenty servants. He has some unique presents for Napoleon.

SACO, March 7.—The picker room of the York Manufacturing Company was destroyed by fire this afternoon: the remainder of the building was saved. Loss about $15,000.

☞ Washington news of March 7, leaves P. M. G. Brown barely alive, just breathing. Sickles was not tried on Monday, and may not be for some days.

☞ To-day, (Wednesday, March 9,) is Ash-Wednesday, the beginning of Lent.

SPECIAL NOTICES.

NECROSIS.—If there be any disease calculated to drain away the life of a man, and weaken the mind and body by its painful slowness, it is the death of any part of the bones. The PERUVIAN SYRUP gives support under the profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

R. R. R.

A NEW BODY.—On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 31st, RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. R. Relief; one small bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin emitted but a most offensive effavia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the R. R. R. remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—this causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered by all the fairest in the land. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes Tan, Sunburns, Blotches, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers generally.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is celebrated for its fine aroma, flavor of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it the favorite Gin of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, GENERAL DEBILITY, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, SCRICTURE DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Western States, as well as for travellers exposed to changes of water and climate.

For sale in quarts at twenty five cents, and in pints thirty eight cents, by all druggists, grocers, liquor and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pucker, 20 Elm st; J. Moran, 116 Blackstone st.; M. Davis & Co., 56 Blackstone st.; R. DR. DUPONCO'S French Periodical Golden Pills,

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tutts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Vondervant. They will supply dealers at the Proprietor's prices, and also send the Pills to the ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N. B.—Ladies will be particular in asking for 'Dr. Duponco's Golden Pills.'" Observe the signature J. Duponco is upon each box. You will then obtain a Pill you can rely upon.

LOCAL.

STATE ELECTION.

Tuesday, the day of our State Election, was a remarkable day as to weather, being a cold rain, wind north easterly, travelling ice and slosh.

The day was celebrated something like the 4th of July, by being begun the night beforehand, when from 9 o'clock till midnight and past, there was a succession and variation of drumming, patriotic yells, and drunken hootings.

And on the great day itself, which was "ushered in" at 10 o'clock, there was a large expenditure of wind by brawling patriots under the influence of noisy rum. The principal harm done by these poor fools, was done to themselves by exhibition of their weak side in the streets to all passengers and spectators.

In the ward Rooms, at the polls, we believe there was order and good nature.

In Wards 1 and 3, the democratic ticket for Representatives was elected; and in Ward 2, the Republican.

Representatives Elected.—Ward 1, Peter Jenness, Wm. Rand, Nath'l K. Raynes.

Ward 2, Lyman D. Spalding, Alfred T. Joy, Clement March.

Ward 3, Albert R. Hatch, Sampson L. Russell.

[For the Chronicle.]

The side-walks, oh, the side-walks, where are they? Lost under the snow, ice, slush and water. Is there no law or gospel that can and *will* dig them out? What good walking it might be, through all the city proper. There is nothing surprises us more, than to see the bad condition of our side-walks, before the houses of some of our best citizens, certainly not otherwise wanting in public spirit. It can't be niggardness. It can't be sloth. It can't be private pique at the public. It can't be republicanism or democracy. It can't be for the pleasure of seeing people incommoded. It can't be ignorance or blindness at the abominable condition of things.—Really it is difficult to account for it, when an hour's work with the shovel would achieve such public good. And, we should rather see it done on gospel principles. "Good will to men"—women and little children. But if the gospel won't do it—can't the *law?* Won't the Mayor bestir himself, or the Aldermen and Councilmen? Were is the Street Commissioner? He was not lacking in summer service; does winter freeze up his duties? We invoke the city authorities. As sound democrats, having the good of the people at heart, we beg you not to let slip this opportunity of proving your principles, and benefitting thus your fellow citizens. *Clear the side-walks,* and you shall have the hearty thanks, if you can't have the votes, of *everybody.*

—— INCHES.

Yes indeed, clear the side walks, in some places where it can be done. But his royal highness, Jack Frost, the Ice King, has ruled this winter, so wisely and so well, that in many streets the ice and snow in the middle of the street is a foot or two above the side-walk, so that water must flow there for a while. It is the duty of the city to see that the water gets off, and by the help of the sun and some pickaxes and crowbars, they are doing it.

CONGRESS.

WASHINGTON, March 7.

SENATE.—*Extraordinary Session.*—Mr. Seward's res lution calling on the Secretary of War for copies of contracts which have been made for the removal of the obstructions of the mouth of the Mississippi, the amount expended ther for, and to whom paid, was adopted.

Mr. Brown presented a memorial from Messrs. Pellibone and Boleter, binders of extra documents for the Senate, alleging tha owing to the small amount of binding they have had, as contrasted with previous years, they have lost money, and therefore ask indemnity.

On Motion of Mr. Mason, the memorial was tabled—42 against 5.

☞ Steamer Europa, at New York, brings Liverpool dates to Feb. 19.

The latest Continental rumors are more warlike, and military preparations continue. It was reported that a camp of 100,000 will soon form at Toulon.

The House of Commons had passed a resolution in favor of a loan of £7,000,000.

England proposes to reduce her Home Colonial forces, but to raise the Indian.—This is considered an indication of the government's faith in maintenance of peace.

The Vienna correspondent of the London Times says,—Information has been received from France, removing all doubt as to the intentions of Napoleon, and it would not be surprising to see an Austrian army put suddenly on war footings. 650,000 men could be fully prepared for action in six weeks.

A NEW PLANK IN THE DEMOCRATIC PLATFORM.—At a Democratic meeting held in Sumner County, Tenn., the following resolutions were passed:—

"Whereas, we have in this community a secret order known as Odd Fellows, who have monopolized to themselves an undue proportion of office, and done other acts and things inconsistent with the principles of the Democratic party, and supposing the same to be the case elsewhere, therefore be it

Resolved, That as Democrats we cannot consistently vote for a candidate for office who belongs to a secret order, be he Know Nothing, Plug Ugly, Odd Fellow, or what not."

The Newark Daily Advertiser is responsible for the following:

James W. Hoyt, Collector for the town of Wallkill, N. Y., has attached, and offers for sale, "A pair of Bloomer Pants," the property of Mrs. Dr. Lydia Hasbrook, in satisfaction for taxes due said town by the lady doctor.

True: he did; and made a donkey of himself at the same time.

☞ At Bath, Me., March 7, the Municipal election resulted in the election of the Republican ticket, excepting four vacancies in the Common Council. The vote for Mayor was: Israel Putnam, Republican, 533, Oliver Moses, Democrat, 339.

NATIONAL CONVENTION.—The subjoined paragraph appeared a day or two ago in the Wellsburg (Va.) Herald:

A project is on foot at Wheeling to have the next National Convention of the opposition to the Democracy, to nominate a candidate for President, held in that city, with a very fair prospect of success. No better place can be found, that we know of, either regarding the location of the place or the policy of holding it there.

FASHIONABLE DISEASES.—Hall's Journal of Health affirms that diseases come and go as do the fashions. Once, 'everybody' had the dyspepsia, then clergymen's sore throat was the rage, and now, don't every third person have some form of neuralgia?

The emperor of Cochin China was so alarmed at the comet that he fastened himself in a tower with poison and a cord, in order to put an end to his existence in the event of its causing any disaster.

WASHINGTON, March 8.—Postmaster General Brown died this morning.

☞ Rev. Mr. Stebbins of Portland has declined an invitation to settle in Chicago.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mfg Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and stitched without any previous basting, since the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Missisippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see the machines of Wheeler & Wilson."—[Examiner.

"Wheeler & Wilson is the machine par excellence for family use, and we recommend it most emphatically."—[Advocate and Journal.

"Wheeler & Wilson's Sewing Machines combine everything that can be required in the manufacture of garments. Our friends abroad may be assured that to purchase one of them is a safe investment."—[Observer.

"Wheeler & Wilson is beyond all question the machine for family use."—[Life Illustrated.

"There is but ONE Sewing Machine, and that is Wheeler & Wilson's."—[Judge Meigs, of the American Institute.

SEWING MACHINE CO.,

18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;

PRICE $50.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Worcester's Quarto Dictionary.

This work which is the result of a life's labors is now nearly completed, and the publishers expect to issue it in the course of next May.

In ORTHOGRAPHY, it will represent the usage of the best writers in this country and England.

The PRONUNCIATION of all words will be exhibited by a system of notation easily understood; and in doubtful or disputed words the best authorities for the different modes will be given.

In ETYMOLOGY it will be found more complete and satisfactory than other work of the kind.

The DEFINITIONS will be fully and accurately distinguished, and exemplified by quotations from the best authors, of sentences valuable in themselves.

SYNONYMS will be so treated as to be a very valuable feature of the work.

Another very novel and most useful feature of this Dictionary will be the WOOD CUTS, of which about 1200 will exemplify words whose meaning can be more accurately conveyed in this than by any verbal definition.

AN EDITION ON LARGER AND FINER PAPER FOR SUBSCRIBERS will be first issued at the same price as will afterwards be charged for the common edition; viz: $7,50.

A specimen can be seen, and subscriptions entered at the bookstore of

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, **10 Barrels good Coal,** 2 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2200 lbs, worth about $6.

The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

Thousands have been sold and give perfect satisfaction. Try one.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman of Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, per directions, will have no occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any one may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 28, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FRANCY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodist Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, Jan 19, 1858.

Professor Wood—DEAR SIR: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 30 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS,

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public

These **Gums** remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, **purifying the blood,** giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

One dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two tea spoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose on retiring for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type,** operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be misled from the right path by those who by trying experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been tried by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in Rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M.Beck.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of* 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the specification of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL. AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8, 1858.
Mr R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, MARCH 10, 1859.

NEW HAMPSHIRE ELECTION.

The results of the election on Tuesday prove the strength of the republican principle and the republican party to be very great, especially in the first Congressional district, where all the ordinary and some extraordinary means were used to carry the election for the democratic party, so as to elect Capt. Marcy as a Representative to Congress.

It will be seen, on analyzing the Portsmouth vote for Governor, that Capt. Goodwin received more votes this year than either Cate or Haile received last year—and by looking at other votes, it is clear that the republican party held their own and gained a little; but then Mr. Cate of the democratic party gained largely, chiefly by an avalanche of Irish voters naturalised for the occasion

Then the democratic party nominated for Congress their very best man, their most promising and popular candidate, who had the confidence of the Buchanan men, as he would not sign the famous straddlebug circular—and who was supported also by the Gazette, whose editorial head was lately chopped off because it favored Douglas and squatter sovereignty.

The republican candidate, on the contrary, was not the most popular or promising by a dozen at least within his district;—and there was very serious disaffection towards him, which was expressed before election, and is to be seen in the returns.

The anti-slavery feeling and principle, with the now consolidated condition of the republican party, however, triumphed over these great obstacles, and sent its Representative to the next Congress, keeping the delegation unbroken.

The New Hampshire Statesman extra of Wednesday morning says:

We think that the majority for the republican candidate for Governor will exceed 3000; that the majority for Mr. Marston will not be less than 500; that Mr. Tappan is re-elected by from 800 to 1000; and that the majority for Mr. Edwards will be in the neighborhood of 1000.

Two Councillors are not heard from.—The republicans may have 7, 8 or 9 Senators; probably 8, of the 12.

There has been, as the figures show, a considerable gain for the democratic party, in the popular vote, of which the Statesman says:

We beg leave to suggest that upon none of the conflicts since 1854, did the Democrats bestow so much labor nor half so much money as during that now brought to so satisfactory a close. And never were the Republicans so persistently and atrociously, because wrongfully, assailed, as now. That these falsehoods have had effect upon many Republicans, it is folly to deny. But, thanks to the common sense of the people, we have triumphed whilst encompassed with many embarrassments, inevitable to parties in power.

LETTER FROM KEENE.

KEENE, N. H., March 7, 1859.

Messrs. Editors:—Political meetings have been in vogue here for the last few days. "Coming events cast their shadows before," and these meetings foreshadow and betoken the coming election. The Republican Party is strong in Keene and "Old Cheshire," and it is to be hoped that through no remissness or neglect of theirs, will the battle be lost.

An effort to aid in the purchase of the Mount Vernon Estate, has been made by the Ladies of Keene. One hundred and thirty-four dollars and eighty-three cents have been raised. The "Neptune" Fire Company has recently made a donation of Fifty Dollars to the Association. This is very generous. Between you and I, Messrs. Editors, I do think there is something very "*humbuggish*" about this Mount Vernon business. That the present proprietor of the Washington domain, should wish to make a successful speculation out of the veneration which is felt for Washington's memory, can easily be understood; but that is no reason why he should receive a hundred and fifty thousand dollars, more or less, than the estate is worth. And then, after the ladies have bought, Virginia will control it, and it reverts at length to her. Is it not so, or am I misinformed?

Movements are tending to the establishment of a Keene Library. We need a Public Library, and a good one. A poor one will be worse than none. The scheme was started by offering two hundred shares at five Dollars each, which have mostly been sold.

A Young Men's Christian Association has recently been formed here. May it prosper, and be the means of doing much good.

Our streets are now very "sloppy." The weather is mild, and there are indications of rain. We have had a remarkable winter for "sledding." There is much ice beneath the last snows, especially on our sidewalks, and in our streets. Seldom have we had so much ice as there has been this winter. Though we have had but little rain, still, almost every snow storm has had its feathery flakes fastened down by hail or rain, so that we have not had many drifts here, though in the surrounding towns there are deep drifts which threaten to make travelling very difficult before long.

Some of the "sweets of life," are found in Keene, as Maple Sugar has already been offered in our market, this spring.

Before this reaches you, New Hampshire's voice will have gone forth to the country and the world. God grant, that, firm as her Granite Hills, she may peal forth, with clarion notes, lofty as her Mt. Washington, and clear as her Northern breezes, the glorious shout, "New Hampshire true to Freedom! New Hampshire for the Free!" As for "Old Cheshire," I think I may, with confidence say, that, like her stern old Monadnock, lifting his hoary head among the clouds, she will stand the trial, and breast the storm.—"God speed the Right!" QUI.

P.'S.—Tuesday morning.—Mercury at 36°, and raining.

WILLIAM H. SEWARD.—The name of Senator Seward is so often mentioned in connection with the Presidency, that a portrait of him as drawn by the Boston Transcript, may not be unacceptable to our readers:—

"What man is there who can pretend to describe him? We see a short delicately made man, with a singular looking, wrinkled face and Roman nose, a head calculated to puzzel Spurzheim, covered with short grey hair, not very tidily brushed; bushy, grey eyebrows, overhanging eyes most remarkable for their brilliancy of expression; clothed in attire neat to precision, but negligently worn.—We hear him speak, and his voice is poor, evidently injured by the long and prodigal use of snuff, his delivery careless even to slouchiness, leaning against his desk with his hands in his pockets, his only gesture made with his head, which rolls about almost independently of his body; thus deliberately, and more in the tone of conversation than that of debate, he pours out the most beautiful specimens of rhetoric, the clearest logic in language of Saxon purity, the profoundest axioms, prophecies that never fail, legal aphorisms true as the statutes, illustrations drawn from every source which literature has reached—all clothed in language not one word of which need be blotted out. He never says a foolish thing."

DOUGLAS AT THE SOUTH.—The Democrats of Griffin, Georgia, have passed a resolution condemnatory of the course of Stephen A. Douglas, as disorganizing and destructive of the rights of the South, and pledging their utmost efforts to defeat his election should he be a candidate for the Presidency.

☞ The unclaimed dividends in the Bank of England amount to over five million dollars.

THE POST OFFICE APPROPRIATION.

The Post Office Appropriation bill, which did not, become a law through the inaction of the Senate, was one of the most important before Congress, as will be seen by the following synopsis of its contents:

For inland transportation of the mails	$12,623,000
For compensation of Postmasters	2,875,000
For compensation of Clerks	950,000
Miscellaneous expenses	629,000
For deficiencies and arrearages for the present fiscal year	3,338,000
Total	$20,425,000

The responsibility of defeating the appropriation should be clearly settled upon the right parties. That it may be seen who they are, we copy from the Boston Journal the following brief statement of the vote progress of the bill:

It originally passed the Senate, Feb. 26, without the clause raising the rate of letter postage, which was, however, appended to the Senate's Post Route bill. The House also passed the Senate Appropriation bill, but with certain amendments which sent it back to the Senate. The pro-slavery Senators now—by a vote of 29 to 28—engrafted upon it the same postage-raising clause which they had put upon the Post Route bill. When the bill, therefore, returned to the House with this new rider, intended to raise the revenues of the government, and put in the shape of a virtual menace to the House either to submit to the Senate's dictation in favor of high postage, or else take the risk of defeating the appropriation—the House had no alternative. The Constitution expressly says:

"All bills for raising revenue *shall originate in the House of Representatives;* but the Senate may propose or concur with amendments as in other bills."

Mr. Grow moved that the bill be returned to the Senate with a respectful message setting forth the objections of the House to entertain it in its present form. The motion was carried by the heavy majority of 117 to 76; and so the bill went back to the Senate. A Conference Committee followed, which decided to report a new bill, which was the *original* bill exactly as it first passed the Senate. This was taken up in the House, passed through all its stages without opposition.

It came up in the Senate in the forenoon of March 4. Mr. Toombs began to discuss it, declaring that "between duty and expediency *he* would not hesitate, whatever might be the course of other men," and that he wanted to rebuke both the House and the Conference Committee. When the bill came up to its second reading, Mr. Toombs objected, which, under the rules of the Senate, made action upon the bill that day impossible. Mr. Seward, as a test question, move that the bill have its second reading; and Mr. Toombs renewed his objection. Mr. Bayard and Mr. Mason followed with speeches of the same cast as that of Mr. Toombs, thus deliberately consuming the Senate's time. Mr. Fessenden pledged the Republican side of the Chamber to an affirmative vote. Mr. Stuart and Mr. Douglas deprecated the unreasonable attitude of the Administration Senators. A majority of the Senate, it has been stated on good authority, were desirous of voting, and thus saving the appropriation. But all was of no avail.—Mr. Toombs took the floor again, and in the midst of his protracted remarks the clock struck twelve, and the 35th Congress was no more.

The narrative speaks for itself. The defeat of the Post Office appropriation is clearly and exclusively owing to Robert Toombs and his Administration coadjutors in the Senate. Their motives will doubtless transpire by and by.

WORTHY OF NOTE.—"Now, sir, as I understand it, there is not a slave State in the Union that denies the free colored man access to her Courts. The ways to their courts of justice are highways, along which all free men may press their steps in search of justice and equity."

Thus spake Hon. Clark B. Cochrane, Republican member of Congress from New York. What a confession from such a source! How it gives the lie to that oft-repeated charge that "the black man has no rights which the white man is bound to respect," in the slave States. Remember this admission of the truth.—*Eastern Argus.*

We wonder that the Argus does not know *who* it is that said "the black man has no rights," &c.—It was Judge Taney, in his famous opinion in the Dred Scott case! And does Cochrane tell the truth, and Taney tell the lie? Will the Argus answer?

Again, Cochrane made his remark, above cited, in condemnation of that contemptible provision in the Oregon Constitution, which prohibits a negro from bringing or maintaining any suit in her State Courts. This is worse than any slave state has done,—and yet Oregon is called a free State.

☞ At Indianapolis, a few evenings since, a little girl "wanted to go to heaven," and in order to accomplish her desire she procured a vial containing laudanum, of which she drank. She was, however, found before the narcotic draught had caused the child's death. The little creature was, with some difficulty, restored to consciousness and the embrace of her loving parents.

The scarcity of grain in many parts of Canada is said to be such that the farmers will find it impossible to procure the necessary seed for spring sowing.

☞ The peach crop has not been killed in Ohio, but is not yet quite out of danger. That it should escape, there or elsewhere, is something too unreasonable to be expected. Killed it must be, by some process or other. The idea of cheap peaches is enough to set dealers in them crazy.

☞ The Springfield Republican says it is given out that there is to be a reduction of ten per cent. in the wages of the operatives at the armory in that city, which has caused much dissatisfaction among the workmen.

A Havana correspondent writes:—"A Spanish friend asked me yesterday, 'What if the Spanish fleet should go and bombard New York?' I could not imagine such an absurdity, and told him so. He said to a Creole with me, what would they do in New York, if 10,000 soldiers should land there? A Yankee Captain sitting by, says, 'if the soldiers behaved themselves they would not be troubled, but if they made any disturbance, they would be put into the station-houses.' Spaniard says—'*Quien Sabe.*'"

COAL VS. WOOD.—The Danbury and Norwalk (Ct.) Railroad, which has just declared a semi-annual dividend of three per cent, has been experimenting with coal instead of wood, for fuel, and finds that where wood costs fifteen cents per mile, the cost of coal is only seven cents and six mills, or a fraction over one-half. This is also the result of various experiments made in this vicinity.—*Lowell News.*

☞ A Registration bill failed in the New Jersey Legislature last Wednesday by a close vote. How an honest man can oppose registration it is not easy to see.

THE MARRIAGE QUESTION.—In the British House of Commons Lord Bury has obtained leave by a vote of 155 to 85, to introduce a bill legalising marriage with a deceased wife's sister.

The famous Seventh Regiment of New York has contributed $2000 to the Mount Vernon fund.

SPECIAL NOTICES.

NECROSIS.—If there be any disease calculated to drain away the life of a man, and weaken the mind and body by its painful slowness, it is the death of any part of the bones. The PERUVIAN SYRUP gives support under the profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, as those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumnos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which have never failed of curing all Throat and Lung Disease as yet. Consumption can no longer claim its prey.

A NEW BODY.—On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 21st., RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Relief; one small bottle of Ready Relief to a bathing-tub of water. Two oz. of RADWAY'S REGULATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin seemed to ooze offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original receipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Botes and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find in its adoption a sure relief from those distressing maladies which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER is genuine.

DR. DUPONCO'S French Periodical Golden Pills,

FOR FEMALES.

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are not the Quack nostrum, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J Duponco is upon each box. You will then obtain a Pill you can rely upon.

EXTRA SESSION OF THE SENATE

WASHINGTON, March 9.—Mr. Trumbull desired to make a personal explanation, touching an editorial in the Union, and also touching a statement in the same paper, by Mr. Clingman, on the defeat of the Post Office Appropriation bill, throwing all the responsibility of its failure on the Republicans. Several Senators objected, and the matter dropped.

Geo. W. Jones, ex-Senator from Iowa, was nominated to the Senate as Minister to New Grenada, and the nomination unanimously confirmed. Mr. McLane, the new Minister to Mexico, left this evening, en route to his mission. The President has notified the Senate that he will require attendance until Friday, when he will send in the name of the new Postmaster General.

☞ Judge McClure of Pittsburg, has announced that he shall refuse applications for divorce made to him in every case where a possible excuse can be found for so doing. His reasons for this declaration is, that by the multiplicity of applications, which have of late come before him, he is led to believe that an absolute disregard for the marriage relation is spreading rapidly among the lower class in that vicinity.

The democrats of the second congressional district of Connecticut are quarrelling, which may serve to balance the domestic dissensions of the opposition in the first district. Both districts were closely contested in 1857, the opposition carrying the first by 437 majority, and the democrats the second by 497 majority. These figures do not afford much margin for bolting.—*Traveller.*

John Bancroft, a colored convict in the State Prison, Charlestown, and the principal actor in the fatal tragedy which occurred at West Roxbury on the 30th of October, 1856, resulting in the murder of Mr. Henry Sweetser a worthy farmer of that town, died at the prison on Saturday afternoon. He was fifty-eight years of age, and was serving a sentence of twenty years for the crime of manslaughter.

A poor widow in New York, who was obliged to ask the aid from a charitable society to pay her rent, was found at work upon men's cloth caps, which she was making for two cents apiece. Working night and day, she was able to earn only $1.25 per week, for the support of herself and two little daughters.

Some men are so wise in their own conceit, that they entertain the idea that in case of their sudden death the world would almost cease to revolve, and ages would roll round before the vacuum could be filled.

During the passage of the Queen to Westminister, at the recent opening of Parliament, a lady who was standing near the two corners of two streets, was crushed to death by the crowd.

IMPORTANT TO
TOBACCO CHEWERS.
DR. GUSTAV LINNARD'S
TASTE RESTORATIVE TROCHES,
The Great Substitute for Tobacco.

IT is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe

MENTAL AND PHYSICAL DISORDERS

to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also the entire nervous system, manifested in the I—as all who have ever used the noxious weed will testify—in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES are designed to counteract these baneful influences, and have proved entirely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the system, restoring the taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco Chewing.

These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 Cents per Box. A liberal discount to the Trade.

Prepared solely by the undersigned, to whom all orders should be addressed.

The Wheeler & Wilson
Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mfg Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these Sewing Machines for their use. The extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the work-shop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses,—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

The PRONUNCIATION of all words will be exhibited by a system of notation easily understood; and in doubtful or disputed words the best authorities for the different modes will be given.

In ETYMOLOGY it will be found more complete and satisfactory than other work of the kind.

The DEFINITIONS will be fully and accurately distinguished, and exemplified by quotations from the best authors, of sentences valuable in themselves.

SYNONYMS will be so treated as to be a very valuable feature of the work.

Another very novel and most useful feature of this Dictionary will be the Wood Cuts, of which about 1200 will exemplify words whose meaning can be more accurately conveyed in this than by any verbal definition.

AN EDITION ON LARGER AND FINER PAPER FOR SUBSCRIBERS will be first issued at the same price as will afterwards be charged for the common edition; viz: $7,50.

A Specimen can be seen, and subscriptions entered at the bookstore of

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, **10 Barrels good Coal,** 3 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2250 lbs, worth about $6.

The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

Thousands have been sold and give perfect satisfaction. Try one.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantee of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any one may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $1.50; the large holds at least 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public

These **Gums** remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach causing food to digest well, **purifying the blood,** giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose often repeated **cures Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a powerful preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD Proprietor. 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. su31 ly

DR. J. B. HUGHES,

KNOWING that there are at this moment hundreds of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and call in a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying that is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All those are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 diy

DR. CHEESEMAN'S PILLS,

PREPARED BY CORNELIUS L. CHEESEMAN, M. D., NEW-YORK CITY.

The combination of ingredients in these Pills are the result of a long and extensive practice—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, disturbed sleep, which arise from interruption of nature.

TO MARRIED LADIES,

Dr Cheeseman's Pills are invaluable, as they will bring on the monthly period with regularity. Ladies who have been disappointed in the use of other Pills, can place the utmost confidence in Dr. Cheeseman's Pills doing all they represent to do.

NOTICE.

They should not be used during Pregnancy, as a mis carriage would certainly result therefrom.

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained a world-wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M.Beck.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the undersigned; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I record Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of pushing their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

E. GREEN & CO.,
Take the pleasure of returning their sincere thanks to their patrons and the public generally, for past patronage, and hope for a continuance and increase of favor in future. Now as it is a well established fact how cheap we have let clothing slide during the past month, the public will be satisfied that it is no humbug, if we hold out still greater inducement in offering Clothing without regard to cost. Therefore, for your advantage we call your attention.
Come to see us soon, while the Stock is large; we assure you that if you are a judge of Goods, you'll not leave our place without buying, on account of the quality and price. This inducement, corresponding well with the present season, we expect this enlightened community will give us as great a rush for Gent's Wearing Apparel, as last month.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, MARCH 11, 1859.

THE POST OFFICE BILL.—The Washington correspondent of the Boston Courier says:—

Mr. Toombs is blamed for killing the bill by talking against time till it would be too late to consider it. He spoke but a very few minutes, however, and it is not probable that if the Senate had voted the result would have been different.

The account which we copied from the Boston Journal says:—

The defeat is clearly and exclusively owing to Robert Toombs and his Administration coadjutors in the Senate.

The Concord, N. H. Patriat says:—

The Post Office appropriation bill was defeated by the factious conduct of the black republicans in the House. The people of New Hampshire will derive little consolation upon reflecting that all of their representatives voted to defeat this bill.

The House of Representatives voted, by a very large majority, to pass the appropriation without raising the postage,—and finally, at the eleventh hour, voted *without opposition* to accept the report of the committee of conference, and passed the bill. It went up to the Senate and failed there.

Douglas, Stuart, and the Republicans in the Senate, wished it to pass. Toombs, Bayard and Mason wished it not to pass, unless the postage was raised from 3 cents to 5. And it did not pass.

☞ An insane young man is now in Boston, in care of the City Crier. The young man calls himself Chas. H. Hastings, and says, "his uncle, Jonathan Cartland Lee, of Hill, N. H., was a Quaker."

Citizens of Rockingham and Strafford know very well, that Jonathan Cartland lives at *Lee Hill*, N. H., and that the Cartland family are quakers.

This may give a clue to the mystery about the young man, who tells a droll story about himself, that he was wrecked on the Irish coast, his skull fractured on the rocks, and he then "taken to the Queen's Country Seat,"—which was probably a hospital.

INSECURITY OF HEATING APPARATUS.—Two inspectors, appointed by the New York Board of Fire Insurance Companies, to examine furnaces and other heating arrangements, in stores, dwellings and churches, report that in New York city, 279 churches have been examined, 110 of which were found *unsafe*. In Brooklyn, 97 churches were examined, and 83 were found *unsafe*. In most of these cases, such alterations were made as to render the buildings safe. Also, a large number of stores and dwellings were examined, where immediate corrections and alterations require to be made.

There is nothing more common among modern fires, than a kindling from defective flues, of furnaces.

The old air flues are often made of wood, but should be of riveted tin or iron, because by a little change, the hot air sometimes will pass that way.—Not often, to be sure, but the thing has happened—and therefore should be guarded against.

☞ In the account of the execution of the murderers O'Leary and Fleming, the Toronto Globe of Friday says a noticeable fact was the large number of females present. Old women with their gray hairs, mothers with their babes in their arms, young women of all ages down to the little girl, all were represented. The felons died penitent. One of them said on the scaffold he wouldn't change places with Queen Victoria, he felt so sure of forgiveness for a brutal murder of a woman. Both of the men attributed their fate to bad company and strong drink.

☞ Cincinnati papers give an account of the suicide of the wife of Emanuel Gerrard, a Hungarian, resident in that city aged 28. The husband and wife had quarrelled on account of too great intimacy between the wife and a German physician, which had made much talk in the neighborhood; and while disputing, the woman arose from her seat and fired a pistol, with the muzzle placed to her right temple, which killed her instantly.

☞ Mr. Pierce M. Butler of Philadelphia, well known as the husband of Fanny Kemble, having been unfortunate in some speculative operations, has been compelled to sell his half of the slaves left him by his father, to pay his debts. They were 400 in number, and were sold in families at Savannah, on Wednesday and Thursday last, bringing an average of over $700 each, or about $300,000 in the aggregate.

☞ New pieces, new performers, and a new bill!

From the Ballot.

Our returns, from 155 towns, give Goodwin a majority of 3,737. Our returns from this congressional district are not so full as we hoped to be enabled to lay before our readers today, but we feel confident that Marston's majority cannot be counted down below 800, and our own opinion is that it must be nearer **1000!** Tappan and Edwards are elected in the other two congressional districts by about 800 and 1000 majority. Four Republican Councillors are probably elected, including Clark in this district, and Republican County Officers are elected in six or seven of the ten counties.

The vote for Senator in this district is very close, and perhaps the Gosport returns may be necessary to decide it. Taking the vote for Governor in the towns from which the Senatorial vote is not returned to us, we make the footing—Dow 2064, Bennett 2065. As Mr. Dow generally runs ahead of his ticket, we think he is elected.

Our roll of Representatives shows 121 Republicans and 60 Democrats elected—giving us "a reliable majority" of 61!

THE VOTE IN NEW HAMPSHIRE,—last year was as follows: For Governor, Haile, rep., 36,333; Cato, dem., 31,591; scat., 61.—In 1857, Haile, rep., 34,474; Wells, dem. 31,238. In 1858 the Council was unanimously Republican; Senate, 9 Republicans to 3 Democrats; House, 196 Republicans, 119 Democrats.

☞ Von Castor, Herr Hinsdale, Jim W. Wirt.

☞ There is an old gentleman living near Hightstown, N. J., (Mr. Robert Ayers) who has had 24 children—nineteen now living. His grandchildren number fifty-seven.

A Mr. Beale of Ohio has received $800 from a railway corporation, for having been ejected from the cars by a conductor, to whom he had refused to pay the extra five cents for ticket purchased in the cars.

☞ Don't forget the Originals to-night.

Many politicians boast that they can't be bought, when really they are so worthless that they can't be sold.—*New York Ledger.*

☞ Last Day in Massachusetts, Thursday, April 7.

☞ Nine star performers.

☞ Ivory Hayes, the jig dancer.

☞ The remains of Ira S. Thurston, the æronaut who made the unfortunate ascension from Adrian, Mich., last September, were found on Sunday last, near Toledo, and 10 miles from the place of his ascent.

☞ Black Dentist and Tyrolean Burlesque.

Notice.

If the person who left a Letter in the Post Office, signed "A Friend," and addressed to me—will call at my shop in Bow Street, they shall not lose anything, nor be exposed in any manner.

SPECIAL NOTICES.

NECROSIS.—If there be any disease calculated to drain away the life of a man, and weaken the mind and body by its painful slowness, it is the death of any part of the bones. The **PERUVIAN SYRUP** gives support under the profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at
SALEN'S DAGUERREAN GALLERY,
in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.
N. B.—The beautiful little "eye away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

R. R. R.

A NEW BODY.—On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 21st., RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Relief; one small bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 26th, four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.
The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry and contains the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.
It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.
Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.
Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."
It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.
For sale in quarts at seventy-five cents, and in pints thirty cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE GENUINE IMPORTED.

DR. DUPONCO'S
French Periodical Golden Pills,
FOR FEMALES;
Infallible in Removing Stoppages or Irregularity of the Menses.
THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.
Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tuffs, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.
N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J. Duponco is upon each box. You will then obtain a Pill you can rely upon.

LOCAL.

THE CONCERT ON TUESDAY EVENING.—Miss Juliana May, who gives a concert at the Temple on Tuesday evening next, has achieved a triumph in Europe never before awarded to an American lady. She has appeared with the greatest success as Prima Donna in the Italian Operas of Italy, at Paris, and in London. In England her success was most signal, the London Times and other journal speaking of her in the highest terms of commendation.

She was offered in London the then vacant engagement of Prima Donna at the English Opera, but declined it to obtain in her own land the confirmation of those honors bestowed upon her by foreigners.—She has since appeared with high distinction at the Academy of Music, New York, as Prima Donna, with Thalberg and Parodi; in the principal cities of the South and West with distinguished success, and lately at the Philharmonic concerts in Boston.

Miss May is the daughter of the celebrated Dr. May of Washington, originally of Boston.

Mr. Adams, and Mr. Lang the Pianist, who accompany her, have long been celebrated as the best Tenor and Pianist of New England.

BEEF THAT IS BEEF.—Messrs. Rowe & Bickell, at their Grocery and Provision Store, corner Market and Hanover streets, are cutting up a couple of handsome cattle, from the ship-yard of Tobey and Litchfield. The yoke weighed 2587 lbs.—Cattle fattened in this way, gradually, while at moderate work, are doubly more palatable and nutritious than if fatted-up in haste for the market. HALIFAX, March 10.—Steamship Arabia, from Liverpool, 26th ult., arrived here this afternoon. Her dates are one week later.

The breadstuffs market was dull but steady. Provisions unchanged.

The English government has agreed to guaranty 8 per cent. on £600,000 of the capital of the Atlantic Telegraph Company, which will secure a new and superior cable at present season.

Lord Cowley, the English Ambassador at Paris, has gone on a special mission of conciliation to Vienna.

The Ministers announced in Parliament on Friday that there was reason to hope that the Austrian and French troops would not evacuate Rome. These facts gave the public strong hopes of peace.

Notwithstanding the warlike rumors, the French funds advanced one per cent, but the advance was subsequently nearly all lost.

WASHINGTON, March 9.—The City Councils to-day passed resolutions of respect to the memory of the late Postmaster General. The Executive Departments are draped in mourning, and closed for public business.

Mr. Holt, Commissioner of Patents, has been appointed and confirmed as Postmaster General.

The Senate confirmed John Hubbard, of Maine, Boundary Commissioner, for which Mr. Wiggins was recently nominated and rejected; G. W. Jones, of Iowa, as Minister to Bogota; John Pettit of Indiana as Chief Justice of Kansas, vice Lecompte, Bartholomew Fuller of N. C. as 5th Auditor of the Treasury.

The Senate will meet to-morrow at 2 P. M., and will then formally close the present session. It is not expected that there will be a quorum present.

The Courts have adjourned until Friday, to attend the Postmaster General's funeral to-morrow afternoon.

Orders have been issued to the public officers throughout the country to pay the appropriate tribute of respect customary on the death of such an executive officer of the government.

OHIO STATE TREASURY.—*Cincinnati, March 9.*—The committee appointed to examine the condition of the State Treasury made a report to the Legislature yesterday. The committe advert, in commencing the examination of John G. Breslin's transactions, to the fact that for many years, outside speculators have been in the habit of approaching the Treasurer, and by management securing the use of the money intended to be kept in the vaults of the State. The amount showed by the Treasurer's book, for which Mr. Breslin should account at the expiration of his office is $1,600,000.

Mr. Bresli accounts for 204,000 by the failure of the banks in which the money was deposited. Deducting this $204,000, there remains a balance of $856,000, which Mr. Breslin should have paid Mr. Gibson, his successor. Mr Gibson repeatedly acknowledged he had received every cent due from Mr. Breslin, and after making a solemn oath to this effect, states that the money was never paid him by Mr. Breslin. That the whole of this sum was not paid to Mr. Gibson by Mr. Breslin is fully established by two testimony. Mr. Breslin acknowledges having under his control assets belonging to the State, representing about $200,000, concerning which he refuses to make any disclosures as to their character or the parties holding them.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mf'g Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Skirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;

2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;

3. Ease of management and rapidity and quietness of operation;

4. Hemming and seaming attachments;

5. Beauty of stitch, alike on both sides of the fabric sewed;

6. Strength and firmness of seam that will not rip nor ravel; and made with

7. Economy of Thread;

8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machine every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites with the ladies."—[N. Y. Times.

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that bears American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see the machines of Wheeler & Wilson."—[Examiner.

"Wheeler & Wilson is the machine par excellence for family use, and we recommend it most emphatically."—[Advocate and Journal.

"Wheeler & Wilson's Sewing Machines combine everything that can be required in the manufacture of garments. Our friends should be very sure they are assured that to purchase one of them is a safe investment."—[Observer.

"Wheeler & Wilson is beyond all question THE machine for family use."—[Life Illustrated.

"There is but ONE Sewing Machine, and that is Wheeler & Wilson's."—[Judge Meigs, of the American Institute.

A NEW STYLE MACHINE;

PRICE $50.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Worcester's Quarto Dictionary.

This work which is the result of a life's labor is now nearly completed, and the publishers expect to issue it in the course of next May.

IN ORTHOGRAPHY, it will represent the usage of the best writers in this country and England.

The PRONUNCIATION of all words will be exhibited by a system of notation easily understood; and in doubtful or disputed words the best authorities for the different modes will be given.

In ETYMOLOGY it will be found more complete and satisfactory than other work of the kind.

The DEFINITIONS will be fully and accurately distinguished, and exemplified by quotations from the best authors, of sentences valuable in themselves.

SYNONYMS will be so treated as to be a very valuable feature of the work.

Another very novel and most useful feature of this Dictionary will be the WOOD CUTS, of which about 1200 will exemplify words whose meaning can be more accurately conveyed in this than by any verbal definition.

AN EDITION ON LARGER AND FINER PAPER FOR SUBSCRIBERS will be first issued at the same price as will afterwards be charged for the common edition, viz: $7,50.

A Specimen can be seen, and subscriptions entered at the bookstore of

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, **10 Barrels good Coal,** 1 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2230 lbs, worth about $6.

The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

Thousands have been sold and give perfect satisfaction. Try one.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that those who will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to almost every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the benefits of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood | Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—DEAR SIR: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. E. BAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds ½ a pint, and retails for $1; the medium holds at least 20 per cent more in proportion than the small, retails for $2; the large holds a quart, 40 per cent more in proportion, and retails for $3.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of victims in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance they make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which he had entirely treated by empyrics have come under his care, and more than three-fourths of this number are incorrigible upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of DR. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REGULATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 dly

Dye your Hair and Whiskers.

BY using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to buy caps to cover her gray hair.

Look at that gentleman's whiskers—Hutchins' Hair Dye makes them look so handsome.

IMPORTANT TO FEMALES.

DR. CHEESEMAN'S PILLS,

PREPARED BY CORNELIUS L. CHEESEMAN, M. D., OF NEW-YORK CITY.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities. Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, disturbed sleep, which arise from interruption of nature.

TO MARRIED LADIES.

Dr. Cheeseman's Pills are invaluable, as they will bring on the monthly period with regularity. Ladies who have been disappointed in the use of other Pills, can place the utmost confidence in Dr. Cheeseman's Pills doing all they represent to do.

NOTICE.

They should not be used during Pregnancy, as a mis carriage would certainly result therefrom.

Warranted purely vegetable, and free from anything injurious to life or health. Explicit directions, which should be read, accompany each box. Price $1. Sent by mail on enclosing $1 to DR. CORNELIUS L. CHEESEMAN, Box 4,531, Post Office, New York City. Sold by one Druggist in every town in the United States.

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for ITS GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cold, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. BECK, BURRILL & HUNTING, SOLE PROPRIETORS,
No. 6 Tremont Street,
(Two doors south of Court st.) BOSTON.
Will be found at all Apothecaries and Family Stores in the country. o15 ly

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to procure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or then advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and careful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 5 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents

From the Portsmouth Journal.

THE SHIP OF STATE.—The Democratic candidate for Congress in this District must console himself with the idea that he is regarded by his political opponents as well as his supporters, as a very good citizen, and one who has the means of doing much good. He knows every rope in the ship and track in the ocean,—and the ships he sets upon the ocean are always "A. No. 1." If the "owners" have of late changed the order of his voyage, he should feel grateful for his narrow escape from a port where the breakers are dangerous, and where he could not represent the true interests of the north without "disobeying orders," and infringing on the specifications of the southern "Charter-Party." The captain we would trust among the pirates in any sea—but when he submits to the pirates who offer themselves as pilots into political havens, he must expect after bleeding freely, to reach the "Hole in the Wall." Three cheers for the escape of the Captain! Long life and prosperous voyages to him!

By a Telegraphic Dispatch, from the Concord Statesman office on Friday forenoon, 10 o'clock, we learn that returns have been received from 215 towns, in which Goodwin's majority is three thousand, seven hundred and ninety-five, (3,795). Reckoning the remaining towns by last year's vote, his majority will be three thousand, four hundred and eighteen, (3,418).

Majority for Congressmen: Marston, 750; Tappan, 1,036; Edwards, about 1,000.

E[illegible] Republican Senators, four Councillors, and seventy Republican majority in the House.

The Senatorial vote in this district is very close. It is probable that Bennett, the democratic candidate, is elected by about 20 or 30 majority. Four Republican Councillors are probably elected, including Clark in this district, and Republican County Officers are elected in six or seven of the ten counties.

GREENLAND ERECT AGAIN.

Messrs. Editors,—I have looked in vain these two days past to find some notice in the daily publications of [illegible] election in this place. We are but a small community, but do not like to be overlooked. In consequence of some informality in the warrant calling the town meeting last year, we lost the opportunity of voting for State officers, and the slavery party taking advantage of that circumstance and adopting every outside influence that could be brought to bear, succeeded, at a special meeting for town officers, in getting control of the town. But our "blood being up," we have changed all that this year, and the anti-slavery party, called Republican, have reinstated themselves in the management of town affairs, and have given Mr. Goodwin 30 majority, as follows:

Goodwin	101
Cate	71

If it were not for the continued pressure of outside influence, which I forbear to name, the Republican majority would be much greater.

GREENLAND, March 11, 1859. A VOTER.

Greenland must have the credit of being the Banner Town—for it is said that not a Republican in that town entitled to carry a vote, did not exercise his right of suffrage on that day. That is the right spirit. Three cheers for Greenland!

Seabrook did great honor to itself in the result of the vote on Tuesday.

GOSPORT.—The vote was 14 Republican, to 15 Democrats.

GRAND REPUBLICAN CELEBRATION.

The Republicans of Portsmouth and vicinity will meet on Market Square on

MONDAY EVENING NEXT, AT 6½ O'CLOCK,

form a procession, proceed to the residence of the

GOVERNOR ELECT,

and escort him to the

TEMPLE,

where there will be speeches from various individuals. All the members of Congress elect and U. S. Senators of this State have been invited to be present.

After the meeting at the Temple, the procession will again form, and proceed to

JEFFERSON HALL,

there to partake of a

COLLATION,

to which all Republicans are invited.

The *Portsmouth Cornet Band* will be in attendance through the evening.

Let us rejoice that the Right prevails.

We hope to see a good delegation of the Republican ladies at the Temple on Monday evening.

GIRLS' HIGH SCHOOL.—The annual examination took place on Thursday last, and in most respects was one of the best that has taken place. There have been 182 scholars in all connected with the school in the last year—and an average attendance of more than a hundred. More attention has been paid to the higher branches of Mathematics than is usual in schools of this class—Algebra, Geometry, Trigonometry, &c. have large classes. There is a large class in French, and three-fourths of the scholars are in Latin classes. About two-thirds of the school give attention to Physiology. The ready and correct answers of the scholars, show that the principal, Mr. Nichols, and Miss Morgan and Miss Knowlton, assistants, have been very thorough in performing their duties.

The examination of the Boys' High School takes place to-day.

PORTSMOUTH GAS LIGHT COMPANY.—At the annual meeting of the Portsmouth Gas Light Company, held in Feb. the following named persons were elected Directors for the ensuing year:

John Knowlton, Benjamin Cheever, Thomas L. Tullock, Ichabod Goodwin, Leonard Akerman, Treasurer and Clerk, David Kimball.

A dividend of 6 per cent. was declared.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, MARCH 12, 1859.

HOW TO MEET AN INSULT.

The Washington correspondent of the Philadelphia Gazette, speaking of the debate in the Senate, Friday night, says: "Some sharp passages occurred, and Mr. Toombs denounced Seward as a 'two-penny demagogue,' and one who had 'slandered the President, but dared not use such language to him or any other gentleman.'"

The Portsmouth (Virginia) Transcript remarks:—"The Senator from New York did not attempt to retort, but rather acquiesced in the indignity with a forbearance which might become a Christian, but is hardly suited to one who aspires to be a party leader and a representative man."

We have no objection to offer against Seward for being a christian, nor for exercising the great virtue of christian forbearance in the case referred to. On the contrary we rejoice at conduct so "becoming" in any public man.

It is possible, however, that the nobility of christian forbearance does not suit some parties who wish for a leader;—and it is quite certain that such conduct would not become the *representative man* of any bludgeon and pistol party. Bully Brooks and Sickles are the fit representative men of that.

It is, by the way, not very improbable, that in the mind of a great man, even in that of an eminent christian, there might be a slight feeling of *contempt* for a puppy, who called himself a gentleman while he showed himself a bully.

Weekly Chronicle Correspondence.

A MOTHER REPROVING THE KEEPER OF A TIPPLING HOUSE.—It is a den of iniquity. Many in the place are grieved that liquor shall be sold in their midst. The rum-seller watches daily for his prey, as each train of cars comes in. Some of the young, middle-aged and old make their entrance into this Pandemonium.

Two sons in one family had been enticed into this place, and there were fears that they had commenced a course that leads directly to inebriation and ruin. A third was missing, and the mother supposed him there. It was past 9 o'clock in the evening when the mother hasted to the place. She raised her warning voice, entreating the rum-seller to close his wicked traffic. It was a cutting rebuke, such as a woman—a mother only in such circumstances can give. It seemed to sting the man engaged in the traffic. Some engaged in that wicked business are not "past feeling," but when reproved by the friends of those they are ruining, they are "grievously tormented."

A young man (passenger on one of the trains,) was stopping there over night, and heard her earnest appeals and warning. Great effort was made to give him the impression that this woman was insane. He was not aware of the character of the house till the next morning, when he found where this mother lived, called on her, and learned what trials she had suffered. He gave his full approval of the proceedings the night before; encouraged her to go on in her faithful course, and she would receive her reward.

Other mothers who fear their sons will be destroyed, may do as this one did.—They may have an influence over those engaged in the nefarious traffic, that others cannot have. H. N.

DEATH BY SUICIDE.—The Newburyport Herald says the wife of Mr. Abraham Nudd of Hampton, N. H., on Tuesday morning last, fastened herself into the barn connected with her house, and cut her throat with a razor. The deceased was 58 years of age, and much respected. The cause assigned for this rash act was the indiscreet conduct of her son, by whom the family became somewhat involved, and an officer had recently attached their property, which worked upon the feelings of the mother to such a degree that she took her own life.

☞ In Philadelphia, on Sunday afternoon, two gangs of ruffians got into a fight, whereupon, as a local paper says, the Mayor "sailed into the crowd and necked a ruffian just as he was raising his arm to hurl a brickbat." A shower of bricks were thrown at the Mayor, but he was not hurt, while the ringleader of the gang was captured and taken into custody.

MR. BURKE.—The Boston Courier of Saturday says:—"A private despatch from Washington informs us that Mr. Edmund Burke of New Hampshire is the most prominent candidate for the place of Commissioner of Patents, made vacant by the appointment of Mr. Holt as Postmaster General."

PAID IN YOUR OWN COIN.

'Grandmother, I hate to go away from you; you like me, and nobody else does. Last night George Redin and I had a quarrel; I struck him, and he struck me. Nobody likes me.' Peter Jones said this as he sat on his trunk, ready to start for home.

'He only paid you in your own coin,' said grandmother; people generally do—a blow for a blow, cross words for cross words, hate for hate.'

'I don't know but it is so,' said Peter, looking sorry; 'but it is a poor sort of coin.'

'How different it would be if your pockets were full of the *right sort* of coin,' said grandmother.

'What kind?' said Peter.

'The *coin of kindness*,' said grandmother. 'If the great pockets of your heart were full of that sort of coin, the more you paid away, the more you'd get back, for you are generally paid in your own coin, you know; then how happy you would be.'

'The coin of kindness,' repeated Peter, slowly; 'that is a good coin, isn't it? I wish my pockets were full of it, grandmother. If I'd be kind to the boys, they'd be kind to me.'

'Just so,' said grandmother.

After Peter's own mother had died, he was sent to grandmother's, for he had a very quarrelsome, fretful temper, and his aunt could not manage him with the other children. His grandmother dealt kindly and patiently with him, and helped him to improve himself. Peter now had a new mother, and his father had sent for him to come home. Peter did not want to go. He felt sure he should not like his new mother, and that she would not like him.

'That depends upon yourself, Peter,' said grandmother; 'carry love and kindness in your pocket, and you will find no difficulty.'

The idea struck the boy favorably. He wished he could, he said.

'And the best of it is,' said grandmother, 'if you once begin paying it out, your pockets will never be empty, for you'll be paid in your own coin. Be kind, and you will be treated kindly; love, and you will be loved.'

'I wish I could,' said Peter.

All the way home he more or less thought of it. I do not know about his welcome home, or what his father or new mother said to him. The next morning he arose early, as he was used to at grandmother's, and came down stairs, where everything being new, he felt very strange and lonely.

'I know I shan't be contented here,' he said to himself, 'I know I shan't. I'm afraid there is not a bit of love in my pocket.' However, in a little while his new mother came down, when Peter went up to her and said, 'Mother, what can I do to *help* you?'

'My dear boy,' she said, kissing him on the forehead, 'how thoughtful you are. I thank you for your kind offer; and what can I do to help *you?* for I am afraid you will be lonely here at first, coming from your dear, good grandmother.'

What a sweet kiss was that. It made him so happy. 'That's paying me in more than my own coin,' thought Peter. Then he knew he should love his new mother; and from that good hour Peter's pockets began to fill with the beautiful bright coin of kindness, which is the best 'small change' in the world. Keep your pockets full of it, and you will never be in want.

FROM HAYTI.—A letter from Port au Prince of 17th ult., says that "the prospect for business is very fine. We think and hope that by and by things will go on a good footing."

The Republic of Hayti (with expressions of high respect on the part of President Geffrard,) retains B. C. Clark, Esq., as the Consular Agent of Hayti in Boston. Mr. Clark has greatly contributed to disseminate correct views of the Haytiens as a people.

☞ A woman named Susan Davis, ninety years of age, was turned out of doors by her own son on Thursday last, in New York. She was utterly destitute and applied to an acquaintance, who provided her with food and gave her the use of a basement room. On Wednesday morning she was found dead in bed.

Auburn was the closest town we have heard of. Eight ballots were had for Town Clerk. The vote was a tie on Governor. There was a tie vote on Representative the first time. John Clark and his son George, both living under the same roof, both excellent men, the father Republican and the son Democrat, were the candidates.—We have no doubt that they complimented each other with their votes, but the second time the father led one. As far as they are concerned, it was "all in the family," and they were bound to be pleased with the result.—*Mirror.*

A NOVEL DISTRIBUTION OF LIQUOR.—The town of Hooksett voted to have no liquor sold in town by agents, and that all remaining on hand after the first day of April next, be divided equally amongst the legal voters in said town; they are all to call on the first Selectman and get their share of the liquor on the second day of April next. If they do not call on that day they forfeit their share.—*Manchester Mirror.*

☞ Judge Holt has assumed the duties of Postmaster General; and Mr. Hughes, ex-member of Congress from Indiana, has been offered the office of Commissioner of Patents.

A western orator having delivered himself of the following: "The glorious American eagle, which stands with one foot on the Atlantic and the other on the Pacific coasts," he was unable to proceed any further. A bystander, feeling some solicitude for the noble bird thus cruelly compelled to "spread himself," exclaimed: "My friend, if you don't relieve your eagle pretty soon, he will split open!"

☞ Mr. Wiggin of Maine, who was rejected as Commissioner of the Fisheries, is to be Inspector of Custom Houses in the Northern district of New England, the office vacated by Gov. Hubbard.

It seems strange that men should occupy so much time in doctrinal discussions and contentions on the scriptures, instead of alleviating the wants of the needy, healing the sick, sympathizing with the afflicted, and following the examples of Christ in different ways. This would be true religion; love and charity towards our fellow-men is embraced in this kind of piety.

☞ Peterson's Magazine for April is already issued, and may be had at the Periodical depots or of the publisher, Philadelphia. $2 per year—back numbers supplied.

At Wells Depot, Me., on the 25th ult., a young man named Christopher Hilton was accidentally shot by a boy who was handling a gun. The contents of the gun entered his stomach, and he died on the following day.

Mrs. Stowe's story that is appearing in the Atlantic Monthly—the "Minister's Wooing—is being republished by two different houses in London, and the circulation there is equal to what it has here.

Rev. Gad Newell, for many years pastor of the Congregational Church in Nelson, N. H., and the oldest surviving graduate of Yale College, died at Nelson on the 26th ult., at the age of 96.

Show me the man who would go to heaven alone if he could, and in that man I will show you one that will never be admitted into heaven.

If none were to reprove the vicious, excepting those who sincerely hate vice, there would be less censoriousness in the world.

☞ The U. Senate adjourned on Thursday.

MARRIED.

SPECIAL NOTICES.

NECROSIS.—If there be any disease calculated to drain away the life of a man, and weaken the mind and body by its painful slowness, it is the death of any part of the bones. The PERUVIAN SYRUP gives support under the profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY, in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Potsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

A NEW BODY.—On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 21st, RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Resolvent; one small bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of their skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worm, Barber's Itch, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c. While the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces 'Charles' London Cordial Gin. "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of weather and climate.

For sale in quarts at seventy five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Gilbert st; B. F. Tucker, 20 Elm st; J. Moran, 116 Blackstone st; M. Davis & Co., 51 Blackstone st; R Smith & Co., 20 Exchange st; Geo. Abbott & Co., 78 Broad st., Leland & Snow, 34 Elm st, and others. In Portland, Me., of H. H. Hay & Co., C. W. Atwell, and T. C. DR. DUPONCO'S French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N. B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J. Duponco is upon each box. You will then obtain a Pill you can rely upon.

LOCAL.

☞ This morning's Chronicle contains a column from the Gazette and another from the Journal—out of which the reader can gather the humors of politics, and strike the balance to suit himself.

☞ Miss Sallie Holley, having been kindly invited by Rev. Mr. Holmes, to occupy his pulpit at the Temple next Sunday afternoon, will deliver a discourse on Slavery, at the usual hour of the afternoon service.

FAST.—A young man by the name of William J. Bagley of Portsmouth N. H., and who has been at work in Saco lately, hired a team of Messrs. Abbott & Whitney, stable keepers, on the 16th inst., to go to Portsmouth, to be gone five days. At the end of which time Messrs. A. & W. received a telegraphic dispatch from Bagley stating that his mother was sick, and he shouldn't be able to return for two or three days. After waiting this length of time, A. & W. began to surmise that all was not right, and soon ascertained that he had left Portsmouth some days previous. Mr. Abbott started in pursuit of him, and traced him to Lawrence, where he had exchanged horses, and had gone towards Brighton. On reaching the latter place, Mr. A. soon found the balance of his property in possession of the Auctioneer of Brighton, who had advanced $5.00 on the property, with the understanding that Mr. Bagley should meet him in Boston the next day and gave satisfactory reference, when he was to receive a further sum. The Auctioneer on questioning Bagby doubted his title to the property, and took this method to retain him until he might learn more of him, but Bagley thinking "discretion the better part of valor," took French leave, and has not yet been heard form.—*Biddeford Gazette.*

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room; price 3 cts. $1 per year, in advance.

WASHINGTON, March 10.—The funeral services of Postmaster Brown commenced at noon, by an address from Rev. Mr. Grandurry of the Southern Methodist Church. The President and Cabinet were present, together with distinguished gentlemen connected with all branches, the relatives of the deceased, and others. The Diplomatic corps were in full court dress. The procession was very long, and while it moved, the city bells were tolled, and minute guns fired.

Congress having appropriated $100,000 to enable Lieut. Mullan to continue the establishment of the military road from Fort Walla on the Columbia to Fort Benton on the Missouri river, he will leave this city next week for the scene of his labors. The road will pass through a wild and hitherto unexplored region, and, when completed, prove of great advantage to emigration into Oregon and Washington Territories.

FROM WASHINGTON.—The correspondent of the Philadelphia North American says:

"The idea of an immediate extra session is abandoned conclusively, unless an exigency should occur such as the President does not now foresee. Since the Post Office Department had been left in a crippled condition, by the opposition of a Senator of his own party, he does not feel called upon to assume a responsibility, which might be attended with no better success. Besides, it is proper the country should see directly and unmistakably, the effects which may be produced, in order that, if a like obstacle should be interposed hereafter, the exact consequences might be appreciated.

We only learn wisdom at best by the teachings of hard experience, and even then the instruction often comes very slowly. The present plan is to convene Congress about the first Monday in November, which would be a month before the regular session, thus preventing any unusual commotion, inasmuch as the brief interval would enable one to run into the other without disturbing the ordinary practice. This step, however, would furnish relief to the post office service by providing the means for the second quarter of the fiscal year, and arrearages, which will be greatly needed at that time."

☞ Rev. H. D. Moore, of Portland, sailed last week for Cuba, on an absence of two or three months, to recruit his strength—the society in the meantime supplies his pulpit.

☞ At Kennebunk six vessels of various sizes are now on the stocks.

It looks amazingly as though the Dutch have taken Holland, in New Hampshire.—*Bath Times.*

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mf'g Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
8. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee w s composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see the machine of Wheeler & Wilson."—[Examiner.

"Wheeler & Wilson is the machine par excellence for family use, and we recommend it most emphatically."—[Advocate and Journal.

"Wheeler & Wilson's Sewing Machines combine everything that can be required in the manufacture of garments. Our friends abroad may be assured that to purchase one of them is a safe investment."—[Observer.

"Wheeler & Wilson is beyond all question THE machine for family use."—[Life Illustrated.

"There is but one Sewing Machine, and that is Wheeler & Wilson's."—[Judge Meigs, of the American Institute.

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Worcester's Quarto Dictionary.

This work which is the result of a life's labors is now nearly completed, and the publishers expect to issue it in the course of next May.

In ORTHOGRAPHY, it will represent the usage of the best writers in this country and England.

The PRONUNCIATION of all words will be exhibited by a system of notation easily understood; and in doubtful or disputed words the best authorities for the different modes will be given.

In ETYMOLOGY it will be found more complete and satisfactory than other work of the kind.

The DEFINITIONS will be fully and accurately distinguished, and exemplified by quotations from the best authors, of sentences valuable in themselves.

SYNONYMS will be so treated as to be a very valuable feature of the work.

Another very novel and most useful feature of this Dictionary will be the WOOD CUTS, of which about 1200 will exemplify words whose meaning can be more accurately conveyed in this than by any verbal definition.

AN EDITION ON LARGER AND FINER PAPER FOR SUBSCRIBERS will be first issued at the same price as will afterwards be charged for the common edition; viz: $7,50.

A Specimen can be seen, and subscriptions entered at the bookstore of

The Election.

Again we have met the enemy, and again they are *not* ours. But we have made a good fight, and though victory perches upon the wrong banner, one more such victory for our opponents will be equivalent to a defeat. As will be seen by the returns which we publish, the Democrats have made large gains upon last year's vote, reducing the majority against us to less than 3000, gaining two Senators, several Representatives, one and possibly two Councillors, and redeeming the Counties of Merrimack, Grafton and Sullivan, and we think elected our popular candidate for Register in this county. We have also run the Republican candidate for Congress in this District pretty close into the wind, and done all that it was necessary for us to do, to insure our success in the important elections of 1860.

Our opponents are evidently much more frightened than pleased by the result of the election. They are shrewd enough to see that the signs of the times indicate the fact that Republicanism has had its run in New Hampshire, and must soon yield the State back into the legitimate control of the old Democracy. So up and at them again, boys! Let *State Rights and Popular Sovereignty* be emblazoned in fresher and less mistakable colors upon the flag you follow, and next year it will float in triumph from the State Capitol.

We shall next week advert to the causes which have prevented our complete triumph in this election. We shall discuss the questions, whether we have failed through our want of inclination, or through our inability to drag a pine tree by the top, and whether our failure as a party to shoulder the Administration and all its acts, or our attempt to partially endorse the same, has contributed most to our defeat. These matters we shall discuss in a free and independent manner, and are confident we shall arrive at the conclusion already formed by a vast majority of the sensible and honest men within the ranks of the Democratic party.

The Election in Portsmouth.

Portsmouth acquitted herself most nobly last Tuesday. The figures speak loudly in praise of her indomitable Democracy. It will be seen that though we have made a small loss upon the Governor vote, owing to the personal popularity of the Governor elect, yet on the average of the State ticket we have gained about 50, and on the member of Congress, as compared with the vote of last year, we make the handsome gain of 227, giving Capt. Marcy the largest majority ever obtained in a contested election by any candidate in Portsmouth. Honor to the 83 Republicans, who for once laid aside their party prejudice and voted with reference to white men's interests, regardless of the "whip and spur" threat paraded in the Journal, declaring that all Republicans who voted for Marcy should forfeit their alliance to the party, and regardless of the threats and importunities of all the official whippers-in, who sought to make them the blind puppets of party.

THE POSTMASTER GENERAL—THE COMMISSIONER OF PATENTS.—*Washington, March 9.*—Joseph Holt, Commissioner of Patents, has been appointed and confirmed Postmaster General of the United States. Mr. Edmund Burke of N. Hampshire is the most prominent candidate for the place made vacant by Mr. Holt's promotion.

We hope Burke may succeed. The Democracy of New Hampshire have not yet received sufficient insult and injury at the hands of this Administration. The appointment of Edmund Burke would be quite consistent with Buchanan's course toward the Granite State Democracy, and would, we think, be all that is needed to open the eyes of that small portion of our party who do not yet properly appreciated the merits of the present Administration. Whether Burke be appointed or not, the fact that the infamous scoundrel is permitted to be a candidate for an office, indicates a very kindly feeling for the Democracy of this State on the part of the old gentleman who occupies the White House. Let him appoint Edmund Burke by all means, and the Democratic party in this State will reciprocate the compliment in terms it will not be easy to mistake.

☞ Maine, New Hampshire, Massachusetts and North Carolina, are the only States in the entire thirty-three that have an Executive Council; and a proposition to abolish it through an amendment of the Constitution, and with it some $5,000 a year of expense, is now being considered in Maine—with what success remains to be seen.

☞ We learn that Mr. Bennett, Democratic candidate for Senator in this District, received 28 majority in New Market. This secures his election beyond doubt. New Market has done nobly this year.

☞ The sum of $1000 was appropriated at the last session of Congress for a fog bell, to be rung by machinery, at Whale's Back Light-House, Portsmouth harbor.

From the Journal.

In the Board of Aldermen, Thursday evening, Butterfield Carkin declined serving as Assessor from Ward One.

On election day, a pullet of Mr. Henry Peyser presented him with an egg measuring 6 inches by 7¼ inches in circumference. She goes for "Squatter Sovereignty." There was a great deal of cackling, but it amounted to no more than the sound of the drum and fife of the Democratic procession and their hideous groans at the door of the Governor elect, the night before election.

"For here have we no continuing city, but we seek one to come."—Heb. 13:14.

Swiftly fly the circling seasons,
Swiftly fly the months and years,
Bearing us through many changes,
Till "the last great change appears."
Ever changing,
Till the final change appears.

Men may dream of earthly pleasure,
They may seek possessions here,
Houses, lands, and golden treasure,
And all things to mortals dear.
But they'll vanish,
For there's nothing certain here.

Titles, honors, empty bubbles,—
Pleasures fleeting in an hour;
How they lure the unsuspecting,
Lulled by their deceitful power.
But what are they?
Only bubbles of an hour.

Here we've no continuing city,
No abiding home to win;
But the longest life of mortal
Is like stopping at an Inn;
With the morning,
The day's journey to begin.

But, as in our daily travel,
We an object have in view,—
So, this journey of a life-time,—
What comes of it, when 'tis through?
Ah! the ending,—
Teach us, Lord, the end to view.

Let our eyes, no longer blinded,
Seek a city yet to come;
Seek a home that hath foundations,—
Of our aims be this the sum.
Saviour, lead us,
Till we reach the heavenly home.

Let our eye of Faith, unclouded,
See the pearly gates unfold,
That the blood-washed throng mayjenter,
There to walk the streets of gold.
Jesus, cleanse us,—
That for us those gates unfold.

MARRIED WOMEN.—The Baltimore Sun in commenting on the Sickles affair offered the following remarks:—

No married woman can be approached by any man with undue professions of regard, or of affection, but with an instinctive knowledge of his design. Not the slightest impropriety, not the least of indelicacy in word or deed can be thrust on her observation without startling her honor, and putting her on guard. She is at once warned and armed; she has a counsellor ever at her side to direct her, and a champion to defend her—in a true and honorable husband. Hence the law esteems her guilt at least equal to that of the most seductive and designing invader of her honor when she fails. The married woman is arrayed in the very panoply of virtue and connot be *surprised*. She can hardly be said to *fall*—she steps aside of her own free will and sins deliberately.

With these premises, can there be any difficulty in answering the question, what a man ought to do in the event supposed? We say just what many a good and true and honest man has done before, and we could name a shining example in the act of one, who well deserves the title of hero and philosopher. He neither slew the man nor woman. He called the erring wife before him, and bade her take whatever she could rightfully claim as her own, and leave him forever; and then like the hero that he was and is, he pursued manfully the even tenor of his way, and all men honor him. This is what in our opinion a man ought to do.

Perhaps the murderers in such cases deem their killing a nearer fulfilment than separation, of the letter if not the spirit of their marital contract—which they have agreed nothing but death shall sever.

MR. BONNER'S OPINION OF MR. EVERETT'S ARTICLES.—A friend of ours, in conversing with Mr. Bonner the other day, asked him what he really thought of Mr. Everett's Mount Vernon Papers, and at the same time inquired of him if he would eventually get his $10,000 back again. Mr. Bonner promptly responded: "With my present experience, I would willing have paid Mr. Everett $25,000, if I could not have induced him to write for $10,000. His articles are all admirable, and SELL, which, of course, pleases me. Fifty-two articles from the pen of such a man as Everett, at $10,000, are just as cheap as if you were to buy fifty-two shares of Chemical Bank stock, at fifty cents on the dollar, when it is worth two hundred."—*N. Y. Express.*

☞ The floor of the first Catholic Church, in Oswego, N. Y., gave way on Wednesday evening last, causing considerable consternation among the congregation. In attempting to escape, four or five persons were killed, and several injured.

☞ William Goodson was arrested last Tuesday, in New York, on suspicion of being the murderer of John Humphrey, whose body was found some two years ago in the river at Mystic, Conn.

LOTTERIES IN MARYLAND.—The State of Maryland has for a period of forty years or more authorized grants for lotteries, the profits on which have been appropriated to the erection of churches, monuments &c. Public notice has been given that the Maryland State Lotteries will all cease, by the laws of the State on the 31st of March 1859.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to prove the benefits of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious invasion of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE PILLS.—Are fast gaining a reputation rivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practised upon them by spurious article under some spurious or fictitious name, they are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country by directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 diy

DR. CHEESEMAN'S PILLS,

PREPARED BY CORNELIUS L. CHEESEMAN, M. D., NEW-YORK CITY.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities, Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, disturbed sleep, which arise from interruption of nature.

TO MARRIED LADIES,

Dr. Cheeseman's Pills are invaluable, as they will bring on the monthly period with regularity. Ladies who have been disappointed in the use of other Pills, can place the utmost confidence in Dr. Cheeseman's Pills doing all they represent to do.

NOTICE.

They should not be used during Pregnancy, as a miscarriage would certainly result therefrom.

Warranted purely vegetable, and free from anything injurious to life or health. Explicit directions, which should be read, accompany each box. Price $1. Sent by mail on enclosing $1 to DR. CORNELIUS L. CHEESEMAN, Box 4,581, Post Office, New York City. Sold by one Druggist in every town in the United States!

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" is a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in Rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

Indian Physician.
Dr. B. S. GOODWIN
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are the best to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL; AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a valuable collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of this large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.

MONDAY, MARCH 14, 1859.

CHEAP POSTAGE DESIRABLE.

It is well that the foolish project to raise letter postage from three to five cents has failed. It is well, also, that the false and fraudulent *pretence* to abolish Congressional franking failed at the same time. What the people want, in this part of the country at least, is the total abolishment of the franking privilege on letters and documents, in short on everything but newspapers in the counties. [Uncle Toby thinks it best to abolish that also, but the people generally do not go with him in this.]

The people do not think very favorably of a law which, under pretence of economy and abatement of abuse of franking, gives each member of Congress $150 worth of postage stamps, just as good as money, in addition to their $3000 salary. No, no. Abolish the franking business, root and branch; keep letter postage down to three cents, or put it down to two cents; and if the Post Office should not pay its way, appropriate a million or two to keep it up, as we do for the Army and Navy.

We hope somebody will have nerve enough to abolish franking without raising the postage. We are confident, if the people could vote on three cents or five cents postage, *nine-tenths* would prefer three—and as large a portion would like to see franking abolished.

One other improvement we should like to see adopted, viz: the choice of postmasters by the *people* of the towns in the North, of the counties in Middle and Southern States, and of the cities and parishes in Louisiana.

The present administration might get a law passed to do this, to take effect in 1861, when *its* postmasters naturally go out—or if they should not do it, the new administration in 1861 might pass such a law, to take effect in 1865, so as not to give their own appointees too sudden a jerk out of their places.

All these projects seem to us eminently republican, eminently democratic in principle, such as should provoke no opposition, but claim general support.

The men who voted against the high postage did right. Anybody who chooses may call our Representatives factionists, or *rebels*, if they please, for resisting this proposed high tax on letters, this odious *stamp act*, far worse than the old one at which our fathers demurred and rebelled.

The people don't want high postage, and if any party will make it *a test*, they may be sure of a defeat.

INCREASE OF LONGEVITY.—It is a prevailing impression among many that, long life was more common in the time of our ancestors than at present. Facts would seem to prove otherwise. In the latter part of the sixteenth century, one-half of all who were born died under five years of age, and the average proportion of the whole population was but eighteen years. In the seventeenth century, one-half of the population died under twelve years. But in the first sixty years of the eighteen century, one-half of the population lived over twenty-seven years; in the latter forty years, one-half exceeded thirty-two years of age. At the beginning of the present century, one-half exceeded forty years.—The average longevity of these successive periods has increased from 18 years in the 16th century, up to 43.7 by the last reports. This increase in the duration of life is believed to be the result of improved medical science, improvement in the construction of houses, drainage of streets, and superior clothing.

EXTRA SESSION OF CONGRESS.—A despatch to the Evening Post says the Postmaster General has reported to the President that the deficit in his department on the 30th of June, will be over $6,000,000, and that it will be impossible to go on without an appropriation. Upon learning these facts, the President determined to call an extra session, but has not yet fixed the day.

IMPORTATION OF BREADSTUFFS.—The New York Express says—"a novelty in the grain trade will soon be exhibited—the receipt of a cargo of wheat from France, for which orders have been sent out. The purchases of grain for millers up the river have been large of late, and there are no indications that breadstuffs are to be any cheaper until after harvest."

☞ On Friday, in New York city, F. O. J. Smith, chief owner of the Union telegraph line, was arrested at the suit of D. H. Craig, for libel, and held to bail in the sum of $10,000, by order of the Superior Court.

HOMEWARD FROM TEXAS.

WASHINGTON, March 3.

Dear Chronicle:—Since my last we have been pretty much of the time "on the wing," shifting the clear sky and warm, sunny weather for the lowery, cloudy, drizzly weather which is common to the North at this particular season.

From New Orleans to Memphis we made the trip in a steamer; a trip which will of itself pay the pleasure traveller for the time occupied in its performance. Leaving New Orleans an hour or two before dark, you will have a view of Lafayette, its wide, straight streets, busy levee and numerous dwellings, above which towers the Widows' Home, a fine building of white stone, and church spires spindling upward in endeavor to pierce the sky.

A large number of up-river boats leave at about 5 P. M., and as a consequence much rivalry of speed takes place. All are excited by the contests that ensue, and before one condemns the officers of a steamboat for racing, he had ought to place himself in their position and see if he can withstand the desire of hundreds of passengers to "pass" everything, not spoken, but stamped indelibly on each countenance. Danger from explosion or fire is forgotten, and a free breath is not drawn until, after a long struggle, the opposing craft is beaten. The Princess, by the burning of which, a day or two since, so many lives were lost, was one of the finest boats on the river, and under charge of a most experienced captain.

Crossing through a great portion of the sugar plantations of Louisana, the next day at noon brings us in sight of Baton Rouge, the seat of State government. To persons coming up the river it offers a pleasing view, being built on both sides of the river, and upon rising ground. An extensive Asylum for Deaf and Dumb, the State House and U. S. Barracks, are the most prominent among the buildings seen from the river, but the lover of military renown will have a melancholy pleasure in visiting the former dwelling place of Gen Taylor, on the east side of the Mississippi.

The operation of "wooding up" or "coaling," affords a scene worthy of attention until the novelty wears off, especially when performed at night.

Natchez and Vicksburg are the remaining cities of any size to be passed, but many little towns and villages are to be found scattered up and down the banks.

The river was rapidly rising when we came up, and ere we reached the "Bluff City" the water was over the levees in many places. We took on board one passenger who came down river on a bridge 150 feet in length. Seeing the bridge passing by his premises, he went out to catch it, but "caught a Tartar," and one he could not manage, for after some hours' hard work he was obliged to let it go.

Memphis is a busy place, and as a cotton mart is said to be second only to New Orleans. There are a large number of very fine buildings, but in one respect it resembles Portsmouth—it has no city buildings. The public square on Court street begins to assume an air of nicety and finish and beauty, having for a centre piece a statue of the idol of the South, Andrew Jackson. Built on a high bluff, one would expect good streets there, but in wet weather Memphis streets are all but impassable.—The soil is free from stone, and though large sums have been expended for the improvement of the public thoroughfares, it don't seem as though they had yet discovered a good method to keep them in permanent repair. By telegraph we are informed of the destruction by fire, last night, of a large amount of property in the business part of Memphis, several printing offices among the rest. Phenix-like, may they rise from their ashes!

Blessed with one or two of the finest hotels in the Union, Memphis has two more, of large proportions and fine design, now contracted for.

The U. S. Navy Yard, about which so much was said a few years since, and which was afterwards ceded to the city, is cut up into foundries, factories, &c.

From Memphis to Washington, by rail, the traveller pursues a tortuous route through some of the most romantic scenery in the States; but when you come to talk about 'sterile New England,' why, if it contains any rougher spots than Eastern Tennessee or Western Virginia, your correspondent has not seen them.

The snow and rain has formed an execrable compound for pedestrians, and reminds of a joke one stage-driver perpetrated at the expense of another of the order, while on our trip in Texas. The road through the Brazos bottom was in an extremely bad condition, compelling all passengers to walk the whole distance through it. Much anxiety was felt as to the change from day to day—whether for better or to worse. When we reached the first "change," after crossing it, the driver who had passed through the day before inquired of our John how he got through the bottom. "First rate," was the reply, "I came up on the new road." Thinking what a mistake he had made not to have chosen this "new road" the day before, instead of floundering through two feet of mud for a distance of three miles, driver No. 1 inquired of No. 2 the precise locality of said "new road," and was gratified to learn that it was "*Just two feet below the old one!*"

MATRIMONIAL BROKERAGE—$1000 HUSBAND.—A curious case came before the New York Supreme Court recently, which sheds incidental light upon the matrimonial brokerage business. A suit is brought by Robert D. Nellis against George Crouse and his wife for $10000 commission in getting a husband for the woman, which husband is the defendant George.

Four years ago, Mrs. Crouse was a gay widow in search of a partner. She was in excellent health, of good bodily vigor, ample fortune, and an amorous and affectionate disposition. She wanted a husband, and told Nellis that if he would introduce her to the proper man for such a situation, she would pay him a thousand dollars.—Nellis accepted the commission, and bro't up John Cummings of Canajoharie, N. Y. Cummings was on probation for awhile, but did not suit.

Nellis started for the country again, and succeeded in capturing a military man, known as Major Freeman, all the way from Saratoga County. Freeman had a long seige of courtship, but the twain failed to unite, and Freeman is a free man still. The third effort is traditionally the grand trial; if that fails, abandon hope.

Nellis made a third essay, and this time induced the defendant Crouse, a kinsman of his own by the way, to undertake the hard task of suiting the widow. Fortune and the widow smiled upon Crouse, and a year ago the bargain was completed by marriage.

Nellis asserts that by his introduction of Crouse the widow got the much desired husband, and that she or they rightfully owe him $1000 commission, as promised but never paid. The complaint is certainly a strange one; but the defence is still more singular. The promise does not appear to be denied; the service is apparent, for there is the husband brought in as proof; but the ex-widow's counsel argues that the claim is against public policy, and that no such system of brokerage is recognized in common law, as it is against flood mores. The Judge decided that a contract of that sort is illegal and void.

THE OLDEST INHABITANT.—A correspondent of the London Times calculates the age of the great California tree, in the Crystal Palace at Sydenham, at about six thousand four hundred and eighty years. It must have been planted, according to that, when Adam was a very small baby, if not before. The same writer refers to another California tree, which must be at least seven thousand one hundred and twenty-eight years old. The method in which the computation is made is this:—the writer took two pieces of the wood of the tree, one of the heart and the other of the sapwood, about an inch square each, and he counted the concentric layers, which are supposed to indicate the annual growth. In the heart-wood he found forty-five layers to the inch, and in the sapwood twenty-one; and as the tree is fourteen feet in diameter, ten of heart and four of sap, the result was easily obtained. The second tree spoken of was thirty-nine feet in diameter.

SHAKESPEARE READINGS.—The Boston Transcript says:

"The reading of King Henry IV, by Hon. Hampden Cutts, on invitation of the Boston Mercantile Library Association, Wednesday evening last, was attended by a large and fashionable audience. The style of Mr. Cutts's reading is not theatrical, but natural, and peculiarly his own; he realizes the true idea of a Shakspearian reading and the acting of Shakespeare's characters. On this occasion, the majesty of the King, the reckless humor of Prince Henry, the jolly wit of the graceless Falstaff, and the fiery temper of Hotspur, were all so perfectly brought out by the intonations and modulations of the voice, that the real characters rose before the mind with the vivid distinctness of reality. Mr. Cutts may well regard the wrapt attention and hearty applause of his audience as sufficient evidence of his complete success."

☞ Mary Callan, a little Irish girl 9 years of age, died in Bangor on Monday, from the effects of drinking rum, given her by the neighbors on the occasion of a birth rejoicing.

SICKLES THE MURDERER.—A Washington item says:—The trial of Sickles will not probably take place until the week after next, the Grand Jury not being inclined to give his case precedence over others.

A THEATRICAL INCIDENT.—"Once upon a time," the late Junius Brutus Booth was engaged to play "Richard III," at a leading theatre, but managed to smuggle a suspicous looking bottle into his dressing-room, and was overcome by real sleep in the scene where he should have *feigned* it only, as Richard haunted in his tent by the ghost of his victims. Much to the amusement of the audience, "Gloucester" actually snored through the scene until it was resolved, by the manager, to send "Catesby" on "before his time."

Enter "Catesby," saying: "My Lord, I am the early village cock!"

"Richard" opened an eye.

"My Lord, I am the early village cock!" repeated the astonished Catesby.

"Richard" arose to a sitting posture, and fixing his sleepy eyes upon the "village cock," drawled out:

"Then why the deuce don't you crow?"

Comment is unnecessary.

☞ A man in St. Louis drank *one hundred and fifty glasses* of lager beer, on Monday last, between the hours of 8 A.M. and 12 P. M., for a wager of $25 and the price of the beer.

THE AFRICANS BY THE WANDERER.—*Savannah, March* 11.—The Republican says a portion of the Africans imported in the Wanderer and carried to Telfair County, were arrested near Albany, and carried back 80 miles. They will probably be claimed by owners.

SPECIAL NOTICES.

NECROSIS.—If there be any disease calculated to drain away the life of a man, and weaken the mind and body by its painful slowness, it is the death of any part of the bones. The **PERUVIAN SYRUP** gives support under the profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY, in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

A NEW BODY.—On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 22d, RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Relief. Commenced a bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S RESOLATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new skin, and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Malt Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., which the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever met with."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of weather and air.

For sale in quarts at seventy five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 76 Cornhill; E. Pecker, 20 Elm st; J. Moran, 116 Blackstone st; M. Davis & Co., 51 Blackstone st; R. DR. DUPONCO'S

French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their fallibness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Fulte, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J. Duponco is upon each box. You will then obtain a Pill you can rely upon.

LOCAL.

☞ On Saturday last, about 12 o'clock, a horse attached to a pung, hitched in front of Stephen Pearse's store, took fright from some cause, and jumping back, broke his hitch-rein, wheeled round, in doing which, he came in contact with another horse, and dragged him about a rod, then crossed the Square to the corner of the North Church, from thence to the other side of Congress street, where he ran between two sleighs about six feet apart, and brought up against Mr. F. W. Ham's store door with such violence that he came near going in; here, efforts were made to stop him, but he got away, and dashed down Congress street on the pavement, at a fearful rate, scattering everything before him until he reached J. P. Morse's store, where he was finally secured. Fortunately, no person was injured, which was somewhat surprising, as many were in the street on their way to dinner.

A word of caution is perhaps necessary, in regard to the manner of hitching nervous horses. They should either be fastened with something firm and safe, or be detached from the carriage.

☞ The Examinations of the High Schools, Friday and Saturday, were very satisfactory to a large audience of parents and friends. On Saturday, Mr. James T. Fields, among others, briefly addressed the Boys, and read a humorous poem. He has recently presented for their library, the new edition of Waverly, (50 vols.) and several other valuable books, in a neat case.

As we have stated above, the exhibitions were very satisfactory — as far as they went. There was good progress shown in studies; and the girls comported themselves as young ladies should, while the boys' discipline was evident. But we don't hear that the least exhibition or report was made, or expected to be, of the *physical* development and improvement of the pupils. Ought this to be so?

REPUBLICAN CELEBRATION.

The Republicans of this city and vicinity will form on Market Square, this (Monday) evening at 6 1-2 o'clock, proceed to the residence of the Governor elect, escort him to the Temple, hear speeches from several distinguished members of the party. Re-form at 8¾ o'clock—proceed to Jefferson Hall, and partake of a Collation, free to all members of the Republican party.

The Temple will be open at 6¼ o'clock, for the reception of Ladies only, who are invited to be present to hear the speeches.

The Portsmouth Cornet Band will be in attendance during the evening.

ROBERT LEFAVOUR, Chief Marshal.

MUSIC IN BOSTON.—*To the Editor of the Musical World;*—Another most brilliant success we are happy to record of Miss Juliana May, in the concert of last Saturday night, given in the Music Hall, for the benefit of St. Mary's Church and Sailor's Home. It is the highest testimony to her great merit as a vocalist, to say that she gains upon the public with each successive appearance; commencing so well, and advancing with such rapid strides, her admirers may with reason anticipate for her a noon-day splendor that shall pale the glow of her morning career, however brilliant.

Miss May's first song on Saturday evening, was "Roberto tu che a doro." We can conceive of nothing more exquisite in respect of vocalization and full-orbed melody, than was Miss May's execution of this master-piece of musical art; especially in it did she reveal the wide range of her powerful voice, in which the lower notes of the register were proved to be as perfect as the higher.

"Linda," that sparkling gem of Donisetti, was brilliantly sung, surprising us with the great agility of her voice.—"Ernani Involami" that difficult and beautiful cavatina of Verdi's, she executed with with clear and rapid precision. We have rarely heard anything more sympathetic than her voice in the staccato passages, which are seldom sung in the manner the composer intended; but Miss May interpreted this song in a dramatic and finished style, and brought down bursts of applause, which obliged her to sing for encore, "Within a mile of Edinborough," which she rendered in a charming manner.

SENATOR TOOMBS AND THE NAVY YARDS. Senator Toombs of Georga, in his recent speech on the revenue question says:

Your appropriations for navy yards have gone to the building of houses for officers, and making of flower pots, and all that kind of thing, at a cost of $2,000,000; and it will be no less as long as you will pay it, but will go up to $4,000,000 if you do not stop it. There are $2,000,000 that you have no need for at all.—You have 8,000 sailors to man your navy. You have not increased them of late, and you have now 8,000 men in your navy yards to help them—civillians. You have carried their number up from 3,000 to 8,000. You have eight navy yards.—England has over 550 ships and has two navy yards. You have eight, conveniently located all about the country, and it is a cause of reproach to all good democrats, for the enemy to say we keep people there to cheat them at elections; and as God is my judge, I am afraid there is something in it.

GLEASON'S LINE-OF-BATTLE SHIP.

This splendid new weekly is increasing very rapidly in its circulation, every body is delighted with it. The paper is furnished to clubs at the following remarkably low rates:

2 Subscribers, one year,		$ 3.00
4	" " "	5.00
10	" " "	10.00
20	" " "	20.00

and one gratis in getting up a club of 20. Single Subscription being $2.00 per annum.

Those wishing to subscribe, or form clubs, will have sample copies sent free by addressing F. Gleason, Boston, Mass.

Gleason's new enterprise is highly spoken of by the Press.

We give a few of the many favorable notices we have seen.

Mr. Gleason has the experience, the enterprise, the tact, and the capital, requisites to sustain a good and succesful paper.—*N. Y. Com. Adv.*

GLEASON'S WEEKLY.—This is the best pictorial and literary paper published in the United States, and no family should be without it.—*Local News, Wapaca, Wis.*

GLEASON'S WEEKLY is full of everything to please the eye and the mind. The new illustrated weekly causes great excitement in newspaperdom.—*Register, Wapaca, Wis.*

GLEASON'S LINE-OF-BATTLE SHIP is before us. We do not hesitate to pronounce it the best literary and pictorial journal published in the Union.—*Republican Watchman, Monticello, N. Y.*

GLEASON'S LINE-OF-BATTLE SHIP.—This new weekly is, without question, the largest and handsomest literary sheet in the Union. It is freighted with a precious cargo of sketches, tales, poetry, biography, editorials, wit and fun.—*Herald.*

GLEASON'S NEW WEEKLY LINE-OF-BATTLE SHIP.—F. Gleason, Esq., that prince of editors and publishers, is again in the field. His well-earned popularity is a sufficient guarantee for the success of his new enterprise.—*Bellefonte, Pa., Democrat.*

GLEASON'S NEW PAPER is what might have been expected from the experience and skill of the gallant commodore and editor, elegant in its typography, illustrations and reading matter. Everything that good taste and experience could devise, appears to have been brought into requisition.—*Ledger.*

GLEASON'S LINE-OF-BATTLE SHIP, by the illustrious Gleason, is illustrated with excellent engravings, and contains the choicest reading matter. A neater paper has never been issued from the press.—Gleason is a Napoleon in the field now occupied by him.—*Boston Atlas and Bee.*

GLEASON'S LINE-OF-BATTLE SHIP.—The largest edition ever printed of the first number of a paper, either in America or Europe, was that of the "Line-of-Battle Ship," by Commodore Gleason. One hundred thousand copies were issued and sold. This is truly wonderful, and shows what tact, talent, and a union of beauty and art can do, when controlled by a master spirit. —*Sunday News.*

From the Newburyport Herald.

THE DRUNKARD'S WIFE.

Beloved for kindly acts and heart of truth,
Buoyant with maiden glee,
Those features that fell on my eyes in youth
Memory pictures to me.
A stranger came to our peaceful vale,
And bore its sweet treasure away;
Years since have fled on the wing of time;
I chanced to meet her to-day.

That eye has lost the sunny smile,
That step its blithesome grace;
Those raven locks have changed meanwhile,
And on thy pale, thin face,
The seal of bitter anguish now
Tells of a blighted life.
Alas! 'tis written on thy brow,—
Thou art a *drunkard's wife!*

His heart, his all, upon that shrine
Of ruin he has laid;
'Tis crushed, that gentle hear of thine,
His life accursed made.
The joy and peace of former days
Dwells 'neath that roof no more;—
Intemperance has stronger ties
To bind its victims o'er.

Those happy hours, in days of yore,
Can ne'er come back again;
Gaunt penury within thy door,
With all its awful train
Of misery and want shall dwell,
While thy sad days may last,
O, soon will sound thy funeral knell,
Thy woes will soon be past.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mfg Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see the machines of Wheeler & Wilson."—[Examiner.

"Wheeler & Wilson is the machine par excellence for family use, and we recommend it most emphatically."—[Advocate and Journal.

"Wheeler & Wilson's Sewing Machines combine everything that can be required in the manufacture of garments. Our friends abroad may be assured that to purchase one of them is a safe investment."—[Observer.

"Wheeler & Wilson is beyond all question THE machine for family use."—[Life Illustrated.

"THE BEST ONE Sewing Machine, and that is Wheeler & Wilson's."—[Judge Meigs, of the American Institute.

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

Worcester's Quarto Dictionary.

This work which is the result of a life's labors is now nearly completed, and the publishers expect to issue it in the course of next May.

In ORTHOGRAPHY, it will represent the usage of the best writers in this country and England.

The PRONUNCIATION of all words will be exhibited by a system of notation easily understood; and in doubtful or disputed words the best authorities for the different modes will be given.

In ETYMOLOGY it will be found more complete and satisfactory than other work of the kind.

The DEFINITIONS will be fully and accurately distinguished, and exemplified by quotations from the best authors, of sentences valuable in themselves.

SYNONYMS will be so treated as to be a very valuable feature of the work.

Another very novel and most useful feature of this Dictionary will be the WOOD CUTS, of which about 1200 will exemplify words whose meaning can be more accurately conveyed in this than by any verbal definition.

AN EDITION ON LARGER AND FINER PAPER FOR SUBSCRIBERS will be first issued at the same price as will afterwards be charged for the common edition; viz: $7,50.

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, **10 Barrels good Coal,** 1 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2220 lbs, worth about $6. The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

Thousands have been sold and give perfect satisfaction. Try one.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1858.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodist Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds ½ pint, and retails at $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public. These **Gums** remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, **purifying the blood,** giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding country, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent to him and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

Dr. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have received his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicine sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 d1y

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an envisible and WORLD-WIDE reputation for its CURES and CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the Proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use CURATIVE PROPERTIES, and a Permanent Cure.
"My Mother's Salve" is a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in Rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

Indian Physician.
Dr. R. S. GOODWIN
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all PAPERS or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions.—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials now given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—the immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
The necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.

TUESDAY, MARCH 15, 1859.

AN INEBRIATE ASYLUM.—*Four Hundred Female Applicants.*—There has been lately established in New York a State Inebriate Asylum, and a proposition was recently made to the Legislature for an appropriation in its behalf. This proposition was unsuccessful, but it will doubtless be renewed hereafter. The New York Journal of Commerce, speaking of the appalling spread of intemperance, says that a large number of eminent names are being erased from the list of the living, where the true cause of death is never suspected by the community at large, (the interposition of surviving friends saving their memories from indelible disgrace,) died of "delirium tremens" being the fearful secret. At least two on the list of subscribers for the contemplated Asylum—men who stood high in the profession of law and literature—are already victims to this insidious destroyer. It has been asserted that men are not to be found who would voluntarily commit themselves to an institution for inebriates; but this is refuted by the fact that almost before the foundation stone was laid there had been 2800 applicants for admission, of whom, according to Dr. Turner, Corresponding Secretary of the New York State Inebriate Asylum, "more than four hundred are women in the high walks of life, educated and accomplished." There appears to be no room for reasonable doubt on this point.

Does any man wonder that, with such an army of tipplers and dramsellers as exist in New York, such men as Sickles go to Congress? Does any one marvel that Pewter Mug and Coal Hole cliques control elections, direct who shall go on foreign missions, and decide who are patriots? Let men in high places, as well as others, learn from the above doleful picture, that in drinking wines and strong drink there is danger. In total abstinence alone is safety from drunkenness.

CHARLESTOWN PRISON.—The present number of inmates of the Charleston State Prison is five hundred and six, a larger number than for a long time past. Last year the average was about four hundred and eighty. The Traveller says that upon the organization of the Council, the Governor alluded to the increase of petitions for pardon from State and County criminal institutions, and suggested that all applications for pardon be made to the Executive, and that such as in his view contained a sufficient ground for investigation should be laid before the Council.—The Council assented to the recommendation, and, in consequence, the number of hearings for pardon have been greatly decreased, amounting, the present year, to only four or five. So far not a person has been pardoned from the State Prison.

THE DIFFERENCE.—The Senate added forty-one amendments to the Miscellaneous Appropriation bill after it came from the House. Upon its return to the House that branch struck off twenty of them, which amounted in the aggregate to nearly three millions of dollars. When the amended bill went back the Senate thus savagely mutilated by the House, Messrs. Toombs, Mason & Co. did not appear to be hurt in their dignity and "constitutional rights," as happened in the case of the Post Office Appropriation bill. There was even no asking for a conference committee, Mr. Hunter saying that this was probably the best thing that could be done. Bet in this case there was no feeling of revenge because an attempt to impose high postage on the people had been foiled.

☞ The European Times says:—It is probable that we are on the verge of a war, the direst and bloodiest which has ever stained the annals of modern Europe. We cannot help thinking there must be a secret understanding between Russia and France at the present time, otherwise Louis Napoleon would never enter on the desperate game he is now playing. They have both many interests in common—they are both prompted by passion and interest in despoiling Austria.

☞ The four condemned murderers, Gainbrill, Cropp, Corrio and Cyphus, who are sentenced to be executed at Baltimore, on the 18th inst, have addressed a joint letter to Sheiff Creamer, requesting that they should not be hung in shrouds. There being no law requiring the Sheriff to use shrouds, he will accede to their desire.

The Transit across the English Channel, is supposed to be the *sick transit* alluded to in the well-known Latin quotation.

☞ The Homeopathic Fair, now being held at the Music Hall, Boston, is described as the most brilliant and splendid Fair, ever held in that city. The Transcript says, the receipts for four days were about $15,000, and the net profits of the Fair will probably reach $12,000. There have been many articles of value disposed of by raffle, amounting to $1200 or $1500 or more—which were drawn by such noted personages as Mrs. N. P. Banks, Mrs. A. H. Rice, Mrs. Warren, Mrs. Barry, Capt. A. H. Snow, D. L. Messer, &c. These articles are *pianos, sewing machines, &c.*—just the same as have been distributed at the gift concerts in this city; respecting which, certain over-righteous grannies have rolled up their eyes in horror. Wonder if the Portsmouth Journal would term this Fair "a knavish attempt to gull the flats and get rid of a lot of inferior articles at a high price?" Y.

☞ American Periodical Literature can now safely boast of a triumph, as the Atlantic Monthly has attained a circulation of 40,000, and is placed upon a sure basis; its publishers being among the most enterprising in our country, and being actuated to a considerable degree, in the establishment of the Atlantic, by the mortifying fact, that our American literature had no true exponent. The English press have honestly admitted that we have such a periodical, and have been lavish of their praise the past few months. The April number is looked for as one of the very best yet issued. In chronicling the success of the Atlantic, we are expressing a *national* feeling of something more than pleasure, that we have at last accomplished our desires, and that our literature has such an ornament in the Atlantic Monthly.

CALIFORNIA—NAVAL.—Steamship Star of the West, from Aspinwall 5th inst, with California dates of the 20th ult., and $930,000 in specie, arrived at New York on Monday evening.

Commodore Davis and late officers and crew of U. S. ship St. Marys are passengers in the Star of the West.

The U. S. frigate Roanoke was at Aspinwall 5th inst.; all well.

The U. S. sloop-of-war Vandalia was at Manzanilla the last of Feb.; all well.

The sloop-of-war Cyane was at Callao, to leave shortly for Panama.

☞ "As a man thinketh in his heart, so is he." A correspondent of the Spirit of the Times tells of "a clergyman in Boston, of the long ago, who once said in a conversation on the Solomonic dispensation of the rod, that nine times in ten when the parent whipped the child, the parent most needed the whipping—and I want to utter my belief that nine times in ten when one man shoots another, the shooter deserves the bullet, if not more than quite as much as the person shot at."

☞ A movement has begun in St. Louis to establish there, upon a basis of private contributions and membership, a Western Academy of Art, embracing sculptors, painters, engravers, architects, amateurs and citizens, to be divided into academicians, life members and honorary associates. The objects will be the cultivation and extension of art, and the promotion of sympathy among artists. A school of design is also to be established.

FROM PORTO RICO.—A letter from Arecibe, P. R., in the New York Herald, says—five hundred and fifty coolies, recently landed in Cuba from Havana, have come over, which increases their number in this island to 2716, all sober, harmless and excellent laborers. The present crops are large, and the prospects of the planters are bright and flattering.

☞ The Irish patriot, Smith O'Brien, politely refused to drink their Jersey cider in New York, stating that he had not swallowed anything of an intoxicating nature for twenty-five years. All honor to the Irish patriot for this. Would that his countrymen might all follow his example.

☞ Godey for April, contains Engravings of "The Returned," a domestic engraving, well designed and engraved. 'April Fool;' the fashion-plate of the season. Head-dresses printed in colors to show the effect when made up. *Sixty-four* engravings in this number. Mrs. V. F. Townsend, Mrs. Haven, Mary W. Janvrin, contribute to this number.

☞ A German recently arrived in St. Louis, on the way to Pike's Peak, having travelled thus far from his house in Pennsylvania on foot. In reply to some inquiries about his undertaking a pedestrian journey of such length, he said he had not much money, and "didn't think it was so far."

A MAN OF BUSINESS, A GREAT MAN.—The Newburyport Herald gives the following first rate notice of Shute, the bogus lottery man:

William P. Shute, the elder Shute in the lottery swindle, who has been in confinement since the court on Tuesday, obtained bail for $12,000—some Plaistow men being his sureties—on Saturday.—As he reported to be worth three times that amount, he can easily satisfy his bondsmen, if he steps out.

It is said that he is highly esteemed by most of the people in Plaistow, who can't understand why our officers wanted to interfere with him when he was injuring nobody, but collecting money from the South and West to distribute here for useful purposes. He recently contributed fifty dollars in aid of a Plaistow church, and last winter gave many barrels of flour to feed the poor. He was moreover a main pillar in the democratic party.—Last year he was a candidate for representative to the legislature, and we believe came within two votes of an election. He would have been re-nominated this year, but for this disturbance in his financial speculations.

FATAL RELIGIOUS RIOT IN INDIA.—Late London papers, give the following account of a late religious riot in India:

"Madras has been the scene of a religious riot, in which numbers of lives have been unnecessarily sacrificed. Nowhere in India is there so large a Christian population as at Tinnevelly. Nowhere is the Hindo population more fanatical.—The authorities, always desirous of avoiding contentions between the Idolaters and Christians, have been accustomed to give in to the prejudices of the Brahmins.—Christian funeral processions have usually been prohibited from passing in front of the pagodas, and even in streets occupied by high caste Hindoos. Such pretensions have never been listened to in Calcutta, where Christian fun-rals pass daily before the temples of Bunneahs and Brahmus without remark. In the present instance, a Christian funeral procession passed in front of the great Tinnevelly pagoda. The Brahmins, trusting to long continued tolerance on the part of the authorities, attempted to prevent the passage of the funeral. A row ensued. The Christians were stoned by the Brahmins, and it became necessary to send for a force to restore order. Unfortunately, three companies of Sepoys were brought in from Palamcattah and fire-arms were used.—The result was that thirty-nine persons in the crowd were killed."

WASHINGTON, March 12.—The exhibit of the affairs of the Post Office Department, prepared by direction of the President, was submitted to him to-day. It shows that its means were insufficient to meet the demands due on the quarter ending December last, and that the Department is already six months in arrears.—The present deficiency is at least five millions. Mr. Holt to-day formally resigned the office of Commissioner of Patents. The address on behalf of the employees of that bureau was eloquently responded to by him. He will enter on his duties as Postmaster General on Monday, as yesterday intimated.

The War Department has received advices from Col. Johnston at Salt Lake.—He represents the army as healthy, and the Mormons very civil.

Letters have also been received from Gov. Camming. The report that the Mormons would not submit to the civil authorities is untrue.

FROM VALPARAISO.—Valparaiso dates are to Jan. 21. The revolutionary movement progresses. The provinces of Talca in the south, and Huasco and Coplapo in the north, are in arms against the government. Troops have been sent the insurgents.

Any attempt at revolution in the provinces of Nuble and Aconagua have been frustrated by the seizure of several of the agitators.

The Commercio, a journal favorable to the government, speaks of the revolutionary movements with contempt, and says tranquility is certain. Other authorities say the revolution daily gains ground, and trouble was daily expected at Valparaiso, where great fears of excesses by the mob are entertained.

Lima dates are of Feb. 11. Business was completely paralyzed. There is no news of interest.

WORSHIPPING DEAD MEN.—We do not remember a better hit at the frequent sickening exhibitions we have, of deifying "departed greatness," than the following. The Boston Saturday Evening Gazette says: "It is a literal fact that at a dinner given on the 22d of February at Pittsburg, Pa., Dr. Dake gave as a sentiment: "When Gabriel blows his horn, may George Washington be the first to arise."

☞ The Gettsburgh (Pa.) Compiler says a little boy, four years of age, strayed from home. After two days and nights, the dead body of the little fellow was discovered nearly nine miles distant. The little dog, which has been the child's playmate, and had accompanied him in his long and fatal journey, was found nestled in the child's bosom.

THEODORE PARKER.—Letters from Mr. Parker's family and the friends accompanying them, dated Havana, Feb. 20, state that this clergyman had much improved in bodily and nervous energy, since his arrival in Cuba. On the 22 of February, Mr. Parker would sail for St. Thomas.

THE SPRING AND SUMMER MEDICINE,

Dr. Langley's Root & Herb bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid state of the Liver. Diseases peculiar to females, Bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

NECROSIS.—If there be any disease calculated to drain away the life of a man, and weaken the mind and body by its painful slowness, it is the death of any part of the bones. The **PERUVIAN SYRUP** gives support under the profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUEREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same antidote.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

A NEW BODY.—On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 21st, RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Resolvent; one small bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked.

BEAUTIFUL LADIES.

Many ladies are suffering a disfurnement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Bee's Stings, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable medicinal herbs of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of weather and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, liquor dealers and merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 76 Cornhill; S. E. Pecker, 20 Elm st; J. Moran, 116 Blackstone st; M. Davis & Co., 51 Blackstone st; R. DR. DUPONCO'S French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every instance. They are now used by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prescott; Agents will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J. Duponco is upon each box. You will then obtain a Pill you can rely upon.

☞ To-night, for a rarity indeed here, we are to have a Concert of a high order of excellence,—at the Temple. The performers are all well known, as among the best in the country, in their respectiee departments. Miss May has won great fame and popularity, at home and abroad, as a splendid and pleasing vocalist; Mr. Adams was last week pronounced by Dwight's Journal of Music, the best tenor in Boston; and Mr. Lang is achieving a high place among the best pianists.

The troupe has been singing for $1 and $2 a ticket; but have fixed the admission here at 50 cents—and who wouldn't prefer such a programme as theirs, to two or three of the ordinary sort? It will be worth the price of one ticket, certainly, to all lovers of decency and good manners, to have a chance once more to enjoy an entertainment undisturbed by the whistling and hooting of boys, and the clatter of boot-heels.

☞ On Sunday afternoon, at the usual hour of public worship, the Temple in this city was filled with an attentive audience, composed of the congregation regularly assembling there, and of people from other churches, who came in to hear Miss Sallie Hollie lecture on slavery.

After the introductory hymn, Miss H. read the 12th chapter of Matthew, with comments, and offered prayer.

Her lecture abounded in sad facts, and affecting appeals to Christian men and women, urging them to the duty of speaking for the dumb, and to sympathy for the oppressed. It was remarkably appropriate to the Lord's Day, and uncommonly free from objectionable matter.

The appeal was earnest and eloquent.—The services were closed with prayer by the pastor, and a freedom hymn.

☞ The Republicans of this city commenced their demonstrations of joy at the result of the late election, by the firing of one hundred guns at sunset on Monday.

This was the signal for their assembling on Market Square, which took place at 6½ o'clock, when, with the music of the Portsmouth Cornet Band, they marched to the house of the Governor elect, Hon. Ichabod Goodwin, cheering as they passed numerous houses which were illuminated. In the procession was a company from Newcastle, with music; citizens from Newington, Greenland, Rye, &c.,—and a company of young republicans of this city.

The governor elect, and other gentlemen were then escorted to the Temple by this very large procession, only a small part of which could get into the building, and hundreds had to leave for want of room.

Those who could get in, were entertained with speeches agreeable to the programme, congratulatory of the republican success, and declaratory of republican principles in the State and National Governments.

At about 9 o'clock, the procession again moved, to Jefferson Hall, where a social collation was enjoyed, and the company separated, well pleased with the occasion.

☞ See advertisement of N. K. Walker & Son, who have just finely refitted and improved their store on Congress street, and laid in a new stock of fashionable Hats, Caps, &c. Now that we not only have three good Hat Stores in Portsmouth, but their proprietors are willing to let the people know it by advertising, we don't see what a man can gain by getting batted in Boston, since he has equally as good a chance to suit himself here—and can buy of his own townsmmen whom he can rely upon.

☞ It will be seen by our advertising columns, that we are to have a second Methodist Society in Portsmouth—to be called the "Broadhead Methodist Episcopal Society."

☞ A rare chance to invest in good dividend-paying Bank Stock, next Saturday, will be seen among our new advertisements this morning.

☞ Jones & Mendum open a large lot of Spring Dry Goods to-day. We are unable to insert their advertisement this morning.

☞ Wagons began on Monday to run among the sleighs in our streets—where they have not been used for about ten successive weeks. A large lot of ice is still on hand.

DEATH OF A MERCHANT. — Theodore Chase, Esq., an eminent merchant of Boston, died in that city on Sunday afternoon. He was a native of this city, and a merchant here for a number of years.

death-bed's a detector of the heart;
Here tried dissimilation drops her mask:
Virtue alone has majesty in death.

THE STATE TEMP. COMMITTEE Respectfully request ministers of the gospel in the State of New Hampshire to preach on the subject of temperance on the coming annual fast day, or on the Sabbath before or after, at their discretion.

We would also suggest the propriety and expediency of some efforts to be made at the same time for the organization or revival of temperance societies, pledged to total abstinence, in the several religious societies, Sunday schools, or towns, as may be deemed best.

We are glad to know that such efforts on a smaller scale, last year, were quite successful in some parts of our State—and that similar efforts are now making in many places in our neighbor States of Maine and Massachusetts, with happy results.

We rejoice at the reviving of the order of the Sons of Temperance now taking place in this State and Massachusetts,—in an improved form,—from which its judicious friends have hopes of its increased usefulness.

And we are willing to believe that the friends of temperance, good order and true religion, in the State of New Hampshire, are now prepared to pursue the moral effort in behalf of temperance, in such form as to them may seem best, with renewed zeal, vigor and success.

For the Committee,

H. D. WALKER, *Chairman.*
T. H. MILLER, *Secretary.*

Portsmouth, March 10, 1859.

☞ Kittery Town Meeting was held on Monday.

Stillman B. Allen, Esq., democrat, was chosen *Moderator*, by about 25 majority.

Jefferson T. Lewis, *Town Clerk*, democrat, by 6 majority.

Moses A. Safford, Albion Parsons, John S. Paul, *Selectmen*, democrats, by about 12 mority.

Ephraim C. Spinney, *Town Agent.*

☞ We learn from Eliot that at their town meeting on Monday, the Republican ticket prevailed throughout, being an entire change from last year.

NEW YORK, March 12.—A dispatch to the Daily Times says that Com. Stewart yesterday sent a leter to the president, developing a new chapter in the secret history of the country. The letter asserts that the gunboat navy of President Jefferson, which was ostensibly built for the protection of our sea coast, was really intended for the seizure of Cuba. One hundred and eighty these boats were sent southward on that special service, when the threatening condition of our relations with England rendered a postponement of the project necessary.

☞ Near St. Augustine, Fla., the jessamine, blackberries, and wild flowers are plenty in the woods; the peach and plum are in full blossom, and the orange buds begin to swell.

KINGSTON, JA.—Kingston (Jamaica) dates of Feb. 17. A Haytien war schooner had arrived with three envoys from President Geffrard to the Governor, and also with orders to take home on her return all political refugees wishing to return to their country. Soulouque was under the survillance of the Jamaica authorities.

☞ Capt. Richard Brown was instantly killed on Saturday morning by falling down the hatchway of his ship, the Belle Creole, lying at a wharf in Boston.

In South Hampton, N. H., on Monday night last week, Henry Flint attacked William Weston, stabbing him in three places. Both parties were under the excitement of rum and politics, and we presume the one having imbibed the most rum resolved upon using the most *pointed* argument, and settling the question in dispute in a summary manner.—*Visitor.*

☞ Two gangs of young Irish rowdies got a fighting in Boston on Sunday evening, when five of them were badly stabbed. One of them was a scoundrel who was concerned in the Ellen Desmond murder case.

Instead of retaliating upon the man who calls you a villian, a liar, or a thief, coolly inform him that you have not sufficient confidence in his veracity to believe him.

PRICES GREATLY REDUCED.

The Wheeler & Wilson
Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mf'g Co.
Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of their SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every novelty that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see the machines of Wheeler & Wilson."—[Examiner.

"Wheeler & Wilson is the machine par excellence for family use, and we recommend it most emphatically."—[Advocate and Journal.

"Wheeler & Wilson's Sewing Machines combine everything that can be required in the manufacture of garments. Our friends abroad may be assured that to purchase one of them is a safe investment."—[Observer.

"Wheeler & Wilson is beyond all question THE machine for family use."—[Life Illustrated.

"There is but ONE Sewing Machine, and that is Wheeler & Wilson's."—[Judge Meige, of the American Institute.

THE GROVER & BAKER
SEWING MACHINE CO.,
18 SUMMER STREET, BOSTON.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE;
PRICE $50.
HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

NAPOLEON MORIENS.

"The 5th of May came amid wind and rain. Napoleon's passing spirit was deliriously engaged in a strife more terrible than that of the elements around. The words "tete d'armee," the last which escaped his lips, intimated that his thoughts were watching the current of a heavy fight."—Scott's Life of Napoleon, vol. 2, p. 404.

'Twas meet that 'mid the gathering roar
Of tempests wild and high,
Embattled storms and whirlwind's rush,
Napoleon should die;
Departure of such spirit stern
Should match its life's career,
And well might living thunder pour
Its volleys o'er his bier.

How else *could* pass the soul of him
Whose name made empires reel,
Shook kings with awe and crush'd their thrones
Beneath his trampling heel;
And claiming with his sword alone
Heraldic right to reign,
Joined to fair France's diadem
The crown of Charlemagne?

In that dark hour, while o'er his couch
The raging storm swept by,
And blazing lightnings flashed along
The midnight of the sky,
The hero left his prison isle,
And, mantled in the blast,
In spirit free exulting held
Communion with the past.

Proudly he saw that hour of fame
Which from the Alpine height
Beheld out-spread the fair extent
Of Italy the bright!
That hour—when borne upon the gale—
The 'larum of his drum
Told ancient Hapsburgh's haughty house
The doom of fate had come.

Again unroll'd, his victor flag
Abroad its splendor flings
As erst displayed, it floated o'er
The tombs of Egypt's Kings:
In the fierce lightning's lurid blaze
He marks the shested flame
Which rose on high o'er Toulon's fall
And Moscow's redder name.

Welcomes his ear the clang once more
Of his war-eagle's wings,
While loud through smoke and sulphurous cloud,
His note of conquest rings;
The convent walls of Spain's Madrid,
The city of the Czar,
From where the Baltic rolls its flood,
Give back the din of war.

He hears amid the pealing loud
Of thunder, swelling high,
The vengeful cannon's music roll
And trumpet's charging cry.
Once more he led his thousands on,
O'er prostrate nations trod,
And girt with armies, stood again
Old Europe's "Battle God."

But while from mem'ry's caverns deep
Past scenes of glory rise,
And tumults of an hundred fights
Before his dying eyes,
Falters his tongue—his lips the "charge"
To utter feebly tried;
And thus, 'mid storms and tempests wild,
The World's Great Captain died.

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, **10 Barrels good Coal,** 1 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2220 lbs, worth about $6.

The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guaranty of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy t an it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any one may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing dandruff, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds a quart 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in this and neighboring towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 18 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMOVATING PILLS. These pills are unrivaled in strength and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—18 Howard street, Boston

N. B.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 d1y

HOW TO KEEP LENT.

BY ROBERT HERRICK.

Is this a Fast, to keep
The larder lean
And clean
From fat of meats and sheep?
Is it to quit the dish
Of flesh, yet still
To fill
The platter high with fish?
Is it to fast an hour,
Or ragg'd to go,
Or show
A downcast look and sour?
No:—'Tis a fast to dole
Thy sheaf of wheat
And meat
Unto the hungry soul.
It is to fast from strife,
From old debate
And hate;
To circumcise thy life;
To show a *heart* grief-rent;
To starve thy sin,
Not *bin*;
And that's to keep thy lent?

☞ Preparations are making in Baltimore for a hospital for foundlings, where this class of children may be reared, educated and otherwise provided for; also for the infants of destitute persons, who are prevented by poverty from supplying their wants.

BELONGING TO ANOTHER PARISH.—At a missionary sermon, in a country village, all the congregation shed tears, with the exception of one rustic, who, when he was asked why he continued unaffected, replied, "*I don't belong to this parish!*"

☞ Mr. E. T. Barrett, the editor and publisher of the Nashua Register, retired from that establishment last week, declaring that he believes it "useless to grub for verdure in a field already overrun or exhausted."

TEMPERANCE IN ALL THINGS.—The intoxicating and bestial effect of alcohol is destroying its thousands of men; while thousands of our fair American women are ruined by the intoxicating delusions of fashions and extravagance.—*Temperance Visitor.*

☞ Mr. Francis Gouldy, who was so fearfully assaulted in New York by his son in October last, is so far restored that he is able to get out, though he will never fully recover his former health. The other sufferers in the case are now well.

"Ladies and gentlemen," said a showman, "here you have a magnificent painting of 'Daniel in the Lion's Den.' Daniel can easily be distinguished from the lions, by the green cotton umbrella under his arm."

☞ James Buchanan Henry, the Private Secretary and nephew of the President, has resigned his office, and is going to New York to practice law.

Indian Physician.
DR. B. S. GOODWIN
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 3 Middle street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; Curtis theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS is THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him also, in this question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors that cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such uninterrupted proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

BOTANICAL SCHOOL BOOKS.

Friend Miller:—The making of school books is a trade. There are men who will make them at so much the *thousand cuts*, just as compositors set up type; and on any subject that a printer will undertake, they will write, There are publishers, too, who do not believe that the intrinsic merits of a book have anything to do with the reception it shall meet from either the reviewer or the public. The more energy in the publisher, the wider shall be the sale of the book.

Ten years ago there was no Botany for schools better than Gray's Manual. For five years after that, not one school in ten knew anything about it. It was published by a sleepy Boston house, that left it to its fate. Now the work has grown to a regular and complete series, and our best schools use no other: the go-ahead firm of Ivison & Phinney has wrought the change; and, I fear, the merits of the books have had little to do with it. Still the works are the best we have, or can expect to have for years to come. Prof. Asa Gray, M.D., of Harvard University, has devoted his life to Botany, and mostly to American Botany. His first work, published I think in 1846, was not very clear in its style, but embodied a far greater amount of botanical learning than anything that had appeared in America. Successive editions, two re-writings, and the incorporation of all advances in the anatomy and physiology of plants, have made it the last appeal of the scientific student, but too full to be used as a text book in colleges even. The present title is "Structural and Systematic Botany."

The work just mentioned is equally applicable to America, India, Siberia, or Australia—wherever vegetation is found. Another kind of book is necessary to the student, a *flora*, or description of the plants within his reach. Years of solicitation extorted from Prof. Gray the Manual first mentioned above, which was a Flora of the Northern and Middle States, with an exceedingly perfect, condensed synopsis of vegetable anatomy and physiology prefixed. It omitted the Richens, Fungi and Algæ. The last edition, known as the "Manual with Mosses," omits the synopsis, but gives accurate engravings of all the cryptogrammic genera it describes. It covers all the region north of the Cardinas and Mississippi. To accompany it was prepared the "Lessons," just large enough for the thorough study of schools and colleges. But the "Manual with Mosses" proved too expensive, and the mosses are never studied by mere students. So the "Manual without Mosses" was issued.—Next came an edition of this last with the "Lessons" bound with it.

One work still was wanting for younger pupils. The appearance of this has called forth this article on the series which it completes. Its title is, "How Plants Grow." Prof. Gray believes that Botany is an easier and safer study for little children while their brain is yet tender. I believe it. It combines the study of words and things: it brings together printed assertions, pictures, and the natural objects both describe. It tends to give the child confidence in what he reads. It is the same study that the babe begins when he first opens his eyes—the study of nature—only systematized. The arrangement is admirable and the language, like that of all Gray's later works, beautifully simple. It has its Flora, too, of course; containing a thousand or so of plants that are easy to study. I have been looking at this little work to see if it will answer for adults who feel that they cannot afford time for more than a mere smattering of Botany. I think it will serve their purpose admirably. If there is any valid objection to this entering wedge of science, I think it is the studious avoidance of scientific terms and the introduction of what are called *common names* for plants and families of plants.—These are becoming less and less necessary.

I ought to say one word in regard to the engravings in all these works. They were prepared expressly for them, from American plants, and by one of the first artists living, Isaac Sprague. Those in the last little book exceed in beauty any that I recollect ever to have seen in any botanical school book. This may be partly due to superior engraving, and partly to the electrotype process, by which all superior wood-cuts are prepared for the press, with the exception, perhaps of those of the Tract Society, which are never stereotyped but printed from the wooden blocks themselves.

As we may almost consider our list of Botanical text books complete for the remainder of this century, I will subjoin their names and the retail price of each. I suppose that Ivison & Phinney of New York will send a copy of either by mail prepaid, on receipt of the retail price in New York bills or postage stamps.—Schools, of course, can be supplied cheaper through the booksellers.

How Plants Grow, 75 cents; Lessons, $1; Manual without Mosses, $1.50; Lessons and Manual in one, $2.25; Manual with Mosses, $2.50; Structural and Systematic Botany, $2.

Believing that the series leaves nothing to be desired, and being often applied to for information, and without any inducement from publishers or author, I contribute through you this piece of useful information for the public good.

Yours, LAWRENCE.

☞ The New York Saturday Press has a capital article on the Sickles tragedy. It says, "The Dishonored Husband has always been a favorite subject of popular sympathy. Whatever he may do to avenge his wounded honor,—especially if it is something horrible, he is sure to be upheld in. But how about the Dishonored Wife? Who, especially in gallant America, ever heard of a husband dishonoring his wife?"

"When a man commits a great crime, and his wife adheres to him through all his disgrace and dishonor, her praises are in everybody's mouth. But when a woman commits a crime, a crime at all serious—and above all, the crime of adultery—the husband who cleaves to *her* in her shame, becomes the laughing stock of the whole community. It would be well if men got some new notions about honor; that we should learn, at least, that a wife may be dishonored as well as a husband; and that a woman has as much right to avenge herself, as a man to avenge himself. It is a horrible state of public opinion, which, for the same offence, brands the wife with infamy, and leaves the husband untainted in reputation."

The Boston Saturday Evening Gazette says that *temper*—nothing more noble—made Sickles a murderer, in the sight of God, however men may exonerate him from blame. We deprecate the wrongs in toto—and pity the unfortunate victims that live, and especially the frail woman, whom no mercy or forgiveness awaits in this world—whose crime has been published by the one who should have guarded her honor and thus saved his own.

☞ The Board of Commissioners, consisting of Chief Engineers Wood, Isherwood, and Long, will convene at Philadelphia on the 28th inst., for the examination of candidates for admission and promotion in the engineer corps of the Navy.

Chief Clerk Shugert is now Commissioner of Patents.

Mr. Florence, who has been ill ever since the close of Congress, is convalescent.

Ex-Congressman Joseph Miller of Ohio has been appointed Associate Justice for Nebraska, vice Samuel W. Black resigned.

☞ The Democrats have carried the city of Biddeford, Me., in the Mayoralty election, by 28 majority.

The Bangor, Me., city election has resulted in a Republican majority of 314 on the Mayoralty vote. They have also a majority of Aldermen and Councilmen.

SLAVE TRADE IN TEXAS.—Texas is becoming a slave mart. The New York Express quotes from a private letter,

"There are a few smuggled in occasionally. Six hundred have been safely landed on our coast within the last few weeks, and still more are on the way. I say, let them come."

☞ Timothy Sweeney, aged 122 years, died in Fairview township, Butler county, Pa., on the 27th ult. He emigrated from Ireland when he was one hundred years old. He was never known to have an hour's sickness, having the full use of all his faculties to the last.

☞ Mr. Richard Cobden arrived at Toronto, C. W., on Monday, the 14th inst., and in the afternoon paid a visit to Parliament in session.

WASHINGTON, March 14.—The administration have been informed that the commanders of the American, English and French war vessels, before Vera Cruz, would act in concert in protecting the lives and property of foreigners, should it be necessary, under the attack of Miramon.

Mr. Buchanan declared to a Senator last evening that he had determined to call an extra session of Congress, and would issue his proclamation within ten days.—The time will be determined on Tuesday in the Cabinet, but it will not be earlier than the 1st of August.

SAD ACCIDENT.—In Newburyport, on Monday morning about 8 o'clock, Daniel Dana, a sailor belonging to that city, attached to the new ship John Porter, fell from a plank walk, a distance of six feet or more, striking his head into a pile of ballast stones. The scalp was badly cut, and the skull slightly fractured. The wound was dressed, and Dana was conveyed to his grandfather's house.

At that early hour, (says the Herald,) this young man, about 22 years old, was intoxicated, and probably he has not been sober for two or three weeks he has been on shore. He had drank his bottle dry, and was going on shore to have is refilled when the accident occurred. It was certainly a very melancholy spectacle to see a young man of good intellect, and from so good a family, with a venerable grand parent at the very gate of heaven—lying in his condition, bloody, senseless, ruined. It should caution all young men against the intoxicating cup.

SOUTHERN LOTTERIES.—A correspondent of the New York Spirit of the Times, writing from Augusta, Georgia, gives an account of the drawing he saw there, of one of Wood, Eddy & Co.'s Lotteries—recently S. Swan & Co.'s. The writer is the accomplished concert giver, Stephen Massett. He says:

Some years ago I had a song published by Oakes & Swan, Washington street, Boston. Well, yesterday, while supping a cup of tea at the house of a friend, who should appear but the same jolly old duck—no, Swan—looking just as young, calm, and serene, as when, fifty or sixty years ago, he was dotting down the notes in a music shop; instead of punching notes, he is now handling them to the tune of several hundred thousand a year, and is a large-sized banker to boot—sitting in a large sized mahogany chair (revolving at that) has a public news-room in his establishment, where papers from the Shetland Isles, Kamskakta, Peru, Sydney, or any where else, can be seen, can be Peru-sed.

I witnessed this morning the drawing of a lottery, and as it was the first time I had ever witnessed anything of the kind, I'll give you a brief description. There is an immense wheel, resembling an illuminated one of a Lord Mayor's coach—glass of course where the spokes would be. Into this wheel are put a hundred million billion of little pieces of paper, like cartridges; the wheel goes round—a small boy pulls out a paper—a big man takes it and calls out the number "1984"—immediately after this (a smaller wheel of the same style having been put through the same course of sprouts) a grey headed gentleman with long flowing hair, ruddy complexion, and altogether *distingue* appearance, sings out in a voice that could be heard several miles off, "Five hundred dollars" or whatever the "prize" may be; another one sits at a table and takes down the number and the amount drawn.

An instance recently occurred of a man, from somewhere out West drawing $10,000 in one of these lotteries, and finding the full amount was immediately paid him, he was so rejoiced that he "out stick" first, and *cut his throat* right after! The amount paid by this firm is something immense in the course of a year.

FROM PORTO RICO.—*New York, March* 14.—The steamship Philadelphia's commercial advices have been anticipated by the Isabel at Charleston.

Gen. Walker and Col. Natzmer went passengers on the P. to Havana.

Advices from Porto Rico received at Havana state that a large clipper ship went ashore night of 4th Feb., near Punta de Candelero. She had 600 Africans on board. Her name was unknown, but she had the letter T on one side of her bows. The captain, mate, and some of the crew had died on the passage, and the rest of the crew were sick. The negroes were taken to the city, and the sailors, 20 in number, committed to prison.

ABOLITION OF THE GRAND JURY IN MICHIGAN.—The Detroit Free Press says the act providing for the trial of criminals by information goes into effect sixty days after the 12th of February, at which time it became a law. This law virtually abolishes the Grand Jury, which has for so long exercised its inquisitorial functions, reserving for the circuit judge, power to call into session whenever special cases need its aid. All cases are to be examined before a Justice of the peace, and by them committed directly to the higher courts, instead of indictments as has previously been done.

ELECTION ORDERED IN KANSAS.—*Leavenworth, K. T., March* 14.—Gov. Medary has issued a proclamation for an election on the 4th Monday in March, in accordance with the act of the last legislature, providing for the formation of a constitution and State government for Kansas.—Three months residence prior to the election is a requisite to vote. Aliens having declared intentions to become citizens, are qualified.

MACON, Ga., Feb. 14.—A letter has just been received from Albany announcing the murder of Col. Joseph Bond of this city. He was killed on Saturday near Albany by Lucius Brown. The difficulty, it is believed, originated in Brown's whipping one of Bond's negroes. Mr. Bond was among the largest cotton planters of the South, and very popular and public-spirited.

☞ The City of Dover, N. H., voted last Tuesday, by yeas 363, nays 93, to make application to the Legislature to repeal the city charter.

INTERESTING TO GENTLEMEN.—One of the most extensive, as well as best selected stock of fabrics for gentlemen's dress goods that we have seen this season, is opened this week by H. E. Armington, at 52 School street. Mr. Armington has gained quite a reputation for the taste, elegance and finish which characterizes all garments made at his establishment; and the innumerable styles from the most celebrated European manufactories, imported by his special order this season, (with trimmings to match,) affords an opportunity for the gratification of almost any taste. An adherence to the cash system enables Mr. Armington to make and sell these goods at quite a low figure.

His stock of goods now opened are an endorsement to his reputation for taste and enterprise, and really worthy the inspection of gentlemen.—*Boston Commercial Bulletin.*

☞ There is a variety of opinion at Washington concerning an extra session. The latest information is that one will probably be called, but not until October.

A NEW BODY.- On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-rotten body, that perfumed waters were kept constantly burning in his chamber. On the 21st., RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Relief; one small bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perpiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Good Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and compounds the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find and by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

☞ *Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."*

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHERS IS IMPORTED.

DR. DUPONCO'S
French Periodical Golden Pills,
FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail, to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J Duponco is upon each box. You will then obtain a Pill you can rely upon.

☞ Uncle Toby was one of the unfortunates who did not get into the Temple on Monday night, but he learns that the speaking there was eloquent:—and he was also one of those who did not get into Jefferson Hall, but he learns from friends who were there, that the tables were most bountifully and beautifully spread with the best of eatables, enough for all the comers, and to spare—as might have been expected from the known and acknowledged liberality of an honorable merchant and whole souled man, rejoicing in the success of a liberal principle, and surrounded by friends who appreciate his worth and rejoice in his elevation.

☞ The eatables at the Republican Collation were furnished by Messrs. White & Patch;—and the appearance of the tables reflected much credit on their skill as caterers for a promiscuous crowd.

NAVAL.—The U. S. frigate Congress, now at the Phiadelphia Navy Yard, will be reported ready for sea in a few weeks. The sloop-of-war John Adams, at Norfolk, is to be completed speedily, and the new frigate Santee, at Portsmouth, N. H., will be fit for service in May.

The U. S. Marine corps, as far as enlisting goes is now at a stand still. Recruiting on all the stations, particularly in the New York one, is extremely dull. There were more soldiers received there in one week last fall and winter than have applied altogether for a month back.—However, the corps being full, no extraordinary efforts are made to obtain recruits.

The above items appear in the papers without credit, and without special authority. We give them as we find them.

☞ Prof. Carl, at the Temple, offers a great bill to night, his first entertainment given in the city. The Manchester Mirror says of his performances in that city, "The Professor's feats of strength have astonished everybody that has attended, and his scenes of magic are new, exquisite, pleasing, and bewilder every one that attends. His Drum Solo is worth a long journey to witness, and his Ventriloquism, breaking solid rocks, bending huge bars of iron, and numerous other feats, make up a varied and rich entertainment, which ought to draw a large house."

PRIESTCRAFT IN SCHOOL.

On Monday morning, in Boston, as we learn from the Atlas, the Irish pupils in the Elliott School, North Bennett street, refused to follow the Master, at the opening of the school, in the Lord's Prayer, and the recitation of the Ten Commandments. This was instigated by a Catholic priest in that section, who on Sunday gave his children special instructions to disobey. The attempts of the Master could not induce them to obey the time honored rules of the school. They even declined, by orders from their parents, to sing Old Hundred, or other Yankee tunes.

The School Committee of that district visited the school in the afternoon, addressed the school upon this subject, and requested those who were determined to obey the orders to rise. About one hundred out of 151 arose. These were notified that they could no longer remain in the school. The priest at the bottom of this trouble is Rev. Mr. Widget, of St. Mary's church. The pupils in the Boylston and other South Boston schools have received similar instructions from their priests.

☞ Christopher Colson, at Hartford, Ct., last Sunday, killed his wife, from whom he had been some time divorced, on charges of habitual intemperance and cruelty to his wife. He took a large dose of opium, soon after committing the murder, and died in jail on Monday. He had been a noted fish-dealer, but was run down by drinking, and has gone to the grave of a drunkard and a murderer.

None were to reprove the vicious, except those who sincerely hate vice, there would be less censoriousness in the world.

DIED.

In Boston, Tuesday morning, March 15th, LEVI W. BEAL, aged 17 years, son of Mr. Josiah Beal, of this city. He fell on the ice about a fortnight since, and the injuries resulting therefrom, caused inflammation of the kidneys and spine, which resulted in death. The deceased was employed in the Chronicle Office for several months, previous to his going to Boston to serve as clerk in the dry goods store of Kimmonth & Co.; and was ever faithful, prompt and obliging to all. Though not of great stature, he possessed a larger soul than many a bigger man can boast. We can hardly realize that the little fellow, when but a few weeks ago he bade us a cheerful "good morning" in our counting-room, on returning to Boston, was then bidding us "farewell forever."

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

TOBACCO CHEWERS.

DR. GUSTAV LINNARD'S

TASTE RESTORATIVE TROCHES,

The Great Substitute for Tobacco.

IT is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe

MENTAL AND PHYSICAL DISORDERS

to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous principles, which are injurious in their effects, which by entering into the blood derange the functions and operations of the heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also the entire nervous system, manifesting itself—as all who have ever used the noxious weed will testify—in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES are designed to counteract these baneful influences, and have proved entirely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the system, restoring the taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the Throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system.

Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Trochies immediately and throw off the injurious and unpleasant habit of Tobacco Chewing.

These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 Cents per Box. A liberal discount to the Trade.

Prepared solely by the undersigned, to whom all orders should be addressed.

Worcester's Quarto Dictionary.

This work which is the result of a life's labors is now nearly completed, and the publishers expect to issue it in the course of next May.

In ORTHOGRAPHY, it will represent the usage of the best writers in this country and England.

The PRONUNCIATION of all words will be exhibited by a system of notation easily understood; and in doubtful or disputed words the best authorities for the different modes will be given.

In ETYMOLOGY it will be found more complete and satisfactory than other work of the kind.

The DEFINITIONS will be fully and accurately distinguished, and exemplified by quotations from the best authors, of sentences valuable in themselves.

SYNONYMS will be so treated as to be a very valuable feature of the work.

Another very novel and most useful feature of this Dictionary will be the WOOD CUTS, of which about 1200 will exemplify words whose meaning can be more accurately conveyed in this than by any verbal definition.

AN EDITION ON LARGER AND FINER PAPER FOR SUBSCRIBERS will be first issued at the same price as will afterwards be charged for the common edition; viz: $7,50.

A Specimen can be seen, and subscriptions entered at the bookstore of

Health and Strength secured by the use of

THE SPRING AND SUMMER MEDICINE,

Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly up on the bowels and blood, by removing all obstructions from internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and in fact pid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

PRICES GREATLY REDUCED.

The Wheeler & Wilson
Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mf'g Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which, hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi Missouri & California, and the Fairs in Cincinnati, Chicago, St Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times.

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"Sewing Machines is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see the machines of Wheeler & Wilson."—[Examiner.

"Wheeler & Wilson is the machine par excellence for family use, and we recommend it most emphatically."—[Advocate and Journal.

"Wheeler & Wilson's Sewing Machines combine all the qualities that can be required in the manufacture of garments. Our friends abroad may be assured that to purchase one of them is a safe investment."—[Observer.

"Wheeler & Wilson is beyond all question THE machine for family use."—[Life Illustrated.

"There is but ONE Sewing Machine, and that is Wheeler & Wilson's."—[Judge Meige, of the American Institute.

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them. **10 Barrels good Coal,** 1 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2220 lbs, worth about $6.

The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

Thousands have been sold and give perfect satisfaction. Try one.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence speaks more for itself, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press.

HATE, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty five years. I am now sixty years old: my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that your effect will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the benefits of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood | Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodist Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been essential in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming thin, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion, and retails for 75 cts.; the large holds a quart, 40 per cent. more in proportion, and retails for $2.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, and supplying in their place a healthy flow of bile, invigorating the stomach, exciting food to digest well, putting **the blood,** giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Billious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose often repeated cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Liver Complaint,** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Billious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD Proprietor. 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. Ladies who have been deceived, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in the pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

Pillows filled with cotton can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 d1y

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but throughout the country it enjoys advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full specimens of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 3 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

THURSDAY, MARCH 17, 1859.

LOW POSTAGE.

It is very desirable to have low postage, and as the subject is now up, and must be met and disposed of at the extra session of Congress, Uncle Toby deems it best to discuss it *now*, because it has not *yet* been made a party question, though it probably will be,—and then, when Mr. Toombs or somebody else makes it a *test*, it may become treason and rebellion, and perhaps even be styled federalism, or toryism, to advocate *low postage*, one of the most truly democratic and beneficial measures.

That it is not now a party measure, may be inferred from the fact that while in the House all the republicans voted to *keep down the postage*,—many democrats voted with them, as may be seen by the following item:

The Democratic members who voted for Mr. Grow's resolution, by which the Post Office Appropriation bill in the House was defeated, were Messrs. Cox and Vallandingham of Ohio; Arnold and Bishop of Connecticut; Barr, H. F. Clark, John John Cochrane and Russell of New York; Adrain of New Jersey; Dewart, Dimmick, Hickman, Jones, Florence, Phillips, Landy, Ahl, Gillis, White and Reilly of Pa.; Cavanaugh of Minnesota; Mason and Talbot of Kentucky; Shaw, Hodges, Morris and Smith of Illinois; Lamar of Mississippi; McKibbon of California—a sufficient number to have secured the passage of the bill had they changed their votes.

This exhibition of names and States, while it shows plainly that high postage, and Senatorial dictation are *not democratic* party measures, shows also, that the slave holding power demands it, and that the *free states* resist it.

Northern *democrats* enough voted against *high postage*, to kill it and the bill with it. They might have *vetoed* the postage and saved the bill! They did not do it, to their honor be it said. We hope they will hold out so, during the extra session.

The Bath Times, an independent democratic paper says, in accordance with the apparent facts,—

It was killed between the two Houses, the Senate being determined to raise the rates of postage, and the House determined that such an increase should not be made.

The Concord, N. H. Patriot of March 9, says:—

It seems that the defeat of the Post Office Appropriation bill was a black republican trick designed to secure control of the organization of the next Congress.

A despatch to the N. Y. Herald says:—

"The misery which contractors will be subjected to by the failure on the part of the government to meet its engagements is incalculable and the damages which they will be entitled to, will amount to millions. All this can be charged to Mr. Grow's moving in the House on Friday night, an insulting message to the Senate, and doubtless, with a view of forcing an extra session. Grow is a prominent republican candidate for Speaker. A large number of members have yet to be elected to the House, all of them Democrats, and it is almost impossible that California and Oregon, at all events, can be represented in a called session. Those States alone lose the Democratic organization three votes; and as the Speakership will be a close contest, the whole proceeding can thus be directly traced as a republican movement to secure the organization of the next House, looking to the effect in 1860. But if an extra session is found indispensable, it will be called for as late as possible, so as to give every State an opportunity to be represented."

The Concord Patriot remarks in addition:

The defeat of this bill will cause great loss and inconvenience to citizens of Concord and others in this State. Our coach and harness manufacturers have large contracts for the supply of coaches, wagons and harnesses for mail contractors, and the defeat of this bill puts it out of the power of those contractors to pay for these articles. The laboring men employed in these establishments will suffer in common with the proprietors. Yet most of these men yesterday voted for Tappan, who aided in doing them this great wrong!

The reader will just look backs few lines and count 28 good democrats, including Mr. *Florence*, voting with Tappan for doing "this *great wrong*" of keeping cheap postage, and at the same time helping to play "a black republican political trick."

One thing is certain, *the people wish for cheap postage and will have it!* This purpose is stronger than any party, black or white, whig or tory.

If any party wishes for defeat, let it advocate high postage, and it goes to bottom.

☞ The whole amount collected in Newburyport toward the Mount Vernon fund was $370. This was given with little solicitation, an opportunity being simply offered to those who desire to contribute. The greater part was given in small sums, showing how general is the interest felt in this movement.

Dear Uncle Toby:—I cannot see the matter of commercial agency or espionage as you do, or see anything improper in it at all. As things are, country merchants must have credit. I wish it were not so, and hope it will not always be so. But while it is so, there ought to be some mode of distinguishing the safe and sound from those that are not. No man that is worthy of credit cares anything about any "mean or sneaking" way in which that fact is ascertained. Flash firms who will make or lose $5000 within a year, with the understanding that if they make the gain is their own, but if they lose the loss will fall on city merchants, are not the men to like the commercial agency. Pity we could not put railroad conductors, superintendents of government printing, and a few fast cashiers under their care.

I understand that about a year since some blackened white man, or some black man with a white heart, as the Congo poets say, passed through on the Underground R. R., from the Mississippi to Lake Michigan, and then returned to report the stations and conductors of that great institution. Among those whose bread he had eaten and whose hospitality he was to repay with the blackest ingratitude, he reported Mr. Wesley Diggins, of McHenry Co., Ill., a few miles from Lawrence.

This past winter Mr. Julius Diggins was teaching a school in Missouri. One day a citizen came suddenly into the school, and demanded his father's name. He replied that it was Wesley. Thereupon he was ordered to leave the school and the neighborhood instantly, which accordingly he did. Yours, LAWRENCE.

THE FUGITIVE SLAVE ACT.—The Supreme Court, Judge Taney presiding, has pronounced an opinion that the Fugitive Slave act is constitutional, and that the Supreme Court of Wisconsin acted in contempt of law, in preventing its enforcement. As the Supreme Court of Wisconsin refused to certify the record of its decision to the Washington bench, it is presumed that the case in which the late opinion was given came up in a surreptitious manner. In consequence of the manner in which the case came before the U. S. Court, Wisconsin was not represented in the argument, and took no part in the proceedings. In this Wisconsin has done right, and will continue just as she has begun. The correspondent of the N. Y. Courier and Enquirer says, "Until the intended reorganization of the U. S. Supreme Court shall be made, its opinions on sectional issues will receive little attention and no respect."

☞ A large crowd of people assembled in St. Mary's Church in Oswego, N. Y., on Wednesday night, to hear a discourse on the "Last Judgment," and the services had just commenced when about one-third of the floor, in front of the altar, gave way, precipitating a large number of the persons into the basement below. A panic seized the assembly, and a terrific rush was made for the doors, during which four persons were trampled to death, namely: LAWRENCE Murray, Mrs. Mary Carlin, Mrs. Bridget Langdon, and Mrs. Margaret Hennessy. A number of persons were taken out of the church insensible, and some of them with broken limbs.

☞ The Grand Jury have refused to indict the two men who broke into the jail at Hawesville, Ky., and shot the man Lowe a few nights since, regarding it as a justifiable act to rid the community of such a troublesome citizen.

☞ On Tuesday, in the Court of Common Pleas, at East Cambridge, a verdict of guilty was rendered in the case of Dr. Andrew Jackson, of Lowell, charged with causing the death of Miss Elmira Callahan, by attempting to procure abortion.

CHELSEA BEACH.—The sea shore is probably, a great "stand by" in the winter to all birds and quadrupeds which do not hibernate. The storm-waves cast upon the beaches great clams, muscles and other molluscs, besides dead fish, to eat which, foxes, crows, owls, eagles, &c., come long distances. When the creeks and rivers are frozen over tight and strong—foxes come moonshiny nights from twenty to thirty miles inland across lots and rivers to the sea-shore, and range along the beaches to glean from the tide wrecks something to stow away under their jackets. Then they trot home again, and arrive before the sleepy farmers of their native towns have kindled their fires and fed their cattle.

Eagles are often seen from the hights of Malden wending their way in the afternoon, from the bench northerly and northwesterly, as far as a good spyglass can trace them, towards New Hampshire, where they probably belong.

When they take a late supper, and are heavy, they roost on some solitary pine on the heights about Swain's Pond, instead of going to their Eyrie in New Hampshire.—*Bunker Hill Aurora.*

SPEECHES AT THE TEMPLE.

We copy from the Ballot, the following account of the Republican jubilee at the Temple on Monday evening.

President, W. H. Y. Hackett.

Vice Presidents—Joseph D. Pillow, Josiah H. Sanborn, William A. Vaughan, of Portsmouth; Moses Mann of Greenland, Elias G. Holbrook of Newcastle, and William Berry of Newington.

Secretaries—Wm. B. Trask, Joseph B. Knowlton, T. J. Whittem.

Mr. Hackett, upon taking the chair, said

Ladies and gentlemen—We are assembled this evening to exchange congratulations upon the result of the late election. The questions involved in that election were so momentous, and the result has been so propitious, that we have a right to rejoice: it is our duty as well as our impulse to be glad. In the most severe contest this state has ever known—in a struggle between the aristocratic element in our government and freedom—we are the victors. We have opened the campaign of 1859 in a manner to attract the notice of the whole country, and to encourage and satisfy our friends everywhere. New Hampshire has indicated her position for 1860.

But my duty is simply to remind you that the late election has sent three able and true Republicans to the U. S. House of Representatives, and placed at the head of our government our friend, neighbor and townsman, who has so long and so deservedly enjoyed our affectionate regard. I now have the pleasure—and no one who knows me will doubt that it is a heartfelt pleasure—to introduce to you RICHARD GOODWIN, our Governor elect.

Mr. Goodwin, upon rising to address the crowded assembly, was received with the most tumultuous applause.

He said that, although accustomed to address his townsmen and fellow citizens, he never appeared before them with such feelings as on this occasion. To say that he was grateful for this and other tokens of their respect—for his election to the chief executive magistracy of the State—would not express all he felt. This was enough to demand his lasting gratitude. But the recent election has not only placed the State government in Republican hands, but has secured an able and united delegation in Congress. It has again redeemed the pledge that New Hampshire has often given to uphold the cause of freedom. Where slavery exists by force of local law we have neither the power or disposition to interfere; but when it is proposed to extend it, to carry with it that feature which enables South Carolina, with about the same white population which New Hampshire has, to have twice as many representatives in the U. S. House of Representatives, we have a right to be heard and to object.

He referred to the deception which had been used to array the foreign population against the party which upholds the principles of the constitution and our free institutions, and made a complimentary allusion to Senator Hale, which was received with great enthusiasm. He concluded by thanking the audience for the flattering manner in which they had received him and in which they had upheld the principles dear to every freeman, and sat down in the midst of rapturous applause.

The above is but a meagre sketch of his remarks.

Mr. Hackett then asked leave to remind the audience that to-day no pro-slavery Democrat from New England could enter the capitol of the nation either as a Senator or Representative. There was one man here, one who was intended to have been the first victim in New England of the slave power; but he was not overborne, and he would be found the last to desert the cause of freedom. He now had the honor to introduce to them SENATOR HALE.

Mr. Hale, on coming forward, was received with nine hearty cheers—a well merited tribute to this sturdy and eloquent champion of Republicanism, who is always heartily welcomed by a Portsmouth audience. He commenced by saying he came not to make a speech, but to congratulate the people of Portsmouth on the glorious triumph the Republicans had achieved in the old Granite State. By fidelity to their principles and unflinching labor in their support, the Republicans had not only elected our honored fellow citizen to the gubernatorial chair, which no man in the State would better adorn, but had utterly annihilated the hopes of their opponents of breaking the Republican delegation in Congress. For this he thanked them with his whole heart. A few years ago he stood solitary and alone in the Senate—pointed at as a man who represented an obsolete idea, and not the people, but now he could stand up there with the united New England delegation to back him. Among the abuse which the Patriot had heaped upon him, one charge was just. It said that in 1858 he made the same speech he did in 1848, ten years before; but did not do it quite as well. He thought this strange. Curran once said to a person who told him one morning that he coughed worse than on the previous evening, that he thought it very strange, as he had been practicing all night; and he (Mr. Hale) thought it equally strange that having practiced the same speech ten years he had not improved any.

The fundamental ideas that divide the parties are at all times the same. First it is Texas, then the repeal of the Missouri compromise, and then Cuba. To-day slavery assumes a bolder front than yesterday. Formerly all the slaveholders demanded was to be let alone; now they demand congressional protection, or declare they will go out of the Union. No Democrat can stand up against their demands—no matter how honest he may be, or how much opposed to slavery extension while at home, he would be driven into the supports of their measures.

The result of the recent contest has an important bearing upon that of 1860, when we shall achieve a glorious victory, which shall redound to the honor of humanity. We start with all New England on our side, and New York, Ohio, Michigan and Iowa. We want Pennsylvania, and shall have it. There was a striking similarity in the struggle now going on and that of our revolutionary fathers. The latter whipped the enemy out of New England, and then out of New York, when they lingered awhile in the Jerseys and Pennsylvania. Finally they were driven thence, and remained for a season down South. So it is now; but now, as then, freedom will finally conquer. The people have tried the administration, and found it guilty, without a recommendation to mercy, and all we have now to do is to execute judgment.

Mr. Hale was frequently interrupted in his speech, of which our meagre report gives but a faint idea, by the applause and laughter of the audience, and set down amid hearty cheers.

When these had subsided, Mr. Hackett said—

When the great and good men who have been selected to do battle for the right and the true in the next Congress shall repair to the seat of government with what pride and exultation can a New Hampshire Republican point to her able and united delegation. As the New Hampshire members will stand prominent among the delegation from New England, so the representative from the third congressional district will stand prominent and eminent in the delegation from New Hampshire. We are honored by the presence this evening of Hon. THOMAS. M. EDWARDS, who I now have the honor to introduce to you.

Mr. Edwards was welcomed to the stand with hearty cheers, and addressed the audience in a brief and pertinent speech. He commenced by expressing his gratification at being enabled to unite with the Republicans of Portsmouth in this first celebration of the great victory we have achieved. The triumph was one over which it was proper to rejoice, and here and now was the time and place for the first great demonstration— here at the home of the Governor elect, who had always possessed the confidence of all the people who knew him

So far from being surprised that we had carried the state this year by a majority somewhat less than we had a year ago, he thought it strange, taking in view the desperate exertions of our opponents, that we carried it by so large a majority as we have. The wave that break upon your sea-shore, he said, are not all of equal volume and power. Watch them as they roll in upon the beach, and you will observe that this one is a little larger and the next a little less than the preceding ones; but the seventh wave washes the beach far above the others. So of the Republican victories in New Hampshire: the present is the sixth, and our majority is a little less than last year; the seventh wave, in 1860, will sweep everything left of loco focoism from the state.

The able and eloquent gentleman who had preceded him had, in his allusion to the new demands of the slave power, omitted to mention the re-opening of the foreign slave trade; but that this is to be one of the issues to be met in the future, he thought no one could doubt. The evidence comes to us on every hand that the slave power will soon make this demand. Northern democrats will scoff at it, as they formerly did when told that the slaveholders would demand extension of slave territory; but the power that rules the democratic party has only to insist and to threaten, and whatever they demand is acceeded to by their northern allies.

Mr Edwards' remarks were listened to with attention, and were heartily cheered at the close.

Extract from Senator Clark's Letter.

One week ago I saw the last Democratic Senator from New England depart from the Capital of the Nation. His place was assumed by a staunch Republican, and there is now from New England no Democrat in either House of Congress. Fears were entertained that New Hampshire might send one there; but the crisis is past. No stain rests upon her escutcheon. Her delegation are all friends of free labor, freemen and free soil.

All honor to her. Whatever fate may betide others, is it selfish to rejoice that New Hampshire is safe? Yours truly,

DAN'L CLARK.

SPECIAL NOTICES.

NECROSIS.—If there be any disease calculated to drain away the life of a man, and weaken the mind and body by its painful slowness, it is the death of any part of the bones. The **PERUVIAN SYRUP** gives support under the profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumbos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour is the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

A NEW BODY.- On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 21st., RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Relief; one small bottle of Ready Relief to a baling-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which becoming diseased, prevents them from discharging their contents—thus causing the yellow pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. It is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh acrid taste, which so renders the article known as Holland Gin or Schnapp so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing complaints which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounced Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER is IMPORTED.

LOCAL.

☞ Miss Juliana May's concert, Tuesday evening, was a brilliant and finished entertainment. The lady herself has an exceedingly rich and powerful voice, and sing splendidly—though on this occasion she, with the whole troupe were considerably fatigued by their journey from New Bedford, where they performed on Monday night. We are sure the substitution of some English ballads, in the place of part of her Italian selections, would better please any American audience—more especially as Miss May is a Yankee girl.

Mr. Adams sang delightfully throughout the concert. He has improved astonishingly since his first appearance here, two or three years ago, with Mr. Mozart's quartet. His "Come into the garden, Maud," was enthusiastically encored—evidently giving better satisfaction than even his opera pieces, though much less difficult of execution. It was one of the most finished pieces of vocalization that we ever had the pleasure of enjoying. A lady in our vicinity said she would respond to such a call as his, if it rained ever so hard in "the garden."

Mr. Lang has also made much progress since his last appearance before our citizens—and is taking high rank among the masters of the piano. His part in the concert was a very laborious one—playing all the accompaniments, (and playing them beautifully, too,—a rare thing for a solo player,) besides his own piano pieces.

Instead of the last piece in the programme, *Mira la bianca Luna*, Miss May and Mr. Adams sang, at request, the duet from the last act of Trovatore, *Ah che la morte.* Miss May was also requested to sing Meyerbeer's *Robert toi que j'aime*, but could not procure the music for the accompaniment.

The whole entertainment was a succession of sweet sounds—a rich musical feast, such as we seldom get here. Perhaps if we could only have more of them, they would be more generally appreciated and more liberally patronized.

Prof Carl.—Of the many performers we have seen there are none who have so varied accomplishments as Prof. Carl. In Art and Strength he is without a competitor. He is the genuine American Samson. As a Ventriloquist, he excels, and his accomplishments in balancing &c., are superior.—*Manchester American.*

To-night, he performs at the Temple.

Washington, March 15.—Diplomatic correspondence from Madrid says Mr. Preston will be received unconditionally, but that any proposition touching Cuba will be followed by the government sending him his passports.

The Grand Jury have found a true bill of indictment against Daniel E. Sickles for murder.

The Secretary of State recently submitted to the Attorney General the question whether the Chinese Coolie trade, as carried on by American ships, comes within the law for the suppression of the slave trade. The Attorney General decides that it does not.

☞ The history of Sickles is developing itself every day—here is the last leaf. A New York Senator, a former colleague, we believe, of Sickles, entertained him and a woman who accompanied him, at his residence. The woman Sickles represented to be his wife; but it was ascertained, after he left, that the woman was his *leman*,—One who could thus outrage decency and the hospitality of a friend, is surely not the man to slay a fellow creature no worse than himself, who commends the poisoned chalice to his own lips.

☞ Dates from Liverpool to March 2d come by the steamer Washington. Rumors of a continental war continue, and the Stock Exchange drops. Cotton has risen 1-8 of a penny. The British Parliament are discussing an extension of the elective franchise.

☞ The Spanish Cuban fleet, comprising thirty-three vessels, mounting 402 guns are about to go through the annual naval exercises in the Cuban waters. It is believed the squadron will make the finest display for years.

☞ Mr. Henry, Secretary of the President, it is said, is about to marry the stepdaughter of the late Mr. Brown—Miss Saunders—a beautiful and accomplished lady. He resigns his position, and soon takes up his residence in New York, to practice law.

☞ The whole number of Coolies introduced into Cuba is upwards of 37,000.—The Cubans fear their future influence, as they are much more intelligent and far less tractable than negroes.

Goodwin's majority, 3547.

Four towns to hear from—Hart's Location in Carroll; Lincoln in Grafton; and Cambridge and Clarksville in Coos—gave last year for Haile 27, Cate 55. If these towns vote as last year the majority for Goodwin will be 3519.

Honor to whom honor is due.—Mr. Editor:—Not having seen in any of our Portsmouth papers any report relative to the probable saving of lives and property on board the bark Emma F. Chase, of Portland, Me., on the 26th of February last, I think it no more than justice to Portsmouth and its mercantile community, as well as to the Shoals pilot, to notice the fact.

During the heavy storm of Feb. 26th this bark was seen from Gosport (Isle of Shoals) about ten miles distant to the eastward; and after having been watched for an hour signals were seen in the fore and mizzen rigging for a pilot. Mr. William Randall, the recently appointed pilot at the Shoals, at once put off in his boat, and succeeded in boarding the bark, after a dangerous pull, and some hours after anchored her safely in the Shoals roads, with the loss of his boats' oars, compass and fixtures. This one act of Mr. Randall shows how important it is that a pilot should be stationed at the Shoals. Neptune.

The First Congressional District.—We had hoped to have been enabled today to give full returns of the election of Representative to Congress for this district; but the friends on whom we relied have disappointed us. From the returns that have come to hand however, we are satisfied that Gilman Marston's majority will reach 900; and this having been marked as the doubtful district of the state, we claim for it *the banner.*

☞ As much dissappointment was expressed on Monday evening at the non-appearance of Gilman Marston at the Jubilee in this city, we will state that that gentleman sprained his ankle on Saturday last, and on Monday was unable to put his foot to the ground. The country will hear from him hereafter.

From Washington.—The correspondent of the N. Y. Tribune says:

"The Cabinet had a lengthy session on Friday. The President said that if he had a Congress elect to convene, he would summon it to meet in ninety days. The late day at which the Southern States hold their elections, and the fact that some of them cannot hold special elections without the authority of their Legislatures, embarrass the Cabinet greatly. If the Post Office Department be not extricated from its financial difficulties before the 30th day of June, the Government will be bankrupt. If Congress is convened previous to that date, the Republicans must inevitably organize it. Which horn of the dilemma shall the Administration accept?"

Close Voting.—From the returns of the New Hampshire election, reported in the Concord Statesman, in thirty-four instances the republican and democratic candidates had exactly the number of votes cast at the election in 1858, by the same party. In forty instances the party vote was within *one* of that cast the previous year. In twenty-nine cases it was within *two*; in twenty-two cases within *three*; in twenty-seven cases within *four*; twenty-five cases within *five*, twenty-six cases within *six*, fourteen instances within *seven*, seventeen cases within *eight*, and eleven cases within *nine* votes of the last election; making 245 instances in all where there was not ten votes difference between the two years.

A Good Idea.—The English druggists are about adopting a hexangular bottle with deep flutings, to put poisons in which are sold by retail. This to is prevent persons making mistakes by getting hold of the wrong bottle. As an additional security, the neck of the bottle is so contracted that but a drop at a time can be poured out. The very deliberate and cautious action thus produced, will, it is believed, deter any one from taking overdoses of medicine; while it is difficult to imagine a case in which a person could pour out and take the whole contents of one of these bottles in mistake for something else.

FRENCH STEAM SCOURING

—AND—

FANCY DYEING, in Boston.

A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.

Particular attention given to Dyeing and Refinishing, in a NEW and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crepes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public—He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet, or Wool, plain or embroidered, without removing the trimmings, or taking to pieces. Worcester's Quarto Dictionary.

This work which is the result of a life's labors is now nearly completed, and the publishers expect to issue it in the course of next May.

In ORTHOGRAPHY, it will represent the usage of the best writers in this country and England.

The PRONUNCIATION of all words will be exhibited by a system of notation easily understood; and in doubtful or disputed words the best authorities for the different modes will be given.

In ETYMOLOGY it will be found more complete and satisfactory than other work of the kind.

The DEFINITIONS will be fully and accurately distinguished, and exemplified by quotations from the best authors, of sentences valuable in themselves.

SYNONYMS will be so treated as to be a very valuable feature of the work.

Another very novel and most useful feature of this Dictionary will be the Wood Cuts, of which about 1200 will exemplify words whose meaning can be more accurately conveyed in this than by any verbal definition.

AN EDITION ON LARGER AND FINER PAPER FOR SUBSCRIBERS will be first issued at the same price as will afterwards be charged for the common edition; viz: $7,50.

A Specimen can be seen, and subscriptions entered at the bookstore of

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mfg Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these Sewing Machines for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as Woman's Friend.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and sewed without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. It these facts do not establish a reputation, we know not what can.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times

"The Wheeler & Wilson Machine has secured and justly maintained the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see the machines of Wheeler & Wilson."—[Examiner.

"Wheeler & Wilson is the machine par excellence for family use, and we recommend it most emphatically."—[Advocate and Journal.

"Wheeler & Wilson's Sewing Machines combine everything that can be required in the manufacture of garments. Our friends abroad may be assured that to purchase one of them is a safe investment."—[Observer.

"Wheeler & Wilson is beyond all question THE machine for family use."—[Life Illustrated.

"There is but ONE Sewing Machine, and that is Wheeler & Wilson's."—[Judge Meigs, of the American Institute.

THE SPRING AND SUMMER MEDICINE,

Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, an inactive or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine, it is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, **10 Barrels good Coal,** 1 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2280 lbs, worth about $6.

The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

Thousands have been sold and give perfect satisfaction. Try one.

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY, & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that their tickets have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga.—All orders received to ing filled in the drawing next to take place after the same comes to hand.

Whole tickets are $10; halves, $5; and Quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from

$20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.

Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for Tickets, in sums of Ten Dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE.

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

THE GREAT WONDER

Of The Nineteenth Century.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., JAN. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application for it upon my own hair, which had become quite gray, probably one third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYNER.

BALTIMORE, Jan. 28, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FRASER JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodist church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made a trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove a vast amount of bad matter from the system, supplying their place with a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Billious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

One dose often repeated is a sure cure for **Cholera Morbus,** and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for **Jaundice** removes all sallow hues or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the secretions.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous habits who are silently suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 18 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been put up by persons who pretend to be, who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine. He is the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—18 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 6ly

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part cannot but recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.

FRIDAY, MARCH 18, 1859.

DIALOGUE ON LIES.

Concord Patriot.—The Portsmouth Chronicle asserts, for the hundredth time, that Judge Taney said in the decision of the Dred Scott case that "the black man has no rights that the white man is bound to respect." Now the editor of the Chronicle calls himself a Christian, and has for forty years or so been a preacher, and of course ought to tell the truth; yet he *knows* that Judge Taney uttered no such sentiment in the opinion referred to. In fact, the *Rev.* "Uncle Toby" has *lied* wilfully, deliberately and malignantly, more than a hundred times, in repeating this same miserable slander upon one of the purest men of the land.

Our readers may think this harsh language; but it is time to brand these malicious slanders as they deserve, and when men repeat them, knowing them to be such, it is time to brand *them* also.

Uncle Toby.—It is a very easy thing for a flippant writer to use the words *lie* and *liar*—but it is no great damage to any reputation now to have these terms applied by the Patriot; nevertheless, we will call in Judge Taney, and hear from his own lips.

Judge Taney.—History shows they have, for more than a century, been regarded as beings of an inferior order, and unfit associates for the white race, either socially or politically, and had *no rights which white men were bound to respect;* and the black man might be reduced to slavery, bought and sold, and treated as an ordinary article of merchandise. This opinion, at that time, was fixed and *universal* with the civilized portion of the white race.

Uncle Toby.—The judge built his main argument, and made his famous decision, on the *historical falsehood* which we here copy from his published opinion. That it is a falsehood, is manifest from the known fact that there were negro citizens and voters in many of the States at the period he speaks of, viz., the time of the revolution; and there were negro voters in Virginia till 1850. We do not say that Judge Taney "lied wilfully"—but we do say the old gentleman founded his *law* on a *falsehood*, known and proved by others to be a falsehood. He *might* be ignorant of the facts—or more probably, in his zeal for a pro-slavery decision, he *forgot* them. And adopting this falsehood as truth, he made it the corner stone of his famous decision, and "tottered on in blunders to the end."

The Patriot is welcome to totter with him, if it pleases, and to call names to its heart's content—but it cannot very easily rub out the judge's own words, nor get rid of the fact that the judge adopted this "*universal opinion,*" as he calls it, for the basis of his law.

☞ A lady had a magnificent cat. Mrs. Jones, a neighbor, ordered her man-servant to kill it, as it alarmed her canary. The lady sent mouse-traps to all her friends, and when two or three hundred mice were caught, she had them put into a box, which was forwarded to the cruel neighbor, who eagerly opened what she hoped was some elegant present, when out jumped the mice, to her great horror, and filled her house. At the bottom of the box she found a paper directed to her, from her neighbor, saying, "Madam, as you killed my cat, I take the liberty of sending you my mice."

☞ All the governments of Europe are wanting to borrow money. Austria wants to borrow $30,000,000; England, $35,000,000; Sardinia, $10,000,000. France wants a large sum, and Russia, it is expected, will also be trying its credit to a large extent. About $100,000,000 is the aggregate wanted by these different governments to put themselves in a position to prevent one being eaten up by the other.

A SKILLFUL PRISONER.—Last week a Sing Sing convict contrived to manufacture an image and place it in his cell. When the keeper locked up at night, as is the custom, he counted the image as the man. The outside night guard heard a noise in the cabinet shop during the watch, and on searching the premises found the convict ready to take leave. He was taken into custody.

☞ There is to be another exhibition of the industry of all nations in London in in 1861, and it is proposed to pay to the Prince of Wales the compliment of asking him to accept the Presidency. The young gentleman will attain his majority in that year.

☞ The Manchester American of Monday says;—the Underground Railroad was this morning in operation—a couple all the way from Alabama, having passed up along *en route* for Canada. They would sell at Mobile for about $1,500 each.

EASTER.

The period in which Easter can fall reaches from the 22d of March, (earliest date) to the 25th of April, (latest date,) leaving thirty-five different days for the celebration of this festival. In this century Easter will fall only once (1886) on the latest date, the 25th of April. In the present year it will be on the 24th of April; and the last time it fell on that day was in 1791, and it will not fall on the same date again till 2011.

Easter is one of the *moveable* feasts of the Christian church, depending, like the Jewish passover, upon the full moon, as any one may see by consulting the book of Common Prayer.

Rule to know when the Moveable Feasts and Holy-Days begin.—Easter Day, on which the rest depend, is always the first Sunday after the Full Moon, which happens upon or next after the twenty-first day of March, and if the Full Moon happen upon a Sunday, Easter-day is the Sunday after.

Easter is the day on which the Christian church commemorates our Saviour's resurrection. It is called by the Greeks *Pasga;* and by the Latins *Pascha*, a Hebrew word, signifying a passage, applied to the Jewish feast of the Passover. It is called Easter in English, from the Saxon Goddess Eostre, whose festival was held in April. The Asiatic churches kept their Easter upon the very same day that the Jews observed their passover, and others on the first Sunday after the first full moon in the new year. This controversy was determined in the council of Nice, when it was ordained that Easter should be kept upon one and the same day, which should always be Sunday, in all Christian churches in the world.

This decision has never been reversed, but is regarded now, in the Greek, Roman, English, and other churches.

THE WILD AFRICANS SURRENDERED.—The two Africans of the Wanderer's cargo, that were arrested in Macon some weeks ago by the Deputy United States Marshal and brought to the jail of Savannah, were discharged March 8, by a Justice of the Peace, as a Mr. Lamar claimed them as his property.

The proceedings in relation to the Wanderer, taken together, appear to indicate the establishment of the slave trade by Georgia, in defiance of the U. S. laws, which make it piracy, punishable with death. Under these circumstances it is not to be wondered that the free States are urged to nullify laws of the United States passed for the protection of the slave-holding States.

Only about four months ago, the Richmond Enquirer said:

"We do not believe that the African slave trade will ever be opened, either legally or illegally, with the Southern States. There is not, so far as we are informed, any respectable number of advocates in any of the Southern States to form the nucleus of a party likely to be productive of any action."

It seems now to be opened, illegally—by what we suppose is the Southern phase of popular sovereignty!

We have before us, the Galveston, Texas, Civilian, of Feb. 17, from which we take the following defence of the Slave Trade.

We have shown by arguments we deem to be unanswerable that slavery and the slave trade stand on precisely the same basis and that the same arguments that condemn the latter will also condemn the former. And this is so obviously true, it is seen by every body the moment the question comes to be discussed. It is for this reason that we feel perfectly confident the present discussion will in a year or two lead to the almost universal denunciation, throughout the South, of the Federal law prohibiting the importation of slaves under heavy penalties, and making it piracy, punishable with death, to bring slaves to cultivate our soil, while other nations are procuring the same labor, equally compulsory, but under another name.

The truth is this law is so obviously depriving the South of the very labor upon which our whole prosperity depends, that the more it is examined into, the more deeply seated will be the conviction that such a law can only be insisted upon and enforced by a Government hostile to the South. The fact is the Abolitionists have already referred to this law to prove that our Government was never intended to sanction the institution of slavery, and that it was only tolerated as an acknowledge evil, for the time being.

If it were so understood, they ask very significantly, why did our forefathers prohibit the slave trade? The only alternative left for the people of the South is, either to defend the institution of slavery in all its length and breadth, in a moral, religious and political point of view, or else abandon it. The admission that the slave trade, when properly conducted, is a moral evil, is fatal to the institution of slavery itself. There is no avoiding this conclusion.

☞ Perley, in his Walls from Washington, says,—

Judge Douglas will visit New York in a few days, and he will certainly speak in Connecticut. The eighteen clerks from that State, who receive $27,200 per annum, are rather slow about remitting funds, although the seventeen from New Hampshire who receive $27,800, remitted handsomely. The *returns* are not satisfactory.

THE STATE OF NEW HAMPSHIRE.

A PROCLAMATION BY THE GOVERNOR.

The wonderful goodness of our Creator and our dependence upon Him for all the blessings which we enjoy, should lead us to frequent and humble confessions of our unworthiness, thanksgiving for favors received, and earnest prayer for a continuance of His mercy—and when we remember that nations as well as individuals are dependent upon the Supreme Ruler of the Universe, we feel it to be a duty of the people of the State, on some specified day, to unite in humbling themselves before God, and invoking his aid in all their efforts to preserve and elevate their public institutions, and their characters as individuals.

That such a day may be observed by the people of this State, with the advice and consent of the Council, I appoint *Thursday, the seventh day of April next*, as a day of *fasting, humiliation and prayer*, throughout this State.

On that day I do earnestly recommend to the people of this State to abstain from their customary labors and pursuits, to assemble in their usual places of public worship, and with penitential and contrite hearts acknowledge our dependence upon our Heavenly Father, and implore his pardon as individual and as a people.

Let us entreat Him not to visit our transgressions with the punishment which they deserve, nor withhold from us His guardian care and protection, that He will save us from domestic calamities and misfortunes, crown with success our labors in the various branches of industry, and protect us in the enjoyment of our religion, liberties and estates; that He will aid us in our efforts to promote the cause of education, temperance, and the freedom of men; that oppression and aggression may cease, and especially that the reproach of crime and slavery may be forever removed from our people. Let us beseech Him to maintain peace throughout the world;—that He will remove the causes of domestic dissensions, and preserve us from discord among ourselves, and in harmony with all nations; that He will direct in the councils of the national government, and cause the blessed influence of the Gospel of our Saviour to govern the conduct of the rulers and the people of this country and of every nation.

Given at the Council Chamber, in Concord, this seventh day of January, in the year of our Lord one thousand eight hundred and fifty-nine, and of the independence of the United States the eighty-third. WILLIAM HAILE.

By His Excellency the Governor, with advice of Council.

THOMAS L. TULLOCK, *Secretary of State.*

PLENARY INDULGENCE.—The San Francisco Monitor recently contained a long pastoral letter from Joseph Sardoc, Archbishop of California, addressed to the Roman Catholic clergy and laity of that State, informing them that Pope Pius IX has granted "a plenary indulgence to all the faithful throughout the universe. The following explanatory passage in the letter we quote for the enlightenment of our readers:

An indulgence is neither a permission to commit sin in future, nor the forgiveness of past guilt, or remission of the eternal punishment due to mortal sin, as, unfortunately, many of our separated brethren are taught to believe; but it is the remission of temporal punishment due to sin after the guilt has been remitted.

It is very easy to read this—but not quite so easy to understand the last three lines. Suppose, for example, one of our Roman Catholic brethren gets drunk, beats his wife, and kills her. With the proper ceremonies the priest gets him ready for heaven, his sins are all pardoned, guilt all remitted, and then—along comes the indulgence! What then? does the murderer go unhung and unwhipped of justice? Do the laws stand still to hear the priest? We suppose not. But then what *can* be meant by temporal punishment? Suppose the drunken man has made him self sick, and has *delirium tremens!* Will the indulgence cure it? or mend his broken leg, if he has fallen down? We trow not. We have no idea what can be meant by it.

VOTE OF THE CITIES.—The vote in the five cities of this State last week was as follows:

	Republican.	Democratic
Manchester,	1553	1217
Concord,	1337	904
Nashua,	997	722
Portsmouth,	837	854
Dover,	971	615
Total,	5695	4312

In 1857, two years ago, the vote of these cities was as follows:

	Republican.	Democratic
Manchester,	1529	853
Concord,	1257	844
Nashua,	967	695
Portsmouth,	725	775
Dover,	827	568
Total,	5305	3736

The Republican majority in 1858 was 1569, and in the recent election 1382—showing a relative democratic gain of 186. The gain of 364 in Manchester is entirely owing to the naturalization of foreigners.—*Manchester American.*

☞ Rev. Dr. Kendall of Plymouth, Mass., died at his residence in that town, Thursday morning, at the advanced age of 80 years. We believe he was the oldest settled pastor in New England. A year or two since he preached his half century sermon.

WAR PROSPECTS.—The usually well informed Paris correspondent of the New York *Courrier des Etats Unis* recently wrote to that journal:

Three days ago a gentleman who fills a high office in the Palace of the Tuileries said to me: "The resolution of the Emperor is irrevocably taken; and war will take place in a month or two at the latest. Napoleon III. will command in person the principal body of the army; this is one of his aspirations, the oldest and most ardent. He has already shown that he possessed the genius of his uncle as a politician; he wishes also to show that he has inherited his military genius. A Bonaparte ought to be a soldier. The determination of the Emperor is well known, and matters are so far advanced that all opposition is henceforth abandoned as useless and dangerous. No one wanted war yesterday; everybody will wish it tomorrow."

This must be the very latest phase of *popular sovereignty* in France. The popular sovereigns there are free to think as the Emperor does. So in this country, every popular sovereign is free to think favorably of slavery, and to swallow the Lecompton and Taney swindles—but if he makes wry faces, or groans, off goes his head. Great is popular sovereignty!

KEY WEST, March 10.—The brig reported ashore on Marquesa Key has been got off and brought here. She is reported to have landed two hundred and fifty Africans upon the coast of Cuba. She hails from Richmond, but only the letter "X" of her name can be made out, the rest having been obliterated. It is said she sailed from New York two months since.

SPECIAL NOTICES.

NECROSIS.—If there be any disease calculated to drain away the life of a man, and weak on the mind and body by its painful slowness, it is the death of any part of the bones. The **PERUVIAN SYRUP** gives support under the profuse discharge, hastens the separation of the decaying bone, and heals the indolent and irritable ulcers consequent on the long continuance of the unhealthy suppuration.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY, in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" photo pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontittoromnos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour of the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs (All Colors, which he is selling at about half the Boston and New York prices.

A NEW BODY.—On the 21st of July, J. D. B. aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfuming waters were kept constantly burning in his chamber. On the 21st., RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Relief; one small bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 23d, four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were last healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the supervisance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in truth a cordial for the invalid, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, GRAVEL, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c, while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate condition.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever met with."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Ask for the OLD CHARLES'—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; J. M. Gilbert & Co., 13 Hanover st; E. Fecker, 29 Elm st; J. Moran, 116 Blackstone st; M. Davis & Co., 57 Blackstone st; R. DR. DUPONCO'S
French Periodical Golden Pills,
FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph Thacher, in Dover by Chas A. Tutte, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J. Duponco is upon each box. You will then obtain a Pill you can rely upon.

LOCAL.

☞ The renowned magician and ventriloquist, Prof. Carl, performs again at the Temple to-night, for the last time.—His feats of strength are truly wonderful, surpassing anything of the kind we ever witnessed. The "Drum Solo" we venture to assert, cannot be equaled. His ventriloquism and magical tricks were also well done. There is nothing objectionable in this entertainment, and although it seems almost incredible, yet he does all he advertises to do. Go and see for yourselves to-night, as he leaves this city to-morrow.

☞ Madame Biscaccianti, (late Miss Ostinelli,) proposes, as will be seen by an Advertisement in this day's Chronicle, to give a Concert here.

To all the lovers of high musical cultivation, and all admirers of musical talent and power, her performances are a rich treat.

To many of the older musical people in Portsmouth, her concert offers another attraction, viz. that she is the daughter of eminent musicians who were no strangers here, years ago, and whose musical talents she inherits.

The wife of this article well remembers two Concerts given at St. John's Church thirty years ago and more, by the N. H. Musical Society, at which Mrs. Ostinelli played the organ, and her husband led the orchestra with his violin. Mr. Ostinelli also played here frequently in after years.

Their daughter has enjoyed every advantage, at home and abroad to perfect her performance.

The Boston Post says of her, in a late article:

In summing up Mme Biscaccianti's artistic qualities, we can say the prevailing the characteristics are grace, sweetness and delicacy. Not that she does not possess much warmth and dramatic fervor which sometimes bursts forth in an abandon which is thoroughly magnetic, but the prevailing sentiment of her song is graceful beauty and purity. We know of no one who surpasses her in the plaintive utterence of those delicate mezzo notes which glide with such ease and grace over the greatest difficulties, leaving the impression of thoughtful taste on the mind rather than that of a mere exhibition of artistic vocalism. Her impassionate earnestness at times, contrasting with this piano sweetness, gives a sparkle and brightness to her whole performance which takes her out of the list of merely executant artists, and ranks her with the very foremost delineators of emotional music, able to cope with the expression of glowing human emotion as well as with the difficulties of ornate vocalization. She leaves us with the stamp of a matured and finished artist, and we hope she will renew her former success in the South American cities.

The same paper speaks in the following terms, of the basso of her troupe.

Mr. Dennett is a young aspirant for fame. He has a most noble voice, rich, resonant and powerful. The ordeal of a Boston audience evidently constrained him somewhat, but not so much as to prevent his making a very favorable impression.—*Non diu andrai* was given with much spirit; but the best exhibition of his sonorous notes was in *Qui Sdegno*, which he gave in answer to an encore of the "Porter Song." This was rolled out with smoothness and purity, the deep notes being given with fulness and ease. Mr. Dennett has the material for a successful career. Familiarity with the public and that freedom of expression which comes from experience will place him among the best of our bassos.

WASHINGTON, March 16.—The examination of Sickles by the Grand Jury has taken a new turn and may occupy a week or more. It was the wish of the counsel of Mr. Sickles to have a *pro forma* indictment from the jury and to leave the facts to be developed before the Court, but the jury have determined to investigate the whole case. Mr. Butterworth's case has been examined into. It is said the Grand Jury are almost unanimous for exculpating him.

The President is still inclined to call an extra session, though opposed by most of the Cabinet, especially by Cobb and Thompson. He told Senator Gwin, recently, that a proclamation be issued, calling a session on the 22d of August. Mr. Holt made this a positive condition of his going into the Cabinet. Several Senators are here awaiting the decision. Mr. Gwin leaves to-morrow, but will learn the purpose of the Cabinet before starting.

EXTRACT FROM SHERIDAN'S LIFE OF WASHINGTON, p. 334.—"When this system was well established, he commenced planting and adorning with trees the grounds surrounding the mansion-house. His diary shows that he paid great attention to this object, directing the setting out of a great number and variety of ornamental trees; some of them being obtained in the neighboring woods, and others brought from a great distance. He also replenished his gardens, orchards, and green-houses with choice fruits and flowers."

Washington's example herein might be safely followed in this city.

WASHINGTON, March 16.—The Grand Jury still have the Sickles case before them. There is a division amongst them as to whether he shall be presented for murder or manslaughter.

General Walbridge to-day visited Mr. Sickles in prison.

The reader will perceive that this despatch does not agree with a former one.

CUBA MEETING IN NEW YORK.—There was a grand turnout at Old Tammany on Monday evening, the object was to testify in favor of the acquisition of Cuba, peaceably or forcibly. Isaac V. Fowler, Postmaster, read a string of resolutions, terminating with the climax, "Democracy, like the ocean tide, will not back at the bidding of any king" Of twelve Congressional speakers advertised, only two appeared, viz: Senator A. G. Brown of Mississippi, and John Cochrane, of New York. The former declared that he was for seizing Cuba if Spain would not sell; and "if the proverbial timidity of old age, which presses heavily on Mr. Buchanan and General Cass, can't be brought to that point," why then he would repeal the neutrality laws and cry "Speed to the fillibusters, and let slip the dogs of war." He confessed that if Cuba were to come as free territory, then "my courage would very much ooze out at the ends of my fingers."

We take the following extracts from the report of Mr. Brown's speech, in the Herald, which is the organ of the Cuban party:

"I am a pro-slavery man: I believe that slavery is of divine origin—(applause)—that God decreed it from the foundation of the world—(renewed applause)—that the African race, from their creation, were doomed to be slaves to the white man, (continued applause); and my impression is that every one of you would be better off if he had a negro to wait upon him. (Cheering and applause.) (A voice—Three cheers for Brown. They were given with energy.)

"I want Cuba for the extension of slavery. I speak for myself, and not for any party. (Sensation.) Let Greeley understand this, let Garrison understand this, let all the dirty abolition crew understand it. (Cheers) I speak for myself and those who agree with me. We are told that, if we take the island of Cuba, we shall offend England and France. The devil we will. (Cheers and laughter.) Suppose those governments should go into stilts, if we don't bring them down d—n me. (Renewed cheering and laughter.) What is it to us whether they like it or not."

John Cochrane followed, and Marshal Ryndere brought up the rear.

Twenty-eight of these forty-two homicides were committed under the direct and palpable inspiration of alcoholic madness. FRENCH STEAM SCOURING
—AND—
FANCY DYEING, IN BOSTON.

A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.

Particular attention given to Dyeing and Refinishing, in a NEW and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public—He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet, or Wool, plain or embroidered, without removing the trimmings, or taking to pieces. Worcester's Quarto Dictionary.

This work which is the result of a life's labors is now nearly completed, and the publishers expect to issue it in the course of next May.

In OETHOGRAPHY, it will represent the usage of the best writers in this country and England.

The PRONUNCIATION of all words will be exhibited by a system of notation easily understood; and in doubtful or disputed words the best authorities for the different modes will be given.

In ETYMOLOGY it will be found more complete and satisfactory than other work of the kind.

The DEFINITIONS will be fully and accurately distinguished, and exemplified by quotations from the best authors, of sentences valuable in themselves.

SYNONYMS will be so treated as to be a very valuable feature of the work.

Another very novel and most useful feature of this Dictionary will be the WOOD CUTS, which about 1200 will exemplify words whose meaning can be more accurately conveyed in this than by any verbal definition.

AN EDITION ON LARGER AND FINER PAPER FOR SUBSCRIBERS will be first issued at the same price as will afterwards be charged for the common edition; viz: $7,50.

A Specimen can be seen, and subscriptions entered at the bookstore of

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mfg Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which, hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times.

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that benefits American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see to the machines of Wheeler & Wilson."—[Examiner.

"Wheeler & Wilson is the machine par excellence for family use, and we recommend it most emphatically."—[Advocate and Journal.

"Wheeler & Wilson's Sewing Machines combine everything that can be required in the manufacture of garments. Our friends abroad may be assured that to purchase one of them is a safe investment."—[Observer.

"Wheeler & Wilson is beyond all question THE machine for family use."—[Life Illustrated.

"There is but ONE Sewing Machine, and that is Wheeler & Wilson's."—[Judge Meigs, of the American Institute.

Health and Strength secured by the use of
THE SPRING AND SUMMER MEDICINE,
Dr. Langley's Root & Herb bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course snow through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that millen-wheel of so many disease; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and a torpid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, **10 Barrels gadd Coal,** 1 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2220 lbs, worth about $8.

The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY, & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair chance for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga.—All orders received in time filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and Quarters, $2,50.

No ticket sent unless the money accompanies the order. Prices vary from

$20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for Tickets, in sums of Ten Dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE.

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1855.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here, and shall continue to reside here. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYSON.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orchodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood: and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds ½ a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, and retails for $2; the large holds at least, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These **Gums** remove all morbid or bad matter from the system, supplying in their place, a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying **the blood,** giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Billious Attacks are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose often repeated is a sure cure for **Cholera Morbus,** and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effect of medicine after a long sickness.

One bottle taken for **Jaundice** removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Billious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. ia31 ly

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post-paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been tried by miserable pretenders, who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

Price $1 which can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jy2 diy

Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered on all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL, AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
I regard Mr Eddy as one of the most capable and succesful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8 1858.
Mr R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unanimitakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

SATURDAY, MARCH 19, 1859.

LIQUEFACTION OF QUARTZ—CITY SEWERAGE.—On these two subjects, Hon. Neal Dow, of Maine, writes as follows to the Boston Journal.

In your New York letter of March 10, the writer speaks of a "new invention" which will soon be announced, to wit: the "liquefaction of quartz."

This is not a new invention, nor is it American. I saw the process in Ipswich, England, in 1857, where there is a very large establishment for the manufacture of every variety of architectural ornament, of sand and other materials mixed with liquid quartz, which have all the qualities of stone when dry. The process of liquifaction is simple and cheap, being accomplished by potash and high degree of heat.

Every species of ornament for the externals of stone and brick buildings, for gardens, parks and public grounds, and every variety of chimney pieces of beautiful design and elegant finish, are manufactured at the establishment at prices scarcely greater than those of the common clay would be. The introduction of this manufacture into this country would be of very great utility.

In your editorial of the same date—"What shall be done with it"—you suggest that city sewerage may be converted to useful purposes in the enrichment of tillage land.

In the old city of Leicester, in England, is an establishment for this purpose. In the outskirts of the city is an immense wall or reservoir, which receives the sewerage of the entire city. From this well it is constantly taken by pumps in its very foul state, and agitated for a little time with the cream of lime, when the solid matter is all precipitated and dried for agricultural purposes, while the fluid part of the compound flows out into the stream, limpid and perfectly inodorous. Before this establishment was built, the little river which flows through the city was rendered foul and pestiferous by the immense quantity of refuse animal and vegetable matter conveyed into it by the sewers—but now nothing passes into the streams from that source except water perfectly limpid, having been deprived of every particle of impurity. The machinery for the accomplishment of this is not expensive.

THE SALE OF SCH. WANDERER.—A "scene," which came near being tragedy, occurred at the sale of the slave schooner at Savannah, 12th inst, by order of the U. S. Marshal. A correspondent of the New York Express states that before the bidding commenced, Mr. C. A. Lamar said, addressing the company, "Gentlemen, I claim this vessel as my property, taken from me by the high hand of the law. I intend to buy her, and it remains with you to say whether I shall be compelled to pay a high price for her or not."

The sale commenced, and bids were run up to $3500 by Mr. Charles Van Horn, jailer of Chatham county, who seems to have been the only person who bid against Lamar, who was indignant.

As soon as the sale was completed, Lamar walked toward Van Horn, denounced him with opprobrious epithets, and got near enough to strike, which he did effectually, on Van Horn's ear, forcing him almost to the ground. The crowd cheered bravo most lustily, and closed around.—Van Horn was partially stunned by the blow, but got up and made a rush towards Lamar. Both parties are accustomed to go armed. Friends of both parties interfered, and the threatened affray was stopped for a time, but it will not end here.

The larger majority of those present, while regretting the occurrence, allowed that Lamar had great provocation for doing as he did, and that Van Horn had acted unwisely, to say the least. Several parties were written to to purchase this vessel, and one of them was authorized to go to a larger sum than she was sold for, but none of them would bid against the owner.

U. S. SENATOR FROM NEW JERSEY.—*Trenton, N. J., March* 17.—The following is the result of the ballotings for U. S. Senator, to-day; John C. Teneyck, Republican, 42; Peter D. Vroom, Dem., 34; Robert Stockton, Dem., 2; Wm. Wright, Dem., 3. Mr. Teneyck was declared elected. For county Judges, all the opposition candidates were elected.

[*Opposition*, we suppose means republican.—The N. H. Patriot speaks of an opposition majority in the N. H. House of Representatives.]

☞ Lewis Josselyn is again to become the editor of the Lynn Bay State. His new paper, The Boston North, has gone to the tomb of the Capulets.

STRANGE AFFAIR.—The Worcester Spy relates that some time last season William Eaton of Auburn found $500 in good bank bills by the wayside, on the road between Worcester and Millbury. Although he advertised the same, no claimant appeared till last Thursday, when he was accosted in Worcester by a well dressed man, who, after asking Eaton if he did not find some money, as above specified, gave an exact description of the same, but refused to give his name or tell how he obtained the money, saying it was none of Eaton's business, but if he would pay him half the amount, it was all he would ask of him. The circumstances being suspicious, Mr. Eaton demurred to paying over the money, without further information, when the stranger said his name was "John Bull," and if Mr. Eaton did not forthwith pay over the money, he would be revenged upon him—at the same time very suggestively drawing a pistol. Mr. Eaton, not wishing to get into a difficulty with such a person, paid the amount demanded. As the man took it, he gave three cheers, and then left, in such a manner as appeared to indicate a fear of being pursued.

A LIVING FAITH.—In a public school in New York, a short time since, on an alarm of fire, a terrible panic ensued, and many of the scholars were injured by rushing to the doors, and one of the teachers, a young lady, jumped from a window. Among the hundreds of children, with whom the building was crowded, was one girl, among the best in the school, who through all the frightful scene maintained entire composure. The color indeed forsook her cheek, her lip quivered, the tears stood in eyes, but she moved not. After order had been restored, and her companions had been brought back to their places, the question was asked her, how she came to sit so still, without apparent alarm, when everybody else was in such a fright. "My father," said she, "is a fireman, and he told me if there was an alarm of fire in the school, I must just sit still."

POPULATION AND AGRICULTRE OF TEXAS. There is in Texas, a total population of 458,620, of whom 138,265 are slaves, 290 free negroes, and the residue white; of these 67,350 are voters. By the U. S. census of 1850, Texas had a total population of 212,592. This population has been more than doubled in eight years.

The census also states that the total number of acres in cultivation is 1,948,-225; of which 977,347 are in corn; 208,-097 in wheat; 581,908 in cotton; 15,-965 in sugar, and 164,897 miscellaneous.

☞ In the Supreme Court of Maine, at Portland, a few days ago, seven boys belonging to Gorham, pleaded guilty to an indictment accusing them of riotously and tumultuously disturbing the peace in the town of Standish on the 7th of Jan. It was on the occasion of serenading a newly married couple, with horns and such like instruments. After a statement of the facts in the case, by the counsel for the accused, the Court imposed a fine of $25 upon the defendants collectively.

☞ The late Arkansas Legislature passed a law, which is to take effect from the 1st of January, 1860, prohibiting the employment of free colored persons on water craft navigating the rivers of that State.—A violation of this law is to be considered a high misdemeanor, and, upon conviction, subjects the party having charge of such a craft to a fine of from $500 to $1000, and an imprisonment not exceeding twelve months.

HAYTI.—Gen. Geffrard, who has driven out Soulouque, is said to be a far more intelligent man than his predecessor, but has some obstacles to contend with. Some idea may be formed of the extent of knowledge among the people, by the fact that the leading newspaper gravely names the appearance of the late comet as a heavenly precursor of Geffrard, and a presage of happiness for the nation.

☞ Mr. Brown, the late Postmaster General, was an amiable but rather weak man, with little refinement but great hospitality. His houshold expenses at Washington were at the rate of $30,000 per annum, which he could well afford. He was a candidate for the Presidential nomination, and had already published his biography, which he distributed with great liberality to his friends and adherents.

☞ In the S. J. Court, Boston, Judge Allen has just ruled that a landlord cannot collect rents from buildings where liquors are illegally sold—and that a man who had guaranteed such a rent was not liable. A man who had paid such a guaranty for a man named Roach (a criminal) could not recover it back.

☞ The Natchez Free Trader gives us a new leaf in the history of Douglas. It states, upon what is regarded as good authority that he was the author of the following resolution, which was reported to the Mississippi delegation of the Cincinnati Convention, by a committee (of the delegation) appointed to consider the subject of slavery:—

"11. *Resolved*, That the National Democratic party believe in the perfect political equality of the States, and that the citizens of every State have an equal right to emigrate peaceably to the Territories, and to take with them whatever is recognized as property in the State from which they go, and there receive for it *adequate legal protection*; that there is no power in Congress or the Territorial Legislature to exclude from the Territories anything which is regarded as property in a State; but when a Territory has sufficient Federal population, lawfully ascertained, to entitle it to one Representative in Congress, (i. e., according to the present ratio, 93,-420,) it is the duty of Congress to authorize the Territory to form a State Constitution, republican in its form, preparatory to admission into the Union as a State, and that it is no constitutional ground of objection to the admission of such State that the Constitution thus formed either admits or excludes slavery."

☞ Probably the oldest person in the State who appeared at the polls and cast his vote last week was Timothy Taylor, Esq., of Lisbon, now in the *ninety fifth* year of his age, who rode 8 or 9 miles to the polls, and voted for Gov. Goodwin and the republican ticket. He voted for Washington and Jefferson, for Madison and Jackson, and at the last Presidential election for John C. Fremont.

☞ At Lake Providence, La., last week, a young man named William Watkins was killed while attempting to punish a negro, who crushed his skull with a piece of rail; James Fox, Irish, was murdered by a stab in the back from a hand unknown; and a man, name not given, was shot in the abdomen by one Stewart Maguire, who shortly afterwards fled.

SOUTHERN TRADE.—The Tribune says—New York is overrun with Southern buyers, and the merchants there are as wild after Southern trade, as they were two years since after Western trade. An old Southern merchant said, a day or two since, "There are fellows here from the South that have not got a cent, never had, and never will have."

LEAVENWORTH, K. T., March 16.—In the case of Dr. Day and son, who were abducted from Kansas into Missouri, charged with aiding in the escape of slaves, a change of venue has been granted, and the trial transferred to St. Joseph.

Accounts from the gold mines continue flattering. Seven large companies left here yesterday for Pike's Peak, and emigrants bound thitherward are arriving here daily by the hundred.

☞ Dejazet's *femme de chambre* has just died, bequeathing to her mistress a funded sum of 200,000 francs, which she confesses was purloined, with the ultimate object of securing to her improvident employer an income of 10,000 francs in her old age.

The underground railway via Detroit is said to be doing an active business just now. On Friday last, twelve chattels, all the way from Missouri, crossed the river at Detroit in the direction of the North Star.

☞ Capt Long, of the barque Union, recently made his first voyage from Philadelphia to Montevideo in the remarkably quick time of twenty-seven days, by keeping all the time upon the track laid down in Maury's chart.

Mary Ann Gardner, wife of William Gardner, died suddenly in bed at Providence, Wednesday morning, from the effects of habitual intoxication.

☞ The great Indian mutiny has entailed upon the government of India, a military expenditure of £18,000,000, besides losses to the amount of about £5,000,000 more. The Sepoy outbreak has thus cost the enormous sum of £23,-000,000.

Counterfeit twenty cent pieces of the new Canadian coinage have made their appearance. The dies are very good.

☞ A special dispatch to the Boston Atlas from Washington, March 17th, says an extra session of Congress will be called to meet on the third Monday of August next.

☞ Life Illustrated, for this week, contains beautiful wood cut views of Philadelphia and Venice. The Life is an uncommonly good weekly, of permanent value.

☞ Gov. Bissell of Illinois, it is supposed, will call an extra session of the Legislature of that State, to meet in May or June.

☞ We have received from Thatcher & Hutchinson, New York, a copy of "Matrimonial Brokerage," a new and readable book, exposing a great swindle.

WASHINGTON, March 17.—The Grand Jury to-day brought in a *presentment* against Sickles for murder, and there is no doubt a true bill will be found against him, when a day will be set apart for his trial. Whatever may have been the proceedings relative to Butterworth, it was understood about the Court House to-day that they would take no further action implicating him as an accessory. From what has just transpired, the trial will disclose an amount of scandal far exceeding what has already been furnished to the public, and bring reluctantly to the witness stand persons who have not heretofore figured in the newspapers.

Attorney General Black, has decided that U. S. Consuls in Turkey have jurisdiction over American citizens in criminal cases only; also, that the functions of the consuls at each of the five ports in China, designated by treaty for the residence of citizens of the United States, are restricted to the port for which each is appointed, but that the jurisdiction of the U. S. Commissioner extends to all the five ports.

FROM KANSAS.—*Leavenworth, K. T., March* 15.—An affray happened yesterday in Halton, Calhoun county, during the political meeting called to organize the Republican party, and which a party of pro-slavery men endeavored to break up. A general melee ensued, in which several were injured. Mr. Hasty, Probate Judge of the county, was severely wounded. The pro-slavery assailants were compelled to retire. Subsequently the meeting passed resolutions ordering them to leave the Territory, and a company was organized to carry the resolution into effect.

NAVAL.—The Navy Department has taken measure for the immediate purchase of the chartered vessels engaged in the Paraguay expedition, Congress having made an appropriation for that purpose.

Lieuts. Parker and Shirk have been ordered for duty in the Pacific squadron, Surgeon Chao has been ordered as the fleet Surgeon of the Home Squadron, vice McCormick, returned sick. Lieuts. Perry and Byrnes have been ordered to the sloop-of-war Saratoga, of the Home Squadron, to fill the vacancies occurring by the return of Lieuts. Wainwright and Gamble.

MIKE WALSH.—The telegraph reports the death of Mike Walsh, a noted New York politician—whether from violence or accident occasioned by intemperance is not yet known. He was found Thursday morning at the foot of the steps leading to a basement in Eighth Avenue, with his neck dislocated. The gold watch and chain and diamond pin which he wore were gone, and there were marks upon his throat as if he had been choked. By some he is supposed to have died in a fit of intoxication, and by others to have been robbed and murdered.

The Boston Journal says, Mr. Walsh was a man of superior abilities, and had a reputation for fearless honesty, which gained him much popularity, but his dissipated habits prevented him from obtaining that respect which his talents might have won for him. He began his political career in 1839, when he was elected a member of the Assembly. In 1840 he published and edited a paper called the Knickerbocker, the existence of which was terminated by the conviction of the editor for libel. He next edited a paper called the Subterranean, an abusive and scurrilous print, which lived two or three years.

In 1845 he was elected to Congress, and again in 1852, the interim being spent in literary pursuits. On the expiration of his last Congressional term he was sent by President Pierce on a secret mission to the Court of England. On his return he again engaged in literary occupations till about eighteen months ago, when he was sent by President Buchanan on a secret mission to Mexico, in relation, it was supposed, to the Central American difficulties. He returned from Mexico about six months ago, and soon after joined in the publication of a small daily paper called the Evening Sentinel, but which lived only a few days.—Since then Mr. Walsh has lived in retirement. Of late, it is said, he has yielded almost daily to habits of intoxication.

The Richmond Enquirer threatens that if Mr. Letcher does not repudiate Mr. Buchanan, it will repudiate Mr. Letcher.

SPECIAL NOTICES.

HIP DISEASE.—The most that can be expected in this disease is to prolong life, with stiffness or deformity of the hip joint. The PERUVIAN SYRUP will support the strength under the slow and painful ulceration, and will prevent the profuse discharge of matter, which, if opening externally, will almost certainly prove fatal.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Portsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photograps in Oil Colors, which he is selling at about half the Boston and New York prices.

A NEW BODY.—On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 21st, RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Relief; one small bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming disused, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the surveiliance of the British Excise Laws, is decidedly flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it to the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co, 1 Cornhill; S. E. Ricker, 20 Exchange st; J. Morgan and some of the bookstores st.; M. DR. DUPONCO'S
French Periodical Golden Pills,
FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J. Duponco is upon each box. You will then obtain a Pill you can rely upon.

BOARD OF ALDERMEN.

THURSDAY EVENING, March 17.

Ald. Treadwell in the Chair.—Permission was granted to Joshua Stackpole to move a building on So. School St.

Petition of A. Q. Wendell and others, asking the City to purchase a lot of land adjoining the westerly side of the Haven School House lot for a play-ground. Referred to Committe on City Lands and buildings.

Report of School Committee of District No. 1 was presented, accepted, and voted that the several reports be printed, together with the report of Chief Engineer of Fire Department.

The Committee on the Fire Department to whom was referred that portion of the Mayor's Address relating to the building of two reservoirs. Reported that in their opinion said reservoirs should be built.—Report was accepted.

Said Committee also reported that a building for the Hook & Ladder Co. be erected on land in rear of Engine House No. 5; voted—that the matter be re-committed to the Committee to ascertain the right of the city to the said land. Adj.

THE STEAMBOAT.—Bills are circulated about our streets, signed G. G. Dennis, Agent, announcing that the new and staunch sea-going steamer Nelly Baker, Capt. Covill, will commence trips between Boston, Gloucester and Portsmouth, on Wednesday, March 23, connecting at Portsmouth with the new double-engine Steamer Swamscot, for Dover, New Market, South New Market and Exeter.

Fare between Gloucester and Boston, 50 cts.; beween Portsmouth and Boston, 75 cts.; between Dover and Boston, $1.

☞ The fourth Musical Convention of the Rockingham County Musical Association, was held at the Town Hall, in New Market, Tuesday, Wednesday and Thursday. The exercises were well conducted by Prof. Williams of Boston, author of the "Gloria in Excelsis" collection of music, &c. Mr. Eben'r Joy, of New Market, was chiefly instrumental in getting up and arranging the Convention; and was aided by his towns people generally, who took hold with commendable spirit and carried it successfully through. The attendance was good throughout. The concert on Thursday evening closed the exercises in good style. We shall give a more detailed report on Monday.

Mr. Williams is to have a Singing School and Convention, in Exeter, commencing Monday, March 28th. He is eminently worthy of the confidence and patronage of the musical people of that town.

☞ We are unable to insert all the favors of our advertising patrons this morning. Yearly advertisers are requested to furnish us their notices in the forenoon, if possible; and our terms for transient advertisements are cash before insertion, except where accounts are open.

☞ Among other articles we are unable to publish to-day, is an unqualified endorsement of the no plus ultra, anti-choke-pe'-half-to-death Wire Gridiron, sold at R. A. Stevens' House-Furnishing establishment, Market St.

☞ See Auction column for a rare opportunity to buy Bank Stock, to-day.

☞ At a recent meeting of the Historical Society, it was stated that a French resident of that city died a few years since at the age of 116 years, during 104 of which he never drew a sober breath. The old fellow must have been a walking demijohn.

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mf'g Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and give entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses—Substituting as they do, healthful exercise and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which, hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St. Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

Why and Wherefore.

Our readers will agree with us in saying, that during the pendency of the recent political canvass, this paper has scrupulously abstained from the utterance of anything with reference to the present Administration which could give offence to the most captious Buchanan man within the limits of the State. Nor have we attacked, personally or politically, any man acting inside the Democratic organisation. The reasons of our past silence, in regard to some matters which we deem it our duty to lay before the public, are obvious, and we think creditable reasons. We were engaged in a contest which, so far as this Congressional District was concerned, in the opinion of the best informed politicians upon both sides, was likely to be lost or won by a very few votes; and after carefully considering the subject, we concluded to keep as silent as possible till the contest was ended, engaging in no controversy with men who pretend to be Democrats, and saying very little about the acts and abortions of an Administration which also pretends to be Democratic. It cost us some effort, but we held our grip upon our tongue and our pen, and we kept them both in subjection to our judgment. We saw many things which were rather well calculated to draw us out in advance of our determination. We saw government officers, postmasters and others, circulating the Black Republican electioneering document called the "Democratic Standard," we heard of their coaxing subscriptions for the vile thing; we *saw* them steadily refusing to contribute either money or any species of assistance in the campaign; we heard of their continued efforts to dispirit Democrats by declaring that neither Cate nor Marcy stood the slightest chance of an election; we *knew* that one of them, the incumbent of one of the highest federal offices in this State, had even bet money against Capt. Marcy's election, and that another had laid a wager of $25 that Cate would be beaten by more than 5000 majority; and we saw and *felt* the interest which the Administration took in this election, when it undertook to gratify the malice of a half dozen individuals in this State, by ousting us from the little office we held in the Custom House at this port, on account of our having said a few things complimentary to Douglas and condemnatory of the efforts which were being made to drive him out of the party.—We had no doubt that the persons who were instrumental in effecting our removal, calculated that we might be foolish and spiteful enough to falter in our advocacy of Democratic principles and our support of the candidates. They undoubtedly desired the defeat of our ticket, and chose to procure our removal a few weeks before the election, the very time when, if we had acted as they, reasoning from their own sordid natures, supposed we should act, the worst possible mischief would have been done. But they mistook their man. We have not yet complimented them or the master they serve, with the opinion that they form a very important portion of the Democracy. Our faith in Democracy will survive the destruction and oblivion of the whole tribe of venal hounds who bark and snarl at every Democrat who dares to speak his honest opinions of the men and measures supported by the Administration.

We don't know that we have any further occasion to mince matters of this sort, and we are inclined to think that we may make the federal far fly from the backs of some of the grovelling creatures who have crawled across our path. We are in the possession of all the material necessary to furnish several biographical sketches, accompanied with philosophical essays, which will prove interesting to the general reader, and especially instructive to all young politicians.

Commissioner Wiggin.

At the Cincinnati Convention there came a delegate from Maine, a blackguard fellow named Wiggin, whose zeal in behalf of Buchanan from time to time exhibited itself in the most offensive and indecent abuse of Franklin Pierce, and of the Administration of which he was the head. As a reward for this performance, Buchanan appointed him Commissioner on the Fishing Boundary, but the Senate very properly refused to confirm his appointment; both the moral and political character of Wiggin having been shown to be corrupt and base beyond parallel, even among the vile herd of camp-scullions, who bask beneath the smiles and draw their sustenance from the dregs of the Administration.

But Mr. Buchanan is not to be baffled in his efforts to reward the dogs who have faithfully done his dirty work, so he just transfers Ex-Governor Hubbard, of Maine Liquor Law notoriety, from his office of Superintendent of New England Custom Houses, to the office made vacant by Wiggin's rejection, and Mr. Secretary Cobb gives Hubbard's place to Wiggin. So after all, Buchanan succeeds in rewarding his favorite, and adding one more to the long catalogue of insults which the Administration has inflicted upon the New England Democracy. These things will be remembered, and the time, thank God, is not far distant, when the Democracy will have it in their power to repay insult with *repudiation!*

There's a good time coming, boys,
Wait a little longer!

BISACCIANTI'S CONCERT.—Everybody not absolutely conscious of not having a particle of music in his soul, nor room for any, should go and hear Madame BISACCIANTI.

Except Jenny Lind, she has no equal among female singers. And in her rendering of English songs, we believe her no whit inferior to the Swedish Nightingale in her palmiest days. In addition to Mr. DENNETT and Sig. BISACCIANTI, she will be accompanied by H. KOTZSCHMAR one of the most accomplished of living pianists.

As Madame Biscaccianti is about to leave this country, on a tour to South America, Australia, and the East Indies, and may never again favor us with her presence, we trust to see her greeted with an audience that shall not permit her to forget or regret her visit to the capital of the Granite State. —*Independent Democrat.*

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, **10 Barrels good Coal,** 1 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2280 lbs, worth about $6.

The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

Thousands have been sold and give perfect satisfaction. Try one.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1858.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly merited effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am acquainted with those who will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached to it or your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 28, 1858.

WOOD'S HAIR RESTORATIVE:—

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no word can express my obligations to you in giving to the afflicted such a treasure. FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit. J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds ½ a pint, and retails for $1; the medium holds a pint and 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove almost all morbid or bad matter from the system, thus supplying in their place a healthy flow of bile, invigorating the system, and causing food to digest well, **purifying the blood,** giving tone and health to the whole machinery, removing the cause of the disease, effecting a radical cure.

Bilious Attacks are cured, and what is better prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents nightmare.

Only one dose taken at night, loosens the bowels gently, and cures constiveness.

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in this or the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases have been treated by him, generally treated by empyrics have come under his care, and more than three-fourths of this number are described in his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious names at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in the efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a particular name, with some spurious or delicious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

The Dr. is in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place where the genuine can be had in Boston.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston

IMPORTANT TO FEMALES.

DR. CHEESEMAN'S PILLS,

PREPARED BY CORNELIUS L. CHEESEMAN, M. D., NEW-YORK CITY.

The combination of ingredients in these Pills are the result of a long and extensive practice.—They are mild in their operation, and certain in correcting all irregularities. Painful Menstruations, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, disturbed sleep, which arise from interruption of nature.

NOTICE TO MARRIED LADIES,

Dr. Cheeseman's Pills are invaluable, as they will bring on the monthly period with regularity. Ladies who have been disappointed in the use of other Pills, can place the utmost confidence in Dr. Cheeseman's Pills doing all they represent to do.

NOTICE.

They should not be used during Pregnancy, as a miscarriage would certainly result therefrom.

Warranted purely vegetable, and free from anything injurious to life or health. Explicit directions, which should be read, accompany each box. Price $1. Sent by mail on enclosing $1 to Dr. CORNELIUS L. CHEESEMAN, Box 4,601, Post Office, New York City. Sold by one Druggist in every town in the United States.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full extracts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN application, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to secure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, MARCH 21, 1859.

JUDGE TANEY AND UNCLE TOBY.

The Concord Patriot calls Uncle Toby a wilful liar, when he only copies Judge Taney's words. The Portsmouth, N. H. Gazette deems this too hard, and takes off the "wilful lie," but says:

"Uncle Toby" probably never read the Dred Scott decision at all; his knowledge of that matter is undoubtedly obtained by reading the gross perversions which the ungodly Black Republican editors have put upon it.

Now it happens, in point of fact, that Uncle Toby read and published the Dred Scott *decision* at the time of it. The *decision*, however, was a very brief affair, and did not amount to a tithe of what has been attributed to it.

Uncle Toby also read Judge Taney's *Opinion*, which he delivered when he announced the decision which left Dred Scott still a slave.

He also read the *opinions* of all the judges, as they were published in the papers, and especially as they appeared in a corrected and accurate form, in the Boston Courier, together with a good analysis of the case, the best we saw in any paper in the land. It may be well to remark here, that on the full bench at that time, there was a bare majority of the judges, in favor of a decision on *the side of slavery*; but there was not a majority in favor of any *one* distinct point of law which led to such decision; one judge reached it in one way, and another in another; as any man may see, who will get the opinions, and read them through.

Chief Justice Taney, in a carefully prepared document, announced the decision, and gave what is usually called the opinion of the Court, i. e. his own views of the case, in which several other judges coincided in the main, while most of them dissented on some one or more points.

This *opinion* of Judge Taney's, which is very often called the Dred Scott decision, is really a special plea for slavery,—a specious *argument* for it, by an unscrupulous and ingenious old lawyer, who was put upon the bench as the reward for a similar job of special pleading in another case.

Judge Taney lays the foundation of this Argument by stating these *false premises*, that when American Independence was declared, 80 years ago,—and when the Federal Constitution was adopted, 70 years ago,—then the black man "had *no rights which white men were bound to respect*;" and the black man might be reduced to slavery, bought and sold, and treated as an ordinary article of merchandise."—And the judge adds, most emphatically, "This opinion, at that time, was fixed and *universal* with the civilized portion of the white race."

With this falsehood laid down and assumed as a fixed fact, Judge Taney went on to reason somewhat in this fashion:—The black man being stolen from Africa *then* with perfect impunity and great boldness, *had no rights*,—he has gained none *since*,—*ergo* he has none *now!*

This is the gist of his argument or plea for slavery,—and the *decision*, all the decision was,—that Dred Scott was not a citizen of Missouri, and for that reason the Circuit Court of the United States had no jurisdiction, therefore its judgment (of freedom to Dred) must be reversed, and a mandate issued to *dismiss* the case for want of jurisdiction.

But some one may say, how do you know this *dictum* of Judge Taney to be false? Answer—in the same way that we know there was a battle one day at Bunker Hill, viz., by well authenticated history.

In the very teeth of Judge Taney's silly statement that this denial of all *right* to the black men was universal, we have the undisputed and indisputable testimony of Thomas Jefferson, that they had rights, and that he trembled when he thought of their wrongs and remembered that God was just.

We have the further testimony of George Washington, in his letters, in his will, and even in his recovery of one fugitive slave from Portsmouth, and his submission to the loss of another.

We have the testimony of Lafayette, Franklin, Judge Jay, Judge Marshall, &c.

Judge Taney falsified history, built an argument on the falsehood, and then delivered an opinion that will be derided in the next century, as generally as the decisions of the English Judge Jeffries are derided now.

The California Senators are going home, to make a fight. Should Mr. Broderick be beaten, he will probably retire from the Senate. The chances, we think, are against him.

For the Chronicle.

CLAREMONT, March 16.

Messrs. Editors:—The temperance men have been acting in earnest. The stronghold of intemperance among us, in whatever combinations that stronghold exists, is not to be abandoned until it is overcome. We have rights as sacred as those of the rumbarrel man.

A little closer eye upon the way in which officers of the law do their duty, is requisite, in some portions of the State at least, and a comparison of the manner in which cases are managed by different officials, all acting under the same legal obligations, might be somewhat amusing, if not serious.

Our Baptist minister took the ground, in a lecture this winter, that the men who are willing to perform the more difficult services necessary to enforce any good law, are specially deserving of, honor, and ought to receive it. He also favored the plan of combination of strength to enforce the liquor law, because if *one* man does it, he can be crushed, and *another*, and *he* can be crushed; but it is not so easy to crush many. It was a kind, faithful, stirring lecture.

In Newport new temperance organizations are set on foot. The ministers are very active, and will find the people with them to sustain them. In Lebanon a very efficient enforcement of the law has been maintained, and the people wonder at the general quiet that is one of the first and best results. They have been unwilling to confine the good effects of the law within the town limits, and have done much in nighboring towns — a practice against which, as was suggested in the above-name lecture, only men who want some *resort for supplies* would be likely to object. The idea that this course breaks up good feeling between towns, is simply absurd.

An encouraging sign of the times, here, is seen in the fact that men who stand out boldly to enforce the law, find themselves much more fully sustained by outspoken sympathy and support, than in former years. Opposing influences, with but small exceptions, are timid and sly; while the friends of this reform are immoveable in their purposes, and their hopes are akin to those so eloquently expressed by Sumner as to the event of the struggle between freedom and slavery on the plains of Kansas. Intemperance, with its multifarious auxiliaries, is indeed a foe with whom it is no labor for an idle hour to contend, but whose march, if left unmolested, in any community, will leave behind only desolation and woe.

Would not a system of correspondence with suitable men in each town, by County organizations, and with the Clerks of Courts or other proper persons, bring us a full and desirable account of the progress of our work? I apprehend the law encounters (as was stated by the State Committee) more difficulty in its operation in the large towns than anywhere else. And there men become discouraged, or think it for their interest to oppose the law, and there the tone of public opinion is struck, while the facts, fully known, would show that in the majority of towns the law, even where no prosecutions have been made, has reduced the "evils of intemperance" vastly.

Would not clergymen all over the State find themselves sustained in efforts to put this subject anew before the people? The General Association and several of the Conferences earnestly recommended it;—the people of Massachusetts are more active than ever; at a session of our Supreme Judicial Court last autumn, at Dover, 21 cases of sale cases up, and the parties plead guilty, did not go to full trial. Let a little earnestness be manifest, and this may be the state of things everywhere.

This is not a party, but a common interest. It has a foundation that will stand. Yours truly,

* *

☞ There has been a little brush in China between the natives and the English, the former getting a beating, as usual.—The country is not quite yet conquered, and it will be long before it can be expected to be submissive. The contempt and hatred in which they hold all outsiders will never allow the Chinese to be otherwise than ungrateful to those who are imparting to them the blessings of knowledge by the usual educational processes—sound beatings and plenty of them.

☞ While Rev. Thomas P. Calhoun, Presbyterian minister, and his wife, were crossing a bridge at St. Cloud, Minnesota, in a sleigh, on the 20th ult., the horse became unmanageable and jumped from the bridge to the hard frozen bottom below, a distance of some thirty feet, killing Mr. Calhoun and severely injuring his wife. The horse was also killed, and the sleigh broken into fragments.

MUSICAL CONVENTION.

Agreeably to a vote of a majority of the Executive Committee, the Fourth Convention of the Rockingham County Musical Association was held at the Town Hall in New Market, on Tuesday, Wednesday and Thursday, March 15th, 16th, and 17th.

Mr. Ebenezer Joy, of New Market, was the prime mover in the affair; in arranging for which he was countenanced and aided by all the officers of the Association, to the extent of their powers.

The Selectmen of New Market very kindly granted the free use of the Hall, for the occasion; and the citizens generally evinced a commendable appreciation of and interest in the Convention. The sessions were well attended throughout, and the most liberal and hospitable disposition manifested toward the Association by everybody concerned. Under such circumstances, the Convention could not but be a success, notwithstanding the storm and the bad traveling.

It had been the desire and intention of Mr. Joy and the members of the Association generally, to make this emphatically and literally a County Convention—conducted entirely by the officers of the Association, without aid from abroad; but other engagements having prevented the attendance of Mr. Christie and Mr. Pearson, the President and Vice President—it was deemed advisable to procure the services of Prof. Williams, of Boston, best known as the editor of the "Gloria in Excelsis" collection of music. This gentleman furnished the Convention with a liberal supply of copies of his new music book, "The Singer's Manual," designed especially for Conventions, Concerts, and Singing Schools—and which proved to be well adapted for these purposes. Mr. Williams conducted the entire Convention in a manner which received the approbation of all, and won him many friends among his new acquaintances.

The storm of Monday and Tuesday, greatly diminished the attendance at the Convention throughout, by rendering the travelling so bad; and the number present at the opening session, Tuesday morning, was not large. The attendance increased with each session, however; and about sixty singers registered their names and took part in the Concert on Thursday evening.

NEW MARKET.—Eben'r Joy, Wm. W. Joy, Aug. Walker, Dr. Towle, Mr. Bryant, Dr. Elkins, Wm. Robinson, Andrew Doe, John Carter, John Davis, Dr. Gray, John Dudley, David Marston, Nath'l Robinson, S. A. Haley, A. C. Rice, Mr. Hudson.

EXETER.—John T. Gordon, J. H. Folsom, J. S. Robinson, John B. Hill, Wm. N. Hobbs.

Mrs. J. H. Folsom, Mrs. N. Collins, Mrs. Geo. Smith, Mrs Kellogg, Josephine Murray.

DOVER.—Mr. Foot, W. H. Tappan, Miss J. Wyatt, Misses Smith, Mayis Durgin.

DURHAM.—Charles Joy, Samuel Thompson.

SALMON FALLS.—Mr. & Mrs. Tilton, Mr. F. S. Knowlton.

PORTSMOUTH.—Albert W. Parsons, Frank W. Miller, Mrs. D. S. French, Mary E. B. Miller.

The Programme of the Concert consisted of Sacred Choruses, Hymn Tunes, (among which old Initiation and Turner were introduced with good effect,) Glees, Quartets, Duets and Songs. A good Orchestra of five pieces, with the Piano playing of Mr. Williams, constituted an effective and agreeable accompaniment for the singing.

No charge was made for admission to the Convention, as had heretofore been the custom—but the doors of the Hall were thrown open to all; and the receipts at the Concert not being quite sufficient to cover all the expenses, the gentlemen most interested contributed to make up the deficit as usual.

It has been decided by all who have attended these Conventions, that there is no more agreeable and profitable way of spending a few days; and it is probable that the Fifth Convention of the Association will be held at Exeter, sometime during the coming Summer or Fall; and also another at Portsmouth, in January, 1860.

THE FOREIGN NEWS.—The Bremen steamer has beaten the English steam packet Asia. The propellers make better time of late than the Cunard mail steamers.

The war question seems to have made no more progress, and the union of all the opponents of the English Ministry against the so-called Reform Bill is what was expected.

☞ The Havana correspondent of the Savannah Republican writes: During the years I have resided on this island, the average annual number of Africans imported has been about eight thousand. Last year, however, that number has nearly trebled—twenty three thousand having been imported!

☞ Freshets are occurring at Springfield, Mass., and elsewhere, on the Connecticut River.

☞ The New Orleans Delta maintains that there is as great a depth of water on the bar at the mouth of the Mississippi now as there was a century or fifty years ago. It says the reason that vessels stick fast now is that they are built larger than formerly. So the case is clear—any vessel can easily cross the bar, provided she does not draw too much water.

☞ Mrs. Catharine G. Ogier of Chester county, having brought suit against the Pennsylvania Company for $20,000 damages, sustained by the loss of her husband, Dr. Ogier, who was killed by the cars about a year ago, the arbitrators gave her $15,000 damages against the Company, and the costs.

☞ The Dubuque (Iowa) Herald says that a gentleman from the interior of that State passed, a few days ago, sixty wagons for Pike's Peak, stuck fast in the mud.—The accompanying emigrants quietly encamped, to wait for drier weather.

☞ About six weeks ago, Jacob Helsch, who resided in the vicinity of East Walnut Hill, Ohio, was bitten in the shoulder by a vicious horse, and having neglected the wound, gangrene set in, from the effects of which he died a few days since.

☞ At a temperance meeting in Springfield, Mass., on Wednesday evening, Rev. Dr. Ide brought forward a well authenticated receipt for the manufacture of eight dollar brandy for the astonishing low cost of only ten cents per gallon, including all the ingredients except prussic acid.

House and Land for Sale.

IN SUNCOOK.

The Subscriber offers for sale the Cottage House and Barn, and about one-fourth of an acre of land, in Suncook Village, about one-fourth of a mile from Suncook Factory, on the road leading to Hooksett, recently occupied by Tobias T. Rand, Esq., deceased. The house contains six rooms, and has recently been put in first-rate order. The Barn is nearly new, and there is a good well of water on the premises.

Being situated near the Suncook Factory and Village, the premises will be convenient for a person designing to keep boarders; or it would be a desirable location for a butcher, there being none in Suncook Village, or in Hooksett.

Apply to SILAS BURLINGAME, Esq., near the premises, or to the subscriber, at Portsmouth.

SPECIAL NOTICES.

HIP DISEASE.—The most that can be expected in this disease is to prolong life, with stiffness or deformity of the hip joint. The PERUVIAN SYRUP will support the strength under the slow and painful ulceration, and will prevent the profuse discharge of matter, which, if opening externally, will almost certainly prove fatal.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontiturumenos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Potsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photograps in Oil Colors, which he is selling at about half the Boston and New York prices.

A NEW BODY.—On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 21st., RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Relief; one small bottle of Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to be the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delectably flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the very ⁺ble kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., which the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever met with."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHERS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 71 Hanover st.; Redding & Co., 178 Washington st.; E. Packer, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 5½ Blackstone st.; R. DR. DUPONCO'S

French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for ten years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J Duponco is upon each box. You will then obtain a Pill you can rely upon.

POLICE COURT.

Before Justice Rollins, March 18, Maria Adams plead guilty to a charge of being habitually drunk in the streets on St. Patrick's day. Sent to the House of Correction for 30 days—costs $2.58.

March 19.—Dennis Sullivan was accused of assault and battery on Timothy Murphy, on St. Patrick's day; found guilty, and fined $10; costs $2.65. Paid. The same Dennis and John Morrison were accused of making noise and brawl on St. Patrick's day; found guilty; fined $1 each; costs $6.69.

Dennis paid; his St. Patrick frolic cost him $17.

A Broil.—*Messrs. Editors*:—Do you like a broil? I do not mean a political broil, got up on the wrathful fires of newspaper editors—nor a broil for effect, but a broil for dinner. My husband is very fond of a steak, fresh fish, or even a chicken cooked after the inimitable manner styled broiled; but there have been great drawbacks to this mode of cooking. Who cannot tell, the moment he opens his front door in pursuit of his dinner, if there has been a broil? and what particular flesh, fowl or herring has been served up? the mother of which transaction has filled not only the kitchen, but every room in the house, and at last found its way to the front door to greet all incomers.

Through all this discomfort and disagreeable odor, I have for some years gratified the taste of my household for a broil—resolving at each never to have another. But, Messrs. Editors, if you love a broil, rejoice with me that the advance of science has opened the way for its enjoyment, without this intolerable objection.

The new "Wire Gridiron" sold by Mr. E. A. Stevens, will give you the best broil of steak, the flavor of which you will readily inhale, but without one particle of smoke from the burnt juices of the meat, which are all saved in a dripper attached to the gridiron. No one who has been subjected to the annoyance of broiling over a cooking stove can tell the pleasurable sensation which this pleasing and economical arrangement give to A Housewife.

Mr. Cobden's Search.—The Illustrated Times says of Mr. Cobden's visit to this country:—

"He has not gone for amusement, or health, or, as some have said, to study the political institutions there. The simple fact is that Mr. Cobden has, I am sorry to learn, invested a considerable sum in American railways, and is gone to look after it."

If he succeeds in finding it, several of our friends would be glad to have the benefit of his experience.—*Traveller.*

The Explosion at Guadalajara.—A Mexican correspondent, writing to the N. O. Picayune of the recent explosion at Guadalajara, says:

"At last accounts, upwards of 200 victims had already been taken from the ruins of the palace, some headless, others without arms or legs, as the case might be, and all burnt and blackened in the most shocking manner. The young men belonged to Miramon's party: but besides was a large number of less distinguished victims. The number of prisoners who perished by the catastrophe was twenty-three. At last accounts the work of excavation was still going on. The palace itself, except the central part and portion of one of the wings, was entirely blown to pieces."

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.
This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mf'g Co.
Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as Woman's Friend.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition, in every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St. Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see the machines of Wheeler & Wilson."—[Examiner.

PORTSMOUTH BOYS' HIGH SCHOOL.

The annual examination of this School took place on Saturday last. The progress of the pupils in their various studies reflected much credit upon the principal, Aurin M. Payson, Esq. and his assistant Mr. J. Warren Carter. The School presented a cheerful aspect—the boys in excellent training, but showing no signs of undue constraint. In their happy countenances was evidence of ambition to be good scholars. Some portions of the exercises were performed in a manner that would have done credit to a college class.

It was gratifying to the teachers, as well as to the scholars and their parents in attendance, to receive on the occasion a visit from James T. Fields, of Boston, who years ago was a graduate of the Portsmouth High School. Mr. Fields has in a tangible manner ever showed his interest in the school, and kept up a connection with it. He has from time to time made valuable donations to its library, and a handsome bookcase of capacity for four hundred volumes. These favors have been duly appreciated, and many a boy has felt the honor of his position, when he has looked upon James T. Fields as once being in his place.

Before the close of the afternoon services, Hon. Wm. A. Walker, of the High School Committee, introduced Mr. Fields to the school, who after a few remarks, read the following admirable poem. At the request of the school he has given a copy.

POEM BY JAMES T. FIELDS.

Will you let an old scholar, like young Lochinvar
Tread a measure, in rhyme, ere he reaches the car?
Will you hear an old boy who in days that are flown
Spoke pieces by others, speak one of his own?

Last week as my letters came in from the East,
There was one from dear Portsmouth, proclaiming this feast;
And I said, "had I time, I should like well to go"—
Said my wife, "make the time;" said her husband "just so."

But Business looked up and tugged hard at my sleeve,
And whispered, "I really can't see how you'll leave!"
Inclination cried, "go! never mind what he says,"—
So I've come to the school of my past happy days.

I have dropped in to see how the boys get along,
To look in their eyes and repeat a brief song,
Just to tell them how happy it makes an old boy,
Like myself, to stand with them in all their young joy;
To make their acquaintance, and bid them Godspeed;
Hear what kind of voices they have when they read;
Hear them construe the Latin that once I had strung,—
(Believe me, my friends, I was once really young!
You'd hardly suppose it to look at me now,
But Time has a rough way of handling his plough,
And a very bad trick of unloading his box
And sprinkling white powder among your dark locks.)
Never mind, I am with you with heart just as fleet
As the smallest young fellow's in this or that seat;—
I should like to run with you down any old hill
As I once used to fly o'er the ground by the mill;
I should like to play ball, but where's my old bat?
Alas! I'm the ball, and it's now "tit for tat."
How well I remember I once had a kite
That I thought, had she string, would fly far out of sight!
Alas! how my schemes like my kite have decayed!
But never mind that, boys, we won't be afraid:
Let us try to do right; let us strive, boy and man,
That we'll all, hit or miss, do the best that we can.
And so make my song, boys, and let us be friends—
We're scholars together, we're all the same ends:
The world is a school house, the Master is there,
He will teach us, if humbly we ask him in prayer.

Don't forget to be true, boys, and studious, and kind,
Remember the threads of your lives here you wind;
Shun a fellow that's mean as you would one that swears,
And cut the young monkey who gives himself airs—
Throw pipes to the dogs, and tobacco to bears!

Give a very wide berth to all things that are base,
And don't touch a razor, I beg, to your face.—
For why should a boy grub and scrape where there's nought,
And why should a man waste his half hours of thought?
Sneak up to the glass every morn to be sheared!
No! time is too precious—so let grow your beard.

Look out for your *Health;* that's where we all fail;
We are gaunt, narrow-chested, round-shouldered and pale,—
There is hardly a side that is minus a stitch,
And the butcher is shun'd while the dentist grows rich!
With the furnace at Ninety we mope in the house
Till our skins are the color of some pallid mouse,—
Clear honest cold water and plenty of air
The Doctor bears witness will keep your cheeks fair.
Rush out in the breeze, never mind if it storms,
A good stiff Nor-Wester will straiten your forms;
The fresh bounding wind is Elixir enough,
The prime early morning, boys, that is the stuff:
Take a stick in your hand and trudge off your miles,
And in place of his wrinkles old age will plant smiles!
Take your sisters and cousins (your rubies and pearls)
For you can't go amiss when you walk with the girls.

(I'ray pardon a townsman for blowing his horn—
But you're the luckiest fellows that ever were born;
You've the grandest broad country-tract just over there,
And the sun never shone on a river more fair;
I wonder sometimes millionaires don't arise
And buy all your State for a new Paradise!)

Be generous of *good* things, the *bad* ones abound,
One can pick up a thousand windfalls on the ground.
If you've got a big apple for luncheon in store
Don't make a poor fellow hang round for the core—
But lift your plump 'baldwin' all whole in his sight,
And open his jaws wide, and give him a *bite!*
There are wretches that grudge you the use of the sun,
And the meanest of numbers is tight Number 1.

If you're rich, look about for sad hearts to befriend—
If you're poor, that's a trifle you'll very soon mend:
There's a bright star for all, boys, somewhere in the sky;
It may not shine now, boys, it will bye and bye—
Great Franklin in boyhood has dined on a crust,
And the young feet of Webster went bare in the dust!

Keep a firm look aloft, head erect, bosom clear,
And I tell you, brave hearts, you have nothing to fear,—
So take my best wishes—I came at your call,
Good bye, honest faces,—and God bless you all!

M'me Biscaccianti is a native of Boston. She is the daughter of Ostinelli, who was familiar to Portsmouth audiences thirty years ago. The old gentleman is now a resident of Italy. His daughter stands in the first rank of vocalists. It will be seen that she gives a concert in Portsmouth next Wednesday evening.

Albert Laighton's volume of Poems is to appear this week, and we doubt not will be warmly received by the hosts of friends he has at home and abroad.

From the N. H. Gazette.

"INTO WHAT HANDS HAVE THE NEW ENGLAND DEMOCRACY FALLEN."—We extract an article with the above caption from that sterling old Democratic organ, the Vermont Patriot.' It presents a very truthful and spirited picture of the illustrious group of worthies who have contrived to win all the smiles and nearly all the sop dispensed by the present Administration. Indeed, we think brother Eastman of the Patriot must have had in his mind's eye, when he penned *this* article, some of the incumbents of the federal offices in this city, whom we forbear to mention at present, having a few rods in pickle which we propose to apply to their tender spots at some future time. We commend the Patriot's article to the attention of our readers, and we ask them to judge whether it is not a true and complete answer to the question put in the caption?

In New England, during the administration of General Pierce, a set of political blacklegs, and milk-and-water drones, failed to have all the influence at Washington they desired. Gen. Pierce was a New England man. He knew this set, and had too much respect for the dignity and parity of the party to place its destinies in their hands. Failing in their wishes, they traduced his administration and denounced his policy. They were saved from going entirely over to the enemy by the success of Mr. Buchanan. Immediately upon his election they took him into their fatherly care and keeping, and commenced a general scramble for the plunder. They had done little or nothing to advance his election. They had kept dark and quiet, and were fully prepared to take their chances with Buchanan or Fremont. They took them with Buchanan, *after he was elected!* They besieged him with protestations of friendship, dating back to his teething. They overwhelmed him with letters lauding their own, and denouncing the Democracy of every man who stood in their way. They sneaked into every caucus held within their reach, and begged endorsements. They beset every prominent Democrat for letters of *introduction*, merely, if they could get nothing else. In short, as Benton would have said, they completely bamboozled the President. The plunder for which their mouths watered, and which, like their predecessors, the "Cow Boys" of the revolution, was the extent of their patriotism, must be had at any cost to the party and the nation. In too many instances this venal set of camp-scallions were successful, and having been so, they stand with drawn swords across the man they have cheated and deceived, to see that their cause receive no detriment by the truth that may possibly reach his ears. To show their gratitude for the sop thrown them, like so many mangy watch-curs, they hang round the Administration snarling, and growling at every man who approaches, and setting up the most infernal howling, if a fellow happen to "whistle for the want of his thought," or snap his fingers anywhere about the premises. An outsider would think President Buchanan, some old grassy, deaf, blind, and idiotic; sitting in an arm chair, wrapped in a fine well stuffed with cotton, and propped with pillows; and having a goose flog with her toothless gums, and kept from pitching into the fire by the most untiring watchfulness of her descendants.

Aside from the disgrace this set bring upon the Administration, their course is the most ruinous to the party. Never Democrats at heart, always found where there was the best prospect of spoils, and ready at any moment to go where plunder leads the way, they teach the people to believe that principle in politics is humbug; that intrigue, cheating, and lying, and all manner of corruption and unfaithfulness are the requisites for executive favor, and that to be dishonest, incapable, unfaithful, fits an applicant for office under a Democratic Administration. Cursed with such a set of retainers, the Administration of Jefferson would have been damned forever, and General Jackson would have stood as little chance with them as Peckenham did with him. Not satisfied with having seduced the Administration, they must degrade the party to the lowest depths of prostitution. Denying the faith of the fathers, they are ready to drag the party back to the old federal doctrine of protection. Disregarding the settled convictions of our wisest statesmen, they are ready to drag the party back to the old federal doctrine of internal improvements by the General Government. Denouncing a cardinal doctrine in the creed of Democracy, the doctrine of popular sovereignty and State rights, they are ready to drag the party back to the old federal scheme of a consolidated government. They are ready to drag the party anywhere, where plunder beckons to treason, and personal aggrandizement promises to reward corruption.

Against this set, who have deceived and cheated the *President*, the *Democratic party* must set its face as a flint. They have done us mischief. They may do us much more, but we must prepare for a man, at the Charleston convention, who will purify the party of their baneful influence, "so as by fire," if necessary. Nothing but the perfect assurance of the masses, that such a man is to take the helm, will save us from a defeat, compared with which 1840 was a drawn battle.

DISGRACEFUL.—The Portsmouth Chronicle asserts for the hundredth time, that Judge Taney said in the decision of the Dred Scott case, that "the black man has no rights that the white man is bound to respect." Now the editor of the Chronicle calls himself a Christian, and has for forty years or so been a preacher, and of course ought to tell the truth; yet he knows that Judge Taney uttered no such sentiment in the opinion referred to. In fact, the *Rev.* "Uncle Toby" has lied wilfully, deliberately, and malignantly, more than a hundred times, in repeating this same miserable slander upon one of the purest men of the land.

Our readers may think this harsh language; but it is time to brand these malicious slanders as they deserve, and when men repeat them knowing them to be such, it is time to brand them also.—*Patriot.*

We think the Patriot is a little too severe upon our neighbor of the Chronicle. "Uncle Toby" is a very bitter partizan, but we don't think he would tell a deliberate and wilful falsehood where the chances of being detected are very imminent. "Uncle Toby" probably never read the Dred Scott decision at all; his knowledge of that matter is undoubtedly obtained by reading the gross perversions which the ungodly Black Republican editors have put upon it. Let them start the story that Judge Taney said all free niggers ought to be roasted alive and fed out to dogs, and "Uncle Toby," and nine tenths of the party to which he belongs, will roll up their sanctimonious eyes and swear that it stands just so in the decision, and proceed to denounce the Supreme Court and the Democratic party for upholding such wicked doctrines. Ignorance is the saving grace relied upon to keep such persons out of the lake that burneth with fire and brimstone, and hence, "Uncle Toby" is very careless in his statements upon political matters. That he would tell a lie wilfully we do not believe, but if a truth favorable to the Democratic party were not upon the surface, we doubt that he would dig very deep after it.

"Where ignorance is bliss, 'tis folly to be wise."

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. We give evidence must have its effect, when coming from a reliable source. It certificates are guarantees of truth, the U. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and, to my wish, I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that my gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my testimony. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

A. C. RAYMOND.

BALTIMORE, Jan. 28, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood | Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854. I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasant results.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, $6 per bottle, or more in the yellow level, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These **Gums** remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, **purifying the blood**, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, a mild cure **costiveness.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose often repeated, is a sure cure for **Cholera Morbus;** and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effects of the medicine after a long sickness.

One bottle taken for **Jaundice** removes all sallowness or unnatural color from the skin.

One dose taken a short time before retiring gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all **Fevers of a Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment hundreds of victims in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consulting a physician who would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the nature of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most invidable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number have incorrect upon his books as perfect cures.

Patients treated by letter. Address Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing eyes.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 18 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS.

These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. They act upon a specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—18 Howard street, Boston.

HUMBOLDT AND WASHINGTON'S BIRTHDAY.—John Paine, a young Portlander who is studying music with great zeal and success in Berlin, writes to his friends a readable account of a very interesting occasion. We copy from the Portland Advertiser:

"Yesterday was Washington's birthday, and we celebrated it by a grand dinner at the American Minister's, Gov. Wright. Some eighty or ninety persons were present, among them the Baron Von Humboldt, whom we all reverence above any man living. I shall remember it until the last moment of my life, and it will be with pride that I can say that I was present upon it at occasion in which he honored the American nation, in his old age, with his presence at a dinner given in remembrance of 'The Father of our Country.'

The dinner was set at three o'clock, and every one was already there a little before the hour, in order to be present when Humboldt came. He entered the room precisely upon time. He is a very short man, and quite infirm, and it is with difficulty that he is able to walk. Of course as soon as he was placed in his chair, the minister introduced the ladies and many of the gentlemen present. After a few minutes' conversation the party adjourned to the dinner, and the devouring of eatables took place, after a short blessing from a clergyman.

Gov. Wright made the first speech, and spoke of the occasion which had brought them together, in a very eloquent manner, and gave as the first toast, 'The Prince and Princess of Russia,' and for the second, 'Washington's Birthday.'

Next the Secretary of Legation made a few remarks, and gave a toast in which he coupled the names of 'Washington and Humboldt,' which was drank standing, and three rousing cheers given.

After some other speeches and toasts were given, Mr. Thayer (correspond nt of Dwight's Journal of Music) gave the following—which I consider the best toast of the occasion—'The Baron Von Humboldt the King of Science, the latchet of whose shoes *no common Kings* are worthy of unloosing.' It made a tremendous noise, and Humboldt spoke in answer; but his voice was so feeble, and his language so indistinct, that I believe no one understood what he said.

He remained two hours and then left, as he can bear but little excitement. As his great coat was being put on I was standing quite close to him, and seized the opportunity of touching his cape, which is honor enough for me. Was it not a great occasion for us young Americans."

☞ John Wiard, a revolutionary soldier, died in Medina county, Ohio, January 18th, at the age of 99 years, 7 months, and 12 days. He was born in New Haven, Conn.

The underground railroad is represented to be doing a large business in South Carolina. If it pays there, it ought to be successful in other States, the Palmetto community being a hard one to escape from.

☞ The increasing emigration to the Western gold fields has caused an advance in the price of grain at St. Louis and neighboring cities.

Their whiskey is so strong in Philadelphia that it blows up. Whiskey causes a good deal of blowing up here and many explosions, but not of the Philadelphia pattern.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8 1858.
Mr R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such uninstakable proof of greatness and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their case, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, MARCH 22, 1859.

The word "either" may well complain of ill-usage, for some of the best writers talk of "either" in a perfectly erroneous sense. We have "armies assembled on either side of the river;" "a numerous attendance in either House of Congress;" and "vigorous action on either side of the House." How can either be made to signify both? Either is one, or the other; it is this, or that; it is never both.—*Boston Journal.*

What is here said about *either* is nearly correct—the error is an old one, however, as in our common bible we read in Revelation, "On either side of the river was there the tree of life."

In the item above quoted there is the term "*perfectly* erroneous." Now error cannot be perfect. A statement may be perfectly correct, or perfectly true; and it may be entirely erroneous, or utterly false. The choice of adverbs, adjectives and adjective pronouns is a very nice piece of business, which cannot be regulated by any mechanical rule. It is like stopping the string of a violin in the exact place to produce the note desired. If you *can* do it, very well; if not, you make a bad note. That's all.

SEAMEN.—The January number of the Atlantic Monthly contains an article upon seamen; to this the Knickerbocker for March replies. In answer to the charge of drunkenness preferred against seamen by the Atlantic, the Knickerbocker says:

But there is less drunkenness among seamen now than there ever was before, for the simple reason that no merchantman carries liquor to sea for the use of her crew; whereas, "in the good old times" rum was part of every sailor's "allowance" on board of every ship. Therefore, the sailor of to-day is less of a drunkard than his predecessor of 1808, and more of a man at sea.

Let us note the fact that the Knickerbocker is no fanatical journal—but gives testimony in favor of what the temperance movement has done for the men in the forecastle. If it could go into the cabin, it might do immense good all over the ship.

REPUBLICAN CONVENTION.—On Thursday evening last, the Republican members of the Legislature, and delegates from the towns not represented in the Legislature by *Republicans*, met in Convention at the Hall of the House of Representatives.

Hon. Isaac Hill was nominated for the office of Governor, to be supported as the *Republican* candidate at the next March election.—*N. H. Patriot, June* 29, 1835.

This extract shows the youthfulness of the democratic party in New Hampshire. Mr. Hill was one of the oldest democrats, and the party therefore must have been born in Concord, in 1835.

BUTTER.—We understand, says the Boston Atlas, there is a fluttering in the butter market, particularly among those who have gone into the speculation and thus made our high prices, and now have to submit to a daily decline. Last week, one large New York butter and cheese speculator failed, and other houses are pushing their butter on to this market, selling as best they can. The fact is, prices are down from the late wholesale rates, consequently all can supply their families at much lower rates.

☞ Mike Walsh and Dan Sickles were once formidable rivals for the favor of the New York democracy, and it is odd enough that the former should have come by his death in some mysterious manner just at the time when Sickles is under indictment for murder. Walsh was the abler and the better man of the two, and but for his eccentric habits might have won honorable distinction.

☞ Gen. Walbridge has been visiting the exemplary Sickles. They were rivals for the democracy's favor in the district which Sickles represents, and the latter, being in all respects the worse man of the two, was of course successful. Should Sickles be hanged, or sent to the penitentiary, Gen. Walbridge would be his successor in Congress. So we can judge how magnanimous he is in visiting his rival now that that rival is in bonds.

SINGULAR INCIDENT.—The New Orleans Delta notices the following extraordinary occurrence: On Monday, the day after the Princess' disaster, an infant about seven months old, was picked up in the river, at Mr. Peniston's plantation below the scene of the explosion, floating about with a life preserver made fast to it. It was alive, and is now in a healthy condition, having been restored to its mother.

☞ The Sickles trial is set down for Monday next.

LEGISLATION IN MISSOURI.—The lower house of the Missouri Legislature has passed an act relating to free negroes. We take the following synopsis of its provisions from the N. Y. Commercial Advertiser:

No slave shall be deemed emancipated till his master shall have entered into bonds in sum of two thousand dollars to remove the negro from the State within ninety days after the act of emancipation, and if any negro who may thus have been transported from the State shall return, he shall be reduced to slavery. All free negroes who may be residents of the State in 1860 are declared to be slaves, and the sheriff is authorized to sell them under the provisions of the act. The clause is made applicable only to those persons who may have come into the State subsequent to the sixteenth of February, 1847, and their descendants. All free negroes over the age of eighteen are to be notified, on or before the first Monday of August next, of the existence of this act, by the sheriffs of the different counties, and twelve months is allowed in which to leave the State. Provision is made by which a free negro over twenty-one years of age may select a master or mistress in the State, after which he is to be regarded as a slave.

It is thought that the bill cannot be acted on by the Senate during the short time that remains to it, although there is talk of an extra session, when this work can be accomplished.

The miscreants who pass this act show an once their desperation and their weakness. The next legislature surely will have power to repeal this trashy bill, which is as cowardly as it is unjust.

☞ A terrible railroad accident occurred on Saturday, between Flamboro' and Dundas, N. Y., by which several persons were killed and a number wounded. The storm, which had raged fearfully there, washed away an embankment, and the engine and two passenger cars were precipitated more than twenty feet into the chasm. The ruin of the train was complete. It was storming fearfully, and the wounded and dying were with difficulty rescued from the ruins. The scene is described as awful in the extreme, fully equaling that at Desjardine's bridge. A list of the dead and wounded, so far as reported, will be found in our telegraphic despatches, which are full of accounts of freshets throughout all the northern and eastern mountainous regions. The water is having a high time of it everywhere, and doing much mischief. More than twenty miles of the Hudson River Railroad are inundated.

☞ In Boston, on Saturday afternoon, says the Atlas, as the performance at the Howard Athenum had terminated, and the audience were leaving the house, a tall, large lady, unusually heavy, fell from the top of the box lobby to the bottom, a distance of fourteen feet, head foremost, striking upon her face and head. She uttered a scream followed by moans, and it was feared the accident might prove of the saddest nature, but such did not prove to be the case. In the panic caused by the fall, a daughter of the lady fell upon the body of her mother, experiencing trifling injury. It was a narrow escape for both parties.

Prince Napoleon is understood to have caught a Tartar in marrying a Sardinian princess. She is not handsome, but is firm as an icicle in December, and snubs her husband with right royal coolness. Some surprise has been expressed that she should be so much of a woman at sixteen; but Italian ladies of that age are full-grown women. To be sure, Tunis is a little to the north, but not so much as Verona; and Shakespeare's Juliet, who makes so fine a figure in love's annals, was but fourteen when she was the cause of such a row as being kicked up among the Veronese. It is climate, not years, that makes age. The Italian ladies do their work in the morning of life.—*Traveler.*

Senator Brown, of Mississippi, in his Cuba speech before the sachems, sages, and rowdies of St. Tammany, declared that his state could stand the evils of war better than England could stand them. The reason, we presume, is that England pays her debts, while Mississippi owes hers, principle and interest. Brown's speech was a scandalous thing, and would have disgraced a beast. It can not injure him. The positions assumed by the resolves passed at the meeting are such as would have shocked even the Forty Thieves. —*Traveler.*

ASSAULT IN MANCHESTER.—The Manchester papers contain an account of an assault upon a Mr. George, by a ruffian who supposed him to be Mr. John B. Fish. Mr. G. received a heavy blow over the head, which almost stunned him, and upon the villain's drawing a revolver Mr. George fled.

EXPOSED IT.—Parley in a Washington letter says:

The accidental defeat of the Postoffice Appropriation Bill by the obstinacy of Senator Toombs is a fortunate rather than a calamitous occurrence, as it shows how that department has been mismanaged, by revealing its indebtedness of six millions of dollars.

BOUND NOT TO CONVICT.—In the Boston Municipal Court Friday, a nuisance case was tried and given to the first jury, who retired to their room and after being in consultation nearly two hours, the Court received a note from the Foreman, stating that one the jury declared he would not convict any man who was defendant in a case like the one before them. The jury were called in, and after reading the note from the Foreman, the Court, among other remarks, stated that he could not well conceive how any juryman could regard the oath he had taken, and make such a declaration as the one referred to. The assistant District Attorney states that there were several similar cases in order for trial today, and he should take occasion this morning to bring the matter to the particular notice of the Court, either by challenging the obstinate juror, or in some other form. The juror referred to is the *same* that refused to agree with his eleven fellow-jurors in the case of David R. *Brown*, tried at the last term. In the case tried Friday, the papers were taken from the jury without their agreeing upon a verdict,—eleven being for conviction and one for acquittal.—*Boston Journal*

SEWING MACHINES.—The Scientific American of New York states the following facts in regard to the manufacture and sale of sewing machines in that city:—

Messrs. Wheeler & Willson have made and sold during the last three months 4700 machines, and are now producing and selling one hundred per day. These vary in price from $50 to $100, and the highest priced ones sell best. In the business of this single house there is over $500,000 invested, and it keeps four hundred men regularly employed manufacturing machines.

THE SOUND BOATS—THE FRESHET ON THE HUDSON.—*Albany, March* 20.—The York boats did not arrive, this morning, until 9 o'clock, on account of the heavy gale on the river. The steamer Oregon brought up the Hudson River Railroad passengers from Rhinebeck. The water was six feet over the dock, but is now receding. Twenty miles or more of the Hudson River Railroad track is under water. It is impossible to tell whether any of it is washed away until the water falls.

No trains will be sent out until the road is well examined.

WASHINGTON, March 18.—At the Cabinet meeting to-day every member expressed his opinion against the extra session, except Mr. Holt.

A new fillibustering expedition against Nicaragua has been organizing for some time, and Gen. Walker's departure for California is directly connected with it.—Gen. Henningsen's emigration scheme, ostensibly for Arizona, is believed to be but a part of this enterprise.

☞ John Healey, of Lawrence, was arrested last week for beating his wife, but was bailed out of jail by some of his friends. Having in a drunken fit again beat his wife, his bondsmen concluded to give him up, and while proceeding with him for that purpose on Thursday, he jumped into the canal and was drowned.

"My gracious" said Ike, "If some fairy would give me some wings, wouldn't I go round among the planets, though? I'd go to Mars, and Venus, and Jupiter, and all the rest of 'em." "And Satan," said Mrs. Partington, breaking in, "and I am afraid you will go there whether you get wings or not."

FEMALE PREACHER.—The Twenty-Eighth Congregational (Parker) Society of Boston have given an invitation to Mrs. Jenkins, the female Universalist preacher, to address them, which has been accepted.

THE EXTRA SESSION OF CONGRESS.—Our associate editor, now in Washington, writes to us that there is no doubt whatever that an extra session will be called by the President in the summer.—*Atlas.*

☞ The Cape Ann Advertiser says that the average catch of fish on Georges this season, will far exceed that of any previous year, and that there are probably more fish in Gloucester at the present time than ever before at any single period.

RECOVERING.—Rev. T. B. Thayer of Boston, whose severe injuries at Lowell last autumn endangered his life, has so far recovered as to be able to walk out. He is expected to resume preaching in May.

BOGUS.—The Wilmington (N. C.) Journal states that a man who professes to be weatherwise, gives it as his opinion that there will be no rain during the whole of May. He says the same thing occurred in the year 1359.

☞ Mr. Gillett is out again in a labored article to prove that the Postal revenue duty should be applied to carrying on the mail service without direct appropriation by Congress.

☞ A little boy of six years, was killed in Boston on Saturday, being run over by an omnibus. He had been hanging on behind a carriage, and fell off just under the omnibus horses, so that the driver could not stop quick enough to save him.

GOLDEN SYRUP

For sale by WILLIAM SIMES.

SPECIAL NOTICES.

HIP DISEASE.—The most that can be expected in this disease is to prolong life, with stiffness or deformity of the hip joint. The PERUVIAN SYRUP will support the strength under the slow and painful ulceration, and will prevent the profuse discharge of matter, which, if opening externally, will almost certainly prove fatal.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY, in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitoromus.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Potsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

R. R. R.

A NEW BODY.- On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 21st., RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Ointment; one small bottle of Ready Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin emitted no more offensive effluvia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the R. R. R. remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "as vastly superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pocker, 20 Elm st; J. Moran, 116 Blacketone st.; M. Davis & Co., 57 Blackstone st.; R. DR. DUPONCO'S

French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J. Duponco is upon each box. You will then obtain a Pill you can rely upon.

MME. BISCACCIANTI'S CONCERT.—Speaking of her last Concert in Boston, the Post says:—"There was a large and enthusiastic audience at the complimentary concert given to this lady on Monday evening, attracted, perhaps, as much by the desire to give a parting compliment to a well-deserved favorite, as to enjoy the sweet sounds that issued from her throat. Mme Biscaccianti was in excellent voice, and being animated by the warmth of her reception and the hearty applause bestowed upon her efforts, she sang with greater brilliancy and *abandon* than since her return. The Romanza from William Tell was given with consummate sweetness and delicacy, the difficult cadenzas which were thrown round the plaintive melody being delivered with a grace and beauty all her own. The Lucia aria was also sung with great feeling and pathos, while the rapid chromatic passages at the close were executed with great facility and smoothness."

☞ At Mrs. Biscaccianti's concert, on Wednesday evening, the Piano Forte used is to be a splendid parlor grand, from the manufactory of Hallet & Cumston, Boston.

[For the Chronicle.]

It will be seen by an advertisement in this morning's paper, that the Original Harmoneons are to give a grand concert at the Temple, on next Friday evening, in aid of the purchase of the Mt. Vernon estate, the performers kindly volunteering their services, and all money which remains over and above the expenses to be appropriated to the above object. This troupe have recently given a number of concerts in this city and vicinity, and were always greeted with full houses, which is sufficient guaranty of their popularity. Their laughter and mirth-provoking puns never fail to bring down the house, and their sentimental songs and choruses are loudly encored. We bespeak for the Harmoneons a crowded house.

LETTER FROM KITTERY.

KITTERY POINT, March, 1859.

Brother Miller:—For the encouragement of the friends of total abstinence from alcoholic liquors as a beverage, I would just say that our friends in this community are beginning to discuss the merits of this great moral question with a good deal of interest. As regards their safety as individuals, and the safety of all, old and young, within their sphere of action and influence. They are bravely resisting the dark waves of the ocean of Rum, and seeking by every consistent method to break the chain of spell-bound influences that are thrown around so many noble minds by this Moral Monster of the present age. A large number have voluntarily given up their names and energies already, and we hope for many more. We believe the spirit of love for humanity to be contagious.

Heaven grant that adjacent towns may catch its pure influence and be actuated by the same resolution to oppose firmly the rum traffic everywhere, and that old Portsmouth might feel its purifying effect. And all good citizens governed by a sense of present and future good for themselves and their posterity, and the good of residents on this side of the water, and to all around, might be led to drown (if possible) all that they may have of the fell Destroyer, in the beautiful river which separates us, and we will heartily join in holding a jubilee at his death. JOSEPH J. SAWYER.

☞ "A Liberal Catholic" in Boston, writes thus to the Boston Journal:

In an article in last Saturday's Journal, in relation to the school troubles, it was thought the Bishop would repudiate the doings of the priest that caused the late troubles. I would inform you that the Bishop has no more authority over this priest than you have, it being a Jesuit Society. Father McElroy is the head man, and you will find that the troubles are caused by Jesuit Catholics.

PANIC IN THE BUTTER MARKET.—Those who may have read our weekly report of the market of wholesale prices of country produce will see that speculations in butter this year are likely to prove as unstable as the article itself in hot climates. One house, holding something like a third of all the stock in the city, has stopped payment, and the news from California shipments looks gloomy in the extreme. The price in the city has fallen two cents a pound, and holders are in a state of suspense with fear of its going still lower. Our country friends will do well to watch the weekly reports upon this, to them, interesting subject.—*N. Y. Tribune.*

☞ Mr. Allison, from Pike's Peak recently, reports that the rumors respecting the finding of gold there in large quantities is a humbug, and advises people to remain at home rather than go there.

☞ A Nebraska correspondent warns Eastern people to accept with caution the statements put forth regarding the extraordinary richness of the mines. He says that although gold is to be found there in paying quantities there can be no reliable information as to its extent or even the amount that can be made, until next season.

NEW HAVEN, March 21.—The trial of the barque Laurens, seized at New London on suspicion of being intended for the slave trade, terminated in this city this forenoon, before the U. S. District Court.—Judge Charles A. Ingersoll decided that the evidence was not sufficient to prove that the barque was a slaver, but that there was probable cause to justify the Collector in making the seizure and arrests.

NEW YORK, March 21.—A pedlar named Bernard McGuffney was arrested last evening on suspicion of being implicated in the murder of Mike Walsh. The police are after another suspected party.

The Herald's Washington correspondent says the President has decided not to call an extra session.

☞ Ex-President Pierce has written a letter from Sorrento, Naples, in which he says:

I cannot speak with any certainty as to the period of our return, but whether it be earlier or later, you may be sure that I shall, under no possible circumstances, consent to the use of my name in a manner calculated to disturb the tranquil pursuits which alone pertain to the life of a private citizen.

House and Land for Sale.
IN SUNCOOK.

The Subscriber offers for sale the Cottage House and Barn, and about one-fourth of an acre of land, in Suncook Village, about one-fourth of a mile from Suncook Factory, on the road leading to Hookset, recently occupied by Tobias T. Rand, Esq., deceased. The house contains six rooms, and has recently been put in firstrate order. The Barn is nearly new, and there is a good well of water on the premises. Being situated near the Suncook Factory and Village, the premises will be convenient for a person designing to keep boarders; or it would be a desirable location for a butcher, there being none in Suncook Village or in Hookset.

The Wheeler & Wilson Mfg Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercise and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

The change made in the tension during the past year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which hems of any width are turned and stitched without any previous basting, evince the care of the Company in incorporating with the machines every device that can tend to perfecting them. They now combine every improvement that has been invented for sewing, and the Company feels confident that, in their present form, they are by far the best ever offered to the public; and refers, for confirmation of this opinion, to the thousands of families and manufacturers who use them.

Several varieties are manufactured, adapted to various purposes. So far as public opinion has been formed and uttered, the preference is emphatically accorded to the Wheeler & Wilson machine for family use, and for manufactures in the same range of purpose and material.

During the present autumn the trials have been numerous, and all the patents of any pretension have been brought fairly into competition. In every case, the Wheeler & Wilson machine has won the highest premium.

We may instance the State Fairs of New York, New Jersey, Pennsylvania, Kentucky, Illinois, Wisconsin, Virginia, Michigan, Indiana, Mississippi, Missouri & California, and the Fairs in Cincinnati, Chicago, St. Louis, Baltimore, Richmond, and San Francisco.

At the Fair of the St Louis Mechanical Association, the Examining Committee was composed of twenty-five Ladies of the highest social standing, who, without a dissenting voice, awarded for the Wheeler & Wilson machine, the highest and only premium, a Silver Pitcher, valued at $75. If these facts do not establish a reputation, we know not what can.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times.

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see the machines of Wheeler & Wilson."—[Examiner.

DEDICATION AT SEABROOK.

Every one who has been in the habit of passing over the old stage road between this place and Newburyport, will remember the old church in Seabrook, with its broken windows and other signs of decay. This church was erected in 1760, one hundred years ago next year. For nearly three-quarters of a century it was used continuously as a place of worship; but for the last twenty-five years it has been unoccupied by any church. A year since a movement was made to remodel the old building, making two stories, fitting the lower for a town-hall, and the upper for a church. The building has been turned round, end to the street, and furnished with a neat steeple. The whole expense has been $2800—$900 of which has been paid by the town for the hall—giving to the society a good church at an expense of $1900.

On Wednesday of this week, the church was dedicated to christian worship. The house was filled with an attentive congregation. The order of the services was as follows:—Invocation by Rev. N. Medbury of this city; Reading of Scriptures by Rev. J. J. Peck of Exeter; Prayer by Rev. Mr. Smith of Seabrook; Sermon by Rev. W. Lamson, D. D. of this city, from Joshua 5:15; "Loose thy shoes from off thy feet, for the place whereon thou standest is holy." Prayer of dedication by Rev. B P. Byram of Amesbury.

We were interested to inquire after a little tree, several feet high, which we had often seen growing out of the eaves of the old church, and were pleased to learn that it had been carefully removed to some garden in the neighborhood, where we hope it will long thrive and grow. We were told that one root of this tree extended nine feet beneath the shingles.

TEMPERANCE AT BOWDOIN.—There has been much interest in the cause of Temperance both in the village and in the College this spring. A Temperance Convention was held here on Washington's Birth-day, and societies of good Templars, and sons of Temperance have been formed. A Temperance Society was organized in College last week, with a pledge to abstain entirely from the use of all intoxicating liquors as a beverage, during the College course. We doubt the policy of pledges generally, but if this will do anything towards stopping college room-sprees, "drunks" they are called, that effect will be very beneficial. Not that we would hold up college as a den of immorality. Far from it. Our estimate of collegians is altogether different. Experience proves that not more than one young man in fifteen contracts during his four years course at college habits, which prove lasting in their injurious effects upon him. This we believe can be said of no other four years course a young man lives. If a son then has any strength of moral principal, send him to college. So far as morals are concerned, it is the safest place for him. We are aware that this is not the common opinion. But take your own quiet city of Portsmouth, and the temptations in it are greater, and the victims that yield to those temptations, among your young men, more numerous than in any college in the land.

The particular incitation for this extra temperance movement was the appearance of an article in the Temperance Journal, stating that there was a regularly organized society at Bowdoin, established for the purpose of reviving the old drinking customs. This article was also copied into the Portland Transcript and other papers. It was manufactured from whole cloth, either by some enemy of the college, or else in the imagination of some "horrible-story"-teller. From such rumors as these the public opinion of college is mainly fo med.

The facts exhibited in the recapitulation of votes for Governor are remarkable features in the last election. But the table furnishes one other quite as noticeable. It will be seen that Gov. Haile's vote last year and Mr. Goodwin's this year varies but seven, and the aggregate not equal to one vote in a county.

In ward 1 of this City in 1858, Mr. Hackett received 300 votes for Representative; and he also received 300 this year for the same office.

It will be found, when the facts are laid open, that the increase of the democratic vote will correspond very nearly with the number of foreigners who have been naturalized the last year, through the influence of that party. In this city, there were fifty or sixty of that class.

THE COUNCIL.—The Councillors for the next year are as follows:

Dist. No. 1, *Reed P. Clark* of Londonderry.
" No. 2, Thomas L. Whitton of Wolfboro'.
" No. 3, John N. Worcester of Hollis.
" No. 4, Robert Elwell of Langdon.
" No. 5, *Cyrus Eastman* of Littleton.

The last named is a Democrat, and takes the place of a Republican.

THE SENATE.—The Senators elected are as follows, those in *italics* being Democrats:

Dist. No. 1, *John S. Bennett* of New Market.
" No. 2, Joseph Blake of Raymond.
" No. 3, John M. Parker of Goffstown.
" No. 4, Joseph A. Gilmore of Concord.
" No. 5, John D. Lyman of Farmington.
" No. 6, *Samuel Emerson* of Moultonboro'.
" No. 7, Hosea Eaton of New Ipswich,
" No. 8, *Walter Harriman* of Warner.
" No. 9, Thomas Fisk of Dublin.
" No. 10, Jesse Slader of Acworth.
" No. 11, George S. Towle of Lebanon.
" No. 12, *John G. Sinclair* of Bethlehem.

Among those who addressed the Republicans of Portsmouth previous to the election, were two very acceptable speakers fresh from Congress.—Hon. CHARLES J. GILMAN of Brunswick, and Hon. M. J. PARROTT from Kansas. The latter presented in a striking manner the corruptions of government, and the injustice of its course against the cause of Freedom in the territory he represented. His services here were duly appreciated. Mr. Gilman is a man of much talent, and a very effective speaker. Maine should be proud of having such an one to represent her at Washington.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. It certificates are equivocal or untruth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty five years. I am now sixty years old; my period was the age of fifty two, but used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly or every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of life in others as well as myself. I am truly yours,

A. C. RAYMOND.
BALTIMORE, Jan. 28, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: DEAR SIR: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan. 11, 1858.

Professor Wood—DEAR SIR: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming thin, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds ½ a pint, and retails for $1; the medium holds at least 20 per cent more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

INVIGORATOR

One dose often repeated is a sure cure for **Cholera Morbus** and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for **Jaundice** removes all the disagreeable symptoms and a radical cure.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures **Chronic Diarrhœa** in the worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

Dwelling House for Sale.

Situated in Kittery, (Fore Side Village) near the Road leading from Portsmouth Bridge to the Navy Yard. Said House is nearly new, 35x26 feet, one and a half stories; containing four rooms and a scullery on the lower floor, and four rooms on the second floor.

The Lot contains 12,400 square feet, with several thriving Fruit Trees; and is pleasantly situated, having a fine view of the Navy Yard, New Castle, the river and Portsmouth; and is within three minutes' walk of the Meeting-House and School-house. It is a pleasant location for a mechanic or for a boarding house.

Terms Cash, and possession given on the delivery of the deed. PIERPONT HANSCOM.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, who are yearly falling victims to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their physician, I would consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by others, he has taken under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing gaze.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 18 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REVIVATING PILLS.

These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—18 Howard street, Boston.

Indian Physician.
Dr. B. S. GOODWIN
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(*Late Agent of U. S. Patent Office, Washington, under the Act of* 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, not necessarily the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unanimis able proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twelve* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, MARCH 23, 1859.

THE U. S. POST OFFICE.

It appears by statements from Washington, March 21, that an official telegraphic dispatch was transmitted that day to New York, to go out in the California steamer, stating there will be no extra session of Congress.

It is stated in reliable quarters with regard to the Post Office service, that the law authorizing contracts will continue to be carried out, embracing the issue of Treasury warrants as usual, which warrants will serve in the hands of contractors as bases of loans.

In reply to a note of George Mattingly, the Postmaster General informs him that Congress has, for the first time since the organization of the government, failed to make provisions for the Post Office Department. He adds—Had all the members of the next Congress been elected, the President might, on the fourth of March, have called an extra session, and the omissions of the late Congress been supplied. But it was impossible to do so without disfranchising 15 of the sovereign States.

This was most unfortunate. There ought to be no time when a full Congress could not be convened, and it is hoped that such a state of affairs may never occur again. Had the bill, which failed, made provision only for the fiscal year commencing July 1st, there would have been obviously no necessity for an extra session. The deficiency on the 30th of June will amount to $4,385,381, nearly $750,000 of this, being an unpaid balance, accumulating on the 31st of December, and the 28th of February, and which can and will be paid by the Department within 60 days from this date.

The payment of the principal part will be made within thirty days. The Postmaster General makes these statements to show that it would be impossible to convene Congress in time to meet the great bulk of responsibility without virtually excluding from Congress the representatives of several sovereign States. In the judgment of the President, the lesser evil was to wait until the first Monday in December, when Congress will be full. Contracts can never be repudiated. After the amounts due shall be ascertained, they become debts which must be paid. On this the contractors if they desire, can borrow money, and the lender could have no better security. Provision should be made for the payment of the interest, which would amount to less than $100,000.

A system of retrenchment, so far as practicable, is now an imperative duty. By the act of 1858, Congress established 695 new post routes, the service of which includes the St. Paul's and Puget's Sound route, established in 1855, but not yet in operation. It has been estimated that these require an annual appropriation of $504,188 over and above the receipts accruing therefrom. Not a dollar has been appropriated for this purpose; as a consequence, though contracts for these routes have been advertised & proposals received they cannot be put in operation till provision shall be made for them by law.

Perley, of the Boston Journal suggests that in the Cabinet, Post Master Holt *solus* wished for an extra session, while the Secretaries of all the other departments, having been pestered with Investigating Committees, and having also got their appropriations, opposed the call.

The president was favorable to the call—but as Congress now stands, he could see that a Republican Speaker would be chosen, and the patronage of the House, with its committees, go the same way for the next two years. So it would not do,—and therefore the Post office must hobble along as best it can.

If the House would only have raised the postage, and taxed the poor man two cents extra for his letters, the calamity might have been averted. But the republicans and the 28 free state democrats in the House would not do it.

The Committee of Conference between the two Houses, *unanimously* recommended to pass the post office *appropriation* without the increase of postage,—and the House did so *without* opposition.

In the Senate, Douglas, Stuart, and the republicans, stood ready to pass it,—but Mr. Toombs and his compeers talked it to death.

A Washington letter says it is reported to be the intention of Mr. Sickles, in case of his acquittal, to leave this country for extensive travel in foreign lands.

This is rich! A murderer telling what he will do if he goes unhung.

DREADFUL DEATH FROM HYDROPHOBIA.—Joseph Wright, of Cincinnati, was bitten by his dog about six weeks ago, but tho's little of the circumstance, supposing the animal to be vicious rather than mad, and nothing occurred to cause alarm until last Wednesday, when he felt a great deal of pain in the arm bitten by the dog. The pain increased and a physician was sent for, who gave him a lotion, but intimated to no one the danger of his patient. The sequel is thus told by the Enquirer of the 15th inst:—"Wright's suffering increased, the pain extending to almost every part of his body, until Sunday morning, when he became raving mad, and his disease was declared to be hydrophobia. He raved at times, and tore his hair and flesh, and foamed at the mouth, and screamed like a demon, presenting a sight terrible to behold. It was necessary to bind him to the bed to prevent him from committing violence upon himself, and often in his exquisite misery, he prayed to be killed at once and relieved of his agony. The sight of water, or the mention of the term, throw him into spasms, and he fell trembling and groanin fearfully upon the floor.—Those who witnessed the poor man's madness, say they never knew before how supremely wretched man may be—it was awful to contemplate, and would have startled and horrified the dullest and most unimpassioned nature. At last death came, in mercy, and touched him with the hand of eternal stillness. Nature was exhausted, and he expired about eleven o'clock night before last."

DESTRUCTIVE LAND SLIDE.—A terrible avalanche occurred at Troy on Thursday evening, involving the almost entire destruction of a splendid building in process of erection, known as St. Peter's College. The college was located upon a large plateau at the foot of Mt. Ida, and was to have been five stories high and two hundred feet in length. Only two stories had been completed, and this was entirely destroyed. It is supposed that the building cannot be re-built upon the same spot.—The accident occurred in the evening; it was not accompanied with loss of life or limb.

The Troy Whig says the hill is now in a very dangerous state, and another avalanche may be apprehended at any moment. The mountain is undermined, and an immense mass of earth has little or no support. The occupants of many houses in the vicinity have moved all their household goods to a place of safety.

CANINE SAGACITY.—We learn from the Worcester Spy that a little son of Samuel H. Colton, who lives on the outskirts of Worcester, was saved from an untimely death on Thursday by the sagacity of a dog. The lad had wandered away to a nook where a deep snow-drift remained, into which he wallowed till he became chilled and unable to extricate himself. The family dog, which was with him, comprehending his situation, started off for a man whom he discovered in the distance, and who was engaged with others in searching for the boy, and by significant motions and gestures led him to the place where the boy was. The lad was so exhausted as hardly to be able to speak, and but for this fortunate discovery must soon have perished, as he was in a place where no one would have thought of looking for him.

TERRIBLE RIOT NEAR BALTIMORE.—On Thursday last, St. Patrick's Day, there was a terrible fight among the Irish employed at the new water-works, about three miles from the city of Baltimore.—At an early hour in the day they commenced imbibing ardent spirits, and towards night there was a general riot, in which about five hundred persons were engaged. Pistols, guns, pickaxes, clubs and shovels were freely used, and it is estimated that as many as one hundred persons were wounded. Several of them received shot wounds from which they cannot recover. The authorities suppressed the affair by the arrest of the ringleaders.

☞ Concerning the recent marriage of the eldest son of the Baron James de Rothschild, it is said that on the day of the marriage, the Baron presented to the bride a small pocket book. On the young lady opening it, she found an *inscription of rente* of 50,000 francs ($10,000.)—"That sum," said the Baron, "is quite independent of the allowance which your husband will give you each year for your toilette and private expenses. This money will serve for your charities, fancies, or any use you choose to make of it."

☞ We are indebted to Mr. Wm. H. Raynes, now of California, for Vallejo papers of a late date.

THE EXTRA SESSION OF CONGRESS.—The Washington correspondent of the New York Commercial Advertiser writing on Thursday evening, says:—

"The Cabinet were still in session when this was written, upon the proposed extra session. Six of the Cabinet were bitterly opposed to the measure, and Mr. Holt alone insisted upon its acceptance.

"The President expressed, last night, the greatest degree of reluctance at the adoption of this measure. He is aware that the Democratic party, and especially the Democratic members of Congress, will complain of it with much bitterness. It not only puts them—the members—to personal inconvenience, but it reserves to the opposition the organization of the House, for the whole of thirty-sixth Congress, and besides that, it is a signal rebuke to the leading Democratic Senators, Mason and Toombs, whose factious course rendered it necessary.

"The President has been strongly advised to attempt to sustain the postal service by a resort to the issue of certificates, bearing interest, and transferable. But he is aware that he would, by such a measure, expose himself to the danger of impeachment, as he also would by employing the money in the Treasury without the authority of law.

"So we shall have the extra session on the 3d Monday in August, for that is the earliest time which the President favors.—It will be hot work, especially in the first ten days of September. But after that time it is generally very pleasant here."

RAILROAD ACCIDENT.—*Hamilton, C. W, March* 21.—Six persons were killed by the disaster on the Great Western Railway, near Dundas, on Friday night. Several others were injured, but it is thought they will recover. The break will probably be repaired by tomorrow, so that regular trains can be run as usual.

The disaster was caused by a freshet and land slide,—and the train in the darkness of a stormy night, ran into a chasm 20 feet deep.

FIGHT WITH RUNAWAY NEGROES.—Two fugitives slaves were captured in Indiana, some fifty miles from Louisville, last week, and brought to the jail of that city. They escaped from a South Carolina planter some months since. They made a desperate resistance before they were secured, shooting one of the pursuers and wounding him so badly that he will hardly recover. One of the negroes was shot in the shoulder, and otherwise injured by blows.

A HORSE KILLED.—Mr. Wiggin of Greenland came to Exeter last week on Monday, and hitched his horse fast to a post, before the county building in Front street, while he went in to transact some business. In the mean time, the horse became frightened, and kicked till one of the shafts of the sleigh broke, and the end being pointed was in some way forced into the flesh on the inside of the thigh of the hind leg. An artery was ruptured and the horse soon bled to death. The horse was a fine animal, valued at $150, and belonged to Mrs. Berry of Greenland. Mr. Wiggin had the horse for the purpose of training and making sale of it.—*News-Letter.*

☞ Since the beginning of the present month, Mr. Thomas Vance of Lyndon, Me., has buried six children. The disease which thus swept away nearly a whole family, was typhoid fever of a very malignant type.

☞ Miss Margaret E. McDonald died in Hardy county, Va., on the 9th inst., being the tenth member of her family—including her parents—who have died in the last five months. Only one sister now remains, out of a family of eleven.

☞ Albany is flooded with bogus three cent pieces. They have no milled edge—the stars surrounding the letter C are very indistinctly cut—the bunch of rods tied together in the lower bow and the leaves in the upper bow of the C are wanting.—On the reverse side the star is very badly executed.

☞ Rev. H. W. Beecher's new church is to be built upon the most conspicuous part of Brooklyn Heights. It is to be solidly built, without expensive architectural display, and of a size sufficient to accommodate six thousand persons. It will be completed in about a year.

☞ We are indebted to the Hon. J. Pike for public documents, in three volumes. The report of the Secretary of War fills two of them. The thirty pages, devoted to the Dromedary, its treatment and its use in war and commerce, drawn up by Hekekyan Bey of Cairo, Egypt, constitute an interesting portion of the report.

☞ New Mexico, it is clearly proved, has as complete a slave code as can be found in any one of the old slaveholding States. Even emancipation is prohibited by it. So much for those immutable, irreversible laws that were to keep slavery out of New Mexico.

VERMONT.—The 8th of April has been appointed for Fast Day.

FRESHET.—We learn by a gentleman from Hampton Falls, that the freshet on Tuesday last, has done serious damage in that vicinity. At "Dodge's mills," in Hampton Falls, the stream rose so high and rapidly as to carry away both the upper and lower Mill Dam. On the lower dam is a Sawmill, whose foundation was washed away, leaving the mill standing nearly upon one end.

At "Coffin's Mill," Hampton, about two-thirds of a large and heavily constructed dam some 70 feet in length, and 9 feet high, was crushed by the ice and swept off. The ice is said to have been 4 feet thick, and rushed down the stream with such tremendous fury as to carry all before it.

The roads in some sections are badly washed and require immediate repair to render them safe and passable.—*News Letter.*

☞ Some sharpers in St Louis have been doing a flourishing business by advertising for members to join a "hand cart train" to Pike's Peak, charging an entrance fee of $50—which answered all the purpose of initiating their dupes into the nature of their rascality, but did not serve to advance them one step towards the land of promise.

☞ In New Haven, a few nights since, a young man, while watching with a sick man, improved a few moments to lie down upon another bed in the same room, and taking a cigar in his mouth decided to enjoy that also; but falling asleep, he was sometime after aroused by fire, and found the bed all in flames and the room filled with smoke almost to suffocation.

LEAVING THE GOATS AND WOLVES.—Gen. Sam. Houston was at Harrisburg, Pa., a few days since, and while conversing with a number of friends in regard to his past and future, he remarked that having been for some time among 'the goats and wolves' at Washington, he intended spending the remainder of his life in peace among the sheep on his ranche in Texas.

☞ The law which passed the Missouri House of Representatives, for the enslavement of negroes, was defeated in the Senate by parliamentary tactics, although there was a majority for it, if it could have been brought to a direct vote.

☞ The Washington Union rebukes Senator Brown for saying at the Tammany meeing, "we want the Island of Cuba for the purpose of extending slavery," and declares that "his ardor has got the better of his judgment."

☞ "Tam," of Neal's Gazette, Philadelphia, sings as follows:

Who stings a heart,
The sting
Shall bring
To him a smart.
Ye who in Heaven
Would live,
Forgive,
To be forgiven.

SPECIAL NOTICES.

HIP DISEASE.—The most that can be expected in this disease is to prolong life, with stiffness or deformity of the hip joint. The PERUVIAN SYRUP will support the strength under the slow and painful ulceration, and will prevent the profuse discharge of matter, which, if opening externally, will almost certainly prove fatal.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY, in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Potsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

A NEW BODY.—On the 21st of July, J. D. H., aged 31, was covered from head to foot with sores, and so offensive was the stench that emanated from his disease-eaten body, that perfumed waters were kept constantly burning in his chamber. On the 21st, RADWAY'S RENOVATING RESOLVENT was given him six times per day, his body was washed with water and R. R. Relief; one small bottle of Resolvent Relief to a bathing-tub of water. Two of RADWAY'S REGULATORS were given him per night. On the 25th, four days later, he was greatly changed for the better. His skin emitted no more offensive effevia, and the sores were fast healing up. On the 1st of August not a blemish or sore was upon his body—in fact, to use his own words, he was a "new made man, with a new body and clear skin." It is the rapidity with which the **R. R. R.** remedies act that insures their success; the moment they are taken or applied, pain is stopped and disease checked

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Consumption, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, also in all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at twenty-five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and confectioners throughout the country. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st; J. Moran, 116 Blackstone st; M. Davis & Co., 97 Blackstone st.; R. DR. DUPONCO'S

French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Prendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city of country, on receipt of $1 through the Post Office.

☞ N B.—Ladies will be particular in asking for "Dr. Duponco's Golden Pills." Observe the signature J. Duponco is upon each box. You will then obtain a Pill you can rely upon.

LOCAL.

School District Meetings.—Meetings for the choice of School Committees will be held at the usual places in the several Districts as follows:

No. 1, On Monday evening, March 28, at 7½ o'clock.

No. 2, This (Wednesday) afternoon, at 3 o'clock.

No. 3, On Friday evening, March 25, at 7 o'clock.

☞ If the Temple is not filled to-night, we presume nobody will think it is for lack of a thousand persons in this city who would be delighted with the musical attractions there offered—neither can it be on account of the inability of finding that number who can well afford to pay the price asked for admittance—but it must be simply because the tickets are put a little higher than we are accustomed to now-a-days. Thirty or forty years ago, the admission to any sort of an entertainment, was 50 cents to $1; since which time, the price has been running down—and, as a necessity, the *worth* of the exhibitions has run down to suit.

Many folks deem a quarter too much to pay for a concert, and plead poverty—but any sort of a circus will gather from 3000 to 6000 spectators here at that price. Many a man with a musical taste will say he is sorry he can't afford to attend such an entertainment as this—and yet each season will spend for filthy tobacco, with which to defile himself and all about him, or for ale which at least is entirely useless, a sum sufficient to pay for tickets for his family.

As to the concert—the talent of the performers is beyond cavil, and the programme has been circulated and seen by our citizens. The performance will be all that is promised, and all that can be asked, of their character. The instrument to be used is a rich-toned and powerful Parlor Grand Piano, from Mr. Cobb's music store, of the manufacture of Hallet & Cumston, Boston. This part of the entertainment will repay all who appreciate piano playing.

While we are having such concerts here as this and Miss May's last week—we hope that all those who "*do* wish we could have some sort of entertainments here worth attending," will improve these opportunities.

☞ The new ship Shooting Star was towed to sea from this port, Tuesday morning, by tow-boat Wm. H. Webb of New York—which will leave her at New Bedford—the ship being bound to New York. The Shooting Star is about one thousand tons burthen, and is one of the neatest ships ever launched from the Raynes yard—and to be worthy to muster in that fleet, is merit enough.

☞ A writer in the Newburyport Herald says of Madame Biscaccianti's Concert:—I waited with some impatience to have the *basso* finish the opening piece—(though I must confess that he is a fine singer,) that I might hear Signora Biscaccianti. She came, a few lines were sung and criticism fled. Now her voice swells forth in lofty cadence, and now it descends to the most flowing melody. There is no affectation, there is no humbug. It is the genuine voice of "sweet song," with the highest of artistic excellence, with the deepest of feeling.

The lovers of Music present, enjoyed the vocal performances of *the* Biscaccianti, the excellent violincello accompaniment of Signor B., and the *basso profundo* of Mr. Dennett.

The editor of the Herald says,—We can only add to the above that we never had a Concert in Newburyport which in all respects wasso satisfactory as that of Signora Biscaccianti.

Washington, March 21.—The State Department has received dispatches from Mr. Churchill, direct from Vera Cruz. He says the Juarez government is gaining strength and stability every day, and suggests the propriety of its recognition.

The Postmaster General has dismissed 31 Special Post Office Agents, thus effecting a saving of $36,000.

☞ The Methodists of Delaware have refused the aid which the legislature had granted them of $4000, towards the building of a church, because the money was to be raised by lottery.

"F." would like to ask them if they would refuse a contribution from any *other* sort of chance-men—speculators, traders on credit, &c.?

☞ Christy's Minstrels who are singing in Paris, have been the subject of many a quiz, one of which is that they are the exiled cabinet of the fallen Emperor of Hayti, Soulouque.

☞ A Philadelphia court has decided that a false entry by a clerk in the books of a firm, is forgery at common law, and must be punished as such.

MARRIED.

Interesting to Gentlemen.—One of the most extensive, as well as best selected stock of fabrics for gentlemen's dress goods that we have seen this season, is opened this week by H. E. Armington, at 52 School street. Mr. Armington has gained quite a reputation for the taste, elegance and finish which characterizes all garments made at his establishment; and the innumerable styles from the most celebrated European manufactories, imported by his special order this season, (with trimmings to match,) affords an opportunity for the gratification of almost any taste. An adherence to the cash system enables Mr. Armington to make and sell these goods at quite a low figure.

His stock of goods now opened are an endorsement to his reputation for taste and enterprize, and really worthy the inspection of gentlemen.—*Boston Commercial Bulletin.*

Manchester, N. H., March 21.—The rains and thaw produced a freshet on the Merrimac. Some of the mills are stopped from back water, and the remains of the Hooksett highway bridge came down. It was new, having been rebuilt last spring.

The river yesterday morning was very high, and hundreds of people were at the Amoskeag bridge to see it. The ice was fully broken up above. To-day the river has fallen some three feet.

☞ Col. Forney says:—

"It becomes the good men of the Democratic party, outraged and insulted by the recent administration convention at Harrisburg, to take immediate steps to resist and rebuke that act of insolence and oppression. And we have no doubt that this will be speedily done."

Rev. Thomas Whittemore tells a story of his having attended church recently to hear an eminent divine, and the subject of the morning's discourse was—"Ye are children of the devil." He attended the same church in the afternoon, when the text was—"Children, obey your parents."

☞ The Davenport (Iowa) News says that "Old Brown" and his eleven followers from Missouri are at Springdale, in that State. They are out of funds, and the railroad company will not give them a free pass.

New York Registry Law.—The New York State Assembly has passed a Registry Law, all the Democrats voting against it, and every "Republican" voting in favor of it. An Albany letter writer states that the Senate will also pass it, and the Governor sign it.—*Newark Journal.*

Supposed Slaver Captured.—A letter of the Postmaster of Apalachicola to the Albany Patriot, says the barque E. A. Rawlins, taken by the steamer Vixen, on the 5th inst., in St. Joseph's Bay, had slaver equipments on board, but no papers.

The Cuban Telegraph.—Eighty miles of the Cuban telegraph are completed.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M.Beck.

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,
PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mfg Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these Sewing Machines for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercises and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as Woman's Friend.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

"We prefer the Wheeler & Wilson Sewing Machine for family use."—[N. Y. Tribune.

"Wheeler & Wilson's Sewing Machines are the favorites for families."—[N. Y. Times.

"The Wheeler & Wilson Machine has secured and justly maintains the pre-eminence for sewing every kind of material."—[N. Y. Express.

"There is not an invention of this inventive age that honors American genius more than the Sewing Machine. No family ought to be without its benefits."—[Independent.

"A Sewing Machine is among the most useful and economical articles a housekeeper can purchase. In looking out for the best, see the machines of Wheeler & Wilson."—[Examiner.

Health and Strength secured by the use of
THE SPRING AND SUMMER MEDICINE,
Dr. Langley's Root & Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all of which are so compounded as to act in concert, and assist Nature in eradicating disease. The effect of this medicine is most wonderful—it acts directly upon the bowels and blood, by removing all obstructions from the internal organs, stimulating them into healthy action, renovating the fountains of life, purifying the blood, cleansing it from all humors, and causing it to course anew through every part of the body; restoring the invalid to health and usefulness. They cure and eradicate from the system, Liver Complaint, that main-wheel of so many diseases; Jaundice in its worst forms, all Bilious diseases and Foul Stomach, Dyspepsia, Costiveness, all kinds of Humors, Indigestion, Headache, Dizziness, Piles, Heartburn, Weakness, Pains in the Side and Bowels, Flatulency, Loss of Appetite, and in fact pid or diseased Liver, a disordered Stomach, or bad Blood, to which all are more or less subject in Spring and Summer.

More than 1,000,000 persons have been cured by this medicine. It is highly recommended by Physicians everywhere. Try it, and you will never regret it.

Only 25 cts. for a pint, and 38 cts. for a large bottle. Sold by Dealers in Medicine everywhere.

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, **10 Barrels good Coal,** 1 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2220 lbs, worth about $8.

The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

Thousands have been sold and give perfect satisfaction. Try one.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis, (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guaranteed truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, ME., Jan. 20, 1856.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I now can certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy; as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours,

BALTIMORE, Jan. 28, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, and in a simple place, a healthy flow of bile, invigorating the stomach, and causing the feet well, **purifying the blood,** giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and cures **costiveness.**

One dose taken after each meal will cure **dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD Proprietor. 345 Broadway, N. Y.

Sold by TRUSCHIN, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

One dose often repeated is a sure cure for **Cholera Morbus,** and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for **Jaundice** removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures **Chronic Diarrhœa** in its worst form, while **Summer and Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing inquiries.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, the manly constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REMOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practised by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston

FRENCH STEAM SCOURING
—AND—
FANCY DYEING, IN BOSTON.
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Refinishing, in a NEW and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public—he is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet, or Wool, plain or embroidered, without removing the trimmings, or taking to pieces. Spots taken out without fading or changing color.

Indian Physician.
Dr. B. S. GOODWIN
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN:
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhea, Cholera Morbus, Cancers, Dropsy, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions.—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and succesful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such uniformable success of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on *twelve* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

E. GREEN & CO.,
Take the pleasure of retaining their sincere thanks to their patrons and the public generally, for past patronage, and hope for a continuance and increase of favor in future. Now as it is a well established fact how cheap we have let clothing slide during the past month, the public will be satisfied that it is no humbug, if we hold out still greater inducement in offering Clothing without regard to cost. Therefore, for your advantage we call your attention.
Come to see us soon, while the Stock is large; we assure you that if you are a judge of Goods, you'll not leave our place without buying, on account of the quality and price. This inducement, corresponding well with the present season, we expect this enlightened community will give us as great a rush for Gent's Wearing Apparel, as last month.

THURSDAY, MARCH 24, 1859.

MAJOR BUTLER'S STOCK.

Our readers may already be aware that the largest sale of human chattels that has been made in the United States for several years, took place on Wednesday and Thursday, the 2d and 3d inst., at the race course, near the city of Savannah, Georgia. The lot consisted of four hundred and thirty-six men, women and children, being half of the negro stock remaining on the old Major Butler plantations in Georgia and on St. Simon's island. Major Butler's estate, which at his death was valued at over a million dollars, descended to two sons, John A. Butler, some time since deceased, and Mr. Pierce M. Butler, a resident of Philadelphia, and the husband of Fanny Kemble. Losses in the grand crash of 1857-8, and the necessity of realizing funds to pay accruing debts, compelled the sale of Mr. Butler's property in the South; and the negroes on the plantations were divided, and Mr. Butler's portion were accordingly brought to the hammer, as above stated.

The negroes were brought to Savannah several days before the sale, and remained at the race course stable, for the inspection of customers. They were sold "by families," a man and his wife and children being called a family. The anxiety of the negroes to secure what they considered good purchasers, and their painful earnestness to keep their families together by being bought by one party, led to many sad and sorrowful scenes.

It may be well on this occasion to recollect that Mr. Pierce Butler parted with Fanny his wife, because she, being a strong minded and able-bodied English woman, did have opinions of her own about slavery, and would express them. Mr. Butler assured her, and some friend of his assured the world, that none of the Butler negroes had ever been sold, and it did not then appear likely they ever would be; they lived together as happily as any working people could.

It was a South Side View of the Institution, and had in it much of truth—but alas, South Side though it was, it turned out to be chattel slavery.

Mr. Butler, the white man got into debt, and the black Butlers, by scores and hundreds, are brought to the block and sold by auction like cattle in the market. No, no, says somebody, not like cattle—they are sold in families! Yes, so they are, but is the purchaser sure to keep them so? Not quite. He may choose to separate them, —and if so they are driven away to order. He may, like Mr. Butler, get in debt, and then the Sheriff sells them in lots to suit purchasers. Slavery is slavery,—and "disguise thee as we will still thou art a bitter draught."

PROGRESS OF DISSENT.—We see it stated in the Boston Transcript that twelve students of Andover were recently licensed to preach by the Salem Association, but on account of their peculiar views of the character of Adam before his fall, and of inherited depravity, to the licenses of seven of them there were attached notes setting forth their unsoundness on these points.—The seven refused to accept the licenses with the appendage, and applied to the Essex South Association, by whom they were licensed without any obnoxious reservation.

A young gentleman was recently called to be pastor of a Baptist Church in East Boston. The Council, after protracted and repeated examinations of the candidate, *voted* that his christian experience and doctrinal views were satisfactory, but they refused by a majority of votes to ordain him, because he did not consider baptism a pre-requisite to communion, in which, say the Council, he differs, not only from the Baptists, but from "all the evangelical churches."

SCHOOLS IN TURKEY.—The Sultan of Turkey has taken an important step forward in ordering the reorganization of the schools, so that girls shall learn reading, writing, arithmetic, geography and history. He has also provided for systematic graded schools to carry general education to a higher point than has been before attempted in Turkey.

☞ The Secretary of the Navy has sent out official orders to every Navy Yard in the United States, directing the commandants to obtain from the officers, overseers and bosses of each department the lowest possible estimate of the money required to carry on the indispensable business under their surveillance.

DUBIOUS PROSPECTS FOR GOLD SEEKERS.—The road to Pike's Peak is "a hard road to travel" to those who started too early. The emigration is pretty much stuck in the mud at different points in Kansas and Iowa, where it must wait till the freshets are over and the roads are settled. Latest accounts say that Platte river is rushing down in a flood full nine miles wide at its mouth, and hundreds of emigrants are encamped on its banks, waiting for a chance to cross. Fort Kearney is surrounded by water, and the Missouri is higher than ever before known at this season.

☞ The wife of Mr. Samuel Hyde, a workman in the Hamilton Mills at Lowell, while visiting her husband in the mill, on Monday afternoon, got her clothing entangled in a revolving shaft, about eighteen inches from the floor, by which she was carried round with fearful velocity, and so horribly mangled that she died in a few minutes. An infant child, which she held in her arms when she was caught by the shaft, escaped with but slight injury.

A PRIZE-FIGHTER KILLED.—The Milwaukie papers state that a man named Dennis Horrigan was killed in that city a few days since. He is probably a prize-fighter who contended with one Scotty for the championship of light-weight in Detroit last fall. He was beaten in a row until his head was smashed in, from which he subsequently died. Two men have been held to answer for killing him.

THREE MEN SAVED FROM GOING OVER NIAGARA.—Three residents of Chippewa, C. W., were crossing Niagara river in a sail-boat, last Saturday, just above the rapids, when a high wind caused the boat to capsize. A Niagara boatman, named Sullivan, immediately went to the rescue of the men, who were drifting towards the rapids. He contrived to get two of the men into his boat; the third was towed behind, and made for the shore, which he touched at a point quite low down, barely escaping the swift current next the American shore. The boat in which the men had been, went over the Falls.

INCENDIARY FIRES.—The Boston Traveler states that in East Haverhill, N. H., on the night of the 19th inst., the Saw Mill of Mr. Joseph Powers was destroyed by fire. Loss about $1000. Supposed to be the work of an incendiary. On the same night the house of Mr. Charles Phœnix of Haverhill, was entirely destroyed by fire, the inmates barely escaping with their lives. This fire is also ascribed to an incendiary. Loss $200. No insurance.

☞ A while ago Archbishop Hughes of New York suspended the priest of St. John's Church in that city, it is said, for intemperate language used in a sermon, and last Sabbath the church was closed. The priest, however, harangued his congregation outside the church, saying he would build a church before long at his own expense, and invited his congregation to help in sustaining the purity and independence of the pulpit.

PERSONAL.—The *Propagateur Catholique*, a Southern Catholic journal, learns from persons worthy of confidence, that Gen. Walker, recently converted to the Catholic Church, has determined to enter a religious order and become a Catholic priest.

☞ Thurston, the unfortunate æronaut, once told a friend that he never feared anything when on his balloon excursions, except when abreast of a forest; that then the forked trees seemed all to be rushing towards him, having a tendency to confuse and bewilder him.

☞ A fire recently destroyed Duxbury Hall, at Chorley, Lancashire, Eng., the ancient and stately residence, for centuries, of the Standish family, and which had a connection with the history of the famous Puritan, Captain Miles Standish. According to Miles, he was the rightful heir to the Standish "lands and livings surreptitiously detained from him."

☞ On the authority of the London Churchman, it is stated that in 1857 ten thousand persons were confirmed by the Bishop of London, and in the year 1858, the same prelate confirmed nearly fourteen thousand.

☞ The New Orleans Picayune states that Mr. Laurent Millaudon has sold his plantation on the right side of the river, a little above Jefferson City, for one million dollars. It contains several thousand acres of land, and is worked by four hundred and forty-eight hands.

☞ An old ship, built 66 years ago, i. e., in '93, is about to be broken up at New Bedford.

GOLDEN WEDDING.—On the 14th of February, Capt. Freeborn Stearns and his wife, of Rindge, N. H., celebrated the fiftieth anniversary of their marriage. All of their children now living, eight in number, grandchildren, and other relatives, about forty in the whole, assembled at the homestead, where all their fourteen children, except one, were born, and had a very pleasant festival. It may not be amiss to add, as a fact not often occurring in family history, that the parents of Mr. Stearns lived together as husband and wife seventy years.

☞ The Independent says that the family of the venerable Lyman Beecher are holding a reunion this week at the house of Rev. H. W. Beecher, in Brooklyn. All the children are present except James, who is now in China, engaged as chaplain to the seamen at Hong Kong. Their names, in the order of their ages, are as follows:

Miss Catherine Beecher of Hartford; the Rev. William Henry Beecher of North Brookfield, Mass.; the Rev Dr. Edward Beecher of Galesburg, Ill.; Mrs. Mary P. Perkins of Hartford, Conn.; Mrs. Harriet Beecher Stowe of Andover, Mass.; the Rev. Henry Ward Beecher of Brooklyn; the Rev. Charles Beecher of Georgetown, Mass.; Mrs. Isabella Hooker of Hartford, Conn.; the Rev. Thomas K. Beecher of Elmira, N. Y. The absent son, the Rev. James C. Beecher, is the youngest of the children. The father of this goodly progeny, the Rev. Dr. Beecher, is now in his 84th year.

PHILOLOGICAL ANECDOTE.—The College Record, a print published by the students of Western Reserve College, tells this good story, illustrating the comparative flexibility of the Latin and English languages:

"You will observe from the word," continued the Professor, "the great flexibility of the Latin language. 'Pater' is a father, and here we have 'Patrons,' an uncle on the father's side, and 'Propatrons' means a great uncle on the father's side. Can you make any such change in our language? Pater, Patrons, Propatrons—father—is there any way you can change father into uncle in English?"

"I don't think of any," replied the hopeful young philologist, "unless you can get him to marry your aunt."

☞ A negro family occupy a house in Meriden, Conn.; the old man, named Robin Prim, has been for some time sick, and the town authorities have employed another negro, also old, to take care of him. On last Sunday, a son of Mr. Prim went to visit his father, carrying with him two quarts of liquor, on which the whole party became drunk; the son and the old nurse quarrelled, and the latter killed the young man by stabbing him with a butcher knife.

THE DIFFERENCE.—*Protestantism vs. Catholicism.*—Ireland has 74 towns, containing from 2400 to 12000 inhabitants, without a bookstore, and six counties without a bookseller or circulating library. Scotland, with but one-third of the population, has three times the number of booksellers; the proportion being as 9 to 1.

☞ Major Butler Goodrich, of Pittsfield, Mass., aged 92 years, a gentleman remarkably active for a person so advanced, attended the annual meeting on Monday, and voted for town officers. He remarked, reports the Sun, that this was the *seventy-first* time he had voted for town officers! Probably such an incident has never before been witnessed in the Commonwealth.

☞ It is said that the Governor of Missouri has commuted the sentence of the young barbers who murdered and robbed Hugh Downey in St. Louis, while he was in their shop for the purpose of being shaved, from hanging to imprisonment for life.

☞ Ellis Waldrup and wife, living near the town of Cumming, Ga., left their house a few nights since to visit a sick neighbor, and while they were gone their dwelling took fire, and their four children, who were asleep in the building, perished in the flames.

☞ The government emigration ship Herald, 1195 tons, sailed from Plymouth, on the 22d ult. for Melbourne, Victoria, with 59 married couples, 4 single men, 262 single women, 33 children between the ages of 1 and 12, and 8 infants.

SALE OF ANTIOCH COLLEGE.—The U. S. Court at Cincinnati has ordered a sale of the property of Antioch College, at Yellow Springs, Ohio, to satisfy mortgages held by the Connecticut Mutual Life Insurance Company, and Moses H. Grinnell of New York.

A BATCH OF DOCTORS.—At the Commencement of the Jefferson Medical College in Philadelphia, Wednesday, 256 young men received the degree of Doctor of Medicine. This is the largest class, with a single exception, which has ever graduated from Jefferson College.

BE CAREFUL OF YOUR MONEY.

When life is full of health and glee,
Work, work, as busy as a bee!
And take this gentle hint from me—
Be careful of your money!
You'll find it true that friends are few
When you are short of money!

The single grain cast in the mould
May spring and give a hundred fold,
More precious than its weight in gold!
Be careful of your money!
The grain you sow, to stacks may grow!
Be careful of your money!

But do not shut sweet mercy's doors
When sorrow pleads or want implores;
To help to heal misfortune's sores,
Be careful of your money!
To help the poor who seek your door,
Be careful of your money!

Would you escape the beggar's lot,
The death-bed of the tippling sot,
And live in sweet contentment's cot?
Be careful of your money!
And if you need a friend indeed,
Be careful of your money!

A CLERGYMAN AIDING THE POLICE.—Last night two of the guardians of the early night, whose beats are close to the line of a neighboring city, picked up a man who was in a crazy state of intoxication, and very riotous withal, and were on the way to the Station House with their kicking, biting and bellowing burden, when they were encountered by a worthy clergyman who was persevoring homewards, in the face of the rain and wind storm which raged so fearfully at the time. Just as the parties came along side each other, the drunken man released himself from his captors by an extra jerk; and after floundering for a moment or two in the gutter, he started up and showed fight. One of the police rapped the fellow's knuckles with his staff, which argument raised the sympathy of the clergyman, who begged that the victim of intoxication should be spared such torture, and insinuated that his captors were exceeding their duty in thus striking him "We don't want your advice," said one of the officers; "we want your assistance; and if you desire to see the man taken to the Station House in safety, take hold and help us carry him there."

The good Samaritan instantly agreed, and securing his umbrella under his arm, he seized the inebriate by his legs, the while the officers carried him by the arms, and in this manner he was borne a few paces. All at once Patrick drew his knees and chin together and gave himself a jerk, poking the heels of one of his cowhides into the dexter cheek of the benevolent clergyman, his temporary friend, at the same time accomplishing an extempore feat of dentistry which robbed his reverence of a cherished molar, and landing him, umbrella and all, in the muddiest portion of the street. Spitting out his vagrant tooth, and cured for the nonce of everything like charitableness, the clergyman ran at the drunken offender with his umbrella, shouting—"Knock the fellow down! knock him down! he has broken my jaw! down with him!" The police in turn had to defend Pat against his irate friend, who left for home, carrying with him the sage advice that it is best at all times to leave the performance of public duty to those who are best accustomed to it."—*Bost. Sat. Eve. Gaz.*

☞ The Pittsburg Journal notices the departure of quite a number of young ladies from that city, en route for Pike's Peak. They have little idea of the hardships they may have to undergo during such a journey.

MORE SLAVES LANDED AT THE SOUTH.—*Augusta, Geo., March* 22.—It is rumored here that the barque Rawlins landed 600 Africans on the coast of Florida. She cleared from Savanah on the 15th of December with a cargo of rice, ostensibly for Havana.

SPECIAL NOTICES.

HIP DISEASE.—The most that can be expected in this disease is to prolong life, with stiffness or deformity of the hip joint. The PERUVIAN SYRUP will support the strength under the slow and painful ulceration, and will prevent the profuse discharge of matter, which, if opening externally, will almost certainly prove fatal.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontirumenos.

AN ENEMY CONQUERED.—John B. Jones, of Seekonk, Mass., was cured of Consumption, after three years' standing, by using Dr. Clarke's Potent Cherry Syrup. There was no mistake about this case—it was a great victory. Every hour in the day Mathes & Varrell, Portsmouth, supply the invalid with the same article.

THE LION HAS ROARED FOR THE LAST TIME.—J. H. Thacher and B. Hutchings, Potsmouth, have just received a gross of Dr. Clarke's Potent Cherry Syrup, which has never failed of curing all Throat and Lung Diseases as yet. Consumption can no longer claim its prey.

☞ Reader, do you want THE picture of the day? If so, have one of Gregory's Photographs in Oil Colors, which he is selling at about half the Boston and New York prices.

POISONOUS INNOCULATION.—Persons who, by accident or otherwise, become innoculated with any malignant disorder, will find the **R. R. R.** Remedies prompt, quick and efficient. Persons who have suffered from Chronic Scrofula, Syphilis, or the effects of Mercurial treatment, are informed that RADWAY'S RENOVATING RESOLVENT will quickly free the body from corrupt humors, whether the same be generated within the system from neglect or ill-treatment, or innoculated through indiscretion or accident.—We have hundreds in this city, trifling away their time, and suffering the most severe tortures for years, been suddenly restored to health by R. R. R. Remedies. In all cases of recent disease—that is, under one year—Radway's Renovating Resolvent will remove all painful difficulties and obstructions in two or three days. It will, in all Chronic Cases of long standing, prove its potent efficacy within six days. In taking R. R. Resolvent, every patient should take one of Radway's Regulators at night, to keep the Bowels, Liver and Kidneys regular.

For Acute Pains, either Rheumatic, Nervous or Neuralgic, R. R. RELIEF will stop the most severe paroxysms in a few minutes.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

BEAUTIFUL LADIES.

Many ladies are suffering a disfigurement of their beauty arising from eruptions or pimples upon the skin. They have about three thousand perspiratory tubes to every square inch of the skin, which, becoming diseased, prevents them from discharging their contents—thus causing the various pimples and eruptions. These can be easily removed by an application of GARDNER'S PARISIAN PIMPLE DESTROYER, which has been used by thousands, and is considered as an infallible cure. This is a celebrated French compound, extensively used by the ladies of Paris, and is all cases previous to attending operas and parties.

The original recipe has been purchased by the present proprietors, and is guaranteed to the ladies of America to be the original "Parisian Pimple Destroyer." It also removes in a few hours Ring Worms, Barber's Itch, Boils, Bites and Stings, and all eruptions upon the Skin. For sale by Druggists and Fancy Goods Dealers.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, Distilled in London, rom sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., which the weakest sex will find the adoption a sure relief from the distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at twenty five cents, and in pints thirty eight cents, by all druggists, grocers, fruiterers and country merchants Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Focker, 216 Elm st; J. Wheeler, 136 Blackstone st.; M. DR. DUPONCO'S French Periodical Golden Pills,

FOR FEMALES;

Infallible in Removing Stoppages or Irregularity of the Menses.

THESE Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the relief of those suffering from any irregularities whatever, as well as to prevent pregnancy in those ladies whose health will not permit an increase of family. Pregnant females, or those supposing themselves so, are cautioned against using these Pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health; otherwise these Pills are recommended. Full and explicit directions accompany each box.

Price $1. Sold in Portsmouth by Joseph H. Thacher, in Dover by Chas A. Tufts, in Exeter by C. A. Merrill, and in Newmarket by J. A. Tendergast. They will supply dealers at the Proprietor's prices, and also send the Pills to the Ladies (confidentially) by mail to any part of the city or country, on receipt of $1 through the Post Office.

N B.—Ladies will be particular in asking for 'Dr. Duponco's Golden Pills." Observe the signature J Duponco is upon each box. You will then obtain a Pill you can rely upon.

POLICE COURT.

On Monday, March 21, Michael Buckley was brought before this Court on complaint of one Neal for a brutal assault on the latter. It appeared in the evidence that Neal bought half a pint of gin for five cents, of Patrick Hennessy, which he drank just before the fight. The counsel for the defence argued, as it was not proved the respondent was intoxicated, that the complainant was "in a fighting condition;" and while the testimony for the prosecution and defence was about equally balanced, the defendant was entitled to an acquittal. The Court, however, thought otherwise, and ordered the respondent (Buckley) to pay a fine of $7 and costs.

SCHOOL DISTRICT No. 2.—The following gentlemen were elected on Wednesday afternoon as the School Committee for District No. 2, the ensuing year:—Robert O. Treadwell, Lyman D. Spaulding, I. Bartlett Chagget, Adoniram J. Patterson, Joseph M. Edmonds, Nathan F. Mathes, Andrew Sherburne.

☞ Mad Biscaccianti's Concert, at the Temple, Wednesday evening, was a superlatively excellent entertainment—and was so liberally patronized and so enthusiastically received, that the exquisite cantatrice has acceded to the universal desire of her auditors to hear her again,—and will give a second entertainment, with new programme, on Friday evening of this week. This (Thursday) evening she gives a second subscription concert at Newburyport.

It is sufficient for us to say, for the benefit of those who were not there, Wednesday evening, that rarely if ever was there such an entrancing succession of sweet sounds heard, anywhere, from mortals, at one concert—such delicious and bird-like warblings, such majestic and mellow bass, with neat and pleasing fingering of a superb piano; such—but go, go, Friday night, if you have got half a dollar or can borrow one.

The Harmoneons have therefore very politely consented to postpone their Mount Vernon Benefit Concert, announced for Friday evening, to next week, to accommodate Madame Biscaccianti—the particular evening of their performance to be announced hereafter.

CAUSES OF DEFEAT.—The Dover Gazette, speaking of the late election, gives us the following information, which will interest and amuse many readers, especially those who may reside in Portsmouth:

We are not disappointed in the general result in this State. We did have some hopes of carrying this Congressional District. But rum and money have defeated us.

ELOPEMENT AND ARREST.—On the 18th inst., Vittsley, of East Warren, N. H., eloped with the wife of Mr. Brown, of that place, Mr. V. being a married man, while Mrs. Brown left two small children behind. They started from East Warren about 7 o'clock in the evening, and traveled on foot some twenty miles to East Haverhill, where the next day they were overtaken by the officers, who conveyed them to East Warren. Their trial takes place next week. Both parties held a respectable position until the commission of this act.—*Traveller.*

3 DAYS LATER FROM EUROPE

PORTLAND, March 23.—Steamship Nova Scotian, from Liverpool 9th inst., arrived here this morning.

The American ship David Stuart, which recently sailed from Cadiz for New York, with 60 Neapolitan exiles, including Poerio, on board, arrived at Queenstown, Ireland, on the 6th, having compelled Capt. Prentiss, as soon as the Neapolitan war steamer left them, 200 miles from land, to steer directly for Cork. As soon as the exiles landed at Queenstown, the enthusiasm of some of them rose to such a pitch that they actually kissed the soil upon which they first planted foot as freemen.

Breadstuffs were declining; cotton advanced 1-16 and 1-8d on different qualities. The English and French funds were rising in consequence of pacific appearances.

The young Prince was christened in Berlin on the 5th. He was named Frederick William Victor Albert. Political disquietude prevented the attendance of the English Royal Family.

It is said the Neapolitan government had offered to furnish the Pope with four battalions of Swiss troops.

NEW YORK, March 23.—Ship Centurion arrived this morning from Glasgow; has on board part of crew of barque Dromahair, from Quebec for Sligo, abandoned at sea. Previous to being rescued, five of the crew died of starvation. When the Dromahair was fallen in with, she had been 21 days a wreck. The crew had subsisted on half a biscuit a day and what rain water they could catch. Five died from starvation; the remainder, seven in number, were taken on board the Centurion, five of whom were subsequently transferred to ship Magellan, which was boarded Feb. 24.

☞ The New Orleans papers of Friday report eighty vessels at the Bar, inward and outward bound.

NEW MEXICO.—A Santa Fe correspondent of the New York Herald, in forwarding the recent slave code of New Mexico, remarks as follows:—

"Thus, our Legislature denies to Congress the right to legislate on slavery in our Territory. The amount of property in slaves owned at present by citizens does not exceed one hundred dollars, and this consists chiefly in domestic servants.—Whether slavery be practicable in New Mexico or not, time will have to develop. The population of the Territory is increasing rapidly, especially by the emigration of large numbers of families, who select this country for their permanent home.—I doubt not but what the census of 1860 will show the number of inhabitants in New Mexico to exceed 100,000 souls.—With a little more protection from the federal government, we would soon seek admission into the Union as a State, with a policy favorable to Southern rights."

WASHINGTON, March 22.—It was reported last Monday that the Grand Jury who made a presentment a week ago against Mr. Sickles for murder, would return a true bill, but so far nothing has been done on the subject.

Gen. Henningsen will leave Washington to morrow for Savannah, to collect emigrants for Arizona. The emigrants of the Arizona Association will rendezvous at Powder Horn, Texas, in July, and at El Paso in the begining of September.—Three hundred men are engaged to come down the Mississippi from the West to join the expedition, and men are also assembling in New York, Ohio, Kentucky and Alabama.

WOULDN'T RIDE.—As the polite omnibus agent of the Lexington and Louisville Railroad was going through the ladies' car, checking the baggage, he asked a very pretty young lady if she had any baggage she wished taken to a hotel. She replied, "No sir." The agent then asked her if she would take a bus. She instantly gave him a very sweet smile, and replied, "No, sir, I am not in a bussing humor this evening." The agent dropped his memorandum book, and returning to the baggage car, said he felt unwell.—*Lexington Statesman.*

☞ The ship Phenix, Captain Hoxie, from Savannah, made, on her last trip out, Cork harbor in fourteen days and nine hours. This is believed to be the best time ever made from a Southern Atlantic port.

THE GROVER & BAKER

SEWING MACHINE CO.,

NO. 18 SUMMER STREET, BOSTON,

Having greatly increased their facilities for manufacturing their

Celebrated Family Machines,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE.

PRICE $50:

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They HEM, FELL, GATHER, AND STITCH in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of FIFTEEN HUNDRED STITCHES A MINUTE, and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

The Wheeler & Wilson

Medal Family Sewing Machine.

A NEW STYLE MACHINE,

PRICE $50.

This Machine makes the Lock Stitch, which is the only stitch that cannot be raveled, and that presents the same appearance upon each side of the seam. It is made with two threads, one upon each side of the fabric, and interlocked in the centre of it.

The Wheeler & Wilson Mf'g Co.

Invites the attention of Housekeepers, Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Gaiters, Linen Goods, Umbrellas, Parasols and Silk Goods, to the perfect adaptation and unrivalled excellence of these SEWING MACHINES for their uses. Their extensive and increasing sale, and the unanimous commendation that they have received, warrant the Company in warmly recommending them. They have been in use sufficiently long to test them thoroughly, and have given entire satisfaction.

They are simple in construction, efficient and durable in operation, beautiful in model and finish, and suited to the workshop—applicable alike to the use of the family and the manufacturer.

Their speed is from 1200 to 2000 stitches per minute, or equal in efficiency to 12 seamstresses.—Substituting as they do, healthful exercise and rational employment for the soul-and-body destroying drudgery of hand-sewing, they are hailed as WOMAN'S FRIEND.

Among their undoubted advantages are—

1. Elegance of model and finish;
2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs;
3. Ease of management and rapidity and quietness of operation;
4. Hemming and seaming attachments;
5. Beauty of stitch, alike on both sides of the fabric sewed;
6. Strength and firmness of seam that will not rip nor ravel; and made with
7. Economy of Thread;
8. Applicability to a variety of purposes and materials.

Adam's Patent Coal Sifter,

with which any lady can sift ashes without soiling her dress.

The following is one instance of the saving that this Sifter can effect:—

Passing the Worcester Depot in Boston last Spring, a lady observed some men removing ashes, that had accumulated there, to fill in near a stable. She hurried home, and sent back two boys with one of Adam's Sifters; they sifted the whole of those ashes in six hours and a half, and obtained from them, **10 Barrels good Coal,** 2 Barrel Clinkers, and 11 barrels ashes. The coal weighed about 2230 lbs, worth about $6.

The construction of this Sifter is very simple, and it excels any other for usefulness and durability.

Thousands have been sold and give perfect satisfaction. Try one.

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY, & CO.,

Are chartered by the State of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify to everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga.—All orders received being filled in the drawing next to take place after same comes to hand.

Whole Tickets are $10; halves, $5; and Quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from

$20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential. Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

THE GREAT WONDER

Of The Nineteenth Century

PROFESSOR WOOD'S

HAIR RESTORATIVE.

Says the St. Louis (Mo.) Democrat: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press.

BATH, ME., Jan. 20, 1858.

PROFESSOR O. J. WOOD & CO.:

GENTLEMEN:—Having my attention called a few months ago to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of the same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. It used to about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy! as it has been before for twenty five years. I am now sixty years old; my good wife at the age of fifty two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am aware that the above will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to prove the benefits of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 29, 1858.

WOOD'S HAIR RESTORATIVE

Professor Wood: Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it the very thing needed. My hair is now thick and glossy, and no wonder can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Methodist Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

Brookfield, Jan 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for $1; the medium holds at least 20 per cent. more in proportion than the small, retails for $2; the large holds a quart, 40 per cent. more in proportion, and retails for $3.

The Liver Invigorator!

PREPARED BY DR. SANFORD,

Compounded Entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public.

These Gums remove all morbid matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, **purifying the blood,** giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious Attacks are cured, and what is better prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents **nightmare.**

Only one dose taken at night, loosens the bowels gently, and **cures constipation.**

One dose taken after each meal will cure **Dyspepsia.**

One dose of two teaspoonfuls will always relieve **Sick Headache.**

Only one dose immediately relieves **Colic.**

One dose often repeated will cure **Cholera Morbus,** and a preventive of **Cholera.**

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for **Jaundice** removes the sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures **Chronic Diarrhea** in its worst form, while **Summer Diarrhea** and **Bowel Complaints** yield almost to the first dose.

A few bottles will cure **Dropsy** by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for **Fever and Ague, Chill Fever,** and all Fevers of a **Bilious type.** It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

KNOWING that there are at this moment tens of thousands of persons in the surrounding towns, wondering in their lives to the insidious inroads of certain dangerous maladies who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of secret disease have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are described upon his books as perfect cures.

Patients can be treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing inspection.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the risk of your health, and what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS.

These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston

A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Repairing, in a NEW and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Crops, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public—he is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet, or Cloth, plain or embroidered, without removing the trimmings, or taking to pieces. Spots taken out without fading or changing color.
Silks, Silk Dresses and Ribbons watered.

Indian Physician.
Dr. R. S. GOODWIN
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhoea, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1859.

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837,)
No. 76 State st, oppo. Kilby st, Boston.
AFTER an extensive practic of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
Boston, February 8 1858.
Mr R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. H. EDDY.

SCIENTIFIC AND MECHANICAL.

IMPROVED MARINE GOVERNOR.

It is known that the ordinary ball-governor was invented by Watt, as a part of the steam-engine. In this instrument two heavy balls attached to the extremities of two rods, articulated at their other end with a vertical shaft, are made to rotate with it, receiving motion from the engine. Centrifugal force is thus produced, which overcomes gravity and forces the balls to separate and go up in a circle to a distance proportioned to the velocity of the machine. The balls and rods are properly connected with a throttle-valve in the steam-pipe, so that this is wide open when the velocity is small, and closed the moment a velocity is reached beyond which it is not desirable to go. This instrument, depending on gravity for its accurate action, cannot be used on board a ship, where the rolling and pitching would throw it in an inclined position, in which the weight of the balls would make it act at the wrong time.

To obviate the fault alluded to, an improved mode consists in adding two more balls to equilibrate the first two, and in substituting the action of a spring for that of gravity. The four balls, of equal size, are attached to two rods working on a pin through the centre and through a small shaft. A movable sleeve on this shaft is connected with the two rods half way between the balls and the centre pin, and an adjustable steel spring pushes or pulls constantly on the movable sleeve, in the proper direction to bring the four balls close to the shaft. The movable sleeve is connected with the valve.

This instrument has been found to be of great service to paddle-wheel steamers, as in a heavy sea it frequently happens that one wheel is entirely out of water when the engine acquires an undue velocity, technically called racing, which, suddenly checked by the re-immersion of the wheel, may result in the breaking of the shaft. But its value is even greater for propellers. In these ships, the screw is often brought out of water by a heavy pitch, and as there is no other wheel in the water to resist the power in a measure, the increase of velocity is enormous. Two causes, then, combine for breaking the shaft—the first is, the sudden blow of the sea against the screw when re-entering the water; the other is, the side-force exerted against the shaft when the plane of rotation of a rapidly rotating body is suddenly changed.

ELECTRO-MAGNETIC MACHINE.

A machine has been invented which claims to successfully realize the desideratum of an electro-magnetic motive engine. The machine may simply be described as consisting of four galleries, each of which contains four groups of four electro-magnets, which are alternately opposite in polarities, and which therfore by induction naturally react upon and augment their collective power. Through these magnets pass rods connected by connecting rods and cranks to the shaft of the engine. Each of these rods has a disc or keeper suspended on shoulders above each group of magnets. The keepers are made with a hole in the centre, so as to slide easily upon the rod, and not impede the motion of the latter when it is receiving an impulse from a magnet applied to any of the other keepers or discs. The same kind of action is produced in each rod, so that as one completes its portion of the stroke, the next one is commencing in the following manner:

At the commencement of the motion, the upper keeper is placed so near the first set of magnets that when a current of electricity is applied to them they draw violently the keeper to them, and thus move the rod longitudinally through the space which separated them. The next keeper is by this brought within the same distance from its magnet, and the current of electricity is at the same instant cut off from the former and applied to these, which thereupon draw the keeper to them, and so drag the rod through an additional space or distance equal to the first. The other magnets and their keepers beneath respectively act in a similar manner in regular succession, and thus complete the stroke of the rod, when the next row takes it up—and so on.

A POSER.—"It's not proper for you to play at school my dear, to-day, for it's Sunday." "I know it, mother," replied the little puss; "but it's Sunday-school I'm playing.

BOSTON, March 7, 1859.

Dear Chronicle:—The current of life here has been a little more agitated quite recently, than usual. Many have looked upon the Catholic priests' interference with the School services as but an indication of that long-threatened time when the Pope's rod is to rule America. Some have prepared to hear of riots and large insurrections of full-grown people as well as children.

The matter has been officially handled very gingerly at last. A masterly inactivity has been recommended and adopted.—Aside from its being somewhat weak and silly, perhaps it was the wisest course the Committee could pursue.

The affair has brought forth a variety of weak and short-sighted arguments from both editors and correspondents relative to the matter of religious faith, tolerance, rights, policy and duty, political and educational.

When several contradictory teachings fall from one speaker in one address, it can hardly be expected that different excited egotists can agree very completely. The matter will probably blow over—half healed up.

Our Post Office issue makes another unhealed sore in the community. The Evening Transcript here has almost daily some small sneer at Post Master Capen or his new place. The man and his building—*its* character and location—*his* motive and proceedings may all be wretched enough, but the continued tone of the Transcript seems needlessly bitter and abusive in a petty way—far fetched and weak. But the Transcript never likes to drop a question till it is worn out or worse. The Mechanical Bakery feasibility question is still being hammered at in its columns.

The Herald has made its mark this week by taking a lively, strong position against a clean religious daily paper. It says the *people demand* all the disgusting details of trials and minute expositions of reeking corruption, crime and depravity. This is a large mistake. But few people want such reading. Some depraved tastes may indeed clamor for it, when it is known to be coming; and it seems that the Herald mistakes this clamor for the voice of the people.

Many papers think they make money by such reports, because they sell large editions and get notoriety. But thousands avoid such issues for the same reason, and condemn them in practice, if not in words, and often in both.

If the Herald were to throw out on an average some half a dozen columns of disgusting matter, and *keep them* from its pages, it would probably double its influence and greatly increase its circulation all over New England.

A religious daily may not pay, but if it don't, it won't be because it declines giving filthy columns of reports and advertisements. Society is in a fully bad enough condition as to corrupt tastes and habits, but it is not *wholly* wretched yet. Its general *impulses* show this conclusively, if its methodic actions do not all betoken it.

The account from the South that General Walker of Fillibuster notoriety is about to become a Catholic Priest, is rather amusing to those who have either seen him personally or have known his habits. His intense activity of disposition and temperament, betokened by every act, movement or word, especially unfits him for the life of a Priest, and his total want of philosophy and coolness would be far out of place in a priestly walk and habit. Walker has hardly done being a nominal General yet.

National politics are in a finely disturbed and broken-up state, and many people feel "sort of lost." There seems to be no coming man, no "rising sun" in either party since Douglas faded.

The money corruption in political life is being unfolded somewhat, and a good many eyes will be opened soon. The rebuke will come hard when it does come, and it is high time.

Business is promising to improve. There is a more healthy state of market compared to the demand for nearly all productions, than for a number of seasons. In ladies' dress goods enormous sales are being made by the jobbing trade, and if the retailers were not too numerous they would be overdriven.

Considerable building is now going on, both for dwellings and stores. Fine new structures are to go up on Washington St., opposite Franklin, and also on the old Melodeon estate, about midway between West St. and Boylston. At the South End many dwellings suited to the wants of people with moderate incomes will be commenced presently—some have been going up thro' the winter.

The prospect of new freight lines by Steamer to the South, will help give an extra feeling of advancement, and will help wake up business men to the importance of such movements.

The fact that we are getting deeply into debt to England for carrying our mail matter across the Atlantic, and that we have no national money to pay her with, is a little galling to some, and may bring another American line of Steamers afloat for Europe. Boston men could do it, and *profitably*, if they dared.

The freshets all through the country promise to destroy over a hundred millions worth of property. Southward on the Mississippi and tributaries it must grow worse for some weeks. New Orleans will probably be in trouble if not wholly under water; while a month or two since, vessels could not get over the bar to get to sea.

Green Peas, Flowers, and warm sunshine are plenty there now, as well as a yellow muddy liquid called Water. Duelling is raging fashionably there too. The warm sunshine would be welcome here.

Yours, BERNARDE.

LIFE IN THE EAST.—The Bombay Standard of Dec. 24, relates what our newspapers generally would now call "a Sickles tragedy." Mr. Bease, a newspaper man of Kurrachee, in the province of Sind, discovered his faithless wife walking with her paramour in the street, repaired to his house, procurred a double-barrelled gun, and deliberately shot both the delinquents. This was making clean work of it; and according to the generally accepted theory among us, despite all law, it was justifiable. "If there is to be any shooting in such case, (says the Boston Courier,) the greatest offender certainly ought not to be overlooked, although that offender be a woman. If the object be to destroy the seducer, there is little danger of shooting amiss if the fatal weapon be aimed at the woman. A virtuous wife was never enticed from the path of conjugal faithfullness."

OUTBREAK AT THE AUBURN STATE PRISON. The Auburn Knickerbocker learns from a letter from Auburn, that the prisoners employed in the hame shop made an attempt at revolt on Saturday afternoon.—It seems some of the covicts made resistance to the officers and threatened their lives. The Warden, Mr. Kirkpatrick, in self defence, was driven to draw his revolver and fire among the refractory rascals.—Two of them it is feared, are mortally wounded—Loop and Gillbert. W. H. Cæsar, a colored fellow, who was the leader in the revolt, was shot through the thigh. The powder and ball had the effect to restore quiet.

CHELSEA.—About a week ago the Board of Mayor and Aldermen of Chelsea appropriated the sum of $200 to be devoted to the suppression of "tippling houses and drinking shops" in that city. On Monday, all things being in readiness, a general descent was made. The first visit was paid to Mr. Atkinson, landlord of the Gerrish House, who very quietly succumbed and has accordingly shut up his bar.—Subsequently the lesser institutions of the same sort shared a like fate, and to-day Chelsea is athirst. There is probably not a place where liquors can be obtained in that city except for medicinal purposes.—*Courier.*

☞ We learn that the rehearsals of Mr. Bradbury's Cantata of "Esther," are progressing favorably, by the select choir at Exeter, under direction of Mr. David P. Towle, and the public performance will probably take place about the middle of April.

The New Hampshire Statesman Legislative Handbook, containing tables of the majorities for Governor and State Officers elect, list of Representaeives, politically designated, and the Council and Senate divisions of the Senate, will be published next week. Copies forward to any address on receipt of 7 cents—*N. H. Statesman.*

The Secretary of the Navy is making an effort to have the new steam sloop-of-war ready for service at the earliest practicable period. The Engineer-in-Chief of the Navy left to-day to inspect the machinery for the two now in course of construction at Norfolk.

☞ Rev. J. W. Kelley, of the South Carolina Conference, states in a published letter, that in one church in that State the colored members met one-third of the expenses of the Parish, giving from one thousand to five hundred dollars annually.

☞ A Post Office has been established at Coraville, Pike's Peak region, and Matthias Snyder, formerly of Virginia, is appointed the Postmaster.

NORFOLK, MARCH 23.—One of the new steam sloops of war, 6 guns, was launched to-day in splendid style.

Mrs. Partington thinks the pillows of liberty are stuffed with the feathers of the American eagle.

The Grand Result.
